**CORPORATE**

**Capital Raisings**

During the year ended 31 December 2014 Argosy Minerals Limited (ASX: AGY) ("the Company") announced on 14 March 2014 that it would be undertaking a 2 for 1 pro rata renounceable entitlement offer of fully paid shares in the Company at an issued price of \$0.0025. On 17 March 2014, the Company announced that it had amended the Rights Issued and had revised the issue price of the shares to \$0.002 per share. On 14<sup>th</sup> April 2014 the Company advised that it had completed the issue and allotment of entitlement shares and additional shares under the shortfall facility of the pro-rata renounceable rights issue. A total of 20,547,284 shares were issued at a price of \$0.002 raising a total of \$41,094.57.

Under the terms of the document, the Directors reserved the right to place any shortfall shares at their discretion with persons interested in subscribing for shares in the Company, within 3 months of closure of the offer. On 4<sup>th</sup> July 2014, the Company announced that it had entered into a capital raising engagement agreement with Capital and Corporate Advisors Pty Ltd for the purpose of recapitalising the Company with independent new professional and sophisticated investors. The recapitalisation included a share placement of the remaining 231,510,926 shortfall shares from the rights issue and the raising of \$300,000 in convertible notes.

On 10<sup>th</sup> July 2014, the Company advised it had completed its capital raising with 231,510,926 shares issued at \$0.002, providing funds to the Company of \$463,021. The Company then announced on 6<sup>th</sup> August 2014 that it had completed the convertible notes issue, raising a further \$300,000. The conversion of the Convertible Notes would be subject to shareholder approval. The Company advised that it would use the funds raised to repay its major shareholder Discovery Africa Limited (ASX:DAF) \$300,000 and issue 50,000,000 fully paid ordinary shares at a deemed issue price of \$0.002 as full and final satisfaction of the remaining loan outstanding to Discovery Africa Ltd. The shares to be issued to Discovery Africa Ltd will be subject to any shareholder approvals required.

**Board Changes**

On 24<sup>th</sup> April 2014, the Company accepted resignations from directors Kevin Nichol, Danie Van Den Bergh and Philip Thick. On this date the Company also appointed three new directors in Frank Knezovic, Peter Lloyd and Graham Walker. The Company then undertook a further board restructure on 17 July where Mr Peter Lloyd and Mr Graham Walker resigned and Mr Ranko Matic and Mr Jerko Zuvela were appointed as Non-Executive Directors. At this time, Mr Ranko Matic was also appointed as Company Secretary, replacing Melanie Leydin who resigned at this time. The Company also relocated its registered, administrative, project and accounting offices to Perth.

## EXPLORATION

During the annual reporting period, ending 31<sup>st</sup> December 2014, Argosy Minerals Limited conducted exploration works at its 100% owned Erongo (Area 51) Project in Namibia, located approximately 275km northwest of the capital Windhoek.

**Figure 1: Location Map of the Erongo (Area 51) Project in Namibia**

Highlights during the reporting period;

On 28 March 2014, the Company provided an update on the Erongo Project in relation to the drilling program conducted in February within the Area A prospect. This included:

- Three drillholes completed over high priority (most anomalous) geophysical induced polarisation (“IP”) survey data and geological mapping results previously carried out;
- Downhole interpretation of the drill core;
- 15 samples were submitted and analytical results received from SGS Laboratories;
- Interpretation of the data and results concluded that the graphitic carbon content of Area “A” is sparsely concentrated and dispersed.

The Company also advised at this time that it would further study the geophysical IP data over the Area C prospect at the Project before deciding on future exploration works.

On 3 April 2014, the Company provided additional details of the drilling program completed in February.

Following the corporate restructure, the Company conducted a comprehensive review of all available data on the Erongo Project to determine project strategy.

The Company also intends to proactively identify and review new project or asset acquisition opportunities, to enhance its project portfolio and increase the overall value proposition of AGY. The Company will also consider other mineral commodities to ensure it is best placed to deliver value and upside potential for all its shareholders.

The schedule of tenements held by the Company at the end of the reporting period is shown below. There were no tenements acquired or disposed of during this period.

| Tenement | Location | Beneficial Percentage held |
|----------|----------|----------------------------|
| EPL4079  | Namibia  | 100%                       |
| EPL4335  | Namibia  | 100%                       |

**Matters subsequent to the end of the financial year**

No matter or circumstance has arisen since 31 December 2014 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

**Likely developments and expected results of operations**

Information on likely developments in the operations of the consolidated entity and the expected results of operations have not been included in this report because the directors believe it would be likely to result in unreasonable prejudice to the consolidated entity.

