ANNUAL REVIEW 2011

LandMark White Limited (LMW Group) Summary of Results for the year ending 30 June 2011.

We are pleased to present our Annual Report for the year ended 30 June 2011

Financial Results for 2010 - 11

As a result of a strong finish in revenues Profit Before Tax was \$684k, which was higher than range of \$550k to \$650k outlook provided on 24th June 2011. As a result of its previously announced decision to concentrate on core operations of property valuations, LandMark White has discontinued its involvement with funds management. Profit Before Tax from continuing operations was \$903k. Whilst not considered a satisfactory return for shareholders the result was achieved in one of the most difficult years on record in the property market. Profit After Tax was \$462k (\$616k from continuing operations) this represented 1.7 cents per share (2.2 cents from continuing operations)

Revenue

Revenue from continuing operations of \$22.2M was \$299k higher than the previous year of \$21.9M. Revenues from Residential valuations increased whilst Commercial valuation revenues declined.

Cash at Bank

Cash at bank for LandMark White Limited as at 31 August 2011 was \$2.9M.

Dividends

The Board has decided to declare a final fully franked dividend of 2 cents per share payable on 7 October 2011. Total dividend paid/payable in respect of the 2011 financial year is 3 cents. Dividends remain fully franked.

Debt Free

Despite the continued difficult trading conditions LandMark White Limited remains debt free.

ANNUAL REVIEW 2011 (continued)

The following is a summary of the financial results for the year ended 30 June 2011 (previous corresponding period 30 June 2010).

	Year ended 30 June 2011 \$000s	Year ended 30 June 2010 \$000s	Increase/ (Decrease) \$000s	% Change
Revenue from Continuing Operations	22,219	21,920	+ 299	Up 1.4 %
Profit before tax from continuing operations	903	1,635	(732)	Down 44.8 %
Income tax expense	287	544	(257)	Down 47.2 %
Net Profit after tax from continuing operations	616	1,091	(475)	Down 43.5 %
Net (loss) from discontinuing operations	(154)	(146)	(8)	
Net Profit attributable to members	462	945	(483)	Down 51.1 %

Outlook

In the wake of the Global Financial Crises Australia and the world is now in the midst of a Debt Crisis. As businesses and consumers continue to deleverage, property activity (purchase, sale, leasing, financing) has continued to be subdued. This has meant that we have not seen a recovery from our traditional mortgage based clients and LandMark White has responded by continuing to expand into other non-mortgage valuation areas.

As financiers have struggled with falling volumes they have continued to rationalise their internal structures whenever possible. This has included several announcements by banks to move to automated valuation management systems. While not replacing valuations these systems automate both the delivery of instructions and receipt of valuation data and valuation reports. LandMark White has over the past years invested heavily in IT which should place us in a strong position as IT connectivity between service suppliers and financial institutions become of greater importance.

While the only consensus as to the general direction of the market is one of volatility, we believe that our management and IT solutions will continue to provide a platform for a profitable future while remaining well placed to take advantage of market improvement as companies Australia-wide look to improve their financial position coming out of this debt crisis.

We would like to thank our management team and staff for their continued hard work and commitment to LMW Group

CORPORATE GOVERNANCE STATEMENT

In developing LandMark White's corporate governance policies, the board has been guided by the 'Corporate Governance Principles and Recommendations' published by the ASX Corporate Governance Council. This statement outlines the main corporate governance practices in place throughout the financial year, and the extent to which LandMark White follows the Best Practice Recommendation. Where the Company has not followed a recommendation, the recommendation is identified and the reasons are given for not following it.

**DIRECTORS' REPORT
FOR THE YEAR ENDED 30 JUNE 2011**

CORPORATE GOVERNANCE STATEMENT (continued)

Role of the Board

The board's primary role is the protection and enhancement of long-term shareholder value. The board is comprised of one independent and two non-independent directors.

To fulfil this role, the board is responsible for the overall corporate governance of the Consolidated Entity including formulating its strategic direction, approving and monitoring capital expenditure, setting remuneration, appointing, removing and creating succession policies for directors and senior executives, establishing and monitoring the achievement of management's goals and ensuring the integrity of internal controls, management information and risk management systems. It is also responsible for approving and monitoring financial and other reporting. Details of the board's charter are located on the Company's website.

CORPORATE GOVERNANCE STATEMENT

The board has delegated responsibility for operation and administration of the Company to the Chief Executive Officer (CEO) and senior executives. Responsibilities are delineated by formal authority delegations. The performance of senior executives is reviewed annually by the CEO. The performance of the CEO is reviewed annually by the Chairman.

Board processes

To assist in the execution of its responsibilities, the board has established an Audit and Risk Management Committee and a Remuneration Committee. The committees have a written mandate and operating procedures, which are reviewed on a regular basis.

The board has elected not to establish a Nominations Committee (Best Practice Recommendation 2.4 as set by the ASX Corporate Governance Council) on the basis that it is only a relatively small board and the board is able to efficiently carry out the functions that would otherwise be delegated to the Nominations Committee. The conditions of the appointments of non-executive directors are set in a letter of appointment including expectations of attendance at board meetings, appointments to other boards, procedures for dealing with conflicts of interest and availability of independent professional advice.

The full board currently holds at least four scheduled meetings each year including a strategy meeting. Extraordinary meetings are held at such other times as may be necessary to address any specific significant matters that may arise.

The agenda for meetings is prepared in conjunction with the Chairman, Chief Executive Officer and Company Secretary. Standing items include the Chief Executive Officer's report, financial reports, strategic matters, governance and compliance. Submissions are circulated in advance.

Director and executive education

The Consolidated Entity has a process to inform new directors about the nature of the business, current issues, the corporate strategy and the expectations of the Consolidated Entity concerning performance of directors. Directors also have the opportunity to visit Consolidated Entity facilities and meet with management to gain a better understanding of business operations.

The Group also has a process to educate new senior executives upon taking such positions. The induction process includes reviewing the Group's structure, strategy, operations, financial position and risk management policies. It also familiarises the individual with the respective rights, duties, responsibilities and roles of the individual and the Board.

Independent professional advice and access to company information

Each director has the right of access to all relevant company information and to the Company's executives and, subject to prior consultation with the Chairman, may seek independent professional advice from a suitably qualified advisor at the Consolidated Entity's expense. The director must consult with an advisor

CORPORATE GOVERNANCE STATEMENT (continued)

suitably qualified in the relevant field, and obtain the Chairman's approval of the fee payable for the advice before proceeding with the consultation. A copy of the advice received by the director is made available to all other members of the board.

Composition of the Board

The names of directors of the Company in office at any time during or since the end of the financial year are set out in the Directors' report on pages 4 and 5.

The composition of the board is determined using the following principles:

- a minimum of three directors, with a broad range of expertise, a majority of directors having extensive knowledge of the Company's industry, and those who do not, have extensive expertise in significant aspects of auditing and financial reporting or operational and financial management of a professional services organisation
- a majority of independent directors

The current composition of the board no longer meets the second of these two principles. At the present time the decision to refocus on the core valuation business and to dispose of the funds management business has made this requirement not cost effective given the size of the organization.

The Chairman of the Company is Mr Stuart Gregory who is non-executive and independent. ASX Best Practice Recommendation 2.2 is that the Chairperson of the board should be independent. During the year Mr Glen White was chairman and non-independent. The board believed that its composition was appropriate. Mr White is a co-founder of the group and brings over 35 years extensive experience in the valuation profession. In addition, appropriate conflict of interest policies are in place to ensure material personal interests are disclosed. However given the recent reduction in size of the Board with the resignation of two independent directors it was felt that it was appropriate to appoint a non-executive chairman. At the date of this report the board is no longer comprised of a majority of independent directors. However given the size of the Board the Company believes the appointment of a non-executive chairman is sufficient to ensure adequate corporate governance.

