REFFIND signs four new major clients in Australia

- Four new major Australian companies take on the REFFIND solution
- New signings reflect growing demand for REFFIND's platform

Employee experience technology company REFFIND Limited (ASX:RFN) has signed four new major Australian clients to use its employee experience platform.

The new clients are:

- Clayton Utz – one of Australia's leading law firms with 174 partners and over 1,200 employees across six offices around the country
- Health Connex – a wholly-owned subsidiary of Telstra that offers a portfolio of industry-leading systems for the health sector
- ME Bank – a national bank that focuses on providing a range of low-cost banking products, including home loans, term deposits and transaction accounts
- Best IT Engineering – a privately-owned provider of IT device lifecycle services to the clients of IT OEMs, vendors, resellers, distributors and integrators

The signing of these four new clients reflects the benefit of internal referrals for new hires and emphasises the growing demand among Australia's largest organisations for the REFFIND solutions to help facilitate the referrals process.

Clayton Utz and ME Bank have signed on to use the REFFIND EMPLOY solution, while Health Connex is taking on REFFIND's EMBRACE platform, and Best IT Engineering has signed up for both offerings.

REFFIND APAC Vice President Nick Hillier said: "The value of using REFFIND solutions is increasingly being recognised by the corporate sector in Australia and New Zealand. The solution is providing businesses with a mobile, innovative way to collaborate with employees, which companies are finding invaluable. These latest customer additions join businesses such as Johnson & Johnson and Allianz, both of which are now benefiting from REFFIND's solutions."

Best IT Founder and Managing Director John McVicker said: "We make over 400 hires per year so finding the right people quickly is critical. The REFFIND platform provides us with a quick and easy way to identify and hire more of the right people by leveraging the networks of our current staff and alumni. Referred staff become productive faster and cost us a lot less than the traditional recruitment options."