**Environmental regulation**

The consolidated entity holds participating interests in a number of mining and exploration tenements. The various authorities granting such tenements require the tenement holder to comply with the terms of the grant of the tenement and all directions given to it under those terms of the tenement. There have been no known breaches of the tenement conditions, and no such breaches have been notified by any government agency during the year ended 31 December 2014.

### **Remuneration report (audited)**

The remuneration policy of Argosy Minerals Limited has been designed to align director and executive objectives with shareholder and business objectives by providing a fixed remuneration component and offering specific long term incentives based on key performance areas affecting the Group's financial results. The board of Argosy Minerals Limited believes the remuneration policy is appropriate and effective in its ability to attract and retain high calibre executives and directors to run and manage the Group

The remuneration report is set out under the following main headings:

- Principles used to determine the nature and amount of remuneration
- Details of remuneration
- Service agreements
- Share-based compensation
- Additional information

#### ***Principles used to determine the nature and amount of remuneration***

##### ***Non-executive directors' remuneration***

The Group's policy is to remunerate non-executive directors at a fixed fee for time, commitment and responsibilities. Remuneration for non-executive directors is not linked to individual performance. From time to time the Group may grant options to non-executive directors. The grant of options is designed to recognise and reward efforts as well as to provide non-executive directors with additional incentive to continue those efforts for the benefit of the Group. The maximum aggregate amount of fees (including superannuation payments) that can be paid to non-executive directors is subject to approval by shareholders at a General Meeting.

**Directors' report**  
**31 December 2014**

*Executive remuneration*

Executive pay and reward consists of a base salary and performance incentives. Long term performance incentives may include options granted at the discretion of the Board and subject to obtaining the relevant approvals. The grant of options is designed to recognise and reward efforts as well as to provide additional incentive and may be subject to the successful completion of performance hurdles.

*Consolidated entity performance and link to remuneration*

The remuneration policy has been tailored to increase goal congruence between shareholders and directors and executives. Currently, this is facilitated through the issue of options to executives to encourage the alignment of personal and shareholder interests. The Group believes this policy will be effective in increasing shareholder wealth. For details of directors and executives interests in options at year end. No market based performance remuneration has been paid in the current year.

*Group performance, shareholder wealth and directors' and executives' remuneration*

The remuneration policy has been tailored to increase the direct positive relationship between shareholders investment objectives and directors and executives' performance. Currently, this is facilitated through the issue of options to executives to encourage the alignment of personal and shareholder interests. No market based performance remuneration has been paid in the current year.

*Voting and comments made at the company's 2014 Annual General Meeting ('AGM')*

At the 2014 AGM, 99.99% of the votes received supported the adoption of the remuneration report for the year ended 31 December 2013. The company did not receive any specific feedback at the AGM regarding its remuneration practices.

### **APPROACH TO CORPORATE GOVERNANCE**

In recognising the need for the highest standards of corporate behaviour and accountability, the Directors of Argosy Minerals Ltd (Argosy), support and adhere to the principles of sound corporate governance. The Board recognises the recommendations of the Australian Securities Exchange Corporate Governance Council, and considers that the Company is in compliance with those guidelines, to the extent possible, which are of importance to the commercial operation of a junior resource company.

The board of directors of Argosy is responsible for the Corporate Governance of the Company. The board guides and monitors the business and the affairs of the Company on behalf of the shareholders, by whom they were elected and to whom they are responsible.

In accordance with the Council's recommendations, the Company has followed the guidelines during this period. Where a recommendation is not followed, that fact must be disclosed, together with the reason for the departure.

The table below summarises the Company's compliance with the Corporate Governance Council's Recommendations:

| <b>Principles and Recommendations</b>                                   |                                                                                                                                                                       | <b>Compliance</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | <b>Comply</b>   |

## **Note 1. General information**

The financial report covers Argosy Minerals Limited as a consolidated entity consisting of Argosy Minerals Limited and the entities it controlled. The financial report is presented in Australian dollars, which is Argosy Minerals Limited's functional and presentation currency.

The financial report consists of the financial statements, notes to the financial statements and the directors' declaration.

Argosy Minerals Limited is a listed public company limited by shares, incorporated and domiciled in Australia. Its registered office and principal place of business is:

Level 1  
12 Kings Park Road  
West Perth WA 6005

A description of the nature of the consolidated entity's operations and its principal activities are included in the directors' report, which is not part of the financial report.

