Board's Message

Dear Shareholders,

Greetings!

Welcome to Jetking's 2024-25 Annual Report. As we reflect on this transformative year, we are excited to share the remarkable journey that has positioned Jetking at the forefront of India's Blockchain revolution.

This corporate evolution is fueled by an unending entrepreneurial spirit that has driven our business for nearly eight decades.

A Legacy Built on Revolutionary Thinking

Jetking's journey began when my grandfather introduced radio kits in 1970 as a means of making technology accessible to all ranks across India. Today, as we lead India's first corporate Bitcoin adoption, we're once again democratizing access to a new form of asset and digital financial sovereignty across Bharat.

The Bitcoin Epiphany

Post Covid, the inflation-adjusted economy exposed the fragility of brick-and-mortar business models, while traditional fiat-based assets rapidly lost their perceived value.

Stepping into the world of Blockchain felt like the right thing, just at the right moment in history. This was a strategic, well thoughtout and carefully planned venture.

"We're not just India's first Bitcoin treasury company, we're the prototype for what Indian corporate innovation looks like in the 21st century. We see a future where Bitcoin plays a central role in Bharat's growth, and we intend to be part of building it."

Management
Jetking Infotrain Limited

Thus began our journey of Virtual Digital Assets ("VDA") acquisition. Our first acquisition on March 8, 2022, marked the beginning of a journey that has delivered:

Additions to Bitcoin Treasury Rs. 641.03 Lakhs in FY 2024-25 (Since March 2022 till March 2024 Rs. 145.74 Lakhs) 9.59 BTC gain and BTC gain 710.92 Lakhs in FY 2024-25. Over 177% BTC yield generated in FY 2024-25 India's position as the only listed Bitcoin treasury company.

Fueling Blockchain With Our Educational Prowess.

Our strong education business background continues to thrive as we improve student enrollment, partner with recruiters, and fulfill job vacancies by empowering our students.

This sustainable model allows us to allocate to VDA and offers us a unique advantage over companies that rely purely on capital raises.

Building Tomorrow's Blockchain Infrastructure

We are slowly but consistently building Bitcoin awareness in Bharat. Through our plans for future partnerships, Corporations, and our planned Bitcoin learning ecosystem, we're creating educational pathways that will help millions of Indians understand why a scarce asset like Bitcoin matters.

Our roadmap includes:

- Bitcoin-focused courses and educational content
- Corporate Bitcoin symposiums and meetups
- Creating educational pathways that will help millions of Indians understand why Bitcoin matters

A Message of Gratitude and Conviction

We thank all our shareholders for believing in our vision when Bitcoin was still in the exploratory phase. Your faith has been rewarded with 68% returns in FY 2024-25. Our students and partners remain the backbone of our sustainable model. Every successful placement strengthens our position to push Bharat Beyond.

We would like to express my gratitude to our employees, whose dedication strengthens our resolve to emerge as Pioneers in yet another technological revolution.

About Jetking

Jetking Infotrain Limited (Jetking) is India's trusted leader in IT and an IMS training company. With a legacy that spans over seven decades, the company, once pioneering in electronics education, has now also ventured into a Bitcoin Treasury company. The company is future focused as it diversifies into new avenues but continues to empower learners in India and globally.

Today, Jetking offers hybrid learning solutions across 40+ centers in India and Vietnam, delivering industry relevant courses in cloud computing, cybersecurity, ethical hacking, and more. It's SmartLab Plus methodology blends technical training with soft skills, ensuring students are future ready. With affiliations to NSDC, Lincoln University, and Yenepoya University, Jetking continues to set benchmarks in vocational & traditional education.

Paving A New Path

In a bold and visionary move, Jetking also became India's first publicly listed company to become a Bitcoin treasury company. Starting with its initial acquisition in March 2022, Jetking formalized Bitcoin as its treasury reserve in November 2024. Guided by the philosophy "Bitcoin For Bharat," Jetking leverages its education business to fuel its bitcoin reserves. The aim is to acquire Bitcoin, positioning itself at the forefront of financial innovation.

Jetking stands as a unique blend of legacy and disruption, educating the next generation while embracing the future of finance.

Strategic Outlook

Jetking: Skilling Bharat & Building a Bitcoin Backed Future

Education & Skilling

Jetking has earned its reputation over decades as a leader in vocational education, focused on empowering youth in Bharat. The aim is to empower them to become financially independent by upskilling themselves on emerging technology for tech savvy world.

Our training programs are designed to create job-ready professionals by training them on technical and interpersonal skills, along with placement support.

Career Focused Courses

- **BCA in Cloud Computing & Cyber Security**

A 3 year undergraduate degree integrating academic know how with hands on training in cloud platforms and cybersecurity tools. Prepares students for roles in IT infrastructure, ethical hacking, and cloud administration.

- **Jetking Certified Cloud Computing & Cyber Security Engineer**

A professional certification program focused on real world deployment of cloud services and security protocols. Includes modules on AWS, Azure, firewalls, and penetration testing.

- **BCA in Data Science with AI**

Combines foundational computer science education with applied data analytics and machine learning. Students learn Python, R, data visualization, and AI model development.

- **Jetking Certified Cloud Computing Professional with Artificial Intelligence**

A dual-focus program that blends cloud architecture with AI integration. Ideal for tech professionals aiming to build intelligent cloud based solutions.

- **Jetking Certified Cloud Computing & Cyber Security Professional**

A comprehensive course covering cloud deployment, network security, and compliance. Designed for mid level professionals seeking specialization in secure cloud environments.

- **Higher in Data Science & Artificial Intelligence**

An intensive program for graduates and working professionals. Covers big data tools, predictive analytics, neural networks, and AI ethics.

Digital & Hybrid Learning Formats

Jetking's delivery model is designed for accessibility, especially for learners in Bharat's emerging cities.

- **Classroom Training**

Instructor led sessions at Jetking centers offer hands on labs, peer interaction, and structured learning environments. Ideal for students who thrive in physical classroom settings.

- **Online Learning Modules**

Self paced and live virtual classes allow students to learn from anywhere. Includes recorded lectures, quizzes, and remote lab access for practical experience.

- **Hybrid Learning Model**

Combining the best of both worlds, students attend physical labs while accessing theory online. This format is especially effective for working professionals and rural learners.

- **Mobile & Regional Access**

Jetking's platform supports mobile learning and regional language content, ensuring inclusivity and reach across Bharat's diverse learner base.

Bitcoin Treasury Management

Our vision to function as a Bitcoin treasury company is at the core of our Bitcoin business philosophy. We are India's first publicly listed company to foray into the world of Bitcoin, as reflected in our balance sheet.

Our focus:

- Maximizing Bitcoin per share for long-term value creation.
- Increasing BTC Yield and,
- Compounding long term shareholder value.

How it works:

- Use capital markets to raise funds.
- Acquire Bitcoin through regulated channels.
- Store securely using multi-sig, enterprise-grade cold wallets.
- Track and disclose BTC holdings, BTC per share, and BTC yield every quarter.

Investor benefit:

- Exposure to Bitcoin's upside without needing wallets, private keys, or complex compliance.
- Shares trade at a premium to the underlying BTC value, creating equity upside potential.

Equity-Driven Growth Strategy

We leverage the valuation premium of our equity to acquire more Bitcoin without diluting shareholder value. Stakeholders get to invest in Jetking equity with indirect exposure to Bitcoin.

How it works:

- Raise capital
- Deploy proceeds into Bitcoin purchases.
- This anti-dilutive structure increases BTC per share over time.

Investor benefit:

- Benefit from both Bitcoin price appreciation and equity re-rating, i.e, if the Bitcoin price surges, so does BTC Jetking value. Also, since it is a treasury company, the company's share price might exceed the value of the bitcoin it holds.
- Enhanced return on equity through capital efficiency.

Tax & Accounting Advantage

Our Bitcoin holdings are classified as intangible assets under Indian Accounting Standards (Ind AS 38) and are measured using the revaluation model.

What this means for stakeholders:

- The HODL (Hold on for Dear Life) Strategy is based on the conviction of holding on to Bitcoin through volatility to unlock its long-term value. By holding digital assets over the next 15 years, we aim to ride out short-term swings and capture the full potential of a maturing Bitcoin economy.
- Provides transparency and compliance under Indian regulations.
- Creates a clean, audited record of digital asset value on the balance sheet.
- Buying Bitcoin Proxy-company shares gives you exposure to Bitcoin's upside at lower tax rates of 12.5% on long-term gains (if held over 12 months) and 20% on short-term gains, all within the safety of a regulated equity market.

Education Led Cash Flow Engine

Our legacy education business generates operational cash flows that fund further Bitcoin accumulation.

Capabilities:

- Hybrid learning in high-demand tech sectors.
- Upcoming Bitcoin education programs to build India's first Bitcoin Learning Ecosystem.
- Training delivered at scale in multiple languages, with the help of advanced AI tools.

Investor benefit:

- Stable recurring revenue, profitability, and cash flow
- Expands brand reach as both a training leader and a positioning as a Bitcoin pioneer.

Transparent Performance Metrics

We disclose key indicators to maintain stakeholder trust:

- Total Bitcoin holdings
- Fully diluted shares
- Bitcoin per share
- BTC yield (period-to-period growth in BTC per share)

Investor benefit:

- Clear view of performance and Bitcoin accumulation progress.
- Confidence through regulated reporting and enterprise-grade custody

Ongoing Evaluation of Strategic Education Partnerships

As part of our vision to build India's first Bitcoin Learning Ecosystem, we are actively evaluating partnerships with leading Bitcoin education course creators, global trainers, and curriculum developers. These collaborations will allow us to integrate best-in-class Bitcoin fundamentals, custody practices, and blockchain governance modules into our hybrid learning platform.

We aim to accelerate knowledge adoption and demystify Bitcoin for Bharat's youth. This helps create a scalable training ecosystem that supports India's entry into the digital asset era.

Our Process at a Glance

- Raise capital - via capital market instruments & operational cash flows.
- Acquire Bitcoin - on regulated markets and average across strategic entry points.
- Secure Custody - enterprise grade cold wallets, multi-sig controls.
- Disclose Metrics - quarterly BTC per share, BTC yield, holdings.
- Grow Holdings - reinvest revenues & execute capital plan.

Opportunity Landscape

Becoming Future Ready with Capital Strategy

Jetking's Bitcoin treasury operations is built on a foundation of regulatory compliance, capital efficiency, and long-term vision. The company takes a bold, calculated guess on the future of India with the digital financial revolution. Key steps of this strategy include

Preferential Issue of Equity Shares

Successfully executed to fund incremental Bitcoin purchases, backed by BSE and shareholder approvals.

Hybrid Instruments Under Evaluation

Exploring multiple instruments like convertible debentures, preference shares, share warrants, and bond structuring to diversify fundraising channels.

BAAP Framework (BuyAt Any Price)

An acquisition model that:

- Leverages scheduled capital injections tied to BTC price movements
- Average into Bitcoin over time to reduce volatility risk
- Aligns treasury with long-term market trends

Bitcoin Education & Ecosystem Leadership

Jetking is actively shaping India's corporate understanding of Bitcoin through strategic outreach and transparency.

Bitcoin for Corporations

Developing frameworks, workshops, and strategic content to help Indian enterprises explore Bitcoin as a treasury reserve asset.

Corporate Meetups & Thought Leadership

Hosting and participating in industry events to nurture conversations on Bitcoin's role in corporate finance and treasury.

Public NAV & KPI Tracker

Introducing India's first BTC NAV tracker for a listed company, with metrics like:

- BTC per Share
- BTC Yield
- BTC INRGain

Strategic Advantages for Investors

Jetking's dual model includes education cash flows & Bitcoin treasury blends stability and growth potential.

Frictionless Bitcoin Exposure

Direct access to Bitcoin's growth via a BSE-listed equity with no complexities.

Compliant & Transparent Capital Strategy

Phased fundraising aligned with market conditions and complies with SEBI guidelines.

