19	Investor complaints				
	pending at the beginning of the quarter	NIL			
	Received during the quarter	NIL			
	Disposed off during the quarter	NIL			
	Remaining unsolved at the end of the quarter	NIL			

Notes:				
1	The above results have been reviewed and approved by the Committee of the Board of Directors at its meeting held on 14.08.2013			
2	The Accumulated losses of the company had exceeded its net worth again during 2011-12. BIFR has already approved a Sanctioned Scheme for the Company during 2010-11 and the Company is under re-habilitation period and is being monitored by BIFR through the Monitoring Agency. Lack of orders and dull phase of OFC market during 2010-11 and 2011-12 were the reasons for such performance. During 2012-13, the company has successfully executed the BSNL order of 3,206 kms worth Rs. 15.97 crores. No other big tenders during that year also. The company has received add-on order for 1,602 kms from BSNL worth Rs. 7.98 crores during first week of May 2013 and is under execution. The NOFN Project tender floated for 4,04,995 kms. and the financial bid has been opened and under evaluation. The Company is in L3 position in one package and is expecting overflow quantity to the level of its production capacity of six months. The company has participated in one RailTel tender for supply of 3,258 kms and is L1 in Southern Region covering 795 kms. Orders to the extent of around 500 kms. is expected. The Company is hoping to get continuous orders from the current year 2013-14 onwards regularly since OFC market is picking up. The Company is also exploring the possibility of successful diversification project. Considering the scope during immediate future, the accounts have been prepared on Going Concern basis.			
3	No provision is made for certain long pending debtors in view of the arbitration proceeding completed against the Purchaser for which Award is received in favour of the Company but has since been challenged by the Purchaser in the Court. In one case Court remitted back to the Arbitrator and the proceedings are in progress.			
4	Provision for employee benefits has been made on estimated basis			
5	Deferred tax: During the period the Company has not accounted / taken the credit / charge for the deferred tax assets / liabilities. The excess of timing difference over the deferred tax liability has been ignored for want of reasonable certainty of the company making taxable profits in the near future. Similarly, for the same reason, certain other provisions made in the earlier years have been ignored for creation of deferred tax asset. The accumulated losses and carried forward depreciation under the tax laws have been ignored for creating the deferred tax asset considering that there is no reasonable certainty of the company making taxable profits in the future in terms of para 26 of AS-22. The treatment noted above is in accordance with the Accounting Standard 22 "Taxes on Income" notified under sub-section 3(C) of Section 211 of the Companies Act, 1956			
6	Previous period's amounts are regrouped and rearranged to conform to the current period's classification.			
7	Same Accounting Policies that of corresponding period of last year has been followed and as such, there is no change in accounting policies.			
8	Segment Reporting: The company's business activity falls within a single primary business segment viz., telephone cables. The Company during 2012-13 executed CSR Project of TCIL by assembling and supply of 150 numbers of Tablet PCs. This is disclosed as a separate segment for that year. However, there were no such activities during the quarter ended June of both the years.
