

### Disclaimer

This presentation contains forward-looking statements concerning Asetek's financial condition, results of operations and business. All statements other than statements of historical fact are, or may be deemed to be, forward-looking statements. Forward-looking statements are statements of future expectations that are based on management's current expectations and assumptions and involve known and unknown risks and uncertainties that could cause actual results, performance, or events to differ materially from those expressed or implied in these statements.

Forward-looking statements include, among other things, statements concerning Asetek's potential exposure to market risks and statements expressing management's expectations, beliefs, estimates, forecasts, projections and assumptions. A number of factors that affect Asetek's future operations and could cause Asetek's results to differ materially from those expressed in the forward-looking statements included in this document, include (without limitation):(a) changes in demand for Asetek's products; (b) currency and interest rate fluctuations; (c) customer concentration and industry competition; (d) legislative, fiscal, and regulatory developments, including changes in tax or accounting policies; (e) ability to enforce patents; (f) product development risks; (g) customer credit risks; and (h) supply of components.

All forward-looking statements contained in this document are expressly qualified by the cautionary statements contained or referenced to in this disclaimer. Undue reliance should not be placed on forward-looking statements. Additional factors that may affect future results are contained in the risk management section in Asetek's most recent annual report (available at <a href="https://ir.asetek.com/">https://ir.asetek.com/</a>) and these factors also should be considered. Each forward-looking statement speaks only as of the date of this document. Asetek does not undertake any obligation to publicly update or revise any forward-looking statement as a result of new information or future events other than as required by Danish law. In light of these risks, results could differ materially from those stated, implied or inferred from the forward-looking statements contained in this document.

- Q2 revenue of \$16.9 million compared with \$23.2 million in Q2 2021
- Gross margin of 42%, level with Q2 2021
- Q2 EBITDA adjusted of \$1.3 million, compared with \$3.2 million in Q2 2021
- First-half 2022 revenue of \$30.8 million, and EBITDA adjusted of \$0.4 million
- SimSports revenue of \$1.0 million in the first full quarter of sales
- Organizational rightsizing implemented to reduce operating costs and improve efficiency
- Temporary shift of development resources to drive SimSports product development
- Full year guidance temporarily suspended due to reduced visibility on customer demand as rising inflation and interest rates add to a continued uncertain and challenging business climate

## Gaming & Enthusiast market experiencing prolonged headwinds

- Continued market challenges delaying a normalization of the business climate
- Rising inflation and interest rates add further uncertainty
- Full-year guidance suspended pending a more certain basis for providing expectations

- Lingering effects of the war in Ukraine, COVID-19, supply chain disruptions and US tariffs on Chinese exports
- Reduced consumer confidence and discretionary spending impacting demand for G&E and SimSports products
- Reduced visibility caused by increased volatility in forecasts provided by OEM customers for H2 2022
- Revenue and operating income likely to be below previously communicated expectations<sup>1</sup>
- An operating loss for the full year is expected

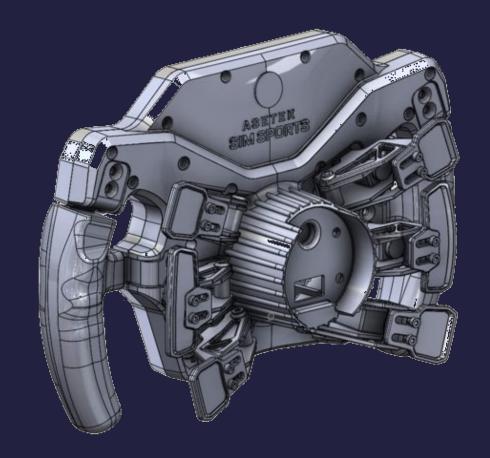

## Optimizing cost base and driving efficiencies

- Organizational rightsizing implemented
  - 52 full-time employees laid off over the past year across all regions and businesses
  - Consolidation of selected functions including closing of London sales office
  - Annual cost reductions are estimated at \$4-5 million with full effect during H2 2022
- Temporarily shifting resources from the Gaming & Enthusiast business to SimSports product development
- Continuous strengthening of supply chain capacity and capabilities
- Adjustment of product pricing in response to inflation and increased logistics costs
- Working with existing contract manufacturers to leverage capacity outside China
  - Expected start of shipments from Malaysia now in Q1 2023