An independent director is a director who is not a member of management, known as a non-executive director, and who:

- holds less than 5% of the voting shares of the Company and is not an officer of, or otherwise associated, directly or indirectly, with a shareholder of more than 5% of the voting shares of the Company
- has not within the last three years been employed in an executive capacity by the Company or another group member, or been a director after ceasing to hold any such employment
- within the last three years has not been a principal or employee of a material* professional advisor or a material* consultant to the Company or another group member
- is not a material* supplier or client of the Company or another group member, or an officer of or otherwise associated, directly or indirectly, with a material* supplier or client
- has no material* contractual relationship with the Company or another group member other than as a director of the Company
- is free from any interest and any business or other relationship which could, or could reasonably be perceived to materially* interfere with the director's ability to act in the best interests of the Company.

* the board considers, 'material', in this context, to be where any director-related business relationship has represented or is likely in future to represent the lesser of at least 10% of the relevant segment's or the director-related business's revenue. The board considered the nature of the relevant industries' competition, and the size and nature of each director related business relationship, in arriving at this threshold.

CORPORATE GOVERNANCE STATEMENT (continued)

Audit Committee

The Audit Committee has a documented charter, approved by the board. All members should be independent non-executive directors. The Chairman of the Audit Committee should not be the Chairman of the board. The committee advises on the establishment and maintenance of a framework of internal control and appropriate ethical standards for the management of the Consolidated Entity. Given the reduction in size of the Board it is no longer possible to meet either of these criteria.

The members of the Audit Committee during the year were:

- Mr Stuart Gregory, B. Comm (Hons) CPA (Chairman) – Independent Non-Executive
- Mr Glenn White – Non-Independent appointed 4 August 2011
- Mr David Hobart – Independent Non-Executive resigned 12 July 2011

The Audit Committee only comprised two members, which is not in line with the Best Practice Recommendation 4.3 set by the ASX Corporate Governance Council. Due to the size of the Company and the number of non-executive directors it is currently not possible to comply with Recommendation 4.3. The external auditors, the Chief Executive Officer and Chief Financial Officer are invited to Audit Committee meetings at the discretion of the committee. The committee met 3 times during the year and attendance is recorded on page 5 of this report. The Chief Executive Officer and the Chief Financial Officer declared in writing to the board that the Company's financial reports for the year ended 30 June 2011 present a true and fair view, in all material respects, of the Company's financial condition and operational results and are in accordance with relevant accounting standards. This statement is required annually and is founded on a sound system of risk management and internal compliance and control which implements the policies adopted by the board.

The Audit Committee's charter is available on the Company's website. Information on procedures for the selection and appointment of the external auditor and for the rotation of external audit engagement partners is on the Company's website.

The responsibilities of the Audit Committee include reporting to the board on:

- reviewing the annual and half year financial reports and other financial information distributed externally. This includes approving new accounting policies to ensure compliance with Australian Accounting Standards and generally accepted accounting principles, and assessing whether the financial information is adequate for shareholder needs
- assessing management processes supporting external reporting
- assessing corporate risk assessment processes
- assessing whether non-audit services provided by the external auditor are consistent with maintaining the external auditor's independence. The external auditor provides an annual declaration of independence as set out in APES 110 Code of Ethics for professional Accountants
- reviewing the nomination and performance of the external auditor
- establishing procedures for selecting, appointing, and if necessary, removing the external auditor
- assessing the adequacy of internal control framework and the Company's code of ethical standards
- monitoring the procedures to ensure compliance with the Corporations Act 2001 and the ASX Listing Rules and all other regulatory requirements
- addressing any matters outstanding with auditors, Australian Taxation Office, Australian Securities and Investments Commission, ASX and financial institutions.

FOR THE YEAR ENDED 30 JUNE 2011**

CORPORATE GOVERNANCE STATEMENT (continued)

The Audit Committee reviews the performance of the external auditors on an annual basis and normally meets with them during the year to;

- discuss the external audit plans, identifying any significant changes in structure, operations, and internal controls or accounting policies likely to impact the financial statements and to review the fees proposed for the audit work to be performed;
- review the half-year and preliminary final report prior to lodgement with the ASX, and any significant adjustments required as a result of the auditor's findings, and to recommend board approval of these documents, prior to announcement of results;
- finalise half-year and annual reporting to:
 - review the results and findings of the auditor, the adequacy of accounting and financial controls, and to monitor the implementation of any recommendations made;
 - review the draft financial report and recommend board approval of the financial report;
- as required, to organise, review and report on any special reviews or investigations deemed necessary by the board.

Risk Management

Oversight of the risk management system

Management has established and implemented a fully comprehensive formal Risk Management System for assessing, monitoring and managing operational, financial reporting and compliance risks for the Consolidated Entity. The Chief Executive Officer and the Chief Financial Officer declare annually, in writing to the board, that the financial reporting risk management and associated compliance and controls have been assessed and found to be operating efficiently and effectively in all material respects.

Risk management and compliance and control

The Consolidated Entity strives to ensure that its services are of the highest standard. Towards this aim it has undertaken a program to achieve AS/NZS ISO 9002 standards for each of its business segments.

The board is responsible for the overall internal control framework, but recognises that no cost effective internal control system will preclude all errors and irregularities.

Comprehensive practices have been established to ensure:

- capital expenditure and revenue commitments above a certain size obtain prior board approval
- occupational health and safety standards and management systems are monitored and reviewed to achieve high standards of performance and compliance with regulations
- business transactions are properly authorised and executed
- financial reporting accuracy and compliance with the financial reporting regulatory framework (see below)
- environmental regulation compliance (see below)

Financial reporting

Monthly actual results are reported against budgets approved by the directors and revised forecasts for the year are prepared regularly.

Environmental regulation

The Consolidated Entity's operations are not subject to any significant environmental regulations under either Commonwealth or State legislation.

FOR THE YEAR ENDED 30 JUNE 2011

CORPORATE GOVERNANCE STATEMENT (continued)

Ethical Standards

All directors, managers and employees are expected to observe the highest standards of corporate and individual integrity and objectivity, striving at all times to enhance the reputation and performance of the Consolidated Entity. Every employee has a nominated supervisor to whom they may refer any issues arising from their employment. The board reviews the Directors' Code of Ethics and the Code of Conduct for Transactions in securities regularly and processes are in place to promote and communicate these policies. A formal code of conduct for employees has been given to all Directors and Employees.

Conflict of interest

Directors must keep the board advised, on an ongoing basis, of any interest that could potentially conflict with those of the Company.

Where the board believes that a significant conflict exists for a director on a board matter, the director concerned does not receive the relevant board papers and is not present at the meeting whilst the item is considered. Details of director related entity transactions with the Company and Consolidated Entity are set out in Note 28 to the financial statements.

Trading in general company securities by directors and employees

The key elements of the Code of Conduct for Transactions in Company Securities by Directors and Employees are:

- identification of those restricted from trading – directors and all staff may acquire shares in the Company, but are prohibited from dealing in Company shares;
 - during the five week period preceding the announcement of half-year and annual results to the Australian Stock Exchange ("ASX");
 - whilst in possession of price sensitive information not yet released to the market;
- requiring details to be provided of intended trading in the Company's shares and approval to be given;
- details may be required to be provided of the subsequent confirmation of the trade;
- identification of processes for unusual circumstances where discretion may be exercised in cases such as financial hardship.

Communication with shareholders

The board provides shareholders with information using a comprehensive Continuous Disclosure Policy which includes identifying matters on a timely basis that may have a material effect on the price of the Company's securities, ensuring the matters are factual and expressed in a clear and factual way, notifying the ASX, posting them on the Company's website, and issuing media releases. The Chief Executive Officer and Company Secretary are accountable for ensuring adherence to the Continuous Disclosure Policy.

Consistent with the Continuous Disclosure Policy, LandMark White is committed to communicating with shareholders in an effective and timely manner, so as to provide them with ready access to information relating to LandMark White. LandMark White maintains an extensive website (www.lmw.com.au).