The financial report was authorised for issue, in accordance with a resolution of directors, on 31 March 2015. The directors have the power to amend and reissue the financial report.

## **Note 2. Significant accounting policies**

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

### **New, revised or amending Accounting Standards and Interpretations adopted**

The consolidated entity has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The adoption of new accounting standards applicable to the Group for the first time in 2014 has not had a material on the financial statements. The Group has chosen not to early-adopt any accounting standards that have been issued, but are not yet effective. The impact of accounting standards that have been issued, but are not yet effective, is not material to these financial statements.

### **Basis of preparation**

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

#### *Historical cost convention*

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of available-for-sale financial assets, financial assets and liabilities at fair value through profit or loss, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

#### *Critical accounting estimates*

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the consolidated entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 3.

### **Parent entity information**

In accordance with the Corporations Act 2001, these financial statements present the results of the consolidated entity only. Supplementary information about the parent entity is disclosed in note 25.

**Note 2. Significant accounting policies (continued)**

**Principles of consolidation**

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Argosy Minerals Limited ('company' or 'parent entity') as at 31 December 2014 and the results of all subsidiaries for the year then ended. Argosy Minerals Limited and its subsidiaries together are referred to in these financial statements as the 'consolidated entity'.

Subsidiaries are all those entities over which the consolidated entity has control. The consolidated entity controls an entity when the consolidated entity is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. Refer to the 'business combinations' accounting policy for further details. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Where the consolidated entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The consolidated entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

**Operating segments**

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM'). The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

**Revenue recognition**

Revenue is recognised when it is probable that the economic benefit will flow to the consolidated entity and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

*Interest*

Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

*Other revenue*

Other revenue is recognised when it is received or when the right to receive payment is established.

**Income tax**

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for:

- When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits; or
- When the taxable temporary difference is associated with interests in subsidiaries, associates or joint ventures, and the timing of the reversal can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

**Note 2. Significant accounting policies (continued)**

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entity's which intend to settle simultaneously.

**Cash and cash equivalents**

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**Trade and other receivables**

Other receivables are recognised at amortised cost, less any provision for impairment.

**Property, plant and equipment**

Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

The depreciable amount of fixed assets are depreciated on a diminishing value basis over their useful lives to the Group, commencing from the time the assets are held ready for use. The depreciation rates used for each class of depreciable assets are:

|                                |           |
|--------------------------------|-----------|
| Property, plant and equipment: | 3-5 years |
|--------------------------------|-----------|

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the consolidated entity. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss. Any revaluation surplus reserve relating to the item disposed of is transferred directly to retained profits.

**Intangible assets**

**Exploration and evaluation assets**

Exploration and evaluation expenditure in relation to separate areas of interest for which rights of tenure are current is carried forward as an asset in the statement of financial position where it is expected that the expenditure will be recovered through the successful development and exploitation of an area of interest, or by its sale; or exploration activities are continuing in an area and activities have not reached a stage which permits a reasonable estimate of the existence or otherwise of economically recoverable reserves. Where a project or an area of interest has been abandoned, the expenditure incurred thereon is written off in the year in which the decision is made.

**Impairment of non-financial assets**

Non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

Recoverable amount is the higher of an asset's fair value less costs to sell and value-in-use. The value-in-use is the present value of the estimated future cash flows relating to the asset using a pre-tax discount rate specific to the asset or cash-

**Note 2. Significant accounting policies (continued)**

generating unit to which the asset belongs. Assets that do not have independent cash flows are grouped together to form a cash-generating unit.

**Trade and other payables**

These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

**Borrowings**

Loans and borrowings are initially recognised at the fair value of the consideration received, net of transaction costs. They are subsequently measured at amortised cost using the effective interest method.

Where there is an unconditional right to defer settlement of the liability for at least 12 months after the reporting date, the loans or borrowings are classified as non-current.

**Finance costs**

Finance costs attributable to qualifying assets are capitalised as part of the asset. All other finance costs are expensed in the period in which they are incurred, including:

- interest on short-term and long-term borrowings

**Employee benefits**

*Wages and salaries and annual leave*

Liabilities for wages and salaries, including non-monetary benefits, and annual leave expected to be settled within 12 months of the reporting date are recognised in current liabilities in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

*Long service leave*

The liability for long service leave is recognised in current and non-current liabilities, depending on the unconditional right to defer settlement of the liability for at least 12 months after the reporting date. The liability is measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

*Defined contribution superannuation expense*

Contributions to defined contribution superannuation plans are expensed in the period in which they are incurred.

