MANAGEMENT DISCUSSION ANALYSIS REPORT

(Pursuant to Regulation 34 read with Schedule V of SEBI (Listing Obligations and Disclosures Requirements) Regulations, 2015)

Industry Structure and Development:

This carpet industry in India took birth in the 16th century during the Mughal Dynasty. They introduced Persian and Turkish weavers in the country for the production of carpets for their palaces. On the downfall of this dynasty, the practice of carpet weaving shook badly. However, it picked up the momentum in the form of independent units during post-British period. Now the industry is flourishing in the states of Rajasthan, Kashmir, Punjab, Uttar Pradesh, Telangana, Andhra Pradesh, and Himachal Pradesh.

Today, India is the world's largest producer and exporter of handmade carpets in terms of value and volume. Around 75–85 per cent of carpets manufactured in India are exported. Indian carpets are known worldwide for their excellent design, fascinating colours and quality.

India contributes approximately 40 per cent of the worldwide export of handmade carpets. Exports of handmade carpets from India stood at US\$ 1,427.00 million in 2017-18. Indian handmade carpets are exported to many countries all over the world, US being the largest importer (US\$ 731.84 million) followed by Germany (US\$ 140.58 million), UK (US\$ 78.52 million), Australia (US\$ 56.25 million) and UAE (US\$ 51.15 million). During April-October 2018, exports of handmade carpets from India stood at Rs 5,892.06 crore (US\$ 853.55 million).

The Indian carpet industry is very vibrant and has considerable potential for growth. However, lesser innovation techniques, outdated technology, labor law issues and lack of infrastructural facilities are major barriers that make this industry less competent as compared to other carpet supplying countries.

Opportunities and Threats:

● Opportunities

Increased consumer expenditure on interiors of houses, hotels and offices and luxury vehicles as well as cars is expected to contribute significantly to the growth in the demand for carpets. Development of innovative designed light weight carpets and floorings is expected to open opportunities for the growth of the market in the near future.

Threats

Alternative flooring materials such as Ceramics, marble, granite and other innovative and decorative flooring materials are replacing carpets as they are easy on maintenance and is a major threat for the carpet industry. Further due to increase in raw material prices the Indian manufacturers are not able to compete with other carpet producing countries and this has had an impact on the exports of the carpets from India.

MEASUREMENT AND DISCLOSURES AS PER ACCOUNTING STANDARDS

1. Significant Accounting Policies: -

I. Basis of Preparation of Financial Statements:

The Financial statements have been prepared under the historical cost convention on accrual basis. The mandatory applicable accounting standards in India and the provisions of the companies Act, 2013 have been followed in preparation of these financial statements.

All assets and liabilities have been classified as current or non-current as per the operating cycle criteria set out in the Revised Schedule III to the Companies Act, 2013.

II. Use of Estimates:

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known / materialized.

III. Revenue Recognition:

Revenue from sale of goods is recognized when significant risks and rewards in respect of ownership of products are transferred to customers. Revenue from domestic sales of products is recognized on dispatch of products. Revenue from products is stated inclusive of duties, taxes but exclusive of returns, and applicable trade discounts and allowances.

Interest accrues on the time basis, determined by the amount outstanding and the rate applicable.

IV. Fixed Assets:

Fixed assets are recognized at cost of acquisition and installation less accumulated depreciation. The cost comprises purchase price, freight, duties, levies, borrowing cost and directly attributable cost of bringing the assets to their working condition for intended use. Subsequent expenditure related to an item of fixed assets is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance or extend its estimated useful life.

V. Depreciation:

Depreciation on fixed assets is provided on straight-line method using the lives of assets given in Schedule II of the Companies Act, 2013.

VI Valuation of Inventories:

Inventories are valued at the lower of cost (or) net realizable value.

Cost is arrived at by using weighted average method and includes all costs of purchases, cost of conversion and other costs incurred in bringing the inventories to their present location and condition.

VII Tax Expense:

Deferred tax resulting from "Timing Difference" between book profit and taxable profit is accounted for using the tax rates and laws that are enacted or substantively enacted as on the

Balance Sheet date. Deferred tax asset is recognized and carried forward only to the extent that there is a reasonable certainty that the asset will be realized in future.

Provision is made for deferred tax as per the applicable provisions of Income Tax Act, 1961.