## Long-term potential unchanged

- Current market challenges are industry-wide and temporary
- Gaming interest and long-term drivers remain intact with end-users demanding new equipment and improved experiences within traditional gaming and SimSports
- Maintaining focus on product development to be positioned to meet OEM customer and end-user demand when market normalizes
- Opportunity to focus on SimSports roll-out and leverage a likely stronger ability to influence end-user demand than for liquid cooling products

### **Business overview**

### Gaming & Enthusiast

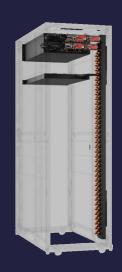

Enthusiasts and do-it-yourself (DIY)

Gaming/Performance PCs

Liquid cooling for Competitive and committed gamers and enthusiasts

#### Data center

Liquid cooling for enterprises

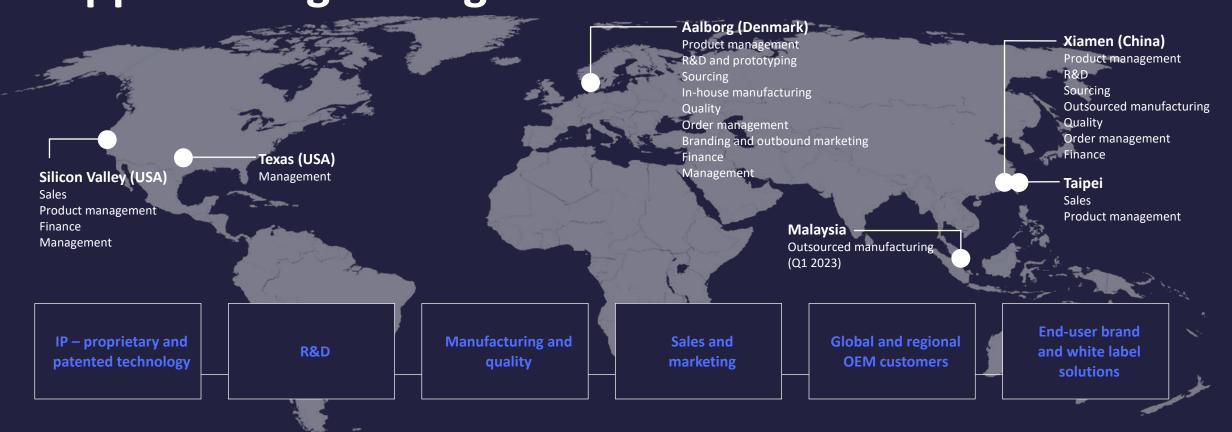

### SimSports

Immersive equipment for gamers, racing and automobile enthusiasts

# Global platform with integrated value chain supports long-term growth

Strategic position: Large and long-term growing markets | Supplying global brands | Market-leading solutions

IP platform: Applications | Technology | Systems | Products | Patents | High-volume manufacturing | World-wide hub infrastructure

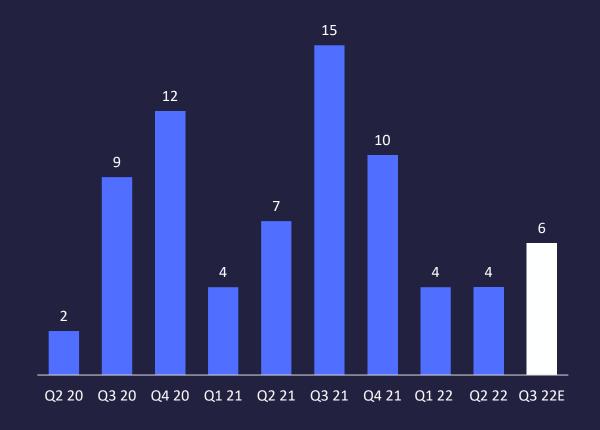

10 million units shipped | ~115 employees | FY'21 revenue of USD 80m | Listed on Oslo Stock Exchange