Shareholders are encouraged to attend and participate in general meetings of the Company. Shareholders are provided with details of any proposed meetings well in advance of the relevant dates. The external auditor will attend any Annual General Meeting and be available to answer questions from shareholders about the conduct of the audit and the preparation and content of the auditor's report.

REMUNERATION REPORT- AUDITED

Remuneration Committee

The role of the Remuneration Committee is to ensure that the remuneration policies and outcomes achieve an appropriate balance between the interests of LandMark White shareholders and rewarding and motivating executives and employees in order to achieve their long term commitment to the Consolidated Entity. The committee meets as required.

The members of the Remuneration Committee during the year were:

- Mr Glen White (Chairman) – Non-independent and non-executive
- Mr David Hobart – Independent and non-executive - resigned 12 July 2011
- Mr Stuart Gregory - Independent and non-executive

Remuneration policies

Remuneration levels are competitively set to attract and retain appropriately qualified and experienced directors and senior executives. Remuneration packages of executives and the Chief Executive Officer include a mix of fixed remuneration and performance-based remuneration. The executive remuneration structures set out below are designed to attract suitably qualified candidates, and to affect the broader outcome of increasing the Consolidated Entity's net profit attributable to members of the parent entity.

The remuneration of the Consolidated Entity's senior executives and each of the five named executives receiving the highest remuneration includes a mix of fixed and performance based incentives. The fixed component consists of base remuneration, allowances and superannuation. The performance based component is a cash bonus based on a share of a fixed percentage of the level of profit of the executives' operational division. The performance-based component of the remuneration of the Chief Executive Officer is based on a fixed percentage of the increase in the level of profit after tax of the consolidated group. The board considers that the performance-linked incentive is appropriate as it directly aligns the individuals reward with the consolidated entity's performance.

Non-executive directors do not receive any retirement benefits.

The board considers that the above performance-linked remuneration structure is generating the desired outcome even in the very difficult trading conditions that have been experienced during the past twelve months due to the global economic crisis.

In considering the Consolidated Entity's performance the board has regard to the following indices in respect of the current financial year and previous years.

	2011	2010	2009	2008	2007
	\$000s	\$000s	\$000s	\$000s	\$000s
Services revenue	22,219	22,377	23,563	30,099	27,987
Net profit/(loss) to equity holders of the company	462	955	(635)	2,108	1,755
Dividends declared (per share)	\$0.03	\$0.035	\$0.02	\$0.058	\$0.052
Share price at the end of the period	\$0.30	\$0.35	\$0.26	\$0.62	\$0.65
Change in share price	(\$0.05)	\$0.09	(\$0.36)	(\$0.03)	-

Remuneration and other terms of employment for the executive directors and senior management are formalised in service contracts. Senior management contracts are for an unlimited period but are capable of termination on 3 months notice, or by making payment equal to 3 months pay in lieu of notice. Mr Bradley Piltz, Chief Executive Officer, has a contract for an unlimited period which may be terminated with 24 months

notice, or by making payment equal to 24 months pay in lieu of notice. The terms of remuneration are designed to align senior management compensation with the interests of shareholders by including performance related bonuses. These payments are linked to the achievement of individual and company objectives which are relevant to meeting LandMark White's overall goals.

Non-executive directors are paid an annual fee for their service on the board and committees which is determined by the Remuneration Committee. Total remuneration for all non-executive directors is not to exceed \$400,000 per annum. The non-executive directors' total fees for the year were \$198,573. These fees include statutory superannuation. Non-executive directors do not receive bonuses nor are they currently entitled to be issued with further options on securities in the Consolidated Entity.

The consolidated entity has a policy that prohibits those that are granted share-based payments as part of their remuneration from being compensated for changes in value of the underlying securities.

INDEMNIFICATION AND INSURANCE OF OFFICERS

Indemnification

The Consolidated Entity has agreed to indemnify all current Directors of LandMark White Limited to the maximum extent permitted by law against any liability incurred by them by virtue of their holding office as an officer of the Consolidated Entity other than:

- a liability owed to the Consolidated Entity or a related body corporate of the Company;
- a liability for a pecuniary penalty order under section 1317G of the Law or a compensation order under section 1317H of the Law; or
- a liability owed to a person other than the Consolidated Entity that did not arise out of conduct in good faith.

Insurance Premiums

Since the end of the previous financial period, the Consolidated Entity has paid premiums in respect of Directors and Officers liability insurance, for all past, present, or future director, secretary, officer or employee of the Consolidated Entity. Conditions of the Insurance policy restrict disclosure of the premium amount.

The insurance premiums relate to:

- costs and expenses incurred by the relevant officers in defending proceedings, whether civil or criminal and whatever their outcome
- other liabilities that may arise from their position, with the exception of conduct involving a wilful breach of duty or improper use of information or position to gain a personal advantage.

Further details of insurance policies have not been disclosed as the policies prohibit such disclosure.

AUDITORS INDEPENDENCE DECLARATION UNDER SECTION 307C OF THE CORPORATIONS ACT 2001

The auditor's independence declaration is set out on page 23 and forms part of the Directors' Report for the financial year ended 30 June 2011.

NON-AUDIT SERVICES

During the year William Buck, the Company's auditor, has performed certain other services in addition to their statutory duties.

The board has considered the non-audit services provided during the year by the auditor and in accordance with written advice provided by resolution of the audit committee, is satisfied that the provision of those non-audit services during the year by the auditor is compatible with, and did not compromise, the auditor independence requirements of the Corporations Act 2001 for the following reasons:

- all non audit services were subject to the corporate governance procedures adopted by the Consolidated Entity and have been reviewed by the audit committee to ensure that they do not impact the integrity and objectivity of the auditors; and
- the non-audit services provided do not undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants, as they did not involve reviewing or auditing the auditor's own work, acting in a management or decision making capacity for the Consolidated Entity, acting as an advocate for the Consolidated Entity or jointly sharing risks and rewards.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2011

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

LandMark White Limited (the 'Company') is a company incorporated and domiciled in Australia. The consolidated financial statements of the Company for the financial year ended 30 June 2011 comprise the Company and its subsidiaries (together referred to as the 'Consolidated Entity'). The principal business activities of the Consolidated Entity during the year were commercial and residential property valuations and funds management.

The financial statements were authorised for issue by the directors on 22 September 2011.

(a) Statement of compliance

The financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards (including Australian Accounting Interpretations) adopted by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001. The financial statements of the Consolidated Entity comply with International Financial Reporting Standards ('IFRS') and Interpretations issued by the International Accounting Standards Board ('IASB').

(b) Basis of measurement

The consolidated financial statements have been prepared on an accrual basis and are based on historical cost, modified, where applicable by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

(c) Functional and presentation currency

These consolidated financial statements are presented in Australian dollars which is the Company's functional currency and the functional currency of all entities within the Consolidated Entity.

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements, and have been applied consistently by entities within the Consolidated Entity.

(d) Use of estimates and judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected. The estimates and judgements that have a significant risk of causing a material adjustment to the carrying amounts of the assets and liabilities within the next financial year are discussed below.

Impairment of goodwill

The Consolidated Entity assesses whether goodwill is impaired at least annually in accordance with the accounting policy in note (g). These calculations involve an estimation of the recoverable amount of the cash-generating units to which the goodwill are allocated.

Provisions

The Consolidated Entity assesses whether a provision should be raised at the end of the reporting period to settle future potential obligations. The calculation for determining the amount of the provision is based on the potential loss from the future obligation and the likelihood of the consolidated entity incurring that obligation.

ABN 50 102 320 329

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2011

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(e) Basis of consolidation

(i) Subsidiaries

Subsidiaries are entities controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Non controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of comprehensive income, statement of financial position and statement of changes in equity.

(ii) Transactions eliminated on consolidation

Intra-group balances and any unrealised income and expenses arising from intra-group transactions are eliminated in preparing the consolidated financial statements.

