KEY EXECUTIVE APPOINTMENT – DR R ALONSO - HEAD OF EXPLORATION

The Directors are pleased to announce that Dr Ricardo Alonso has joined the staff of Rincon Lithium Limited to manage the geological development of the existing mineral deposits at the Rincon Salar, Rio Grande, Rapeh, and Luciana mines and develop other mineral exploration opportunities.

Previously he held the prestigious positions of Secretary of Mining of the Salta Province, and Mining and Energy Minister and was responsible for the orderly exploitation and management of mineral resources in the region. His responsibilities included technical and legislative advice, management of mining exploitation claims and activities and mining related infrastructure. Dr Alonso is without doubt the foremost geologist in the Puna/Rincon/Salta region and has an extensive knowledge of brines and salars in addition to base metals geology.

Dr Alonso has published and had peer reviewed, 254 papers in international mining and geology journals, and has written over 1100 scientific articles for various journals and magazines. He is a Fellow of the Economic Geology Society, Fellow of the American Geological Society, has been awarded the Hussein Prize to Science, ADEPA Prize to scientific journalism, and the winner of the prestigious Argentinean Mining Prize of 2007. He has been a member of staff at the National University of Salta.

Ricardo is also a master connoisseur of good wines, of which Argentina has an abundant supply. Admiralty Resources NL is delighted to have Ricardo as a member of the management and technical team.

Phillip Thomas
Executive Director – Admiralty Resources
Managing Director – Rincon Lithium Limited