## Product release activity affected by current market uncertainties

- Four new products started shipping in Q2 2022
  - Two in the DIY market and two in OEM segment
  - Includes GPU coolers from EVGA and ASUS ROG
- Six new products estimated to start shipping in Q3 2022
  - Customers continue to assess timing of new products releases due to the component shortages, logistics cost as well as impact of rising Interest rates and inflation on end-user demand
  - New product releases also impacted by excess channel inventories
- Investing in product development and branding to expand reach with key customers based on the core tenants of performance, quality and reliability

## Wide and diversified base of Gaming & Enthusiast OEMs

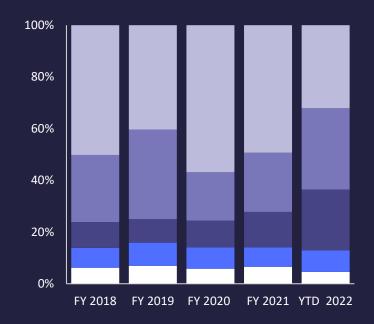

Top 5 Gaming and Enthusiast customers<sup>1</sup>

- Currently shipping to over 20 OEMs
- Top five represented 84% of Gaming and Enthusiast revenue in YTD 2022, vs. 83% for full-year 2021
- Ambition to increase diversification over time

Top 5 customers revenue split 2)

## Gaming & Enthusiast strategic development

Goal

### Strategy

### **Development and outlook**

Further develop leadership in the gaming and enthusiast liquid cooling market

- R&D and product development
- Growing existing customers
- Widening OEM customer base
- Branding and marketing

- Focus on delivery of core liquid cooling solutions
- Ramp-up of development to bring meaningful innovations to market
- Develop and ship products with market leading performance, quality and reliability
- Currently over 20 OEM customers
- Focus on reducing single-customer dependency
- Co-branding agreements in place with several OEMs
- Connecting directly with gamers and enthusiasts via social media and online communities, such as Discord

# Positive market reception for initial SimSports products

- \$1 million in revenue in Q2 2022 following start of shipments of the high-end Invicta sim racing pedals in late March
- High-performance and high-value Forte sim racing started shipping late July
- Strong feedback from sim racing reviewers, influencers and end-users both pre and post purchase
- Building pipeline of new products for launch later in 2022 and in 2023