(f) Property, plant and equipment

(i) Recognition and measurement

All business combinations are accounted for by applying the purchase method. Goodwill represents the difference between the cost of the acquisition and the fair value of the net identifiable assets acquired.

Items of property, plant and equipment are stated at cost less accumulated depreciation (see below) and impairment losses (see accounting policy (k)).

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognised net within "other income" in profit and loss.

(ii) Depreciation

Depreciation is charged to the statement of comprehensive income on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives, unless it is reasonably certain that the Consolidated Entity will obtain ownership by the end of the lease term.

The estimated useful lives in the current and comparative periods are as follows:

- | | |
|------------------------------|-------------------------------|
| ■ office equipment | 2-5 years |
| ■ furniture and fittings | 4-5 years |
| ■ leasehold and improvements | life of the lease or 10 years |

The residual value, the useful life and the depreciation method applied to an asset are reassessed at least annually.

Business combinations

All business combinations are accounted for by applying the purchase method. Goodwill represents the difference between the cost of the acquisition and the fair value of the net identifiable assets acquired.

Goodwill is stated at cost less any accumulated impairment losses. Goodwill is allocated to cash-generating units and is no longer amortised but is tested annually for impairment (see accounting policy (k)).

Where Goodwill includes amounts that are payable contingent on the achievement of performance targets, the Company reviews its performance annually and if the estimate of the amount payable needs to be revised it adjusts the cost of the business combination accordingly.

(ii) Subsequent expenditure

Subsequent expenditure on capitalised intangible assets is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

(h) Trade and other receivables

Trade receivables, which generally have 30-90 day terms, are recognised initially at fair value and subsequently measured at amortised cost after making an assessment of the recoverability of receivables over 120 days (see accounting policy (k)).

Collectability of trade receivables is reviewed on an ongoing basis. Individual debts that are known to be uncollectible are written off when identified. An impairment provision is recognised when there is objective evidence that the Consolidated Entity will not be able to collect the receivable. Financial difficulties of the debtor, default payments or debts more than 120 days overdue are considered objective evidence of impairment. The amount of the impairment loss is the receivable carrying amount compared to the present value of estimated future cash flows, discounted at the original effective interest rate.

(i) Work in progress

Client engagements in progress at the end of the reporting period are recorded in the Statement of Financial Position as an asset and revenue in the Statement of Comprehensive Income, based on the stage of completion of the engagement. Payments in advance are recognised as unearned income until the services are provided.

(j) Cash and cash equivalents

Cash and cash equivalents comprise cash balances, short term bills and call deposits with original maturities of three months or less. The Consolidated Entity does not have Bank overdrafts or loans facilities in place.

(k) Impairment

Non-financial assets

The carrying amounts of the Consolidated Entity's non-financial assets, other than inventories and deferred tax assets are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists then the assets recoverable amount is estimated. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, recoverable amount is estimated at the end of each reporting period.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit"). The goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to cash-generating units that are expected to benefit from the synergies of the combination.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit (group of units) on a pro-rata basis.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at the end of each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(l) Share capital

Ordinary shares are classified as equity.

Dividends on ordinary shares are recognised as a liability in the period in which they are declared.

Incremental costs directly attributable to the issue of ordinary shares and share options are accounted for as a deduction from equity, net of any related tax effects.

(m) Employee benefits

(i) Wages, salaries, annual leave and non-monetary benefits

Liabilities for employee benefits for wages, salaries and annual leave that are expected to be settled within 12 months of the end of the reporting period represent present obligations resulting from employees' services provided at the end of the reporting period. These liabilities are calculated at undiscounted amounts based on remuneration wage and salary rates that the Consolidated Entity expects to pay including related on-costs, such as workers compensation insurance and payroll tax. Non-accumulating non-monetary benefits are expensed based at the net marginal cost to the Consolidated Entity as the benefits are taken by the employees.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(m) Employee benefits (continued)

(ii) Other long-term employee benefits

The Consolidated Entity's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods plus related on costs; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is the yield at the end of the reporting period on government bonds that have maturity dates approximating the terms of the Consolidated Entity's obligations.

(iii) Share based payment transactions

The fair value of options granted is recognised as an employee expense with a corresponding increase in equity. The fair value is measured at grant date and spread over the period during which the employees become unconditionally entitled to the options. The fair value of the options granted is measured using a Black-Scholes option-pricing model, taking into account the terms and conditions upon which the options were granted. The amount recognised as an expense is adjusted to reflect the actual number of share options that vest except where forfeiture is only due to share prices not achieving the threshold for vesting.

(iv) Defined contribution plans

A defined contribution plan is a post-employment benefit under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognised as employee expenses in profit or loss when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

(n) Provisions

A provision is recognised in the statement of financial position when the Consolidated Entity has a present legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

(o) Leased assets

Leases in terms of which the Consolidated Entity assumes substantially all the risks and rewards of ownership are classified as finance leases.

Upon initial recognition finance leases are measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges are included in short and long term payables. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in terms of which the Consolidated Entity does not assume substantially all the risks and rewards of ownership are classified as operating leases and the leased assets are not recognised in the Consolidated Entity's statement of financial position. Payments made under operating leases are charges to the profit and loss on a straight line basis over the period of the lease.

(p) Trade and other payables

Trade and other payables are stated at their amortised cost. Trade payables are non-interest bearing and are normally settled on 30-day terms.

(q) Revenue and other income

Revenues are recognised at fair value of the consideration received net of the amount of goods and services tax (GST) payable to the taxation authority. Exchanges of goods or services of the same nature and value without any cash consideration are not recognised as revenues.

Interest Income

Interest revenue is recognised using the effective interest rate method, which, for floating rate financial assets, is the rate inherent in the instrument.

Dividend Revenue

All dividends received shall be recognised as revenue when the right to receive the dividend has been established.

Rendering of services

Revenue from the rendering of services is recognised in the period in which the services are provided:

- where it is probable that the compensation will flow to the entity;
- the amount to be received can be reliably measured;
- and the state of completion of the contract can be reliably measured.

(r) Net financing income

Finance income comprises interest income on funds invested and dividend income. Interest income is recognised as it accrues in profit or loss, using the effective interest method.

Finance expenses comprise interest expense on borrowings, unwinding of the discount on provisions and impairment losses recognised on financial assets. All borrowing costs are recognised in profit or loss using the effective interest method.

(s) Income tax

Income tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in the statement of comprehensive income except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit and loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of

the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Additional income taxes that arise from the distribution of dividends are recognised at the same time as the liability to pay the related dividend.

The Company and its wholly-owned Australian resident entities have formed a tax-consolidated group with effect from 1 July 2003 and are therefore taxed as a single entity from that date. The head entity within the tax-consolidated group is LandMark White Limited.

(i) Tax consolidation

Current tax expense/income, deferred tax liabilities and deferred tax assets arising from temporary differences of the members of the tax-consolidated group are recognised in the separate financial statements of the members of the tax-consolidated group using the group allocation approach by reference to the carrying amounts of assets and liabilities in the separate financial statements of each entity and the tax values applying under tax consolidation.

Any current tax liabilities (or assets) and deferred tax assets arising from unused tax losses of the subsidiaries are assumed by the head entity in the tax-consolidated group and are recognised as amounts payable (receivable) to (from) other entities in the tax-consolidated group in conjunction with any tax funding arrangement amounts (refer below). Any difference between these amounts is recognised by the Company as an equity contribution or distribution.

The Company recognises deferred tax assets arising from unused tax losses of the tax-consolidated group to the extent that it is probable that future taxable profits of the tax-consolidated group will be available against which the asset can be utilised.

Any subsequent period adjustments to deferred tax assets arising from unused tax losses as a result of revised assessments of the probability of recoverability is recognised by the head entity only.

