

**Press release**

**TWO-YEAR CONTRACT WITH A TOTAL VALUE OF ABOUT € 1  
MILLION FOR CYBER SECURITY SOLUTIONS FOR A PRIMARY ITALIAN HIGH-TECH COMPANY  
OPERATING ON THE DOMESTIC AND FOREIGN MARKETS**

Rome, 13 May 2024 - **CY4GATE (CY4.MI)**, national and European player in cyber security and cyber intelligence, has signed a contract with a total value of approximately €1 million for cyber security solutions.

The contract, lasting two years, is intended for a primary Italian high-tech company operating both in Italy and abroad. The provision involves both the Cyber Threat Intelligence platform and activities and solutions in the area of cyber resilience enhancement. Specifically, the Cyber Threat Hunting solution is able to gather, analyse and exploit information on existing or emerging cyber security threats; the information gathered concerns so-called Attack Techniques, Tactics and Procedures that can provide valuable elements for the timely identification, monitoring and blocking of cyber threats.

These solutions offered by Cy4Gate fit into the increasingly widespread need for a solid cyber security strategy that wisely uses predictive defense tools capable of neutralizing a very high percentage of potential malicious attacks before they can interact with systems: the increasingly concrete need is to enhance the cyber resilience of the cyber security ecosystem also through threat intelligence elements capable of identifying, recognizing and blocking threats with a preventive approach.

**Emanuele Galtieri**, CEO and General Manager of Cy4Gate Group said: *“This contract is of great importance for us, as it demonstrates the validity of our offer based on technological innovation. We are excited to be able to offer our customers new frontiers in terms of cyber protection and defense, ranging from proactive and preventive defense solutions to reactive defense technologies, a capability that is increasingly relevant especially at a time when cyber threats are evolving rapidly”.*
