Applications for Shares offered pursuant to this Prospectus can only be submitted on an original Application Form.

This Prospectus is a transaction specific prospectus for an offer of continuously quoted securities (as defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering prospectus and is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, the Directors and the Company's management.

Continuous disclosure obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Shares.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Please refer to Section 5.2 for further details.

1.2 The Offer

Pursuant to this Prospectus, the Company invites investors identified by the Directors to apply for up to 1,000 Shares at an issue price of \$0.033 per Share, to raise up to \$33 (before expenses).

The Offer will only be extended and Application Forms will only be provided to specific parties on invitation from the Directors.

All of the Shares offered under this Prospectus will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 3 for further information regarding the rights and liabilities attaching to the Shares.

1.3 Background to the Offer

On 19 April 2024, the Company issued 1,000,000 Shares at an issue price of \$0.05 per Share in consideration for providing investor relation services (**Consultant Shares**).

On 19 April 2024, the Company issued 15,100,000 employee incentive Shares (**Plan Shares**) have under the Company's Employee Securities Incentive Plan, which was approved by shareholders on 6 December 2021.

The material terms and conditions of the Plan Shares are attached as Annexure A to the Company's ASX announcement released on 19 April 2024. The Company maintains a lien over the Plan Shares and on any disposal the Company will receive the first \$0.08 per Plan Share and the holder will receive any surplus above the issue price. If all Plan Shares are disposed, the Company will receive proceeds of \$1,208,000.

On 30 May 2024, the Company announced a placement to sophisticated and professional investors to raise \$2 million (before costs) via the issue of 62,121,212 Shares at \$0.033 per Share (**Placement**).

The full impact of the Placement, the issue of the Consultant Shares and Plan Shares and this Offer on the Company's issued capital is set out in Section 2.2.

1.4 Objective

The primary purpose of this Prospectus is to remove any trading restrictions that may have attached to Shares issued by the Company without disclosure under Chapter 6D of the Corporations Act prior to the Closing Date (including prior to the date of this Prospectus). Accordingly, the Company is seeking to raise only a

nominal amount of \$33 under this Prospectus as the purpose of this Prospectus is not to raise capital.

The Company is not currently able to issue a cleansing notice under section 708A(5) of the Corporations Act due to its Shares having been suspended from trading on ASX for more than 5 trading days within the last 12 months. Accordingly, the primary purpose of this Prospectus is to remove any on-sale restrictions that may affect Shares that have been issued prior to the date of lodgement and that may be issued by the Company prior to Closing Date.

Relevantly, section 708A(11) of the Corporations Act provides that a sale offer does not need disclosure to investors if:

- (a) the relevant securities are in a class of securities that are quoted securities of the body; and
- (b) either:
 - (i) a prospectus is lodged with the ASIC on or after the day on which the relevant securities were issued but before the day on which the sale offer is made; or
 - (ii) a prospectus is lodged with ASIC before the day on which the relevant securities are issued and offers of securities that have been made under the prospectus are still open for acceptance on the day on which the relevant securities were issued; and
- (c) the prospectus is for an offer of securities issued by the body that are in the same class of securities as the relevant securities.

1.5 Application for Shares

Applications for Shares must be made by investors at the direction of the Company and must be made using the Application Form accompanying this Prospectus.

Payment for the Shares must be made in full at the issue price of \$0.033 per Share.

Completed Application Forms and accompanying cheques, made payable to "**Pointerra Limited – Share Account**" and crossed "**Not Negotiable**", must be mailed or delivered to the Company at the address set out in the Application Form by no later than the Closing Date.

1.6 Minimum subscription

There is no minimum subscription.

1.7 Oversubscriptions

No oversubscriptions will be accepted by the Company.

1.8 Underwriting

The Offer is not underwritten.

1.9 Issue of Shares

As noted in Section 1.4, the primary purpose of this Prospectus is to remove any trading restrictions that may have attached to Shares issued by the Company without disclosure under Chapter 6D of the Corporations Act prior to the Closing Date (including prior to the date of this Prospectus). If the Directors decide to issue Shares under this Prospectus, the issue of Shares under the Offer will be issued in accordance with the ASX Listing Rules and will take place as soon as practicable after the Closing Date.

Pending the issue of the Shares or payment of refunds pursuant to this Prospectus, all Application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

The Directors will determine the recipients of all the Shares. The Directors reserve the right to reject any Application Form or to allocate any Applicant fewer Shares than the number applied for. Where the number of Shares issued is less than the number applied for, the surplus monies will be returned by cheque as soon as practicable after the Closing Date. Where no issue of Shares is made, the amount tendered on Application will be returned in full by cheque as soon as practicable after the Closing Date. Interest will not be paid on monies refunded.

The Company's decision on the number of Shares to be allocated to an Applicant will be final. Holding statements for Shares issued under the Offer will be mailed as soon as practicable after the issue of Shares as soon as practicable after their issue.

1.10 ASX listing

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of three months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all Application monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

1.11 Applicants outside Australia

The distribution of this Prospectus outside Australia may be restricted by law and therefore persons into whose possession this document comes should seek advice on and observe any such restrictions. Any failure to comply with these restrictions constitutes a violation of those laws.

The Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

Residents of countries outside Australia should consult their professional advisers as to whether any government or other consents are required, or whether any formalities need to be observed should they wish to make an Application to take up Shares on the basis of this Prospectus. The return of a duly completed Application Form will be taken to constitute a representation and warranty that there has been no breach of such laws and that all approvals and consents have been obtained.

