

Investor Presentation
May 2026

Important information

This presentation has been prepared by AIC Mines Limited (ABN 11060156452) ("the Company" or "AIC Mines") to provide summary information about AIC Mines and its activities at the date of this presentation. The information contained in this presentation does not purport to be complete, and it should be read in conjunction with AIC Mines' other periodic and continuous disclosure announcements lodged with the Australian Securities Exchange, which are available at www.asx.com.au or www.aicmines.com.au.

The presentation should not be construed as an offer or invitation to subscribe for or purchase securities in AIC Mines.

The information contained in this document has been prepared in good faith by AIC Mines, however no guarantee, representation or warranty expressed or implied is or will be made by any person (including AIC Mines and its affiliates and their directors, officers, employees, associates, advisers and agents) as to the accuracy, reliability, correctness, completeness or adequacy of any statements, estimates, options, conclusions or other information contained in this document.

To the maximum extent permitted by law, AIC Mines and its affiliates and their directors, officers employees, associates, advisers and agents each expressly disclaims any and all liability, including, without limitation, any liability arising out of fault or negligence, for any loss arising from the use of or reliance on information contained in this document including representations or warranties or in relation to the accuracy or completeness of the information, statements, opinions, forecasts, reports or other matters, express or implied, contained in, arising out of or derived from, or for omissions from, this document including, without limitation, any financial information, any estimates or projections and any other financial information derived therefrom.

Statements in this document are made only as of the date of this document unless otherwise stated and the information in this document remains subject to change without notice. No responsibility or liability is assumed by AIC Mines or any of its affiliates for updating any information in this document or to inform any recipient of any new or more accurate information or any errors or mis-descriptions of which AIC Mines and any of its affiliates or advisers may become aware.

Forward looking statements

Certain information in this document refers to the intentions of AIC Mines, but these are not intended to be forecasts, forward looking statements or statements about the future matters for the purposes of the Corporations Act or any other applicable law. The occurrence of the events in the future are subject to risk, uncertainties and other actions that may cause AIC Mines' actual results, performance or achievements to differ from those referred to in this document. Accordingly, AIC Mines and its affiliates and their directors, officers, employees and agents do not give any assurance or guarantee that the occurrence of these events referred to in the document will actually occur as contemplated.

Statements contained in this document, including but not limited to those regarding the possible or assumed future costs, performance, dividends, returns, revenue, exchange rates, potential growth of AIC Mines, industry growth or other projections and any estimated company earnings are or may be forward looking statements. Forward-looking statements can generally be identified by the use of words such as 'project', 'foresee', 'plan', 'expect', 'aim', 'intend', 'anticipate', 'believe', 'estimate', 'may', 'should', 'target' or 'will' or similar expressions. These statements relate to future events and expectations and as such involve known and unknown risks and significant uncertainties, many of which are outside the control of AIC Mines. Actual results, performance, actions and developments of AIC Mines may differ materially from those expressed or implied by the forward-looking statements in this document.

Such forward-looking statements speak only as of the date of this document. There can be no assurance that actual outcomes will not differ materially from these statements. To the maximum extent permitted by law, AIC Mines and any of its affiliates and their directors, officers, employees, agents, associates and advisers:

- disclaim any obligations or undertaking to release any updates or revisions to the information to reflect any change in expectations or assumptions;
- do not make any representation or warranty, express or implied, as to the accuracy, reliability or completeness of the information in this document, or likelihood of fulfilment of any forward-looking statement or any event or results expressed or implied in any forward-looking statement; and
- disclaim all responsibility and liability for these forward-looking statements (including, without limitation, liability for negligence).

No new information or data

Information relating to AIC Mines exploration results is extracted from recent ASX announcements released by AIC Mines. The Company confirms that it is not aware of any new information or data that materially affects the information included in these announcements.

Authorisation – This presentation has been approved for issue by, and enquiries regarding this presentation may be directed to Aaron Colleran, AIC Mines Managing Director – email info@aicmines.com.au.

Our Values

AIC Mines is a growth focused Australian resources company.

Our strategy is to build a portfolio of copper and gold assets in Australia through exploration, development and acquisition.

Our core values guide the decisions we make:

Safety – Our first priority is to protect the health and well-being of all our people. We take a proactive approach to health and safety. We strive for continuous improvement in the prevention of occupational injuries and disease. We do not accept unsafe acts or conditions.

