Thul, a storage basket, collected from the Community of Mizo from Mizoram in 2004 displayed

STAFF REPORTER ■ BHOPAL

Under the latest and popular online series of Indira Gandhi Rashtriya Manav Sangrahalaya entitled 'Exhibit of the Week', this week's exhibit is the "Thul, A storage basket" collected from the Community of Mizo from Mizoram in 2004.

Its square-shaped bottom measures around 12 inch and the upper portion has a width around 20 inches. It will be displayed to the audience as the Second Exhibit of the month of October 2022 through the official website, Facebook, Instagram and twitter page of the IGRMS.

In this regard Praveen Kumar Mishra, Director, IGRMS described Thul as a big basket mainly used for keeping valuable things. It is made of bamboo and cane.

Women possessed Thul as a part of their trousseau, which is precious and adorable.

A grown-up girl maintains a Thul of her own where she put her woven clothes for her marriage.

The basket is a double-walled tightly woven structure that stands on four short legs.

Its square-shaped bottom is about 12 inches, and the body gradually widens to the extent of the mouth forming a circle with a diameter of about 20 inches.

This basket is equipped with a dome-shaped lid and the outer layer of which is finely woven by thin bamboo splits.

The inner surface is lined with broad and adequately dried leaves called 'Hanhathial'.

As a result of its intricately woven structure formed by different layers, the basket is considered to be waterproof. It also contains a small loop towards the open mouth and the base that allows it to hold the carrying strap conveniently.

Efforts to improve condition of girl child in MP

STAFF REPORTER ■ BHOPAL

Efforts are on to improve the condition of girls in the state. The central and state governments are making efforts to ensure that the girl child moves forward with confidence without any fear. Many schemes are being run keeping in mind their betterment and bright future. Through this, there is an improvement in the sex ratio by curbing female feticide.

The economic condition is also being improved by giving benefits related to education, health services and scholarship. Now sons and daughters are equal for families. They are also trying to provide golden opportunities to the girl child.

The state government is running schemes like Ladli Laxmi Yojana, Beti Bachao Abhiyan, Lado Abhiyan, Beti Bachao-Beti Padhao, Shaurya Dal for the all-round development of daughters. With the passage of time, now the positive results of these schemes are being seen. There is a change in the attitude of the society towards daughters. The sex ratio is getting better. The condition of girl child education is also improving now than before. The decrease in the cases of child marriage is a setback on many problems.

There is a positive change in the sex ratio figures in the state. According to NFHS-4, the sex ratio in the state was 927, which has increased to 956 in NFHS-5. The situation is changing especially in areas with low sex ratio like Gwalior, Chambal and Bundelkhand. In these areas, once a festival was celebrated on the birth of a son, now drums resonate on the birth of daughters.

According to NFHS-4, the percentage of child marriage in the state was 32.3, which has come down to 23.1 in NFHS-5. This situation shows improvement as girls getting married at an early age remain illiterate. There is a bad effect on their body and health, so differently.

More than 43 lakh girls have been registered in the state under the Ladli Laxmi Yojana started in 2007. Since inception, scholarships worth Rs 231.07 crore have been distributed to 9.05 lakh. Ladli e-Samvad app has also taken shape on which daughters can put suggestions, problems or queries.