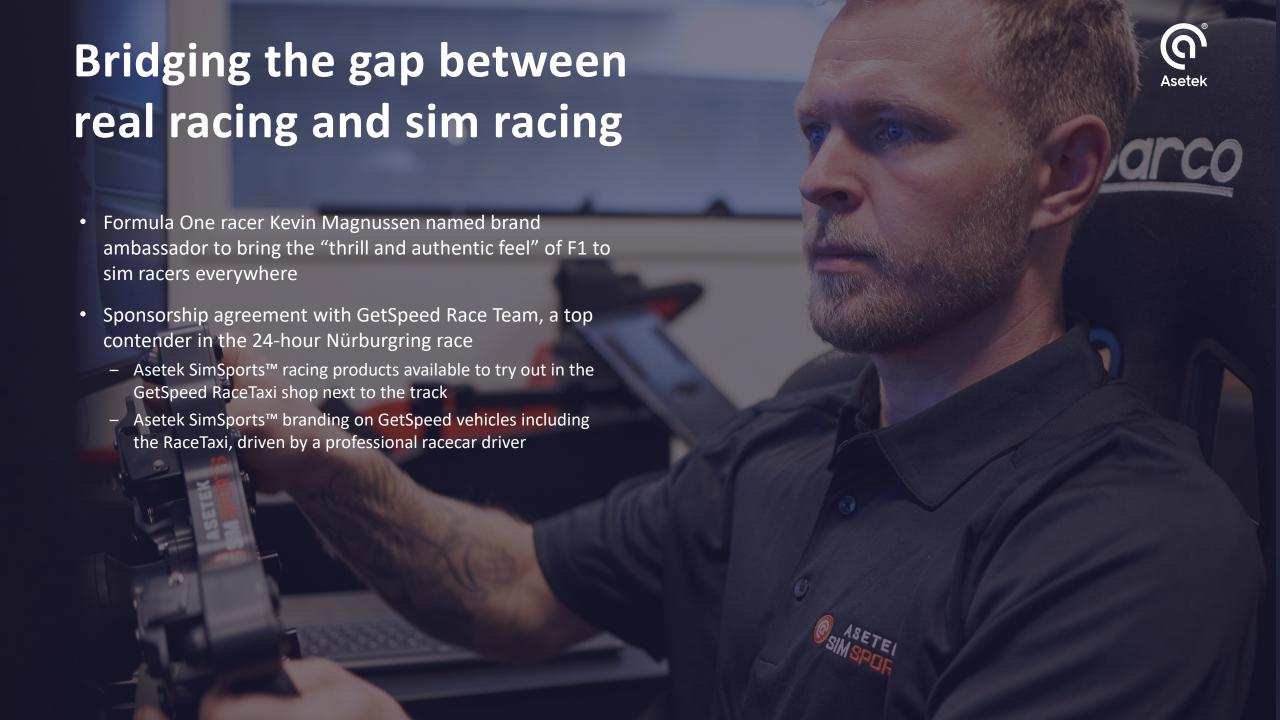

## **Expanding the product program**

- Planned SimSports product launches:
  - The entry-level La Prima pedals open for pre-order in 2022
  - Steering wheels and wheel-bases open for pre-order in 2022
  - Racing rig, seats, shifters, hand brakes and other accessories planned in 2023
- Strengthening direct sales channels to increase availability and competitiveness
- Targeting additional gaming platforms beyond PCs
- Product development founded on extensive mechatronics and real racing competencies in close collaboration with leading sim racers

## SimSports strategic development

Goal

#### **Strategy**

### **Development and Outlook**

Becoming a next-level immersive gaming experiences provider

- Leverage core mechatronics capabilities and global supply chain
- Develop product offering based on acquired IP and technology
- Establish a thriving third growth segment in a fragmented market

- Initial focus on innovation and product development
- Product development on plan based on own software and implementation of acquired IP
- Finalize market and channel strategies, including direct sales, online resellers, motorsports shops etc.
- First products now available for customers with further launches in 2022 and 2023
- Supported by brand platform and reputation for performance, quality, reliability and immersive experiences

# EU progressing legislation supporting use of liquid Asseted cooling for energy efficiency and CO2 reductions

- Continued shipments to existing HPC customers
- EU progressing energy legislation which requires the reuse of waste heat generated in data centers, favorable to adoption of Asetek technology
- The EU seeks to introduce circular infrastructure to neutralize CO2 emissions and preserve and reuse precious resources from rapidly growing data center activity
- Intensified focus on energy efficiency driven by ongoing energy supply challenges
- Asetek's Direct-to-chip liquid cooling enables power savings and CO2 emission reductions by enabling direct reuse of the waste heat at 60-65 centigrade in district heating systems without using power consuming heat-pumps
- Current investment in the Data Center business is limited and tied to influencing EU to introduce of tangible legislation with a 12-month deadline
  - USD ~80 million invested in the business over the years
  - Further investments to be halted if no legislation is passed within the deadline
  - Short-turnaround to restart business activities should legislation emerge at later stage