Responsibility – We recognise that our work can have an impact on the environment and communities within which we operate. We care about our performance in relation to environmental protection and human rights. We minimise waste in all our activities. We support local community development.

Delivery – We do what we say we will do. We achieve our goals and targets by encouraging excellence, creative thinking and positive change.

Transparency – We value open relationships and communication based on integrity, cooperation, openness and trust, with our people, our stakeholders and the communities in which we operate

AIC Mines

A miner, a developer, an explorer – focused on copper in Australia

Largest Mineral Resource base in the history of the Eloise Copper Mine

Rapidly advancing to expansion and >20ktpa Cu

Consistent operational success

AIC Mines is progressing on its journey to be the next Australian mid-tier copper mining company

A miner, a developer, an explorer

Focused on copper and gold in Australia

Building a new Australian mid-tier copper and gold miner

VALUE CREATION THROUGH PRODUCTION GROWTH

TARGETING COPPER AND GOLD PROJECTS IN AUSTRALIA

GUIDED BY OUR VALUES:

SAFETY RESPONSIBILITY DELIVERY TRANSPARENCY

Eloise Copper Mine

Our foundational asset

Location	60km SE of Cloncurry and 155km ESE of Mt Isa
Tenements	13.9 km ² (Mining Leases) and 2,300km ² (Exploration Permits)
Mineral Resources (incl. Jericho)	631,800t (1.4Blbs) Cu and 445,000oz Au as at 31 December 2025
Ore Reserves (incl. Jericho)	191,000t (421Mlbs) Cu and 139,600oz Au as at 31 December 2024
Historic Production	15.6Mt ore at 2.4% Cu for ~400,000t (860Mlbs) Cu since 1996
Geology	Iron-Sulphide-Copper-Gold deposit
Mining Method	Eloise mined by longhole open stoping and sublevel caving. Jericho mined by longhole open stoping
Processing Method	Conventional crushing, grinding and sulphide flotation circuit with 725ktpa nameplate capacity – currently being expanded to 1.1Mtpa
Product	27% clean Cu concentrate with by-product Au (4.3g/t) and Ag (85g/t)

		FY24	FY25	FY26 Guidance	YTD ¹ – FY26
Copper in Concentrate	<i>Tonnes (lbs)</i>	13,412 (29.6M)	12,863 (28.4M)	12,800-13,100 (28.2-28.9M)	9,958 (22.0M)
Gold in Concentrate	<i>Oz</i>	6,669	5,598	6,000-6,500	4,915
All-in-sustaining-cost	<i>A\$/lb (US\$/lb)</i>	\$5.15 (\$3.40)	\$4.98 (\$3.28)	\$4.85-5.25 (\$3.35-3.62)	\$4.66 (\$3.22)
Net Mine Cashflow	<i>A\$ (US\$)</i>	\$23.1M (\$15.2M)	\$27.4M (\$17.8M)	-	\$50.9M (\$35.1M)
Exploration Spend	<i>A\$ (US\$)</i>	\$6.6M (\$4.36M)	\$10.4M (\$6.8M)	\$7.5M (\$5.2M)	\$4.5M (\$3.1M)

1. At 31 March 2026. NB. AUD:USD – FY23: 0.67, FY24: 0.66, FY25: 0.65, FY26: 0.69

2. All use of 'tonnes', 't', 'kt' refer to metric tonnes. Mineral Resources and Ore Reserves are reported and classified in accordance with the JORC Code (2012). Further information is provided in an Appendix to this presentation.

Eloise Copper Mine

Our foundational asset

- Eloise has delivered 11 consecutive quarters on or exceeding guidance:
- **March 2026 Quarter** – exceeded guidance¹:
 - 3,432t Cu and 1,692oz Au in concentrate at AISC of \$4.18/lb Cu sold (US\$2.86/lb)
 - Generated net mine cash flow of A\$27.7 (US\$19.0) million after Eloise capital
- **FY26 production guidance**² is 12,800-13,200t (28.2-28.9Mlbs) Cu and 6,000-6,500oz Au in concentrate at an AISC of A\$4.85-5.25/lb (US\$3.35-3.62/lb) and AIC of A\$5.10-5.50/lb (US\$3.52-3.80/lb)
 - In the first 9 months¹, the mine has produced 9,958t Cu and 4,915oz Au in concentrate at an AISC of A\$4.68/lb (US\$3.29/lb) Cu and AIC of A\$5.01/lb (US\$3.56/lb) Cu
- **Eloise Ore Reserve**³ is 3.1Mt grading 2.1% Cu and 0.6g/t Au containing 65,600t (145Mlbs) of copper and 57,700oz of gold
- **Eloise Mineral Resource**³ is 5.9Mt grading 2.6% Cu and 0.7g/t Au containing 150,700t (33Mlbs) of copper and 125,900oz of gold