Cash Flow-Driven Treasury Expansion

Steady education revenues support ongoing Bitcoin acquisitions, minimizing dilution and improving capital efficiency.

Proxy Asset for Bitcoin in India

As Bitcoin adoption strengthens globally, Jetking makes it easier and accessible for the Indian Markets to have exposure to Bitcoin through equity.

Bitcoin Basics

A Shareholder's Guide

What Is Bitcoin?

Bitcoin is a digital Asset created in 2009 that allows people to transact over the internet's decentralized mechanism. It's decentralized, meaning no intermediaries control it. It is like digital gold, but limited in supply, secure, and valuable.

The Buzz Around Bitcoin

Bitcoin has a limited supply, making it a scarce and valuable asset. Only 21 million Bitcoins will ever exist. This scarcity makes it valuable. It can be sent anywhere around the world instantly through using these decentralized systems. Some consider Bitcoins to be a hedge against inflation, rising prices, and weakening currencies.

The Future of Bitcoin

Bitcoin is an asset of the future that holds immense value. With growing adoption, more companies, countries and investors trust Bitcoin as a reliable future ready digital asset. Bitcoin is part of a larger shift in how finance works, moving from centralised systems to ones that give more control directly to the user. Companies like ours hold Bitcoin as part of their treasury strategy. This strategy can help empower people across the globe to invest and grow their wealth.

Why Jetking?

Investing in a company like ours that holds Bitcoin gives shareholders indirect exposure to a high growth digital asset. That too, without the hassle of managing digital assets, passwords, and securing them. As Bitcoin gains value, the company's holdings may appreciate, potentially boosting its financial strength and share value. It's a way to diversify investment in future facing assets, while staying within traditional equity markets. You benefit from professional management, strategic risk control, and transparent reporting.

Buzzwords in Bitcoin!

Term	What It Means
Bitcoin	A digital asset that is used for storing and transferring value.
Blockchain	A secure, public digital ledger that records all Bitcoin transactions transparently.
Treasury Allocation	When a company invests part of its cash reserves in Bitcoin as a strategic asset.
Proxy Exposure	Indirect ownership of Bitcoin through investing in a company that holds Bitcoin.
Digital Asset	An asset that exists only in digital form, like Bitcoin
Private Key	A secret password that allows access to Bitcoin. Companies securely manage this for you.
Satoshi	The smallest unit of Bitcoin. 1 Bitcoin = 100 million satoshis.
Liquidity	How easily can Bitcoin be converted into cash or other assets?
Decentralization	Bitcoin operates without a central authority,
Mining	The process of verifying Bitcoin transactions and adding them to the blockchain.

Management Discussion And Analysis Report

a. Industry Structure and Developments

Education Business

India's education sector is in a critical transition, with increasing emphasis on digital skills, vocational training, and global employability. Corporates demand expertise in cloud computing, cybersecurity, data science, and artificial intelligence (AI), with 85% of the jobs of 2030 yet to be invented. Academic institutions face structural challenges including declining enrollment, rising costs, skill gaps, and outdated exam-centric curricula. Jetking bridges this gap through industry-aligned programs, hands-on training, internships, and recruiter partnerships.

Identifying a fundamental shift that Blockchain will be at the center of future digital commerce, Jetking has established research & development into other learning solutions on bitcoin like Bitcoin GPT that enables an AI learning ecosystem in top rural languages of India. This low cost solution will help enable learning about Bitcoin technologies across India.

Blockchain Business

Globally, Bitcoin adoption has accelerated, with corporates recognizing its role as a scarce, decentralized digital asset and a treasury reserve. India is in the early stages of this shift. In 2021 Jetking launched its first programme on masters in blockchain development recognised by NSDC. Thereafter in 2022, the Company took exposure in Virtual Digital Assets cementing its position as a full stack Blockchain business. Subsequently Jetking became the first listed company in India to adopt the Bitcoin Standard, holding 15.02 BTC by March 2025 and generating a 177% BTC yield in FY25. With growing acceptance, Bitcoin is emerging as both a hedge against inflation and a driver of

financial innovation. This evolution positions Jetking uniquely at the intersection of education and financial innovation.

Building on our internal strengths and identifying a strong trend in adoption of Virtual Digital Assets (VDA), we are positioned to launch a VDA consultancy and Blockchain adoption for business in Jetking

We have created a roadmap for building a Bitcoin / Blockchain Centric business to establish a framework for treasury, education, adoption as a Company (BTEAC). Over the next decade the Company is well structured to tap into these opportunities.

b. Opportunities and Threats

Opportunities

Expansion of Blockchain, Metaverse, **Data Science & AI programs**, alongside cloud and cybersecurity.

Growth of hybrid education models with state of the art infrastructure for hands on experiential learning.

Internship-linked revenue recovery and student benefit schemes like **Academic Bank of Credit (ABC)**.

Advisory and educational opportunities as corporates explore Bitcoin adoption.

First-mover advantage as India's only listed **Bitcoin treasury company**.

Threats

- Continuous innovation in IT and digital skills may render existing curricula obsolete, requiring frequent updates and investment.
- Evolving and unclear regulations

around VDA in India may impact treasury operations and compliance costs.

- Global edtech platforms with advanced technology and wider reach may intensify competition in the education segment.
- Extreme fluctuations in Bitcoin valuations can significantly affect the Company's balance sheet and earnings stability.
- Despite multi-signature cold wallets and HSM safeguards, the risk of cyberattacks, insider threats, or loss of key fragments cannot be fully eliminated.
- Insurance for digital assets remains costly and limited, with coverage often excluding certain cyber risks or exchange-related losses.

c. Segment-wise Performance

Education Segment

Revenue from operations grew **15.14% YoY to 2,177.86 lakhs.**

2,630 student enrollments in Q1 2025 (+14.85% YoY).

1,226 active partner recruiters (+15.12% YoY).

2,625 job vacancies generated for students.

Strong traction in programs such as **BCA in Cloud Computing & Cybersecurity**, **BCA in Data Science with AI**, and **Higher Diploma in Data Science & Artificial Intelligence**.

Student-centric initiatives: **Paid internships**, **fee recovery through earnings**, and **ABC Scheme** for academic credit portability

Bitcoin Segment

15.02 BTC accumulated by March 2025 (up from 5.42 BTC in March 2024).

177% BTC yield in FY25, delivering **₹710.92 lakhs** gains.

68% stock price growth in FY25, supported by Bitcoin treasury performance.

Transparent disclosures of BTC per share, BTC yield, and NAV strengthen investor trust.

Achieved Bitcoin per share of 254.27 Satoshis per share (grown from 91.78 in FY 2023-24)

Launched the first "BTCTC" KPI tracker <https://www.jetking.org/dashboard>

Outlook

Education

Jetking will continue expanding into AI and Data Science programs, complementing its core cloud and cybersecurity offerings. With a hybrid learning model, regional language content, and global operations in Vietnam, the company is positioned to address the employability challenge across Bharat and overseas.

Bitcoin

The company targets 210 BTC holdings by FY26 through a blend of operational cash flows and capital market strategies. Plans include developing India's first Bitcoin Learning Ecosystem, conducting corporate symposiums and advancing regulatory-compliant treasury frameworks. As corporate treasuries begin to adopt Bitcoin, Jetking is uniquely positioned as India's proxy vehicle for listed Bitcoin exposure.

d. Risks and Concerns

• **Education Risks:** Employability remains tied to corporate hiring cycles, which can lead to fluctuating demand for our courses. Rapid technology shifts may render curricula obsolete, requiring constant updates. Competition from global edtech platforms intensifies the need for continuous innovation and differentiation.

• **Bitcoin Risks:** Bitcoin is a highly volatile asset, and extreme price fluctuations can significantly impact our balance sheet and earnings. Custody and cybersecurity risks persist despite robust safeguards—loss, theft, or corruption of private keys could result in permanent loss of assets. Insurance coverage for digital assets remains limited, costly, and may exclude key risks such as cyberattacks or exchange insolvency. Regulatory uncertainty around VDA in India, coupled with evolving global oversight, adds further compliance and taxation risks.

• **Hybrid Risks:** The Company operates on a dual-engine model—education as the core business

and Bitcoin as a treasury reserve asset. Over-dependence on either segment could amplify risks: prolonged downturns in IT hiring may impact education revenues, while adverse Bitcoin market or regulatory developments could affect financial stability. The interplay of these segments requires careful balance in strategy and governance.

Mitigation includes diversified program offerings, enterprise-grade Bitcoin custody with multi-sig cold wallets, and SEBI-compliant capital strategies.

e. Internal Control Systems and Their Adequacy

1. Governance and Oversight

- The Company has established a Board-approved Treasury Policy governing acquisition and custody of Bitcoin.
- A Treasury Committee, consisting of the CFO, Management and Compliance & Accounting head oversees adherence to policies, reviews performance, and evaluates risks.
- Roles and responsibilities are clearly segregated between authorization, execution, recording, and custody to ensure checks and balances.

2. Custody and Security of Digital Assets

- Bitcoins are primarily held in multi-signature cold wallets with distributed key fragments.
- Private keys are secured using Hardware Security Modules (HSMs) with access controlled via dual authorization.
- Periodic penetration testing and IT audits are conducted to validate adequacy of cybersecurity defenses.

3. Transaction Authorization and Recording

- All Bitcoin transactions require multi-level approvals:
 - Initiation by Treasury Desk
 - Verification by Compliance

- Final approval by CFO / Authorized Signatories
- Transactions are executed only through whitelisted wallet addresses.
- Blockchain transaction details are reconciled daily with internal records and accounting systems.
- All transactions are executed with FIU compliant exchanges with full disclosure.

4. Risk Management and Monitoring

- **Price Risk:** The Company follows a hedging framework (where permissible) and maintains Value-at-Risk (VaR) metrics to monitor volatility.
- **Operational Risk:** Dual controls, access logs, and real-time monitoring of wallet activity reduce risk of internal fraud or error.
- **Counterparty Risk:** Only FIU regulated exchanges and custodians with robust security certifications are engaged.

5. Compliance and Regulatory Controls

- All activities are complied and disclosed to SEBI, BSE and MCA guidelines, and IND-AS accounting standards on Virtual Digital Assets.
- Independent statutory audit and internal audit reviews are conducted annually, including blockchain audit trails.
- A whistleblower mechanism exists for reporting violations or control breaches.

6. Accounting and Financial Reporting

- Bitcoin holdings are recorded in compliance with Ind-AS accounting standards, with clear disclosure of valuation basis.
- Gains/losses from fair value changes are transparently reported in financial statements.

- Regular impairment reviews and external valuation reports ensure reliability of asset values reported in the balance sheet.

7. Education Segment Controls

- Student learning outcomes and faculty delivery are tracked through centralized Learning Management Systems (LMS) with automated dashboards.
- Uniform, Board-approved curriculum is delivered across centers with monitoring mechanisms to ensure consistency and quality.
- Training, assessment, and certification frameworks are aligned with National Skill Development Corporation (NSDC) standards for compliance and credibility.
- Regular internal audits of faculty performance, infrastructure, and student satisfaction ensure adherence to quality benchmarks.

8. Adequacy of Internal Controls

- The Internal Control Systems have been designed to be robust, risk-sensitive, and scalable, considering the inherent volatility and custodial complexities of Bitcoin.
- Independent internal auditors have assessed the controls and found them adequate and operating effectively.
- Continuous monitoring, periodic policy reviews, and integration of new security technologies ensure that the control framework remains fit-for-purpose in the evolving digital asset landscape.

f. Discussion on Financial Performance with respect to Operational Performance

- **Profit turnaround:** PAT of 342.69 lakhs in FY25, compared to a loss of 309.26 lakhs in FY24.
- **Operational revenues** supported by student enrollments, recruiter tie-ups, and

internship-linked recoveries.