(ii) Nature of tax funding arrangements and tax sharing arrangements

The head entity, in conjunction with other members of the tax-consolidated group, has entered into a tax funding arrangement which sets out the funding obligations of members of the tax-consolidated group in respect of tax amounts. The tax funding arrangements require payments to/from the head entity equal to the current tax liability (asset) assumed by the head entity and any tax-loss deferred tax asset assumed by the head entity, resulting in the head entity recognising an inter-entity receivable (payable) equal in amount to the tax liability (asset) assumed. The inter-entity receivable (payable) are at call.

Contributions to fund the current tax liabilities are payable as per the tax funding arrangement and reflect the timing of the head entity's obligation to make payments for tax liabilities to the relevant tax authorities.

The head entity in conjunction with other members of the tax-consolidated group has also entered into a tax sharing agreement. The tax sharing agreement provides for the determination of the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations. No amounts have been recognised in the financial statements in respect of this agreement as payment of any amounts under the tax sharing agreement is considered remote.

(t) Goods and services tax

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the taxation authority. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the ATO is included as a current asset or liability in the statement of financial position.

Cash flows are included in the statement of cash flows on a gross basis. The GST components of cash flows arising from investing and financing activities which are recoverable from, or payable to, the ATO are classified as operating cash flows.

(u) Financial instruments

Non-derivative financial instruments

Non-derivative financial instruments comprise trade and other receivables, cash and cash equivalents and trade and other payables.

Non-derivative financial instruments are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition non-derivative financial instruments are measured as described in notes (h), (j), and (p).

Accounting for finance income and expense is discussed in note (r).

(v) Earning per share

The Consolidated Entity presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, which comprise share options granted to employees. Ordinary shares outstanding are anti-dilutive for any year that a loss is incurred.

(w) Comparative Figures

When required by accounting standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(x) Adoption of New and Revised Accounting Standards

During the current year the Consolidated Entity adopted all of the new and revised Australian Accounting Standards and Interpretations applicable to its operations which became mandatory.

The adoption of these standards has had no impact on the recognition, measurement and disclosure of certain transactions.

(y) New Accounting Standards for Application in Future Periods

The AASB has issued new and amended accounting standards and interpretations that have mandatory application dates for future reporting periods and which the Company has decided not to early adopt. A discussion of those future requirements and their impact on the Company is as follows:

AASB 9: Financial Instruments, AASB 2009-11: Amendments to Australian Accounting Standards arising from AASB 9 [AASB 1, 3, 4, 5, 7, 101, 102, 108, 112, 118, 121, 127, 128, 131, 132, 136, 139, 1023 & 1038 and Interpretations 10 & 12] and AASB 2010-7: Amendments to Australian Accounting Standards arising from AASB 9 (December 2010) [AASB 1, 3, 4, 5, 7, 101, 102, 108, 112, 118, 120, 121, 127, 128, 131, 132, 136, 137, 139, 1023 & 1038 and Interpretations 2, 5, 10, 12, 19 & 127] (applicable for annual reporting periods commencing on or after 1 January 2013)

These standards are applicable retrospectively and amend the classification and measurement of financial assets. The changes also incorporate the classification and measurement requirements for financial liabilities, and the recognition and derecognition requirements for financial instruments. The Company has not yet determined any potential impact on the financial statements.

The changes made to accounting requirements include:

- simplifying the classifications of financial assets into those carried at amortised cost and those carried at fair value
- simplifying the requirements for embedded derivatives
- removing the tainting rules associated with held-to-maturity assets
- removing the requirements to separate and fair value embedded derivatives for financial assets carried at amortised cost
- allowing an irrevocable election on initial recognition to present gains and losses on investments in equity instruments that are not held for trading in other comprehensive income. Dividends in respect of these investments that are a return on investment can be recognised in profit or loss and there is no impairment or recycling on disposal of the instrument
- financial assets will need to be reclassified where there is a change in an entity's business model as they are initially classified based on (a) the objective of the entity's business model for managing the financial assets; and (b) the characteristics of the contractual cash flows

(y) New Accounting Standards for Application in Future Periods (continued)

AASB 10 Consolidation (applicable for annual reporting periods commencing on or after 1 January 2013)

This standard supersedes AASB 127 and establishes the principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities.

The Standard:

- requires a parent entity (an entity that controls one or more other entities) to present consolidated financial statements;
- defines the principle of control, and establishes control as the basis for consolidation;
- set out how to apply the principle of control to identify whether an investor controls an investee and therefore must consolidate the investee; and
- sets out the accounting requirements for the preparation of consolidated financial statements.

The Company has not yet assessed the impact of this Standard

AASB 11 Joint Arrangements (applicable for annual reporting periods commencing on or after 1 January 2013)

This standard supersedes AASB 131 and under AASB 11 there are only two types of joint ventures, joint operations and joint ventures.

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities relating to the arrangement. Joint operations will be accounted for by the operator recognising:

- its assets, including its share of any assets held jointly;
- its liabilities, including its share of any liabilities incurred jointly;
- its revenue from the sale of its share of the output arising from the joint operation;
- its share of the revenue from the sale of the output by the joint operation; and
- its expenses, including its share of any expenses incurred jointly.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement. The option to proportionately consolidate joint ventures has been removed and accordingly, all joint ventures must be accounted for using the equity method.

The Company has not yet assessed the impact of this Standard.

AASB 12 Disclosure of Interests in Other Entities (applicable for annual reporting periods commencing on or after 1 January 2013)

AASB 12 provides the disclosure requirements for entities that have an interest in a subsidiary, a joint arrangement, an associate or an unconsolidated structured entity. As such, it consolidates and replaces disclosure requirements contained in many existing Standards.

The Company has not yet assessed the impact of this Standard

AASB 2011-7 Amendments to Australian Accounting Standards arising from the Consolidation and Joint Arrangements Standards [AASB 1, 2, 3, 5, 7, 9, 2009-11, 101, 107, 112, 118, 121, 124, 132, 133, 136, 138, 139, 1023 & 1038 and Interpretations 5, 9, 16 & 17] (applicable for annual reporting periods commencing on or after 1 January 2013)

This Standard gives effect to many consequential changes arising from the issuance AASB 10 Consolidation, AASB 11 Joint Arrangements and AASB 12 Disclosure of Interests in Other Entities, and accordingly, the Company has not yet assessed the impact of this Standard.

AASB 13 Fair Value Measurement and AASB 2011-8 Amendments to Australian Accounting Standards arising from AASB 13 [AASB 1, 2, 3, 4, 5, 7, 9, 2009-11, 2010-7, 101, 102, 108, 110, 116, 117, 118, 119, 120, 121, 128, 131, 132, 133, 134, 136, 138, 139, 140, 141, 1004, 1023 & 1038 and Interpretations 2, 4, 12, 13, 14, 17, 19, 131 & 132] (applicable for annual reporting periods commencing on or after 1 January 2013)

These standards provide a single robust measurement framework, with clear measurement objectives, for measuring fair value using the 'exit price' and it provides guidance on measuring fair value when a market becomes less active. The 'highest and best use' approach would be used to measure assets, but not liabilities.

The Company has not yet assessed the impact of these Standards.

AASB 124: Related Party Disclosures (applicable for annual reporting periods commencing on or after 1 January 2011)

This standard removes the requirement for government related entities to disclose details of all transaction with the government and other government related entities and clarifies the definition of a related party to remove inconsistencies and simplify the structure of the standard. This Standard is not expected to impact the Company.

AASB 1053 Application of Tiers of Australian Accounting Standards and AASB 2010-2: Amendments to Australian Accounting Standards arising from Reduced Disclosure Requirements [AASB 1, 2, 3, 5, 7, 8, 101, 102, 107, 108, 110, 111, 112, 116, 117, 119, 121, 123, 124, 127, 128, 131, 133, 134, 136, 137, 138, 140, 141, 1050 & 1052 and Interpretations 2, 4, 5, 15, 17, 127, 129 & 1052] (applicable for annual reporting periods commencing on or after 1 July 2013)

AASB 1053 establishes a revised differential financial reporting framework consisting of two tiers of financial reporting requirements for those entities preparing general purpose financial statements:

- Tier 1: Australian Accounting Standards; and
- Tier 2: Australian Accounting Standards – Reduced Disclosure Requirements.