1. For further information see AIC Mines ASX announcement "Quarterly Activities Report" dated 16 April 2026.
2. For further information see AIC Mines ASX announcement "Quarterly Activities Report" dated 21 July 2025.
3. For further information see AIC Mines ASX announcement "Significant Growth in Mineral Resources and Ore Reserves" dated 31 March 2026.

Jericho Copper Deposit

Our next copper mine

- **Acquired in January 2023 – Jericho has transformed Eloise:**
 - Extends project life and supports processing plant expansion
 - Economies of scale to reduce processing costs
 - Lower mining costs at Jericho due to shallower ore
 - Additional ore sources reduces ore production risk
- **Underground access crossed the J1 lens at the end of January 2026¹**
- **Development on target to achieve a combined production rate from Eloise and Jericho of 1.1Mtpa² by December 2026**
- **Jericho Ore Reserve²** is 7.1Mt grading 1.8% Cu and 0.4g/t Au containing 125,400t (145Mlbs) of copper and 81,900oz of gold
- **Jericho Mineral Resource³** is 22.1Mt grading 2.0% Cu and 0.4g/t Au containing 444,900t (33Mlbs) of copper and 275,800oz of gold

1. For further information see ASX announcement “Access Drive Reaches Jericho Mineralisation” dated 2 February 2026.
2. For further information regarding the AIC Mines production target, refer to ASC announcement “Significant Increase in Ore Reserves” dated 16 April 2025. The Company confirms that all material assumptions underpinning the production target continue to apply and have not material changed.
3. For further information see AIC Mines ASX announcement “Significant Growth in Mineral Resources and Ore Reserves” dates 31 March 2026

Access Drive Reaches Jericho

Major growth milestone achieved¹

- Jericho access drive has crossed the J1 lens at Jericho, achieving a major underground development milestone.
- Access confirms mineralisation style and ground conditions are consistent with the Jericho geological model, materially reducing technical risk.
- Provides confidence as detailed mine design and planning for Jericho continues.
- Access achieved ahead of plan, reflecting exploration success at the northern end of the deposit and strong operational execution.
- Since acquisition in 2023, Jericho has progressed through permitting, funding and underground development, validating our growth strategy in Queensland.

Development face passing through the J1 lens at Jericho, showing visible copper sulphide mineralisation. Face dimensions are approximately 5.5m wide by 7.5m high^{1,2}.

1. For more information, see ASX Announcement "Access Drive Reaches Jericho Mineralisation" dated 2 February 2026.
2. Material shown is selectively exposed and may not be representative of the overall grade or width of mineralisation. No samples were taken from this material for laboratory assay.
3. Development progress shown as at end of 31 March 2026.

Eloise Plant Expansion

Expand and improve Eloise

- Development of Jericho supports a plant expansion to 1.1Mtpa throughput capacity (approximately 20,000tpa Cu¹ in concentrate).
- Plant expansion cost and schedule locked in with award of EPC contract to GR Engineering.
 - Awarded on a fixed-cost basis of A\$77.6M² (US\$52.0M)
 - GRE Engineering have made excellent progress – overall EPC progress at 60%, construction at 31% (at end of March 2026 Quarter)
 - Experienced owner's team in place
- All permits are in place to complete construction
- Plant commissioning on schedule to commence in the December 2026 Quarter
- Designed to minimise operational impacts to Eloise during construction
- Expansion includes oversized equipment to allow for a potential second-stage expansion to 1.5Mtpa³

1. For further information regarding the AIC Mines production target, refer to ASC announcement "Significant Increase in Ore Reserves" dated 16 April 2025. The Company confirms that all material assumptions underpinning the production target continue to apply and have not material changed.

2. Excludes contingency. For further information see AIC Mines ASX announcement "Key Contract Awarded for Eloise Plant Expansion" dated 20 June 2025.