- **Bitcoin treasury gains of 710.92 lakhs** provided a substantial financial boost, alongside steady education revenues.
- This **dual-engine model** ensures stability (education) and growth acceleration (Bitcoin).

g. Material developments in Human Resources / Industrial Relations front, including number of people employed:

During the year, Jetking continued to strengthen its Human Resources and Industrial Relations practices with a focus on talent acquisition, capability development, and retention.

- **Talent Hiring:** We have onboarded qualified professionals across key business and support functions, aligned with our growth and expansion plans. Our recruitment efforts remain directed towards attracting diverse, skilled, and future-ready talent.
- **Talent Training & Development:** Consistent with our vision of being a learning-driven organization, structured training programs, workshops, and skill enhancement initiatives were conducted. Emphasis was placed on both technical and behavioral competencies to ensure employees are well-prepared to deliver excellence and adapt to dynamic industry requirements.
- **Talent Retention & Engagement:** Employee engagement initiatives, recognition programs, and career growth opportunities have been reinforced to foster a culture of belonging and motivation. Our attrition levels remained within industry benchmarks, reflecting the effectiveness of these interventions.
- **Industrial Relations:** The Company maintained a cordial and harmonious industrial relations climate throughout the year. There were no disruptions to operations, and relations with employees continued to be constructive and cooperative.

h. Key Financial Ratios:

PARTICULARS OF CONTRACTS OR ARRANGEMENTS WITH RELATED PARTIES:

All Related party transactions that were entered into during the year were in the ordinary course of business and on an arm's length basis. The Audit Committee of the Company has given its in-principal approval to different types of related party transactions that are recurring in nature and in the ordinary course of business. As per Indian Accounting Standard (Ind AS) 24 on 'Related Party Disclosures', the details of related party transactions entered by the Company are included in the Notes to Accounts.

The Policy on Related Party Transactions has been published on the Company's website under the 'Investors' section at <https://www.jetking.com/investors>

Further, except for the following, none of other contracts/arrangements/transactions with related parties could be considered material in nature as per Regulation 23 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015:

Due to a recent allotment of securities in Jetking Technologies Private Limited ("JTPL"), an associate company of the Company, there has been a consequential dilution in the Company's shareholding in JTPL. As a result of this dilution, the Company's total stake in JTPL has fallen below the threshold of 20%, thereby leading to the loss of significant influence over JTPL. Accordingly, JTPL no longer qualifies as an associate company of the Company from 13.06.2025.

The disclosure in 'Form AOC 2' forms part of the report as **Annexure 1**.

The Management has provided the Audit Committee with the relevant details, as required under law, of the proposed RPT including material terms and basis

of pricing. The Audit Committee, after reviewing all necessary information, had granted approval for entering the above-mentioned RPT.

RISK MANAGEMENT:

As per provisions of the Companies Act, 2013 and as part of good Corporate Governance, the Company has laid down the procedures to inform the Board about the risk assessment and minimization procedures and the Board shall be responsible for framing, implementing and monitoring the risk management plans for the Company.

The main objective is to ensure sustainable business growth with stability and to promote a pro-active approach in reporting, evaluating and resolving risks associated with the business.

The Company has periodically reviewed the various risks associated with the business of the Company. Such review includes risk identification, evaluation and mitigation of the risk.

ESTABLISHMENT OF VIGIL MECHANISM:

The Company has a Vigil Mechanism in place to enable the employees and various other stakeholders to report serious concerns and matters to the Management. Details of this mechanism are mentioned in the Corporate Governance Report and in the Whistle Blower Policy published on the website of the Company under the 'Investors' section at <https://www.jetking.com/investors>.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT:

Management Discussion and Analysis Report of the financial conditions, future outlook and results of the operations of the Company for the financial year under review, as stipulated under Regulation 34 (2) (e) of SEBI (LODR) Regulations, 2015 forming part of the Annual Report.

SUBSIDIARY, JOINT VENTURES AND ASSOCIATE COMPANIES:

During the financial year under review, the Company had one Associate Company, namely Jetking

Technologies Private Limited (formerly known as **Jetking Skill Development Private Limited**), within the meaning of Section 2(6) of the Companies Act, 2013, read with the Companies (Accounts) Rules, 2014.

As per Section 2(6) of the Companies Act, 2013, an "Associate Company", in relation to another company, means a company in which that other company has a significant influence, but which is not a subsidiary company of the company having such influence. The term "significant influence" is defined to mean control of at least 20% of the total voting power, or control or participation in business decisions under an agreement.

Until 13th June 2025, the Company held more than 20% of the total voting power in Jetking Technologies Private Limited ("JTPL"), thereby classifying it as an Associate Company. However, pursuant to a recent allotment of equity shares by JTPL, the Company's shareholding was diluted below the 20% threshold, resulting in a loss of significant influence, as defined under the Companies Act, 2013 and applicable accounting standards (AS 23 / Ind AS 28).

Accordingly, with effect from 13th June 2025, JTPL no longer qualifies as an Associate Company of the Company. This change has been duly considered for the purpose of preparation of standalone and consolidated financial statements in accordance with the provisions of Section 129 of the Companies Act, 2013 and applicable accounting standards.

Necessary disclosures in respect of cessation of the associate relationship have been made in Form AOC-1, which forms part of this report as **Annexure - 2**

The Company does not have any Subsidiary or Joint Venture Company as on the date of this report.

STATUTORY AUDITORS:

M/s. PYS & Co. LLP Chartered Accountants (Firm Registration No. 012388S/S200048) who were appointed as the Statutory Auditors of the Company at the **37th Annual General Meeting ('AGM')** held on **29th September, 2021** will continue to hold the office until the conclusion of the Annual General Meeting of the Company to be held in the year 2026 for the financial year ended March 31, 2026.

There is no qualification, reservation, adverse remark, disclaimer or modified opinion in the Auditors' Report, which calls for any further comments or explanations.

COST AUDITOR:

The Central Government of India has not specified the maintenance of the cost records under sub-section (1) of section 148 of the Act for any of the products of the Company. Accordingly, during the financial year under review, maintenance of Cost Records and Cost Audit was not applicable to the Company.

SECRETARIAL AUDITOR:

Pursuant to the provisions of Section 204 of the Companies Act, 2013 read with rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 M/s. AVS & Associates, Practicing Company Secretaries, to undertake the Secretarial Audit of the Company for the Financial Year 2024-25. Secretarial Audit Report for the Financial Year 2024-25 as issued by them in the prescribed Form MR-3 is annexed to this Report as **Annexure 3**.

The said Secretarial Audit Report contains the following qualifications for the financial year under review.

SN	Auditor's Comment	Management's Response
1.	During the review period, the Board of Directors of the Company was not duly constituted in accordance with the provisions of Regulation 17(1)(b) of the SEBI (LODR) Regulations, 2015, for a certain period from April 1, 2024 to April 15, 2024.	Temporarily non-compliance arose due to the completion of the tenure of certain Independent Directors, resulting in a shortfall in the prescribed Board composition. The Company proactively initiated the process of identifying and appointing eligible candidates to fill the vacancies in a timely and regulatory-compliant manner. The Board was duly reconstituted with effect from April 16, 2024, upon the appointment of the new Independent Director, thereby reinstating full compliance with Regulation 17(1)(b) of the SEBI (LODR) Regulations, 2015

FORM NO. MR.3 SECRETARIAL AUDIT REPORT

For the Financial Year Ended 31st March, 2025

[Pursuant to section 204(1) of the Companies Act, 2013 and rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Jetking Infotrain Limited,
Add: Office No. 503, 5th Floor,
Amore Commercial Premises Co-Op Society Ltd.,
CTS No. Junction of 2nd & 4th Road, Khar (West),
Mumbai – 400052, Maharashtra, India.

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by M/s. Jetking Infotrain Limited (hereinafter called the "Company"). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Auditor's Responsibility:

Our responsibility is to express an opinion on compliance with the applicable laws and maintenance of records based on the audit. We have conducted the audit in accordance with the applicable Auditing Standards issued by the Institute of Company Secretaries of India. The Auditing Standards require that the Auditor shall comply with statutory and regulatory requirements and plan and perform the audit to obtain reasonable assurance about compliance with applicable laws and maintenance of records.

Due to the inherent limitations of audit including internal, financial and operating controls, there is an unavoidable risk that some misstatements or material non-compliances may not be detected, even though the audit is properly planned and performed in accordance with the Standards.

Modified Opinion:

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of the secretarial audit, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2025 ('Audit Period') complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2025 according to the provisions of:

- (i) The Companies Act, 2013 ('**the Act**') and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('**SCRA**') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;

- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings. **(Not applicable to the Company during the audit period);**
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):
 - a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - c) Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;**(Not applicable to the Company during the audit period);**
 - d) The Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021;**(Not applicable to the Company during the audit period);**
 - e) The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021**(Not applicable to the Company during the audit period);**
 - f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021**(Not applicable to the Company during the audit period); and**
 - h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018**(Not applicable to the Company during the audit period)**
- (vi) We further report that, as identified and confirmed by the Company, no law is specifically applicable to it during the audit period.

We have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards issued by the Institute of Company Secretaries of India.
- (ii) The SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above except the following:

1. *The Board of Directors of the Company was not duly constituted in accordance with the provisions of Regulation 17(1)(b) of the SEBI (LODR) Regulations, 2015, for a certain period from April 1, 2024 to April 15, 2024; and*
2. *A delay has been noticed in relation to the filing of prior intimation of the Board Meeting held on May 28, 2024 for the approval of the financial results of the Company for the quarter and year ended March 31, 2024, as required under Regulation 29(1) of SEBI (LODR) Regulations, 2015.*

We further report that, the Company is required to strengthen its process and system for capturing the flow of UPSI in the SDD system.

We further report that:

The Board of Directors of the Company is duly constituted with the proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings and agenda items were sent at least seven days in advance (except where meetings convened at shorter notice for which necessary approval were obtained as per applicable provisions) and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at Board Meetings and Committee Meetings are carried out either unanimously or majority as recorded in the minutes of the meetings of the Board of Directors or Committee of the Board, as the case may be.

We further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the audit period, the Company undertook the following significant transactions with requisite approvals:

- 1. Material Related Party Transaction:**

Approval was obtained through an Ordinary Resolution passed by way of postal ballot dated May 3, 2024, for entering into a material related party transaction with Jetking Technologies Private Limited, an Associate Company.

- 2. Special Resolutions at the 40th Annual General Meeting:** The Company secured approval for the following matters at its 40th Annual General Meeting held on September 20, 2024:

- Adoption of a new set of Memorandum of Association of the Company in compliance with the Companies Act, 2013;
- Alteration of the Ancillary Object Clause of the Memorandum of Association; and
- Adoption of a new set of Articles of Association of the Company in accordance with the Companies Act, 2013.

INDEPENDENT AUDITORS' REPORT

To,

The Members of

Jetking Infotrain Limited

Report on the audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **Jetking Infotrain Limited** ("the Company"), which comprise the balance sheet as at 31 March 2025, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows for the year then ended on that date, and notes to the standalone financial statements including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standard prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standard) Rules 2015 as amended ("Ind AS") and the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2025, the profit, other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Emphasis of Matter

We draw attention to:

- a) Note 35 (b) to the standalone financial statements regarding the amount of Rs. 36.77 Lakhs recoverable from a Broker/Sub-broker for an unauthorised trade taken place in NSE F&O segment in earlier years, which is in appeal with the Hon'ble High Court. In the opinion of the management of the Company, no provision is required to be made at this stage.
- b) Note 47 to the standalone financial statements regarding the matter that the Company has sought a legal opinion on the classification of Virtual Digital Assets (VDAs) and, based on the opinion, it reclassified VDAs from financial assets to intangible assets in accordance with Ind AS 38 "Intangible Assets". The Company has adopted the revaluation model for subsequent measurement, with revaluation gain/(loss) recognized in OCI. Accordingly, the Company has restated / reclassified its standalone financial statements w.e.f. 1 April 2023.