Tier 2 of the framework comprises the recognition, measurement and presentation requirements of Tier 1, but contains significantly fewer disclosure requirements.

The following entities are required to apply Tier 1 reporting requirements (i.e. full IFRS):

- for-profit private sector entities that have public accountability; and
- the Australian Government and State, Territory and Local Governments.

(y) New Accounting Standards for Application in Future Periods (continued)

Subject to AASB 1049, General Government Sectors of the Australian Government and State and Territory Governments would also apply Tier 1 reporting requirements.

The following entities can elect to apply Tier 2 of the framework when preparing general purpose financial statements:

- for-profit private sector entities that do not have public accountability;
- not-for-profit private sector entities; and
- public sector entities, whether for-profit or not-for-profit, other than the Australian Government and State, Territory and Local Governments.

AASB 2010-2 makes amendments to Australian Accounting Standards and Interpretations to give effect to the reduced disclosure requirements for Tier 2 entities. It achieves this by specifying the disclosure paragraphs that a Tier 2 entity need not comply with as well as adding specific 'RDR' disclosures.

This Standard is not expected to impact the Company.

AASB 1054 Australian Additional Disclosures (applicable for annual reporting periods commencing on or after 1 July 2011)

The standard sets out the Australian-specific disclosures, which are in addition to International Financial Reporting Standards, for entities that have adopted Australian Accounting Standards. This Standard is not expected to impact the Company.

AASB 2009-12: Amendments to Australian Accounting Standards [AASBs 5, 8, 108, 110, 112, 119, 133, 137, 139, 1023 & 1031 and Interpretations 2, 4, 16, 1039 & 1052] (applicable for annual reporting periods commencing on or after 1 January 2011)

This standard makes a number of editorial amendments to a range of Australian Accounting Standards and Interpretations, including amendments to reflect changes made to the text of IFRSs by the IASB. The standard also amends AASB 8 to require entities to exercise judgement in assessing whether a government and entities known to be under the control of that government are considered a single customer for the purposes of certain operating segment disclosures. This Standard is not expected to impact the Company.

AASB 2009-14: Amendments to Australian Interpretation – Prepayments of a Minimum Funding Requirement [AASB Interpretation 14] (applicable for annual reporting periods commencing on or after 1 January 2011)

This standard amends Interpretation 14 to address unintended consequences that can arise from the previous accounting requirements when an entity prepays future contributions into a defined benefit pension plan. This Standard is not expected to impact the Company.

AASB 2010-4: Further Amendments to Australian Accounting Standards arising from the Annual Improvements Project [AASB 1, AASB 7, AASB 101 & AASB 134 and Interpretation 13] (applicable for annual reporting periods commencing on or after 1 January 2011)

This standard details numerous non-urgent but necessary changes to accounting standards arising from the IASB's annual improvements project. This Standard is not expected to impact the Company.

The Standard makes numerous editorial amendments to a range of Australian Accounting Standards and Interpretations, including amendments to reflect changes made to the text of International Financial Reporting Standards by the International Accounting Standards Board. This Standard is not expected to impact the Company.

AASB 2010-6: Amendments to Australian Accounting Standards – Disclosures on Transfers of Financial Assets [AASB 1 & AASB 7] (applicable for annual reporting periods commencing on or after 1 July 2011)

This Standard adds and amends disclosure requirements about transfers of financial assets, including in respect of the nature of the financial assets involved and the risks associated with them. This Standard is not expected to impact the Company.

AASB 2010-8: Amendments to Australian Accounting Standards – Deferred Tax: Recovery of Underlying Assets [AASB 112] (applicable for annual reporting periods commencing on or after 1 January 2012)

This standard provides a practical approach for measuring deferred tax liabilities and deferred tax assets when investment property is measured using the fair value model in AASB 140 Investment Property. This Standard is not expected to impact the Company.

AASB 2010-9: Amendments to Australian Accounting Standards – Severe Hyperinflation and Removal of Fixed Dates for First-time Adopters [AASB 1] (applicable for annual reporting periods commencing on or after 1 July 2011)

This standard makes amendments to provide relief for first-time adopters of Australian Accounting Standards from having to reconstruct transactions that occurred before their date of transition to Australian Accounting Standards. The standard also provides guidance for entities emerging from severe hyperinflation either to resume presenting Australian-Accounting-Standards financial statements or to present Australian-Accounting-Standards financial statements for the first time. This Standard is not expected to impact the Company.

AASB 2010-10: Further Amendments to Australian Accounting Standards – Removal of Fixed Dates for First-time Adopters [AASB 2009-11 & AASB 2010-7] (applicable for annual reporting period commencing on or after 1 January 2013)

(y) New Accounting Standards for Application in Future Periods (continued)

AASB 2011-1 makes amendments to a range of Australian Accounting Standards and Interpretations for the purpose of closer alignment to IFRSs and harmonisation between Australian and New Zealand Standards. The Standard deletes various Australian-specific guidance and disclosures from other Standards (Australian-specific disclosures retained are now contained in AASB 1054), and aligns the wording used to that adopted in IFRSs. This Standard is not expected to impact the Company.

AASB 2011-2 Amendments to Australian Accounting Standards arising from the Trans-Tasman Convergence Project – Reduced Disclosure Requirements [AASB 101 & AASB 1054] (applicable for annual reporting periods commencing on or after 1 July 2013)

AASB 2011-2 establishes reduced disclosure requirements for entities preparing general purpose financial statements under Australian Accounting Standards – Reduced Disclosure Requirements in relation to the Australian additional disclosures arising from the Trans-Tasman Convergence Project. The company has not yet assessed the impact of this standard.

AASB 2011-3 Amendments to Australian Accounting Standards – Orderly Adoption of Changes to the ABS GFS Manual and Related Amendments [AASB 1049] (applicable for annual reporting periods commencing on or after 1 July 2012).

This Standard makes amendments to AASB 1049 Whole of Government and General Government Sector Financial Reporting to amend the definition of the ABS GFS Manual, provide relief from adopting the latest version of the ABS GFS Manual, and require related disclosures where the latest version of the ABS GFS Manual has not been applied. The standard is not expected to impact the company.

AASB 2011-4 Amendments to Australian Accounting Standards to Remove Individual Key Management Personnel Disclosure Requirements [AASB 124] (applicable for annual reporting periods commencing on or after 1 July 2013).

This standard removes all the individual key management personnel disclosures contained in Aus paragraphs 29.1 to 29.9.3 of AASB 124. The changes apply to each disclosing entity, or group of which a disclosing entity is the parent that is required to prepare financial reports in accordance with Part 2M.3 of the Corporations Act for their first annual reporting period beginning on or after 1 July 2013. This standard is not available for early adoption.

AASB 2011-5 Amendments to Australian Accounting Standards – Extending Relief from Consolidation, the Equity Method and Proportionate Consolidation [AASB 127, AASB 128 & AASB 131] (applicable for annual reporting periods commencing on or after 1 July 2011)

This Standard extends the relief from consolidation, the equity method and proportionate consolidation by removing the requirement for the consolidated financial statements prepared by the ultimate or any intermediate parent entity to be IFRS compliant, provided that the parent entity, investor or venturer and the ultimate or intermediate parent entity are not-for-profit entities that comply with Australian Accounting Standards. The standard is not expected to impact the company.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(y) New Accounting Standards for Application in Future Periods (continued)

AASB 2011-6 Amendments to Australian Accounting Standards – Extending Relief from Consolidation, the Equity Method and Proportionate Consolidation – Reduced Disclosure Requirements [AASB 127, AASB 128 & AASB 131] (applicable for annual reporting periods commencing on or after 1 July 2013)

This Standard extends the relief from consolidation, the equity method and proportionate consolidation by removing the requirement for the consolidated financial statements prepared by the ultimate or any intermediate parent entity to be IFRS compliant, provided that the parent entity, investor or venturer and the ultimate or intermediate parent entity comply with Australian Accounting Standards or Australian Accounting Standards – Reduced Disclosure Requirements, as stated above. The standard is not expected to impact the company.

