2&3 wheelers segment grew by 20% in September 2016 YoY. The segment also grew in high double digit with very heavy festive demand and this will continue till year end.

Exports volumes picked up by 7% in September 2016. Exports shipments were up 7% in September 2016 and we expect the shipments to grow at 10% plus for the FY 16-17. The new business starts and ramping of the existing SKUs will ensure healthy growth going into second half.

LCV & MHCV segment volumes dropped by 49% YoY in September 2016. The CV segment saw a volume drop in this month due to production drop for inventory adjustment before BS-IV launch spreading all across the country.