Our opinion is not modified in respect of the above matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matters	How our audit addressed the key audit matters
1	Evaluation of audit evidence pertaining to the existence and control of the Virtual Digital Assets As disclosed in Notes 2.4 (c) and 47 to the standalone financial statements, the Company accounts for its Virtual Digital Assets as indefinite-lived intangible assets. The same is in line with Ind AS 38 "Intangible Assets". The digital assets are initially recorded at cost. After initial recognition, an intangible asset shall be carried at a revalued amount, being its fair value at the date of the revaluation in accordance with Para 75 of Ind AS 38 "Intangible Assets". We identified the evaluation of audit evidence pertaining to the existence of the Virtual Digital Assets and whether the Company controls the Virtual Digital Assets as a key audit matter. Auditor's judgment was involved in determining the nature and extent of evidence required to assess the existence of the Virtual Digital Assets and whether the Company controls the Virtual Digital Assets, as control over the digital assets is provided through private cryptographic keys stored in custody with Key Management Personnel. (Refer note 2.4 (c), 6(a), 7, 47 and 59 to the Standalone Financial Statements)	Principal Audit Procedures - Obtained an understanding of the Company's business model, policies, and controls relating to Virtual Digital Assets. - We evaluated the design and tested the operating effectiveness of certain internal controls over the Virtual Digital Assets process, including a control over the digital assets is provided through private cryptographic keys stored in custody with Key Management Personnel. - We have also evaluated the Company's internal control over storing of Virtual Digital Assets in private cryptographic keys and the reconciliation of Virtual Digital Assets as per the Company's records to the public blockchain. - We have inspected transactions on the blockchain using the Company's wallet's public key/address to confirm balances and ownership as of reporting date. - We have verified the invoices of purchase of Virtual Digital Assets during the year from relevant exchange and also verified bank payment entries for the same. - We have performed cut-off procedures by checking recent transactions around the balance sheet date. - We have physically verified the private cryptographic keys in which the Virtual Digital Assets have been stored and taken the screenshot of the Company's holding of Virtual Digital Assets as at 31 March 2025 and compared the total digital assets confirmed to the Company's record of Virtual Digital Assets holdings. - We applied auditor judgment in determining the nature and extent of audit evidence required, especially related to assessing the existence of the digital assets and whether the Company controls the digital assets. - We evaluated the sufficiency and appropriateness of audit evidence obtained by assessing the results of procedures performed over the Virtual Digital Assets.

2 Measurement of investments in accordance with Ind AS 109 "Financial Instruments"

On initial recognition, investments are recognized at fair value, in case of Investments which are recognised at fair value through profit and loss (FVTPL), its transaction cost is recognised in the statement of profit and loss. In other cases, the transaction costs are attributed to the acquisition value of the investments.

The Company's investments are subsequently classified into following categories based on the objective of its business model to manage the cash flows and options available in the standard:

- Equity instruments, investments in mutual funds, real estate funds, other funds and investment in virtual currency at fair value through profit or loss (FVTPL)
- Equity investment in associate company at cost

The Company has assessed the following two business model:

- Realising cash flows through the sale of investments. The Company makes decisions based on the assets' fair values and manages the assets to realise those fair values.
- Held to collect contractual cash flows

Since valuation of investments at fair value involves critical assumptions, significant risk in valuation and complexity in assessment of business model, the valuation of investments as per Ind AS 109 is determined to be a key audit matter in our audit of the standalone financial statements.

(Refer notes 2, 7, 40 and 43 to the Standalone Financial Statements)

Principal Audit Procedures

- Obtained an understanding of Company's business model assessed in accordance with Ind AS 109;
- Evaluated the Company's assessment of business model;
- Obtained an understanding of the determination of the measurement of the investments and tested the reasonableness of the significant judgments applied by the management;
- Evaluated the design of internal controls relating to the measurement and also tested the operating effectiveness of the aforesaid controls;
- Ensured that the Company has used valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs;
- Assessed the appropriateness of the disclosure in the standalone financial statements in accordance with the applicable financial reporting framework.

3 Related party transactions and disclosures Principal Audit Procedures

The Company has undertaken transactions with its related parties in the normal course of business.

We have identified the accuracy and completeness of related party transactions and its disclosure as set out in respective notes to the standalone financial statements as a key audit matter to verify whether the transactions are recorded at arm length basis, disclosure of such transactions in the financial statements and regulatory compliance thereon during the year ended 31 March 2025.

(Refer note 39 to the Standalone Financial Statements)

- Obtained, read and assessed the Company's policies, processes and procedures in respect of identifying related parties, evaluation of arm's length, obtaining necessary approvals, recording and disclosure of related party transactions, including compliance of transactions and disclosures in accordance with the regulations.
- We have tested, on a sample basis, related party transactions with the underlying contracts and other supporting documents for appropriate authorization and approval for such transactions.
- Read minutes of meeting of the Board and its relevant committee meetings and minutes of meetings of those charged with governance in connection with transactions with related parties affected during the year and Company's assessment of related party transactions being in the ordinary course of business at arm's length and in accordance with the regulations.
- Assessed and tested the disclosures made in accordance with the requirements of Ind AS and the applicable regulations.

Information Other than the standalone financial statements and Auditor's Report Thereon

The Company's Management and Board of Directors is responsible for the other information. The other information comprises the information included in the Company's annual report namely Directors' Report, Annexures to Board Report, Management Discussion and Analysis, Corporate Governance Report, Business Responsibility Statement, but does not include the standalone financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this auditors' report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Board report including Annexures to Board Report Management Discussion and Analysis, Corporate Governance Report, Business Responsibility Statement, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 (Revised) 'The Auditor's responsibilities Relating to Other Information'.

Management's Responsibility for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Indian Accounting Standards (Ind AS) and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for the safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibility for the audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- a) Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management and Board of Directors.
- d) Conclude on the appropriateness of Management and Board of Director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- e) Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and

other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure "A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as, it appears from our examination of those books except for the matters stated in the paragraph (h) (vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014;
 - c) The balance sheet, the statement of profit and loss (including other comprehensive income), statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015 as amended;
 - e) On the basis of the written representations received from the directors as on 31 March 2025 and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2025, from being appointed as a director in terms of Section 164(2) of the Act;
 - f) The modification relating to the maintenance of accounts and other matters connected therewith, is as stated in paragraph (b) above.
 - g) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial control over financial reporting;
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid or provided to its directors during the year is in accordance with the provisions of Section 197 of the Act;

- i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements. (Refer Note 34 (a) to the standalone financial statements);
 - ii. The Company did not have any long-term contracts including derivative contracts for which

there were any material foreseeable losses during the year ended 31 March 2025; and

- iii. There are no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended 31 March 2025.
- iv. a) The Management has represented that, to the best of its knowledge and belief and as mentioned in note no. 51 (i) to the standalone financial statements, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- b) The Management has represented, that, to the best of its knowledge and belief and as mentioned in note no. 51 (ii) to the standalone financial statements, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The Company has neither declared nor paid any dividend during the year and accordingly compliance of section 123 of the Companies Act, 2013 is not applicable to the Company.
- vi. Based on our examination, which included test checks, the Company has used accounting software for maintaining its books of account for the financial year ended 31 March 2025 which has a feature of recording audit trail (edit log) facility, that was enabled at the application and the database level. Further, the audit trail facility has been operated throughout the year for all relevant transactions recorded in the accounting software except at the database level the recording of audit trail facility was available for only last two months transactions, for all relevant transactions recorded in the accounting software. During the course of our audit, we did not come across any instance of the audit trail feature being tampered with.

Further, the Company is using independent softwares for CRM and payroll processing which are not integrated with the accounting system of the Company. Based on the output of these softwares, the Company accounts for the entries related to student data management and payroll on a timely basis. Accordingly, in our view, the reporting responsibility under Rule 11(g) is not applicable for these softwares.

Further, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

ANNEXURE 'B' TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 2(f) under the heading 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Jetking Infotrain Limited ('the Company') as of and for the year ended 31 March 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on, the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting and the Standards on Auditing, prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to further periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Control Over Financial Reporting issued by the Institute of Chartered Accountants of India.

STANDALONE STATEMENT OF CASH FLOWS

FOR THE YEAR ENDED MARCH 31, 2025

1. Corporate information

Jetking Infotrain Limited (hereinafter referred to as "the Company") is a Company incorporated under the Companies Act, 1956 and having its Registered Office at 434, Bussa Udyog Bhavan, Tokersi Jivraj Road, Sewri (West), Mumbai 400 015. The Company is engaged in the business of "IT Training in Hardware, Networking and digital courses" having its Head Office at Mumbai. The Company operates through its training centres and affiliate franchisees to provide these services across India, Nepal and South-east Asia.

"The standalone financial statements for the year ended March 31, 2025 were approved by the Board of Directors and authorised for issue on May 23, 2025."

2. Material accounting policies

2.1 Basis of preparation of financial statements

These standalone financial statements have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under Section 133 of the Companies Act 2013 ("the Act"), read with the Companies (Indian Accounting Standards) Rules, 2015 as amended.

The standalone financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, and on the basis of accounting principle of a going concern in accordance with generally accepted accounting principles (GAAP). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The standalone financial statements are presented in Lakhs or decimal thereof unless otherwise specified.

The standalone financial statements have been presented in accordance with Schedule III - Division II of the Companies Act, 2013.

2.2 Use of estimates

The preparation of the standalone financial statements in conformity with Ind AS requires the Management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities. The disclosures of contingent assets and liabilities at the date of the standalone financial statements and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these standalone financial statements have been disclosed in Note 2.17. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the standalone financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the standalone financial statements.

2.3 Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle (twelve months) and other criteria set out in the Schedule III to the Act.

2.4 a) Property, plant and equipment

The Company has opted to apply the principles of IND AS retrospectively to all items of property, plant

and equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the statement of profit and loss during the reporting period in which they are incurred.

Property, plant and equipment are stated at cost less accumulated depreciation/ amortisation. Cost includes all cost incidental to acquisition, installation, commissioning allocated to such assets. Freehold land is carried at cost. All other items of property, furniture & fixtures and equipment are stated at cost less depreciation and impairment, if any.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Depreciation methods, estimated useful lives and residual value

The Company depreciates its property, furniture & fixture, equipment over the useful life in the manner prescribed in Schedule II to the Act.

The estimated useful lives of assets are as follows:

b) Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured at its cost, including

Description of assets	Useful life (in years)
Leasehold land	99 years or balance lease period whichever is lower
Leasehold improvement	Over the lease period
Building: Owned	60
Building: Leased	Over the lease period
Plant and machinery	15
Furniture and fixture: Training Centres	8
Furniture and fixture: Support/ Back end Offices	10
Electrical installations	10
Vehicles	8
Office equipments	5
Computers	3

related transaction costs and where applicable borrowing costs less depreciation and impairment if any.

Depreciation on investment property is provided over its useful life.

c) Intangible assets

Intangible assets are recognised only if it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably. The capitalised cost includes license fees and cost of implementation/ system integration services. The Company has opted for one time transition exemption of considering the carrying cost on the transition date i.e. April 01, 2016 as the deemed cost under Ind AS.

The Company account for all virtual digital assets held as indefinite-lived intangible assets in accordance with Ind AS 38 "Intangible Assets". The Company is having ownership of and control over virtual digital assets. The digital assets are initially recorded at cost. After initial recognition, an intangible asset shall be carried at a revalued amount, being its fair value at the date of the revaluation in accordance with Para 75 of Ind AS 38 "Intangible Assets". For the purpose of revaluations, fair value is measured by reference to an active market i.e. based on quoted prices on the active exchange(s) India to which the Company has determined is the principal market for such assets (Level I inputs). If virtual digital assets carrying amount is increased as a result of revaluation, the increase is recognised in other comprehensive income and accumulated in equity under the heading of revaluation surplus. However, the increase shall be recognised in profit and loss to the extent that it reverses decrease of the same asset previously recognised in profit and loss. If virtual digital assets carrying amount is decreased as a result of revaluation, the decrease is recognised in profit and loss. However, the decrease shall be recognised in other comprehensive income to the extent of any credit balance in revaluation surplus in respect of the virtual digital assets. The decrease is recognised in other comprehensive income reducing the amount accumulated in equity under the heading of revaluation surplus.