*Share-based payments*

Equity-settled and cash-settled share-based compensation benefits are provided to employees.

Equity-settled transactions are awards of shares, or options over shares, that are provided to employees in exchange for the rendering of services. Cash-settled transactions are awards of cash for the exchange of services, where the amount of cash is determined by reference to the share price.

The cost of equity-settled transactions are measured at fair value on grant date. Fair value is independently determined using either the Binomial or Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option, together with non-vesting conditions that do not determine whether the consolidated entity receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions.

The cost of equity-settled transactions are recognised as an expense with a corresponding increase in equity over the vesting period. The cumulative charge to profit or loss is calculated based on the grant date fair value of the award, the best estimate of the number of awards that are likely to vest and the expired portion of the vesting period. The amount recognised in profit or loss for the period is the cumulative amount calculated at each reporting date less amounts already recognised in previous periods.

**Note 2. Significant accounting policies (continued)**

The cost of cash-settled transactions is initially, and at each reporting date until vested, determined by applying either the Binomial or Black-Scholes option pricing model, taking into consideration the terms and conditions on which the award was granted. The cumulative charge to profit or loss until settlement of the liability is calculated as follows:

- during the vesting period, the liability at each reporting date is the fair value of the award at that date multiplied by the expired portion of the vesting period.
- from the end of the vesting period until settlement of the award, the liability is the full fair value of the liability at the reporting date.

All changes in the liability are recognised in profit or loss. The ultimate cost of cash-settled transactions is the cash paid to settle the liability.

Market conditions are taken into consideration in determining fair value. Therefore any awards subject to market conditions are considered to vest irrespective of whether or not that market condition has been met, provided all other conditions are satisfied.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made. An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

If the non-vesting condition is within the control of the consolidated entity or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the consolidated entity or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited.

If equity-settled awards are cancelled, it is treated as if it has vested on the date of cancellation, and any remaining expense is recognised immediately. If a new replacement award is substituted for the cancelled award, the cancelled and new award is treated as if they were a modification.

**Fair value measurement**

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principle market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interest. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

**Issued capital**

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

**Earnings per share**

*Basic earnings per share*

Basic earnings per share is calculated by dividing the profit attributable to the owners of Argosy Minerals Limited, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

*Diluted earnings per share*

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

**Note 3. Critical accounting judgements, estimates and assumptions**

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

*Share-based payment transactions*

The consolidated entity measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using either the Binomial or Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

*Recovery of deferred tax assets*

Deferred tax assets are recognised for deductible temporary differences only if the consolidated entity considers it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

**Note 4. Operating segments**

*Identification of reportable operating segments*

Management has determined the operating segments based on the reports reviewed by the board of directors that are used to make strategic decisions. The entity does not have any operating segments with discrete financial information. The Group does not have any customers, and all the group's assets and liabilities, as recorded in the Statement of Financial Position, are located within Australia.

The Board of Directors review internal management reports on a monthly basis that is consistent with the information provided in the statement of comprehensive income, statement of financial position and statement of cash flows. As a result no reconciliation is required because the information as presented is what is used by the Board to make strategic decisions.

The information reported to the CODM is on at least a monthly basis.

The amount in Note 14 reflects the Convertible Note issue of \$300,000 plus accrued interest of \$14,597. The Convertible Notes were issued on 13 August 2014 with a term of 24 months from the issue date, or at any such date as agreed in writing between the noteholder and the Company. The interest rate applicable to the notes is 12% p.a. The convertible notes plus any interest accrued will convert into fully paid ordinary shares based on the conversion price of \$0.002. Notes may be converted by the noteholder any time after the Company receives shareholder approval to convert the notes. The Company may convert the notes at the repayment date. The convertible notes are unsecured.

Refer to note 19 for further information on financial instruments.

*Ordinary shares*

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

*Share buy-back*

There is no current on-market share buy-back.

**Note 15. Equity – issued capital (continued)**

*Capital risk management*

The consolidated entity's objectives when managing capital are to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the consolidated entity may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The consolidated entity would look to raise capital when an opportunity to invest in a business or company was seen as value adding relative to the current parent entity's share price at the time of the investment. The consolidated entity is not actively pursuing additional investments in the short term as it continues to integrate and grow its existing businesses in order to maximise synergies.

The consolidated entity is subject to certain financing arrangements covenants and meeting these is given priority in all capital risk management decisions. There have been no events of default on the financing arrangements during the financial year.