## Update data center strategic development

Goal

#### **Strategy**

### **Development and Outlook**

Maintain
Data center
position and
create a
sustainable
and profitable
business
over time

- Influence the influencers and support adoption of latest EU proposals into legislation for climate gains from reusing waste heat on the way towards carbon neutrality
- Leverage existing technology and investments to gain position in the general Data center market

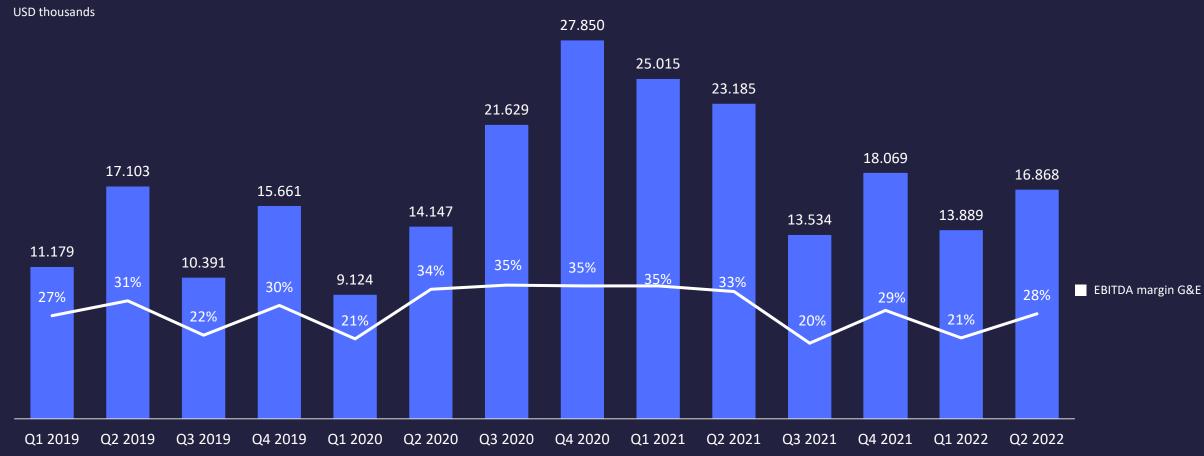

- Global sustainability agenda strengthens rationale for Asetek's data center solution over times
- Positive impact from direct engagement with the EU with current "Green Deal" proposals favoring liquid cooling
- Market adoption of liquid cooling will remain slow until adoption of the proposed Green Deal legislation has been decided
- Prepared and positioned for a potential shift in demand driven by adoption of the proposed legislation
- Sharpening Data center business segment and stop investments in HPC niche to improve profitability
- General Data center business segment to be main priority going forward

# Revenue and EBIDTA margin reflect market volatility

Group revenue and G&E EBITDA margin

### **Income statement**

| Income per share (in USD):   |              |    |           |    |          |    |           |              |
| Basic  | \$<br>0.03   | \$ | 0.05      | \$ | (0.05)   | \$ | 0.17      | \$<br>0.05   |
| Diluted  | \$<br>0.03   | \$ | 0.05      | \$ | (0.05)   | \$ |           | \$<br>0.05   |

- Q2 and H1 revenue reflect reduced shipments of Gaming & Enthusiast products compared to same period last year
  - Sales of 253,000 sealed loops in Q2 (-42%) and 485,000 in 1H (-43%)
  - Unit ASP increased for both periods
- Shipments of G&E products impacted by component shortages, supply chain challenges, inventory destocking and softer end-user demand
  - Partly offset by revenue from initial SimSports products
- Operating expenses reduced compared to 2021
  - Staff reductions
  - DKK/USD FX rate beneficial to operating expenses to date in 2022