Computer software (intangible assets) is amortised on the straight-line method over a period of thirty six months.

Content development and digitization is amortised on straight line method over a period of thirty six months.

d) Intangible assets under development

Intangible asset under development comprises of content development and development of software.

2.5 Lease

"Leases of assets where the lessor effectively retains substantially all the risks and benefits of ownership of the leased term, are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

As a Lessee: Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease, unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a lessor: The Company has leased out certain property, plant and equipment on operating leases. Lease income from operating leases is recognised in the statement of profit and loss on a straight line basis over the lease term unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. Initial direct costs are recognised as an expense in the statement of profit and loss in the period in which they are incurred."

The Company as a Lessee

The Company's lease asset classes primarily consist of leases for office buildings. The company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the company assesses

whether: (1) the contract involves the use of an identified asset (2) the company has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of the leases. Lease liabilities are re-measured with a corresponding adjustment to the related right of use asset if the company changes its assessment if whether it will exercise an extension or a termination option.

The Company as a lessor

Leases for which the company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

2.6 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and cash at bank including fixed deposit with original maturity period of less than three months.

2.7 Inventories

Inventories are valued at lower of cost or net realizable value . Cost of inventories comprises of all cost of purchases and other costs incurred in bringing the inventory to their present location and condition. Cost is assigned on First-in-First-Out (FIFO) basis. Obsolete, defective and unserviceable stocks are provided for, wherever required.

2.8 Impairment of financial assets

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

2.9 Trade receivables

The Company applies the simplified approach to providing for expected credit losses prescribed by Ind AS

109, which permits the use of the lifetime expected loss provision for all trade receivables. The Company has computed expected credit losses based on a provision matrix which uses historical credit loss experience of the Company. Forward-looking information (including macroeconomic information) has been incorporated into the determination of expected credit losses.

2.10 Investment and other financial assets

(i) Classification

The Company classifies its financial assets in the following measurement categories- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and those measured at amortised cost. The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses are recorded in profit or loss (for derivative forward contracts) and other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. The Company reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial assets not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction cost of financial assets carried at fair value through profit or loss are expensed in profit or loss statement.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument by-instrument basis. The classification is made on initial recognition and is irrevocable. If the Company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to the statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

Amortised cost - Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

(iii) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables and contract assets only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

(iv) Derecognition of financial assets

A financial asset is derecognised only when:

- The Company has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

2.11 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

2.12 Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are unsecured and are presented as current liabilities unless payment is not due within operating cycle determined by the Company after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest rate method.

2.13 Provisions, contingent liabilities and assets

- i. Provisions are recognised when the Company has a present, legal or constructive obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Provisions are determined based on the best estimate required to settle the obligation at the Balance Sheet date. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. Provisions are reviewed at each Balance Sheet date and adjusted to reflect current best estimates. Provisions are not recognised for future operating losses.
- ii. The Company makes the provision for anticipated claims from customers on account of material supplied, work undertaken, repair & rectification carried out by the customer, the settlement of which takes place at a later stage of conclusion of the contract.
- iii. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small. Reimbursement expected in respect of expenditure required to settle a provision is recognised only when it is virtually certain that the reimbursement will be received.
- iv. Contingent liability
- v. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.
- vi. Contingent assets are disclosed where an inflow of economic benefits is probable.
- vii. Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

2.14 Income recognition

Revenue is measured at the fair value of the consideration received or receivable to which the Company expects to be entitled in exchange for transferring the goods or services to a customer i.e. on transfer of control of the goods or service to the customer. Revenue from sales of goods or rendering of services is net of Indirect taxes, returns and discounts.

Income from operations

a) Training and other allied services

Revenue is recognised at the transaction price that is allocated to the performance obligation i.e. when services are rendered and there are no uncertainties as to its measurability and collectability

i) Revenue from course fees from training service is recognised over the duration of course and as per agreed terms.

ii) Revenue from other allied services is recognised as and when such services are completed/performed.

b) Franchisee operation

Fixed affiliation income from franchisee operations is recognised based on the proportion of value of services the Company is obliged to provide over the contractual tenure and when there are no significant uncertainties as to its collectability.

c) Royalty income

Royalty income is recognised as per the franchise agreement at specified percentage of gross revenue earned by the franchisee.

d) Interest

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a timely basis, by reference to the principal outstanding and at the effective interest rate applicable. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of that financial asset.

e) Dividends

Dividend is recognised when the Company's right to receive the amount is established.

2.15 Employee benefits

i. Short-term obligations

Liabilities for wages and salaries, including nonmonetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

ii. Other long-term employee benefit obligations

The liabilities for privileged leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in Statement of Profit and Loss. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

iii. Post-employment obligations

The Company operates the following post-employment schemes-

- (a) defined benefit plans - gratuity, provident fund (for management employees) and retirement benefit scheme liability.
- (b) defined contribution plans- superannuation and provident fund (for non-management employees).

Defined contribution plans

The Company has Defined Contribution plans for post-employment benefits namely Provident Fund, Superannuation Fund and National Pension Scheme.

Under the Provident Fund Plan (including Employee's Pension Scheme 1995), the Company contributes to a Government administered Provident Fund on behalf of its employees and has no further obligation beyond making its contribution.

The Company's contributions to the above funds are charged to the Statement of Profit and Loss every year.

Defined benefit plans

The Company has a Defined Benefit Plan namely Gratuity for all its employees. The Gratuity plan provides lump sum payments to vested employees at retirement, death, termination of employment, of an amount, based on the respective employee's salary and tenure of employment. The Company has taken a group gratuity policy with Life Insurance Corporation of India ('LIC') and is funded. Gratuity Fund is recognised by the Income Tax authorities and is administered through trustees.

The cost of providing defined benefits is determined using the projected unit credit method with actuarial valuations being carried out at each reporting date. The defined benefits obligations recognised in the balance sheet represent the present value of the defined benefits obligations as reduced by the fair value of planned assets, if applicable. Any defined benefit asset (negative defined benefit obligations resulting from this calculation) is recognised representing the present value of available refunds and reductions in future contributions to the plan.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability/ (asset) are recognised in the statement of profit and loss. Remeasurements of the net defined benefit liability/ (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amount included in the net interest on the net defined benefit liability/ asset), are recognised in Other Comprehensive Income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

The Company presents the above liability/ (asset) as current and non-current in the balance sheet as per actuarial valuation by the independent actuary.

Others:

- (i) Long Service Awards, liability for which is provided for on the basis of an actuarial valuation, carried out by an independent actuary.
- (ii) Termination benefits are recognised as an expense as and when incurred.

2.16 Earnings per share

Basic earnings per share is calculated by dividing the net profit for the period attributable to equity

shareholders by the weighted average number of equity shares outstanding during the financial year. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period after deducting any attributable tax thereto for the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

2.17 Significant accounting judgements, estimates and assumptions

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of Items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed.

Judgements:

In the process of applying the Company's accounting policies, Management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements-

i. Segment Reporting

Ind-AS 108 Operating Segments requires Management to determine the reportable segments for the purpose of disclosure in financial statements based on the internal reporting reviewed by Chief Operating Decision Maker (CODM) to assess performance and allocate resources. The standard also requires Management to make judgments with respect to aggregation of certain operating segments into one or more reportable segment.

The Company has determined that the Chief Operating Decision Maker (CODM) is the Board of Directors (BoD), based on its internal reporting structure and functions of the BoD. Operating segments used to present segment information are identified based on the internal reports used and reviewed by the BoD to assess performance and allocate resources.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

The cost of the defined benefit plan and other post employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on Indian Assured

Lives Mortality (2006-08) Ultimate. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and benefit increases are based on expected future inflation rates. Further details about employee benefit obligations are given in Note 38.

i. Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. See Note 43 for further disclosures.

ii. Provisions

Provisions and liabilities are recognised in the period when it becomes probable that there will be a future outflow of funds.

iii. Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default, expected loss rates and timing of cash flows. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. Refer note 53 for various judgements and estimates used to create provision for impairment.

2.18 Statement of cash flows

Cash flows are reported using the indirect method, whereby profit/ (loss) before tax is adjusted for the effects of transactions of non cash nature and any deferrals or accruals of past or future cash receipts or payments. Cash flow for the year are classified by operating, investing and financing activities.

2.19 Income taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The Company determines the tax as per the provisions of Income-tax Act, 1961 and other rules specified thereunder.

Current income tax relating to items recognised outside the statement of profit and loss is recognised either in other comprehensive income or in equity. Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Minimum Alternate Tax (MAT) is accounted as current tax when the Company is subjected to such provisions of the Income Tax Act. However, credit of such MAT paid is available when the Company is subjected to tax as per normal provisions in the future. Credit on account of MAT, is recognised as an asset based on the management's estimate of its recoverability in the future.

Deferred tax

Deferred tax is measured using the balance sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- i. When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction affects neither the accounting profit nor taxable profit or loss.
- ii. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.
- iii. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised, or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.
- iv. Deferred tax relating to items recognised outside the statement of profit and loss is recognised either in other comprehensive income or in equity. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.
- v. Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same tax authority.

2.20 Foreign currency translation

In preparing the financial statements of the Company, transactions in currencies other than the Company's functional currency viz. Indian Rupee are recognised at the rates of exchange prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing

at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise.

2.21 Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended 31 March 2025, MCA has notified Ind AS – 117 Insurance Contracts and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions, applicable to the Company w.e.f. April 01, 2024. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact in its financial statements.

(ii) Reconciliation of changes in the fair value of investment property:

The fair value of the Company's investment properties as at 31 March 2024 was arrived on the basis of valuation carried out by an external independent valuer registered with the authority which governs the valuer in India. However, for the year ended 31 March 2025, the management has considered the input based on prevailing average market rate of the nearby similar properties in case of some investment properties. The fair value measurement for investment property has been categorised as Level 2 fair value based on the inputs to the valuation technique used. Considering the type of the asset, market approach (sales comparable method) to estimate the fair value of the subject property is adopted. Since the fair value of the properties is determined by the management for the year ended 31 March 2025, the management has considered to give the sensitivity analysis for the value of the properties.

Sensitivity Level (a hypothetical increase / (decrease) by) 10% would result in increase / (decrease) in fair value by Rs.153.23 Lakhs.

Net deferred tax asset/liabilities

The Company has unabsorbed business losses/depreciation and long/short term capital losses of Rs. 1,964.61 lakhs approx. as at March 31, 2025. The realization of the deferred tax assets is dependent on whether there is a sufficient future taxable income in the period during which deductible temporary differences reverses or within the carry forward periods available under the tax law. Based on the current financial position, it is more likely that the same portion or all of the deferred tax assets will not be realized due to no virtual certainty. There is a virtual uncertainty for recovery/ adjustment of the said carried forward losses and accordingly, as per the management assessment, the deferred tax assets only recognized to the extent of available deferred tax liabilities.

d) Description of risk exposures

Valuations are based on certain assumptions, which are dynamic in nature and vary over time. As such Company is exposed to various risks as follows:

A) Salary increases - Actual salary increases will increase the Plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability.

B) Investment risk - If Plan is funded then assets liabilities mismatch and actual investment return on assets lower than the discount rate assumed at the last valuation date can impact the liability.

C) Discount rate - Reduction in discount rate in subsequent valuations can increase the Plan's liability.

D) Mortality and disability - Actual deaths and disability cases proving lower or higher than assumed in the valuation can impact the liabilities.

E) Withdrawals - Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact Plan's liability.

40 Risk Management

Financial risk management

The risk management policies of the Company are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Management has overall responsibility for the establishment and oversight of the Company's risk management framework. In performing its operating, investing and financing activities, the Company is exposed to the Credit risk, Liquidity risk and Market risk.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include rental deposits and investments.