3. This throughput rate represents a long-term aspirational goal and does not constitute a production target or forecast. Work is ongoing to assess the technical and commercial requirements that would be necessary to support such an expansion.

Near-Mine Exploration

Resources limited by drilling

- More than 15,500m of drilling was completed at Jericho in CY25 – delivering a 17% increase (63,900t or 141Mlbs) in contained copper.
- This equates to a resource addition cost of A\$33.3/t (US\$23.0/t) or A\$0.015/lb (US\$0.01/lb).
- More than 10,000m of drilling is planned at Jericho (excluding underground grade control drilling), with Jericho open at depth along the full 5km strike.

1. Note: Eloise and Jericho are projected to a plane to capture both deposits on cross section.
2. Mineral Resources and Ore Reserves as at 31 December 2025 – full tables provided as an Appendix to this presentation.

Near-Mine Exploration

Resources limited by drilling

1. Note: Eloise and Jericho are projected to a plane to capture both deposits on long section.
2. Mineral Resources and Ore Reserves as at 31 December 2025 – full tables provided as an Appendix to this presentation.

Exploration Strategy

Focus on transformational discoveries

- The Eloise Regional Project consists of approximately **1,700km² of contiguous, 100% owned tenure** immediately surrounding the Eloise mine.
- **Combined Eloise Region Mineral Resources¹** total 31.2Mt grading 2.0% Cu and 0.4g/t Au for 631,800t (*1.4Blbs*) Cu and 445,800oz Au.
 - This is the largest resource base available to the Eloise plant in it's 30-year history.
- This highly endowed area contains a pipeline of targets from early-stage prospects to known resources.
- Exploration drilling to test the highest number of targets in a decade.
- Exploration focus now also extending south to a **600km² ground position** built up around the Cannington silver-lead-zinc mine, 100km south of Eloise.

1. Mineral Resources and Ore Reserves as at 31 December 2025 – full tables provided as an Appendix to this presentation.

Investment Proposition

Highly credentialed and heavily invested team

Cashflow – high-grade Eloise mine delivering reliable production

Growth – development of Jericho deposit underway, transforming Eloise

Upside – exploration successfully adding mine life and optionality

A growth-oriented Australian copper company
Building a portfolio of mines through exploration, development and acquisition

Sustainability

Embedded in our culture

Safety, in all its forms, is at the heart of our workplace

We are committed to a diverse and inclusive workforce, where all feel safe and valued

We are active members of our community, and honesty leads to cooperative relationships

We understand and minimise our impact, and commit to robust governance and transparency

Growth Strategy

A disciplined approach

Building a portfolio of mines through exploration, development and acquisition

- Targeting late-stage Australian gold and copper projects where we can add value through exploration and development

Our disciplined approach:

- Any acquisition we make must be value-accretive
- Use stepping-stones
- Start small and leverage our expertise to reach scale
- Continue to improve the average asset quality of the portfolio

Eloise Expansion Flowsheet

Simplified process flowsheet for illustrative purposes only.

MROR Growth vs Production

Full details of Eloise Regional (Eloise, Jericho, Sandy Creek and Artemis) Mineral Resources and Eloise Regional (Eloise and Jericho) Ore Reserves are included in this Appendix.

Notes to chart:

- Ore Reserves refers to Proved and Probable Reserves as at the date shown
- 30 June 2022 was the final time the Company reported Mineral Resources and Ore Reserves in alignment with the Financial Year and indicates the Resource and Reserve position prior to the Jericho Acquisition.
- 31 January 2023 is offset from the end of the prior year due to the incorporation of the Jericho Mineral Resources into the Company's Resources.
- Indicated Resources are shown excluding Ore Reserves.
- Mining Depletion is cumulative and is shown on a calendar year basis for 2022, 2023, 2024 and 2025.
- Mining Depletion is shown as copper in concentrate produced.