The Company does not anticipate early adoption of any of the above Australian Accounting Standards or Interpretations.

(z) Discontinued operation

A discontinued operation is a component of the Consolidated Entity's business that represents a separate major line of business or geographical area of operations that has been disposed of or held for sale, or is a subsidiary acquired exclusively with a view to resale. Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale, if earlier. When an operation is classified as discontinued, the comparative Statement of Comprehensive Income is re-presented as if the operation had been discontinued from the start of the comparative period.

(aa) Rounding of Amounts

The group has applied the relief available under ASIC Class Order 98/100 and accordingly, amounts in the financial statements and directors' report have been rounded to the nearest thousand dollars, or in certain cases, to the nearest dollar.

2. DETERMINATION OF FAIR VALUES

A number of the Consolidated Entity's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and / or disclosure purposes. Where applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

(a) Property, plant and equipment

The fair value of property, plant and equipment recognised as a result of a business combination is based on market values. The market value of property is the estimated amount for which a property could be exchanged on the date of valuation between a willing buyer and a willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion. The market value of items of plant, equipment, fixtures and fittings is based on the quoted market prices for similar items.

(b) Trade and other receivables

The fair value of trade and other receivables approximates their carrying value.

ABN 50 102 320 329**

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2011**

2. DETERMINATION OF FAIR VALUES (continued)

(c) Share-based payment transactions

The fair value of employee stock options is measured using the Black-Scholes formula. Measurement inputs include share price on measurement date, exercise price of the instrument, expected volatility (based on weighted average historic volatility adjusted for changes expected due to publicly available information), weighted average expected life of the instruments (based on historical experience and general option holder behaviour), expected dividends, and the risk-free interest rate (based on government bonds). Service and non-market performance conditions attached to the transactions are not taken into account in determining fair value.

3. FINANCIAL RISK MANAGEMENT

The Consolidated Entity has exposure to the following risks from their use of financial instruments:

- credit risk;
- liquidity risk;
- market risk.

This note presents information about the Consolidated Entity's exposure to each of the above risks, their objectives, policies and processes for measuring and managing risk, and the management of capital. Further quantitative disclosures are included throughout the financial statements. The consolidated entity is not subject to foreign exchange risk.

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. The Chief Executive Officer and Chief Financial Officer are responsible for developing and monitoring risk management policies.

Risk management policies are established to identify and analyse the risks faced by the Consolidated Entity, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the consolidated group's activities. The Consolidated Entity, through their training and management standards and procedures, aim to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Consolidated Entity's Audit Committee oversees how management monitors compliance with the Consolidated Entity's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Consolidated Entity.

(i) Credit risk

Credit risk is the risk of financial loss to the Consolidated Entity if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Consolidated Entity's receivables from wholesale and retail customers.

Trade and other receivables

The Consolidated Entity's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the Consolidated Entity's customer base, including the default risk of the industry and country, in which customers operate, has less of an influence on credit risk. However, geographically there is no concentration of credit risk.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2011

3. FINANCIAL RISK MANAGEMENT (continued)

(i) Credit risk (continued)

Trade and other receivables (continued)

The Consolidated Entity has established a credit policy under which each new customer is analysed individually for creditworthiness before the Consolidated Entity's standard payment and delivery terms and conditions are offered. Credit limits are established for each customer, these limits are reviewed regularly. Customers which fail to meet the Consolidated Entity's benchmark creditworthiness are placed on a restricted customer list and may transact with the Consolidated Entity only on a prepayment basis.

In monitoring customer credit risk, customers are grouped according to their credit characteristics, including whether they are an individual or legal entity, whether they are a wholesale, retail or end-user customer, geographic location, industry, aging profile, maturity and existence of previous financial difficulties. The Consolidated Entity's trade and other receivables relate mainly to the Consolidated Entity's retail customers. The Consolidated Entity does not require collateral in respect of trade and other receivables.

The Consolidated Entity has established an allowance for impairment that represents their estimate of incurred losses in respect of trade and other receivables and investments. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loss component established for groups of similar assets in respect of losses that have been incurred but not yet identified. The collective loss allowance is determined based on the sum of the impairment of individual debtor bases based on their age and likely recoverability.

(i) Liquidity risk

Liquidity risk is the risk that the Consolidated Entity will not be able to meet its financial obligations as they fall due. The Consolidated Entity's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Consolidated Entity's reputation.

Typically the Consolidated Entity ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 45 to 60 days, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

(ii) Market risk

Market risk is the risk that changes in market prices, such as interest rates will affect the Consolidated Entity's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Interest rate risk is managed by seeking to maximise the yield achieved on cash held at bank.

3. FINANCIAL RISK MANAGEMENT (continued)

(iii) Capital management

The board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Board of Directors monitors the return on capital, which the Consolidated Entity defines as net operating income divided by total shareholders' equity, excluding non-controlling interests. The Board of Directors also monitors the level of dividends to ordinary shareholders.

There were no changes in the Consolidated Entity's approach to capital management during the year. The consolidated entity is subject to externally imposed capital requirements. Refer to note 22 for additional analysis.

4. PARENT INFORMATION (continued)

Contractual Commitments

At 30 June 2011 LandMark White Limited had not entered into any contractual commitments for the acquisition of property, plant and equipment (2010: nil).

CONTINGENCIES

The Parent Company is involved in matters of litigation in the normal course of business in undertaking valuation services. At 30 June 2011, the parent company has professional indemnity insurance, and under the terms of the insurance policy, each claim has an excess which is required to be paid by the Parent Company. It was not practical to estimate the maximum contingent liability arising from litigation; however in a worse case situation there could be a material adverse effect on the Parent Company's financial position. In the directors' opinion, disclosures of any further information in relation to litigation would be prejudicial to the interests of the Parent Company.

16. INTANGIBLE ASSETS (continued)

Goodwill has an infinite useful life and is not amortised. The goodwill amount is tested for impairment annually by estimating the recoverable amount of the cash generating units based on value in use.

The key assumptions and the approach to determining the value in use when estimating the recoverable amount of a cash generating unit are:

Assumption

How determined

Cash flows

The forecast 5 year cash flows are based on forecast results for the year ended 30 June 2011. The 2011 forecast forms the basis of cash flows in subsequent financial years adjusted based on the following assumptions determined on management's past experience:

- no increase in revenues and expenses in the first year and 3% increase in the years after
- increase in employee expense calculated as 45% of the increase in revenue since the prior year
- increase in variable expenses calculated as 18% of the increase in revenue since the prior year
- terminal value at the end of year 5 based on year 5 cash flows.

Discount rate

The discount rate adopted was a pre tax rate of 18.8% (2010: 18.8%) and was based on the current risk free interest rate, industry and business specific risk factors, market borrowing rates and investor expected returns.

On forecast 5 years cash flows, there would not be any impairment until the discount rate reached 24.5%. In this scenario all other variables are unchanged.

18 EMPLOYEE BENEFITS (continued)

(a) Share Based Payments

The directors in accordance with employment contract allocate share options that entitle key management personnel and senior employees to purchase shares in the entity. The terms of the options including vesting conditions and performance criteria vary depending upon the incentive arrangements appropriate for key management personnel and senior employees.