## Margin development

### Quarterly Group gross margin development

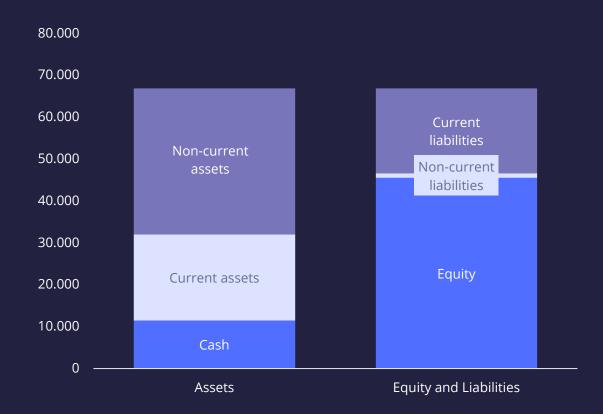

- Q2 2022 gross margin of 42.3% vs. 42.4% in Q2 2021
- H1 2022 margin of 40.5% (42.7%) reflects higher component costs, unfavorable exchange rates, higher shipping costs and a change in product mix

### Balance sheet

#### Balance sheet

USD thousands at June 30, 2022

- Recent cash position change primarily reflects reduction to accounts payables in Q1
- Q2 2022 debt draw-down to finance new HQ
- Solid and attractive partner for OEM customers
- Flexibility to develop and defend IP
- Platform for expanding gaming product portfolio
- Ambition to distribute cash surplus over time subject to change of current tax situation

## Development of new HQ progressing to plan

- On scheduled for completion in mid-2024
- Limited cost inflation due to locking in deliveries early
- Construction financing in place final financing to be executed post completion
- Potential to take in additional tenants following downsizing of own organization

## Financial strategy

Goal

Strategy

**Development and outlook** 

Continued profitable growth and solid financial platform

Gaming and Enthusiast leadership

Capture growth potential in the general Data center market

Establish SimSports as a thriving growth segment

Cost base optimization

Cash flow improvement

• Evolve business model to drive competitiveness and profitability

• Product innovation and branding to strengthen market position

• Revenue growth and diversification of revenue streams

Margin protection and optimization

• OEM and end-user adoption

• Develop and go-to-market with new market leading product portfolio

Rightsized organization

Targeted IP and R&D investments

Manufacturing

• Sales and marketing efficiency

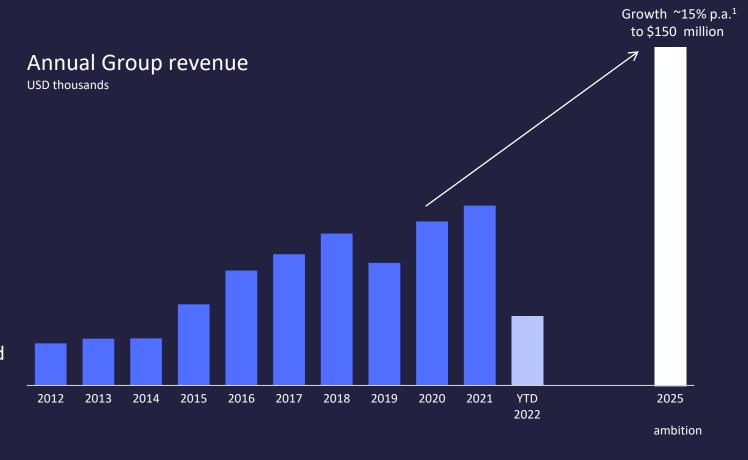

Cash conversion

• Continued balance sheet optimization

## Summary and outlook

- Challenging market with limited visibility for second half of 2022 and beyond
- Optimizing cost base and driving efficiencies to emerge as a stronger company when market conditions normalize
- Focus on expanding SimSports offering with more products in 2022 and 2023
- Long-term growth target of an average of approximately 15% per annum maintained
  - Like in the past some years growth may exceed the average, and in other years it may be lower