Foreign currency risk

The international nature of the Company's business activities generates cash flows in different currencies - especially in USD. The Company's exposure to foreign currency risk at the end of reporting period are as follows:

Particulars	As at March 31, 2025		As at March 31, 2024		As at April 01, 2023

Credit risk

Revenue / Trade receivable

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is from trade receivables amounting to Rs. 217.23 lakhs as at March 31, 2025, amounting to Rs. 141.58 lakhs and Rs. 233.97 lakhs as at March 31, 2024 and April 01, 2023. Trade receivables are typically unsecured and are derived from revenue earned from customers located in India and out of India. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal cause of business.

The Company applies a simplified approach in calculating Expected Credit Losses (ECLs) on trade receivables. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted

for forward-looking factors specific to the debtors and the economic environment. Based on the provision matrix, the Company has made provision for expected credit loss on trade receivables of Rs. 5.90 lakhs as at March 31, 2025 (as at March 31, 2024 Rs. 9.19 lakhs and as at April 01, 2023 Rs. 12.31 lakhs).

43 Fair value measurement

The fair values of financial assets and liabilities are included at the amount at which the instrument can be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair vales:

a) Fair value of cash and cash equivalents, trade and other current financial assets, trade & other payables approximate their carrying amounts due to the short maturities of these instruments.

b) The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation techniques:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

58 Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets, liabilities, the accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. Estimates and assumptions are reviewed on periodic basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised.

The key assumptions concerning the future and other key sources of estimation, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities, within the next financial year, are described below. The Company's assumptions and estimates are based on parameters available at the time of preparation of financial statements. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they

occur.

(a) Employee benefit plans

The cost of the defined benefit plan and other employment benefits plan are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans, the management considers the interest rates of government bonds in currencies consistent with the currencies of the postemployment benefit obligation. The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at intervals in response to demographic changes. Future salary increases are based on expected future inflation rates.

Based on periodic review of the demographic assumptions, attrition rate assumption used for actuarial valuation of liability related to gratuity has been re-assessed during the year ended March 31, 2025. For the purpose of assessing the attrition rate, the Company considered the historical attrition trend and expected rate based on such trend/ experience. The change in assumption resulted in a decrease of closing gratuity by Rs. 22.68 lakhs, for the year ended March 31, 2025.

Further details about gratuity obligations are given in Note - 38.

(b) Leases

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain to exercise the option to renew or terminate the lease. It considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate.

INDEPENDENT AUDITORS' REPORT

To,

**The Members of
Jetking Infotrain Limited**

Report on the audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Jetking Infotrain Limited ("the Holding Company"), and its associate (the Holding Company's share of loss after tax and total comprehensive income in its associate), which comprise the consolidated balance sheet as at 31 March 2025, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended on that date, and notes to the consolidated financial statements including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standard prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standard) Rules 2015, as amended ("Ind AS") and the accounting principles generally accepted in India, of the consolidated state of affairs of the Holding Company as at 31 March 2025, the consolidated loss, the consolidated total other comprehensive income, the consolidated changes in equity and its consolidated statement of cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Holding Company and its associate in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Emphasis of Matter

We draw attention to:

- a) Note 35 (b) to the consolidated financial statements regarding the amount of Rs. 36.77 Lakhs recoverable from a Broker/Sub-broker for an unauthorised trade taken place in NSE F&O segment in earlier years, which is in appeal with the Hon'ble High Court. In the opinion of the management of the Holding Company, no provision is required to be made at this stage.
- b) We draw attention to Note 47 to the consolidated financial statements regarding the matter that the Holding Company sought a legal opinion on the classification of Virtual Digital Assets (VDAs) and, based on the opinion, it reclassified VDAs from financial assets to intangible assets in accordance with Ind AS 38 "Intangible Assets". The Company has adopted the revaluation model for subsequent measurement, with revaluation gain/(loss) recognized in OCI. Accordingly, the Company has restated / reclassified its financial statements w.e.f. April 1, 2023.

Our opinion is not modified in respect of the above matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of audit procedures performed by us, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Sr. No.	Key Audit Matters	How our audit addressed the key audit matters
1	Evaluation of audit evidence pertaining to the existence and control of the Virtual Digital Assets As disclosed in Notes 2.4 (c) and 47 to the consolidated financial statements, the Company accounts for its Virtual Digital Assets as indefinite-lived intangible assets. The same is in line with Ind AS 38 “Intangible Assets”. The digital assets are initially recorded at cost. After initial recognition, an intangible asset shall be carried at a revalued amount, being its fair value at the date of the revaluation in accordance with Para 75 of Ind AS 38 “Intangible Assets”. We identified the evaluation of audit evidence pertaining to the existence of the Virtual Digital Assets and whether the Holding Company controls the Virtual Digital Assets as a key audit matter. Auditor’s judgment was involved in determining the nature and extent of evidence required to assess the existence of the Virtual Digital Assets and whether the Holding Company controls the Virtual Digital Assets, as control over the digital assets is provided through private cryptographic keys stored in custody with Key Management Personnel. (Refer note 2.4 (c), 6(a), 7, 47 and 59 to the consolidated financial statements)	Principal Audit Procedures • Obtained an understanding of the Holding Company’s business model, policies, and controls relating to Virtual Digital Assets. • We evaluated the design and tested the operating effectiveness of certain internal controls over the Virtual Digital Assets process, including a control over the digital assets is provided through private cryptographic keys stored in custody with Key Management Personnel. • We have also evaluated the Holding Company’s internal control over storing of Virtual Digital Assets in private cryptographic keys and the reconciliation of Virtual Digital Assets as per the Holding Company’s records to the public blockchain. • We have inspected transactions on the blockchain using the Holding Company’s wallet’s public key/address to confirm balances and ownership as of reporting date. • We have verified the invoices of purchase of Virtual Digital Assets during the year from relevant exchange and also verified bank payment entries for the same. • We have performed cut-off procedures by checking recent transactions around the balance sheet date. • We have physically verified the private cryptographic keys in which the Virtual Digital Assets have been stored and taken the screenshot of the Holding Company’s holding of Virtual Digital Assets as at 31 March 2025 and compared the total Virtual Digital Assets confirmed to the Holding Company’s record of Virtual Digital Assets holdings. • We applied auditor judgment in determining the nature and extent of audit evidence required, especially related to assessing the existence of the digital assets and whether the Holding Company controls the digital assets. • We evaluated the sufficiency and appropriateness of audit evidence obtained by assessing the results of procedures performed over the Virtual Digital Assets.

2 Measurement of investments in accordance with Ind AS 109 "Financial Instruments"

On initial recognition, investments are recognized at fair value, in case of Investments which are recognised at fair value through profit and loss (FVTPL), its transaction cost is recognised in the statement of profit and loss. In other cases, the transaction costs are attributed to the acquisition value of the investments.

The Holding Company's investments are subsequently classified into following categories based on the objective of its business model to manage the cash flows and options available in the standard:

- Equity instruments, investments in mutual funds, real estate funds and other funds and virtual currency at fair value through profit or loss (FVTPL) The Holding Company has assessed the following two business model:
- Realising cash flows through the sale of investments. The Holding Company makes decisions based on the assets' fair values and manages the assets to realise those fair values.
- Held to collect contractual cash flows Since valuation of investments at fair value involves critical assumptions, significant risk in valuation and complexity in assessment of business model, the valuation of investments as per Ind AS 109 is determined to be a key audit matter in our audit of the consolidated financial statements.

(Refer notes 2, 7, 40 and 43 to the consolidated financial statements)

Principal Audit Procedures

- Obtained an understanding of Holding Company's business model assessed in accordance with Ind AS 109;
- Evaluated the Holding Company's assessment of business model;
- Obtained an understanding of the determination of the measurement of the investments and tested the reasonableness of the significant judgments applied by the management;
- Evaluated the design of internal controls relating to the measurement and also tested the operating effectiveness of the aforesaid controls;
- Ensured that the Holding Company has used valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.
- Assessed the appropriateness of the disclosure in the consolidated financial statements in accordance with the applicable financial reporting framework.

3 Related party transactions and disclosures

The Holding Company has undertaken transactions with its related parties in the normal course of business.

We have identified the accuracy and completeness of related party transactions and its disclosure as set out in respective notes to the consolidated financial statements as a key audit matter to verify whether the transactions are recorded at arm's length basis, disclosure of such transactions in the financial statements and regulatory compliance thereon during the year ended 31 March 2025.

(Refer note 39 to the consolidated financial Statements)

Principal Audit Procedures

- Obtained, read and assessed the Holding Company's policies, processes and procedures in respect of identifying related parties, evaluation of arm's length, obtaining necessary approvals, recording and disclosure of related party transactions, including compliance of transactions and disclosures in accordance with the regulations.
- We have tested, on a sample basis, related party transactions with the underlying contracts and other supporting documents for appropriate authorization and approval for such transactions.
- We have read minutes of meeting of the Board and its relevant committee meetings and minutes of meetings of those charged with governance in connection with transactions with related parties affected during the year and the Holding Company's assessment of related party transactions being in the ordinary course of business at arm's length and in accordance with the regulations.
- Assessed and tested the disclosures made in accordance with the requirements of Ind AS and the applicable regulations.

Information Other than the Financial Statements and Auditor's Report Thereon

The Holding Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the annual report namely Directors' Report, Annexures to Board Report, Management Discussion and Analysis, Corporate Governance Report, Business Responsibility Statement, but does not include the consolidated financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this auditors' report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Director's Report including Annexures to Board Report, Management Discussion and Analysis, Corporate Governance Report, Business Responsibility Statement, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 (Revised) The Auditor's responsibilities Relating to Other Information'.

Management's and Board of Directors' responsibilities for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance (including consolidated other comprehensive income), consolidated changes in equity and consolidated cash flows of the Holding Company including its associate in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act and other accounting principles generally accepted in India.

The respective Management and Board of Directors of the companies included in the Holding Company and its associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Holding Company and its associate and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Holding Company and its associate are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Holding Company and its associate are also responsible for overseeing the financial reporting process of the Holding Company and its associate.

Auditors' Responsibility for the audit of Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- a) Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- b) Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls system with reference to consolidated financial statements in place and the operating effectiveness of such controls.
- c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- d) Conclude on the appropriateness of Management's and Board of Director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Holding Company and its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Holding Company and its associate to cease to continue as a going concern.
- e) Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- f) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Holding Company and its associate to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we

determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

The consolidated financial statements include the Group's share of net loss after tax of Rs. 27.14 Lakhs for the year ended 31 March 2025, as considered in the consolidated financial statements, in respect of one associate company, whose interim financial statements/ financial information have not been audited by us. This unaudited financial statements/ financial information has been approved and furnished to us by the management. Our conclusion, in so far it relates to the affairs of the associate company, is based solely on such management approved unaudited financial statements/ financial information. According to the information and explanations given to us by the Management, this interim financial statements/ financial information of such associate company is not material to the Group.

