Exports Segment Grew by 77%. The segment is reporting very good growth with the help of record truck segment exports to US. We expect the export pipe line to extremely robust backed by the international tariff war and very good demand from US & EU truck segment customers.

2 & 3 Wheelers Segment grew by 17%. The sales rose in the month due to balancing impact of sentiment on falling fuel prices. The segment had decent festive sales and resulted in continuity of growth.

Passenger car segment volumes fell by 23% in November 2018 YoY. The PV volumes fell by 23% as festive sales were less encouraging resulting in production cuts at major auto makers to adjust car inventory. We expect the adjustment to be over in December to again turnaround in Q4 FY 18-19.

Tractor volumes rose by 2% in November 2018 YoY. The tractor segment saw 2% rise with seasonality of crop harvesting playing its role. Q4 is expected to again start the high growth environment and reach next record levels for the company.

Kindly take the same on your record.

Thanking You.

Yours Faithfully,

For Steel Strips Wheels Limited