The capital risk management policy remains unchanged from the 2013 Annual Report.

**Note 18. Equity - dividends**

There were no dividends paid, recommended or declared during the current or previous financial year.

**Note 19. Financial instruments**

**Financial risk management objectives**

The consolidated entity's activities expose it to a variety of financial risks: market risk (including foreign currency risk, price risk and interest rate risk), credit risk and liquidity risk. The consolidated entity's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the consolidated entity. The consolidated entity manages risk using a variety of methods, dependent upon the nature of the risk and the options available to the consolidated entity.

Risk management is carried out by the Board of Directors ('the Board') using policies that include identification and analysis of the risk exposure of the consolidated entity and appropriate procedures, controls and risk limits.

**Market risk**

*Foreign currency risk*

The consolidated entity undertakes certain transactions denominated in foreign currency and is exposed to foreign currency risk through foreign exchange rate fluctuations. Foreign exchange risk arises from future commercial transactions and recognised financial assets and financial liabilities denominated in a currency that is not the entity's functional currency. The consolidated entity does not currently hold any financial assets in foreign currencies, and its only foreign currency liabilities are trade payables arising from expenditure incurred in Namibia on exploration and evaluation assets. These expenses are settled within 30 days, minimising the risk of foreign exchange losses.

*Price risk*

The consolidated entity is not exposed to any significant price risk.

*Interest rate risk*

Exposure arises predominantly from assets and liabilities bearing variable interest rates as the consolidated entity only holds fixed rate liabilities. Financial assets held are cash at bank balances and do not give rise to significant interest income. Interest rate risk is not considered to be material.

**Credit risk**

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the consolidated entity. The consolidated entity has a strict code of credit, including obtaining agency credit information, confirming references and setting appropriate credit limits. The consolidated entity obtains guarantees where appropriate to mitigate credit risk. The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements. The consolidated entity does not hold any collateral.

**Liquidity risk**

Vigilant liquidity risk management requires the consolidated entity to maintain sufficient liquid assets (mainly cash and cash equivalents) and available borrowing facilities to be able to pay debts as and when they become due and payable.

The consolidated entity manages liquidity risk by maintaining adequate cash reserves and available borrowing facilities by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

*Remaining contractual maturities*

The following tables detail the consolidated entity's remaining contractual maturity for its financial instrument liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the financial liabilities are required to be paid. The tables include both interest and principal cash flows disclosed as remaining contractual maturities and therefore these totals may differ from their carrying amount in the statement of financial position.

## **INDEPENDENT AUDIT REPORT TO THE MEMBERS OF ARGOSY MINERALS LTD**

### **Report on the financial report**

We have audited the accompanying financial report of Argosy Minerals Ltd (the Company") which comprises the balance sheet as at 31 December 2014 and the statement of comprehensive income, statement of changes in equity and statement of cash flow state for the period ended on that date, a summary of significant accounting policies, other explanatory notes and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the period's end or from time to time during the period.

### **Directors Responsibility for the Financial Report**

The Directors of the Company are responsible for the preparation and true and fair presentation of the financial report in accordance with the Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This includes responsibility for the maintenance of adequate accounting records and internal controls that are designed to prevent and detect fraud and error, and for the accounting policies and accounting estimates inherent in the financial report. The Directors are also responsible for the remuneration disclosures contained in the directors' report.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance as to whether the financial report is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on our judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, we consider internal controls relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate to the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used in and the reasonableness of accounting estimates made by the directors as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Independence**

We are independent of the Company, and have met the independence requirements of Australian professional ethical requirements and the *Corporations Act 2001*.

Chartered Accountants

#### **Audit opinion**

In our opinion the financial report of Argosy Minerals Ltd is in accordance with the *Corporations Act 2001*, including:

- a) (i) giving a true and fair view of the consolidated entity's financial position as at 31 December 2014 and of their performance for the period ended on that date; and  
(ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*;
- b) the consolidated financial report also complies with International Financial Reporting Standards as issued by the International Accounting Standards Board

#### **Report on the remuneration report**

We have audited the remuneration report included in the directors' report for the period ended 31 December 2014. The directors of the Company are responsible for the preparation and presentation of the remuneration report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

#### **Audit opinion**

In our opinion the remuneration report of Argosy Minerals Ltd for the period ended 31 December 2014 complies with section 300A of the *Corporations Act 2001*.

#### **Matters Relating to the Electronic Presentation of the Audited Financial Report**