Eloise Regional MROR Growth

For full details of Eloise Regional (Eloise, Jericho, Sandy Creek and Artemis) Mineral Resources and Ore Reserves see AIC Mines ASX announcements:

- As at 31 December 2025 – “Significant Increase in Mineral Resources and Ore Reserves” dated 31 March 2026.
- As at 31 December 2024 – “Significant Increase in Mineral Resources” dated 19 March 2025 and “Significant Increase in Ore Reserves” dated 16 March 2025.
- As at 31 December 2023 – “Increased Resources and Reserves at Eloise, Sandy Creek and Artemis” dated 18 April 2024, “Significant Increase in Jericho Mineral Resource” dated 30 January 2024 and “Significant Increase in Jericho Ore Reserve” dated 28 March 2024.
- As at 31 January 2023 – “Jericho Mineral Resource” dated 6 February 2023
- As at 31 December 2022 – “Significant Increase in Mineral Resources and Ore Reserves at Eloise Copper Mine” dated 30 March 2023
- As at 30 June 2022 – “Increase in Mineral Resources and Ore Reserves at Eloise Copper Mine” dated 22 August 2022
- As at 30 June 2021 – “Significant Increase in Mineral Resources at Eloise Copper Mine” dated 14 December 2021. Note the upgrade is a result of incorporating the new void model as no additional drilling information beyond 30 June 2021 was used for this update.
- As at 30 June 2021 – “Transformational Acquisition AIC to Acquire the Eloise Copper Mine” dated 31 August 2021

Eloise Project Mineral Resources

Total	10,244,000	1.9	0.4	3.8	191,000	139,600	1,261,400

Notes:

- Eloise Ore Reserves are estimated using a 1.3% Cu cut-off above 0mRL (1,190mBSL) and 1.8% Cu below 0mRL.
- Jericho Ore Reserves are estimated using a 1.3% Cu cut-off within optimised stope shapes.
- Tonnages have been rounded to the nearest 1,000 tonnes.

For full details of Eloise and Jericho Ore Reserves see AIC Mines ASX announcement “Significant Growth in Mineral Resources and Ore Reserves” dated 31 March 2026. The Competent Person for the Eloise Ore Reserves is Mr Randy Lition. The Competent Person for Jericho Ore Reserves is Mr Craig Pocock.

These documents are available to view at www.aicmines.com.au. The Company confirms that it is not aware of any new information or data that materially affects the information included in the releases and that all material assumptions and parameters underpinning the estimates in the release continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Persons’ findings are presented have not been materially modified from the releases.

AIC Mines employees acting as a Competent Person may hold equity in AIC Mines Limited and may be entitled to participate in AIC Mines’ Equity Participation Plan, details of which are included in AIC Mines’ annual Remuneration Report. Annual replacement of depleted Mineral Resources is one of the vesting conditions of AIC Mines’ long-term incentive plan.

Eloise and Jericho Production Outlook

COMBINED PRODUCTION OUTLOOK AS AT 31 DECEMBER 2024

	Units	FY26	FY27	FY28
Production Target (Low – High)	<i>t Cu in conc.</i>	12,400 – 13,200	18,000 – 20,000	20,000 – 24,000
Proportion Probable Reserves	%	96%	82%	83%
Proportion Inferred Resources	%	4%	18%	17%
Proportion Eloise	%	99%	79%	70%
Proportion Jericho	%	1%	21%	30%

Production Outlook refers to the FY26, FY27 and FY28 Production Targets.

The FY27 Production Target is composed of 82% Probable Ore Reserves and 18% Inferred Mineral Resources. The FY28 Production Target is composed of 83% Probable Ore Reserves and 17% Inferred Mineral Resources.

There is a low level of geological confidence associated with Inferred Mineral Resources and there is no certainty that further exploration work will result in the determination of Indicated Mineral Resources or that the Production Target itself will be realised.

For full details of the Eloise and Jericho Production Outlook see AIC Mines ASX announcement “Significant Increase in Ore Reserves” dated 16 April 2025. This document is available to view at www.aicmines.com.au. The Company confirms that it is not aware of any new information or data that materially affects the information included in the announcement and that all material assumptions and parameters underpinning the estimates in the announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Persons’ findings are presented have not been materially modified from the releases.

The Competent Person for the Eloise Production Target is Mr Randy Lition. The Competent Person for Jericho Production Target is Mr Craig Pocock.

AIC Mines employees acting as a Competent Person may hold equity in AIC Mines Limited and may be entitled to participate in AIC Mines’ Equity Participation Plan, details of which are included in AIC Mines’ annual Remuneration Report. Annual replacement of depleted Mineral Resources is one of the vesting conditions of AIC Mines’ long-term incentive plan.