The terms and conditions of the grants where options are still on issue are as follows, whereby all options are settled by physical delivery of shares:

Share Options

Grant Date	Number of options	Vesting Conditions	Contractual life of options
30 December 2005	1,200,000	2 years of employment and an annual cumulative increase in subsidiary profit before tax of 10%.	5 years

The number and weighted average exercise price of share options is as follows:

	Weighted Average exercise price 2011	Number of options 2011	Weighted average exercise price 2010	Number of options 2010
Outstanding at the beginning of the period	\$0.59	1,200,000	\$0.59	1,200,000
Granted during the period	-	-	-	-
Forfeited during the period	-	-	-	-
Exercised during the period	-	-	-	-
Expired during the period	-	-	-	-
Outstanding at the end of the period	\$0.59	1,200,000	\$0.59	1,200,000
Exercisable at the end of the period	\$0.59	1,200,000	\$0.59	1,200,000

The options outstanding at 30 June 2011 have an exercise price of \$0.59 and a weighted average contractual life of 2 years.

During the financial year or prior year there were no share options exercised.

In prior years, the fair value of the options was calculated at the date of grant using a Black-Scholes model and allocated to each reporting period evenly over the period from grant date to vesting date. The value disclosed is the proportion of the fair value of the options allocated to this reporting period. No options were granted in the year ended 30 June 2011.

Legal

All legal fees outstanding at the end of the current financial year are included in current trade and other payables as they relate to specific invoices received.

Make good

A provision of \$518,000 was made during the year ended 30 June 2009 in respect of the Consolidated Entity's obligation to return office space leased by the Consolidated Entity to its original condition. The provision has been reduced in the current period due to over provisions. The provision has not been discounted to its present value as the effect is not material. It is expected that the expense will be incurred in a 4 – 10 year period.

20. CAPITAL AND RESERVES

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share on a poll at meetings of the Company. On a show of hands every shareholder present at a meeting or by proxy is entitled to one vote.

There are currently 27,588,781 ordinary fully paid shares on issue (2010: 27,588,781). Shares have no par value, and the company does not have a limited amount of capital.

Share option reserve

The share option reserve comprises the fair value of options granted. These options have not been exercised and converted to share capital at the end of the reporting period.

21. DIVIDENDS

Dividends recognised in the current year by the Company are:

	Cents per share	Total amount \$000's	Franked/ unfranked	Date of payment
2011				
Final 2010 ordinary	2.0	552	Franked	8 October 2010
Interim 2011 ordinary	1.0	<u>284</u>	Franked	17 March 2011
Total		<u>836</u>		
2010				
Final 2009 ordinary	2.0	552	Franked	7 October 2009
Interim 2010 ordinary	1.5	<u>414</u>	Franked	17 March 2010
Total		<u>966</u>		

Franked dividends declared or paid during the year were fully franked at the tax rate of 30%.

After the end of the reporting period, the directors have declared a final dividend of 2 cents per share, representing \$551,776 fully franked and payable on 8 October 2011. The financial effect of this dividend has not been brought to account in the financial statements for the year ended 30 June 2011. The declaration and subsequent payment of dividends has no income tax consequences.

Dividend franking account

	Company	
	2011 \$000's	2010 \$000's
30% franking credits available to shareholders of LandMark White Limited for subsequent financial years	<u>1,616</u>	<u>1,813</u>

The above available amounts are based on the balance of the dividend franking account at the end of the reporting period adjusted for:

- (a) franking credits that will arise from the payment of the current tax liabilities;
- (b) franking debits that will arise from the payment of dividends recognised as a liability at the year-end; and
- (c) franking credits that will arise from the receipt of dividends recognised as receivables by the tax consolidated group at the year-end.

The ability to utilise the franking credits is dependent upon there being sufficient available profits to declare dividends. The impact on the dividend franking account of dividends proposed after the end of the reporting period but not recognised as a liability is to reduce it by \$236,000 (2010: \$236,000).

22. FINANCIAL INSTRUMENTS

Credit Risk

Exposure to credit risk

The carrying amount of the Consolidated Entity's financial assets represents the maximum credit risk exposure. The Consolidated Entity's maximum exposure to credit risk at the end of the reporting period was:

		Consolidated Carrying amount	
	Note	2011 \$000's	2010 \$000's
Trade and other receivables	11	2,747	2,953
Cash and cash equivalents	10	2,598	2,480
Term deposits & other		401	478
		5,746	5,911

The Consolidated Entity's maximum exposure to credit risk for trade and other receivables before impairment losses at the end of the reporting period by type of customer was:

	Consolidated Carrying amount	
	2011 \$000's	2010 \$000's
Financial customers	1,415	1,327
Commercial non financial customers	1,448	1,625
Residential non financial customers	63	42
	2,926	2,995

The Consolidated Entity's most significant customer, an Australian financial customer, accounts for \$400,000 of the trade and other receivables carrying amount at 30 June 2011 (2010: financial customer \$570,000).

Impairment losses

The aging of the Consolidated Entity's trade and other receivables at the end of the reporting period was:

	Consolidated			
	Gross 2011 \$000's	Impairment 2011 \$000's	Gross 2010 \$000's	Impairment 2010 \$000's

22. FINANCIAL INSTRUMENTS (Continue)

The movement in the allowance for impairment in respect of trade receivables during the year was as follows:

	Consolidated Carrying amount	
	2011 \$000's	2010 \$000's
Balance at 1 July	42	111
Impairment loss increased / (reduced)	137	(69)
Balance at 30 June	179	42

Based on historic default rates, the Consolidated Entity believes that no impairment allowance is necessary in respect of trade receivables not past due or past due by up to 90 days. The Consolidated Entity's policy is to enforce upfront payment from clients who do not have a good credit history or from those who are relatively unknown. Accordingly, the trade receivables balance is comprised of customers that have no previous history of poor credit with the Consolidated Entity.

Liquidity Risk

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting arrangements:

Interest rate risk

At the end of the reporting period the interest rate profile of the Consolidated Entity's interest-bearing financial instruments was:

	Consolidated Carrying amount	
	2011 \$000's	2010 \$000's
Variable rate instruments		
Financial assets	2,598	2,480

Cash flow sensitivity analysis for rate instruments

A change of 100 basis points in interest rates at the end of the reporting period would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables remain constant. The analysis is performed on the same basis for 2010.

	Consolidated Profit or (loss)	
	100 bp increase \$000's	100 bp decrease \$000's

Variable rate instruments	26	(26)
30 June 2010		
Variable rate instruments	25	(25)

Fair values

Fair values versus carrying amounts

The Directors consider that the fair value of financial assets and financial liabilities of the Consolidated Entity approximate their carrying amount.

23. COMMENTS

The Consolidated Entity does not have any capital expenditure commitments at the end of the reporting period.

Operating lease commitments

	Consolidated	
	2011 \$000's	2010 \$000's
Within one year	1,214	1,146
One year or later and no later than five years	3,375	3,315
Later than five years	589	1,048
	5,178	5,509

The Consolidated Entity leases property and equipment under non-cancellable operating leases expiring from one to ten years. Leases of property generally provide the Consolidated Entity with a right of renewal at which time all terms are renegotiated. Lease payments may be increased to reflect market rates or changes in the Consumer Price Index.

24. CONTINGENCIES

The Consolidated Entity is involved in matters of litigation in the normal course of business in undertaking valuation services. At 30 June 2011, the consolidated entity has professional indemnity insurance, and under the terms of the insurance policy, each claim has an excess which is required to be paid by the Consolidated Entity. It was not practical to estimate the maximum contingent liability arising from litigation; however in a worse case situation there could be a material adverse effect on the Consolidated Entity's financial position. In the directors' opinion, disclosures of any further information in relation to litigation would be prejudicial to the interests of the Consolidated Entity.

Chief Executive Officer

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LANDMARK WHITE LIMITED AND CONTROLLED ENTITIES

Report on the Financial Report

We have audited the accompanying consolidated financial report comprising LandMark White Limited (the Company) and the entities it controlled at the year's end or from time to time during the financial year, which comprises the statement of financial position as at 30 June 2011, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101 Presentation of Financial Statements, that the financial statements comply with International Financial Reporting Standards.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001.