## Appendix

Founder and CEO André S. Eriksen

- · Long-term entrepreneur and founder of Asetek
- Previously employed at Danfoss in their management trainee program
- Holds an engineering degree from Aalborg University
- Several MBA level executive management programs from Right, Stanford, MIT and Wharton

CFO
Peter Dam Madsen

- Previous positions include International Controller (DK) and Chief Financial Officer (US) at Martin Professional, Inc.
- Also served as CFO of Dantax Radioindustri A/S listed on the Copenhagen Stock Exchange
- MBA from Fort Lauderdale Metropolitan University

COO John Hamill

- 30+ years of high tech industry sales, sales management and marketing experience
- Previously held position as VP of Global Sales at nVidia and AMD
- Has managed global sales teams
- BSc in Electronics and Electrical Engineering from the University of Glasgow in Scotland

VP Global Operations Henrik Gertz

- 20+ years in operations management roles, where he managed fulfilment, logistics, manufacturing planning, procurement, and supply chain functions
- He became a machine fitter at ABB and then studied and earned his Production Technologist degree, and a Diploma in Management

VP Global Sales
Jamie Jamieson

- 10 years+ global liquid cooling sales and management experience
- Prior to becoming VP, he was Senior Director of Sales at Asetek, and has held business development positions at CIARA and CoolIT Systems.
- Studied Sociology and Eastern Religious Studies at the University of Calgary in Canada

VP Global R&D
Thomas Ditley

- 15+ years of experience with Vestas and Grundfos he has an intimate background in sophisticated pumping and cooling systems designed for global markets
- M.Sc.EE degree from Aalborg University as well as an EMBA in Business Psychology from Business Institute in Aalborg

Director Branding and Outbound Marketing Solveig Malvik

- Extensive international experience within branding, marketing, communication and business development
- Holds an M.A. in Modern Middle Eastern Studies, Public Policy and Governance from A.U. of Beirut and a Masters in Political Science and Public Administration from the University of Bergen

Director, Global Product Management

Brian Park

- 15+ years experience in defining and executing winning product strategies across industries
- Various senior product management and product marketing roles within the Solar, Building Construction and Semiconductor industries
- Holds a B.S. in Chemical Engineering and a B.S. in Material Science both from the University of California, Berkeley as well as an MBA from the University of California, Davis

Chairman Jukka Pertola

- 20+ years of management experience in ICT, energy, industry, infrastructure and healthcare sectors
- 10+ years of international experience in board positions at private and public companies and organizations
- Solid technological background in telecommunications, IT, digitalization and electrical engineering
- Experience in R&D funding and technology transfer projects

Vice Chairman Erik Damsgaard

- Experienced Managing Director from the electrical and electronic manufacturing industry
- 20 years as leader at OJ Industries in the HVAC and Floor heating industry. He is also Chairman of Danish service and distributor company Masentia A/S and Masentia Holding AB
- Holds M.Sc. in Electronics and a diploma in Business Economics, both from Aarhus University. Has graduated an Executive Management Program at INSEAD

Director
Jørgen Smidt

- 25+ years of international operational and business management experience from the mobile telecoms industry, including Nokia and Motorola
- Experience includes investment and international marketing, market positioning and communication strategies
- Currently a partner at Sunstone Technology Ventures Fund I
- Holds an engineering degree in computer science from the Engineering College of Copenhagen

Director Maria Hjorth

- 20+ years of consulting and financial sector experience covering business development, M&A, investor relations and operational optimization
- · Professional board member
- MSc and BSc in Economics from University of Copenhagen and a MSc in Business Psychology from University of Westminster in London

Director Maja Sand-Grimnitz

- Experienced marketing leadership and business growth professional
- Expertise in growing brands and businesses through strategy, process development and implementation
- Experience from Sport & Entertainment, tech, FMCG and finance
- Currently a Director, Brand Management & Global Gaming Marketing at EPOS Group