2. PURPOSE AND EFFECT OF THE OFFER

2.1 Purpose of the Offer

The purpose of this Prospectus is to remove any trading restrictions that may have attached to Shares issued by the Company prior to the Closing Date (including prior to the date of this Prospectus, being the Consultant Shares and the Plan Shares) and that may be issued by the Company prior to Closing Date.

Under the Offer, an amount of approximately \$33 (before expenses) may be raised. The funds raised from the Offer will be applied towards the expenses of the Offer. Refer to Section 5.8 of this Prospectus for further details relating to the estimated expenses of the Offer.

This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) Dividend rights

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be

applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of Shares contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

4. RISK FACTORS

4.1 Introduction

The Shares offered under this Prospectus should be considered as highly speculative and an investment in the Company is not risk free.

The Directors strongly recommend that prospective investors to consider the risk factors set out in this Section 4, together with information contained in this Prospectus.

The future performance of the Company and the value of the Shares may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are described below.

The risks factors set out in this Section 4, or other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Shares. This Section 4 is not intended to provide an exhaustive list of the risk factors to which the Company is exposed.

If you do not understand any matters contained in this Prospectus or have any queries about whether to invest in the Company, you should consult your accountant, financial adviser, stockbroker, lawyer or other professional adviser.

4.2 Company specific

Risk Category	Risk
Additional requirements for capital	The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing to develop its business. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its operations as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.
Going Concern	The Company's financial statements for the financial year ended 30 June 2023 and the half year ended 31 December 2023 include a note on the financial condition of the Company and the possible existence of a material uncertainty about the Company's ability to continue as a going concern. Notwithstanding the 'going concern' noted included in the Financial Report, the Directors believe that the Company will have sufficient funds to adequately meet the Company's current commitments and short term working capital requirements.

Risk Category	Risk
Technology and software risk	The Company's business is based on software, source code, technology and computer programs which comprise its data privacy platforms. There is a risk that this technology and/or software may be superseded or displaced in the market by new technology offerings or software which customers perceive have advantages over the Company's offerings. Furthermore, the Company's systems can be affected by numerous factors including but not limited to data losses, computer system faults, failures of or suspension from key data feeds, data network failures, and catastrophic events such as a natural disaster, computer viruses or power failure.
Intellectual property and obligations	There is a risk that failure or inability to protect intellectual property rights may have a significant adverse effect on operations, financial performance and competitive advantage. Further, there is a risk that the operations, products, services or platforms may infringe the intellectual property rights of third parties. If any claim of litigation is brought against the Company which alleges an infringement on another party's intellectual property rights, this could result in the Company being subject to significant liability for damages or losing the right to use the intellectual property.
Regulation	Regulation relating to the privacy of personal data continues to evolve in various jurisdictions. Accordingly, there is an exposure to a range of risks relating to compliance with, changes to, or uncertainty in, the relevant legal and regulatory regimes in those jurisdictions. Changes to laws and regulations or failure to comply may have a material adverse effect on the Company's business, financial position, and prospects.
Data risk	By their nature, information technology systems are susceptible to cyber-attacks with third parties seeking unauthorized access to data, networks, systems and databases. Further third-party suppliers may receive and store information from the company or its customers and although this information is limited and subject to confidentiality obligations, if third party suppliers fail to adopt or adhere to robust security practices, any such information may be improperly accessed, used or disclosed.
Customer environment	The Company provides its customers with technology and data solutions that support data protection and ability to securely share data between different customers. Changes in relation to customers perception of the ability to protect data and cost associated with that may have a direct financial impact on the Company customers and therefore an indirect on the Company's financial performance.

Risk Category	Risk
Development	The Company's products and services are the subject of continuous development and need to be substantially developed further in order to gain and maintain competitive and technological advantage, and to improve the products' and services' usability, scalability and accuracy. There are no guarantees that the Company will be able to undertake such development successfully. Failure to successfully undertake such research and development, anticipate technical problems, or estimate research and development costs or timeframes accurately will adversely affect the Company's results and viability.
Infrastructure and technology failure	The Company relies on its infrastructure and technology to provide its customers with a highly reliable service. There may be a failure to deliver this level of service as a result of numerous factors, including human error, power loss, equipment failure, improper maintenance including by landlords and security breaches. Service interruptions, regardless of their cause, may cause contractual and other losses to the Company.
Foreign exchange	The Company will be operating in a variety of jurisdictions. Consequently, movements in currency exchange rates may adversely or beneficially affect the Company's results or operations and cash flows. For example, the appreciation or depreciation of the US dollar relative to the Australian dollar would result in a foreign currency loss or gain. Any depreciation of currencies in foreign jurisdictions in which the Company operates may result in lower than anticipated revenue, profit and earnings of the Company.
Climate Risk	There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include: (a) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and (b) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased

Risk Category	Risk
	severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.

4.3 General risks

Risk Category	Risk
Economic	General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's operations, as well as on its ability to fund those activities.
Market conditions	Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as: (a) general economic outlook; (a) introduction of tax reform or other new legislation; (b) interest rates and inflation rates; (c) changes in investor sentiment toward particular market sectors; (d) the demand for, and supply of, capital; and (e) terrorism or other hostilities. The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in technology in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.
Litigation risks	The Company is exposed to possible litigation risks including intellectual property claims, contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. The Company is not currently engaged in any litigation.
Dividends	Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.

Risk Category	Risk
Taxation	The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All prospective investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally. To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Shares under this Prospectus.
Reliance on key personnel	The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel.