Our opinion is not modified in respect of the above matters.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements;
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books, except for the matters stated in the paragraph (i) (vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014;
- (c) The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- (d) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors of the Holding Company as on 31 March 2025 taken on record by the Board of Directors of the Holding Company as on 31 March 2025, none of the directors of the Holding Company, incorporated in India is disqualified as on 31 March 2025 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) The modification relating to the maintenance of accounts and other matters connected therewith, is as stated in paragraph (b) above.
- (g) With respect to the adequacy of internal financial controls over financial reporting of the Holding Company and the operating effectiveness of such controls, refer to our separate report in "Annexure A".
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended:
In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid or provided to the Holding Company's and associate company's directors during the year is in accordance with the provision of Section 197 of the Act.
- (i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Holding Company has disclosed the impact of pending litigations on its consolidated financial position in its consolidated financial statements. Refer Note 35 to the consolidated financial

statements;

- ii. The Holding Company did not have any material foreseeable losses on long-term contracts including derivative contracts during the year ended 31 March 2025; and
- iii. There has been no delay in transferring amounts required to be transferred to the Investor Education and Protection Fund by the Holding Company.
- iv. a) The respective management of the Holding Company and its associate whose financial statements have been audited under the Act, have represented that, to the best of its knowledge and belief and as mentioned in note 53 (i) to the consolidated financial statements, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or its associate to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or its associate ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- b) The respective Managements of the Holding Company and its associate have represented, that, to the best of its knowledge and belief and as mentioned in note 53 (ii) to the consolidated financial statements, no funds (which are material either individually or in the aggregate) have been received by the Holding Company or its associate from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or its associate shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The Holding Company has neither declared nor paid any dividend during the year and accordingly compliance of section 123 of the Companies Act, 2013 is not applicable to the Holding Company.
- vi. Based on our examination, which included test checks, the Holding Company has used accounting software for maintaining its books of account for the financial year ended 31 March 2025 which has a feature of recording audit trail (edit log) facility, that was enabled at the application and the database level. Further, the audit trail facility has been operated throughout the year for all relevant transactions recorded in the accounting software except at the database level the recording of audit trail facility was available for only last two months transactions, for all relevant transactions recorded in the accounting software. During the course of our audit, we did not come across any instance of the audit trail feature being tampered with.

Further, the Holding Company is using independent softwares for CRM and payroll processing which are not integrated with the accounting system of the Holding Company. Based on the output of these softwares, the Holding Company accounts for the entries related to student data management and payroll on a timely basis. Accordingly, in our view, the reporting responsibility under Rule 11(g) is not applicable for these softwares.

Further, the audit trail has been preserved by the Holding Company as per the statutory requirements for record retention.

2. With respect to matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditors Report) Order, 2020, (the "Order" / "CARO"), in our opinion and according to the information and explanations given to us, the companies included in the consolidated financial statements have following qualifications or

adverse remarks given by the auditor in his report under the Companies (Auditor's Report) Order, 2020 (CARO):

Name of the Company	CIN	Clause number of the CARO report

ANNEXURE 'A' TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 1(f) under the heading 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Jetking Infotrain Limited ("the Holding Company") as of and for the year ended 31 March 2025, we have audited the internal financial controls over financial reporting with reference to the financial statements of the Holding Company which is incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("the ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding Company which is incorporated in India based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the ICAI (the "Guidance Note") and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable

assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Holding Company, which is incorporated in India, has in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2025, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2025

1. Corporate information

The consolidated financial statements comprise of financial statements of Jetking Infotrain Limited ('the Company' or 'the Holding Company' or 'Parent') and its subsidiary (collectively, 'the Group'). The Holding Company is a company incorporated under the Companies Act, 1956 and having its Registered Office at 434, Bussa Udyog Bhavan, Tokersi Jivraj Road, Sewri (West), Mumbai 400 015. The Holding Company is engaged in the business of "IT Training in Hardware, Networking and digital courses" having its Head Office at Mumbai. The Holding Company operates through its training centres and affiliate franchisees to provide these services across India, Nepal and South-east Asia.

2. Material accounting policies

2.1 Basis of preparation of financial statements

These consolidated financial statements have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under Section 133 of the Companies Act 2013 ("the Act"), read with the Companies (Indian Accounting Standards) Rules, 2015 as amended.

The consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, and on the basis of accounting principle of a going concern in accordance with generally accepted accounting principles (GAAP). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The consolidated financial statements are presented in lakhs or decimal thereof.

The consolidated financial statements have been presented in accordance with Schedule III-Division II General Instructions for preparation of financial statements of a company that is required to comply with Ind AS.

Basis of consolidation

The consolidated financial statements comprise the financial statements of the Holding Company and its subsidiary (together referred to as "the Group") and its share of the net profit/(loss) after tax and total comprehensive income of its associate company for the year ended March 31, 2025. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- (i) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee).
 - (ii) Exposure, or rights, to variable returns from its involvement with the investee, and
 - (iii) The ability to use its power over the investee to affect its returns
- Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it

has power over an investee, including:

- a) The contractual arrangement with the other vote holders of the investee
- b) The ability to use its power over the investee to affect its returns
- c) The Group's voting rights and potential voting rights
- d) The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated

financial statements to ensure conformity with the group's accounting policies.

The consolidated financial statements have been prepared on the following basis:

- (a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiary. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognized in the consolidated financial statements at the acquisition date.
- (b) Offset (eliminate) the carrying amount of the parent's investment in the subsidiary and the parent's portion of equity of the subsidiary.
- (c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognized in assets, such as inventory and fixed assets, are eliminated in full) except as stated in point no (d). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.
- (d) Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiary to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

(e) **Changes in ownership interests**

The Group treats transactions with non-controlling interests that do not result in a loss of control

as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity.

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in Consolidated Profit and Loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to Consolidated Statement of Profit and Loss.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.”

- (f) The excess of cost to the Parent Company of its investment in the subsidiary over the Parent Company's portion of equity of the subsidiary is recognised in the Consolidated Financial Statements as Goodwill. This Goodwill is tested for impairment at the end of the financial year. The excess of Parent Company's portion of equity over the cost of investment as at the date of its investment is treated as Capital Reserve.
- (g) The financial statements of the subsidiary used in consolidation are drawn upto the same reporting date as that of the Parent Company.
- (h) Following company is consolidated:

Name of Company	Country of incorporation	Reporting currency	Effective date of becoming subsidiary	Nature of principal activity	Extent of holding(%)	
					As at March 31, 2024	As at March 31, 2023
Jetking Technologies Private Limited*	India	INR	January 08, 2013	Facility management and manpower supply services	27.49%	37.67%

* Jetking Technologies Private Limited was a subsidiary till March 27, 2023. It has become associate company of Group on and after the said date.

- (i) Investment in Associates has been accounted under the Equity Method as per Ind AS 28 – Investments in Associates and Joint Ventures.
- (j) The Group accounts for its share of post acquisition changes in net assets of associates, after eliminating unrealised profits and losses resulting from transactions between the Group and its associates.

2.2 Use of estimates

The preparation of the consolidated financial statements in conformity with Ind AS requires the Management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and

liabilities. The disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these consolidated financial statements have been disclosed in Note 53. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the consolidated financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the consolidated financial statements.

2.3 Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle (twelve months) and other criteria set out in the Schedule III to the Act.

2.4 a) Property, plant and equipment

The Group has opted to apply the principles of IND AS retrospectively to all items of property, plant and equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

Property, plant and equipment are stated at cost less accumulated depreciation/ amortisation. Cost includes all cost incidental to acquisition, installation, commissioning allocated to such assets. Freehold land is carried at cost. All other items of property, furniture & fixtures and equipment are stated at cost less depreciation and impairment, if any.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Depreciation methods, estimated useful lives and residual value

The Group depreciates its property, furniture & fixture, equipment over the useful life in the manner prescribed in Schedule II to the Act.

The estimated useful lives of assets are as follows:

Description of assets	Useful life (in years)
Leasehold land	99 years or balance lease period whichever is lower
Leasehold improvement	Over the lease period
Building: Owned	60
Building: Leased	Over the lease period
Plant and machinery	15
Furniture and fixture: Training Centres	8
Furniture and fixture: Support/ Back end Offices	10
Electrical installations	10
Vehicles	8
Office equipments	5
Computers	3

b) Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Group, is classified as investment property. Investment property is measured at its cost, including related transaction costs and where applicable borrowing costs less depreciation and impairment if any.

Depreciation on investment property is provided over its useful life.

c) Intangible assets

Intangible assets are recognised only if it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably. The capitalised cost includes license fees and cost of implementation/ system integration services. The Group has opted for one time transition exemption of considering the carrying cost on the transition date i.e. April 01, 2016 as the deemed cost under Ind AS.

The Group account for all virtual digital assets held as indefinite-lived intangible assets in accordance with Ind AS 38 "Intangible Assets". The Group is having ownership of and control over virtual digital assets. The digital assets are initially recorded at cost. After initial recognition, an intangible asset shall be carried at a revalued amount, being its fair value at the date of the revaluation in accordance with Para 75 of Ind AS 38 "Intangible Assets". For the purpose of revaluations, fair value is measured by reference to an active market i.e. based on quoted prices on the active exchange(s) India to which the Group has determined is the principal market for such assets (Level I inputs). If virtual digital assets carrying amount is increased as a result of revaluation, the increase is recognised in other

comprehensive income and accumulated in equity under the heading of revaluation surplus. However, the increase shall be recognised in profit and loss to the extent that it reverses decrease of the same asset previously recognised in profit and loss. If virtual digital assets carrying amount is decreased as a result of revaluation, the decrease is recognised in profit and loss. However, the decrease shall be recognised in other comprehensive income to the extent of any credit balance in revaluation surplus in respect of the virtual digital assets. The decrease is recognised in other comprehensive income reducing the amount accumulated in equity under the heading of revaluation surplus.

Computer software (intangible assets) is amortised on the straight-line method over a period of thirty six months.

Content development and digitization is amortised on straight line method over a period of thirty six months.

d) Intangible assets under development

Intangible asset under development comprises of content development and development of software.

2.5 Lease

“Leases of assets where the lessor effectively retains substantially all the risks and benefits of ownership of the leased term, are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

As a Lessee: Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Group as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease, unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a lessor: The Group has leased out certain property, plant and equipment on operating leases. Lease income from operating leases is recognised in the Statement of Profit and Loss on a straight line basis over the lease term unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. Initial direct costs are recognised as an expense in the Statement of Profit and Loss in the period in which they are incurred.”

The Group as a Lessee

The Group's lease asset classes primarily consist of leases for office buildings. The group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the group assesses whether: (1) the contract involves the use of an identified asset (2) the group has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognizes a right-of-use asset (“ROU”) and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of the leases. Lease liabilities are re-measured with a corresponding adjustment to the related right of use asset if the group changes its assessment if whether it will exercise an extension or a termination option.

The Group as a lessor

Leases for which the group is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

2.6 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and cash at bank including fixed deposit with original maturity period of less than three months.

2.7 Inventories

Inventories are valued at lower of cost or net realizable value . Cost of inventories comprises of all cost of purchases and other costs incurred in bringing the inventory to their present location and condition. Cost is assigned on First-In-First-Out (FIFO) basis. Obsolete, defective and unserviceable stocks are provided for, wherever required.

2.8 Impairment of financial assets

The Group measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

2.9 Trade receivables

The Group applies the simplified approach to providing for expected credit losses prescribed by Ind AS 109, which permits the use of the lifetime expected loss provision for all trade receivables. The Group has computed expected credit losses based on a provision matrix which uses historical credit loss experience of the Group. Forward-looking information (including macroeconomic information) has been incorporated into the determination of expected credit losses.

2.10 Investment and other financial assets

(i) Classification

The Group classifies its financial assets in the following measurement categories—those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses are recorded in profit or loss (for derivative forward contracts) and other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial assets not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction cost of financial assets carried at fair value through profit or loss are expensed in profit or loss statement.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument by-instrument basis. The classification is made on initial recognition and is irrevocable. If the Group decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to the statement of profit and loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss."

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

Amortised cost - Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income."

(iii) Impairment of financial assets

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables and contract assets only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

(iv) Derecognition of financial assets

A financial asset is derecognised only when:

- The Group has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

2.12 Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. Trade and other payables are unsecured and are presented as current liabilities unless payment is not due within operating cycle determined by the Group after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest rate method.

2.13 Provisions, contingent liabilities and assets

(i) Provisions are recognised when the Group has a present, legal or constructive obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Provisions are determined based on the best estimate required to settle the obligation at the Balance Sheet date.

If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Provisions are reviewed at each Balance Sheet date and adjusted to reflect current best estimates. Provisions are not recognised for future operating losses.”

(ii) The Group makes the provision for anticipated claims from customers on account of material supplied, work undertaken, repair & rectification carried out by the customer, the settlement of which takes place at a later stage of conclusion of the contract.

(iii) Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small. Reimbursement expected in respect of expenditure required to settle a provision is recognised only when it is virtually certain that the reimbursement will be received.

(iv) Contingent liability

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

(v) Contingent assets are disclosed where an inflow of economic benefits is probable.

(vi) Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

2.14 Income recognition

Revenue is measured at the fair value of the consideration received or receivable to which the Group expects to be entitled in exchange for transferring the goods or services to a customer i.e. on transfer of control of the goods or service to the customer. Revenue from sales of goods or rendering of services is net of Indirect taxes, returns and discounts.

Income from operations

a) Training and other allied services

Revenue is recognised at the transaction price that is allocated to the performance obligation i.e. when services are rendered and there are no uncertainties as to its measurability and collectability.

i) Revenue from course fees from training service is recognised over the duration of course and as per agreed terms.

ii) Revenue from other allied services is recognised as and when such services are completed/performed.

b) Franchisee operation

Fixed affiliation income from franchisee operations is recognised based on the proportion of value of services the Group is obliged to provide over the contractual tenure and when there are no significant uncertainties as to its collectability.

c) Royalty income

Royalty income is recognised as per the franchise agreement at specified percentage of gross revenue earned by the franchisee.”

d) Interest

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a timely basis, by reference to the principal outstanding and at the effective interest rate applicable. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of that financial asset.

e) Dividends

Dividend is recognised when the Group's right to receive the amount is established.

2.15 Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The liabilities for privileged leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and

changes in actuarial assumptions are recognised in Statement of Profit and Loss. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The Group operates the following post-employment schemes-

(a) defined benefit plans - gratuity, provident fund (for management employees) and retirement benefit scheme liability.

(b) defined contribution plans- superannuation and provident fund (for non-management employees)

Defined contribution plans

The Group has Defined Contribution plans for post-employment benefits namely Provident Fund, Superannuation Fund and National Pension Scheme.

Under the Provident Fund Plan (including Employee's Pension Scheme 1995), the Group contributes to a Government administered Provident Fund on behalf of its employees and has no further obligation beyond making its contribution.

The Superannuation Fund is administered through trustees and constitutes an insured benefit, which is classified as a defined contribution plan as the Group makes contributions to an insurance Group and has no further obligation beyond making the payment to the insurance Group.

The Group contributes to the National Pension Scheme and has no further obligation beyond making its contribution.

The Group's contributions to the above funds are charged to the Statement of Profit and Loss every year.

Defined benefit plans

The Group has a Defined Benefit Plan namely Gratuity for all its employees. The Gratuity plan provides lump sum payments to vested employees at retirement, death, termination of employment, of an amount, based on the respective employee's salary and tenure of employment. The Group has taken a group gratuity policy with Life Insurance Corporation of India ('LIC') and is funded. Gratuity Fund is recognised by the Income Tax authorities and is administered through trustees.

The cost of providing defined benefits is determined using the projected unit credit method with actuarial valuations being carried out at each reporting date. The defined benefits obligations recognised in the balance sheet represent the present value of the defined benefits obligations as reduced by the fair value of planned assets, if applicable. Any defined benefit asset (negative defined benefit obligations resulting from this calculation) is recognised representing the present value of available refunds and reductions in future contributions to the plan.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability/ (asset) are recognised in the statement of profit and loss. Remeasurements of the net defined benefit liability/ (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amount included in the net interest on the

net defined benefit liability/ asset), are recognised in Other Comprehensive Income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

The Group presents the above liability/ (asset) as current and non-current in the balance sheet as per actuarial valuation by the independent actuary.

Others:

(i) Long Service Awards, liability for which is provided for on the basis of an actuarial valuation, carried out by an independent actuary.

(ii) Termination benefits are recognised as an expense as and when incurred.

2.16 Earnings per share

Basic earnings per share is calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the financial year. Earnings considered in ascertaining the Group's earnings per share is the net profit for the period after deducting any attributable tax thereto for the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

2.17 Significant accounting judgements, estimates and assumptions

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Group's accounting policies. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of Items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed.

Judgements:

In the process of applying the Group's accounting policies, Management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements-

i) Segment Reporting

Ind-AS 108 Operating Segments requires Management to determine the reportable segments for the purpose of disclosure in financial statements based on the internal reporting reviewed by Chief Operating Decision Maker (CODM) to assess performance and allocate resources. The standard also requires Management to make judgments with respect to aggregation of certain operating segments into one or more reportable segment.

The Group has determined that the Chief Operating Decision Maker (CODM) is the Board of Directors (BoD), based on its internal reporting structure and functions of the BoD. Operating segments used to present segment information are identified based on the internal reports used and reviewed by the BoD to assess performance and allocate resources.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

The cost of the defined benefit plan and other post employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on Indian Assured Lives Mortality (2006-08) Ultimate. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and benefit increases are based on expected future inflation rates. Further details about employee benefit obligations are given in Note 38.

i) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. See Note 43 for further disclosures.

ii) Provisions

Provisions and liabilities are recognised in the period when it becomes probable that there will be a future outflow of funds.

iii) Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default, expected loss rates and timing of cash flows. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. Refer note 53 for various judgements and estimates used to create provision for impairment.

2.18 Statement of cash flows

Cash flows are reported using the indirect method, whereby profit/ (loss) before tax is adjusted for the effects of transactions of non cash nature and any deferrals or accruals of past or future cash receipts

or payments. Cash flow for the year are classified by operating, investing and financing activities.

2.19 Income taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The Group determines the tax as per the provisions of Income-tax Act, 1961 and other rules specified thereunder.

Current income tax relating to items recognised outside the statement of profit and loss is recognised either in other comprehensive income or in equity. Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Minimum Alternate Tax (MAT) is accounted as current tax when the Group is subjected to such provisions of the Income Tax Act. However, credit of such MAT paid is available when the Group is subjected to tax as per normal provisions in the future. Credit on account of MAT, is recognised as an asset based on the management's estimate of its recoverability in the future.

Deferred tax

Deferred tax is measured using the balance sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- (i) When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction affects neither the accounting profit nor taxable profit or loss.
- (ii) The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.
- (iii) Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised, or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

- (iv) Deferred tax relating to items recognised outside the statement of profit and loss is recognised either in other comprehensive income or in equity. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.
- (v) Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same tax authority."

2.20 Foreign currency translation

In preparing the financial statements of the Group, transactions in currencies other than the Group's functional currency viz. Indian Rupee are recognised at the rates of exchange prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise.

2.21 Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has notified Ind AS – 117 Insurance Contracts and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions, applicable to the Group w.e.f. April 01, 2024. The Group has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact in its financial statements.

(ii) Estimation of fair value

The fair value of the Company's investment properties as at March 31, 2024 was arrived on the basis of valuation carried out by an external independent valuer registered with the authority which governs the valuer in India. However, for the year ended March 31, 2025, the management has considered the input based on prevailing average market rate of the nearby similar properties in case of some investment properties. The fair value measurement for investment property has been categorised as Level 2 fair value based on the inputs to the valuation technique used. Considering the type of the asset, market approach (sales comparable method) to estimate the fair value of the subject property is adopted. Since the fair value of the properties is determined by the management for the year ended 31 March 2025, the management has considered to give the sensitivity analysis for the value of the properties.

Sensitivity Level (a hypothetical increase / (decrease) by) 10% would result in increase / (decrease) in fair value by Rs.153.23 Lakhs.

The Group has unabsorbed business losses/depreciation and long/short term capital losses of Rs. 1,964.61 lakhs approx. as at March 31, 2025. The realization of the deferred tax assets is dependent on whether there is a sufficient future taxable income in the period during which deductible temporary differences reverses or within the carry forward periods available under the tax law. Based on the current financial position, it is more likely that the same portion or all of the deferred tax assets will not be realized due to no virtual certainty. There is a virtual uncertainty for recovery/ adjustment of the said carried forward losses and accordingly, as per the management assessment, the deferred tax assets only recognized to the extent of available deferred tax liabilities.

2 to 3 years	79.10
3 to 4 years	76.16
4 to 5 years	86.78
5 to 6 years	96.05

d) Description of risk exposures

Valuations are based on certain assumptions, which are dynamic in nature and vary over time. As such Group is exposed to various risks as follows:

- A) Salary increases - Actual salary increases will increase the Plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability
- B) Investment risk - If Plan is funded then assets liabilities mismatch and actual investment return on assets lower than the discount rate assumed at the last valuation date can impact the liability.
- C) Discount rate - Reduction in discount rate in subsequent valuations can increase the Plan's liability.
- D) Mortality and disability - Actual deaths and disability cases proving lower or higher than assumed in the valuation can impact the liabilities.
- E) Withdrawals - Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact Plan's liability.

40 Risk Management

Financial risk management

The risk management policies of the Group are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Management has overall responsibility for the establishment and oversight of the Group's risk management framework. In performing its operating, investing and financing activities, the Group is exposed to the Credit risk, Liquidity risk and Market risk.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include rental deposits and investments.

Revenue / Trade receivable

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is from trade receivables amounting to Rs. 217.23 lakhs and Rs. 141.58 lakhs as at March 31, 2025 and March 31, 2024. Trade receivables are typically unsecured and are derived from revenue earned from customers located in India and out of India. Credit risk has always been managed by the Group through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Group grants credit terms in the normal cause of business.

The Group applies a simplified approach in calculating Expected Credit Losses (ECLs) on trade receivables. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. Based on the provision matrix, the Group has made provision for expected credit loss on trade receivables of Rs. 5.90 lakhs as at March 31, 2025 (as at March 31, 2024 Rs. 9.19 lakhs).

The Group have provided details of revenue from single largest customer, revenue from top 5 customer and ageing of trade receivables below:

41 Liquidity risk

The Group's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Group's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Group closely monitors its liquidity position and deploys a robust cash management system.

The Group's maximum exposure to liquidity risk for the components of the balance sheet at March 31, 2025 and March 31, 2024 is the carrying amounts. The liquidity risk is managed on the basis of expected maturity dates of the financial liabilities. The Group's major financial liabilities include trade payable, employee dues and other deposits which are generally payable within one year. The average credit period taken to settle trade payables is about 30 days. The other payables are with short-term durations. The following table analysis undiscounted financial liabilities by remaining contractual maturities:

42 Capital Management

For the purpose of the Group's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Group. The primary objective of the Group's capital management is to maximise the shareholder value. The Group manages its capital to ensure that it will continue as going concern while maximising the return to stakeholders. The Group manages its capital structure and makes adjustment in light of changes in business condition. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group's policy is to keep optimum gearing ratio. The Group includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents, excluding discontinued operations.

43 Fair value measurement

The fair values of financial assets and liabilities are included at the amount at which the instrument can be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

a) Fair value of cash and cash equivalents, trade and other current financial assets, trade & other payables and short term borrowings approximate their carrying amounts due to the short maturities of these instruments.

b) The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation techniques:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.
- Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.
- Level 3: techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

58 Significant accounting judgements, estimates and assumptions

The preparation of the Group's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets, liabilities, the accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. Estimates and assumptions are reviewed on periodic basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised.

The key assumptions concerning the future and other key sources of estimation, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities, within the next financial year, are described below. The Company's assumptions and estimates are based on parameters available at the time of preparation of financial statements. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(a) Employee benefit plans

The cost of the defined benefit plan and other employment benefits plan are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans, the management considers the interest rates of government bonds in currencies consistent with the currencies of the postemployment benefit obligation. The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at intervals in response to demographic changes. Future salary increases are based on expected future inflation rates.

Based on periodic review of the demographic assumptions, attrition rate assumption used for actuarial valuation of liability related to gratuity has been re-assessed during the year ended March 31, 2025. For the purpose of assessing the attrition rate, the Group considered the historical attrition trend and expected rate based on such trend/ experience. The change in assumption resulted in a decrease of closing gratuity by Rs. 22.68 lakhs, for the year ended March 31, 2025.

Further details about gratuity obligations are given in Note - 38.

(b) Leases

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has several lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain to exercise the option to renew or terminate the lease. It considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate.
