FORWARD LOOKING STATEMENTS

This presentation contains forward-looking information which is based on the assumptions, estimates, analysis and opinions of management made in light of its experience and its perception of trends, current conditions and expected developments, as well as other factors that management of the Company believes to be relevant and reasonable in the circumstances at the date that such statements are made, but which may prove to be incorrect.

Assumptions have been made by the Company regarding, among other things: the price of coking coal, the timely receipt of required governmental approvals, the accuracy of capital and operating cost estimates, the completion of a feasibility study for the Nuurstei Project on its exploration and development activities, the ability of the Company to operate in a safe, efficient and effective manner and the ability of the Company to obtain financing as and when required and on reasonable terms. Readers are cautioned that the foregoing list is not exhaustive of all factors and assumptions which may have been used by the Company.

Although management believes that the assumptions made by the Company and the expectations represented by such information are reasonable, there can be no assurance that the forward-looking information will prove to be accurate. Forward-looking information involves known and unknown risks, uncertainties, and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any anticipated future results, performance or achievements expressed or implied by such forward-looking information. Such factors include, among others, the actual market price of coking coal, the actual results of current exploration, the actual results of future exploration, changes in project parameters as plans continue to be evaluated, as well as those factors disclosed in the Company's publicly filed documents. Readers should not place undue reliance on forward-looking information. The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws.

DISCLAIMER

No representation or warranty, express or implied, is made by the Company that the material contained in this presentation will be achieved or prove to be correct. LEADING STRATEGIC PARTNERS

Partnerships highlight Ovoot's strategic value and its status as a Priority One Belt One Road project

Mr. Tserenpuntsag	▪ Successful Mongolian businessman with a track record of building large scale Mongolian businesses ▪ Owner of / built the largest internet service provider in Mongolia, exclusive Mongolian distributorship of Pepsi and significant shareholding in Mongolia's largest satellite TV business ▪ Poised to become Aspire's largest shareholder with c. 27% (post strategic financing) to provide strategic and financial support which will materially de-risk delivery of the OEDP
	▪ Aspire's second largest shareholder, 20% shareholder in Northern Railways ▪ Marketing and logistics alliance partner with 65% Ovoot coking coal marketing rights ▪ Manages a diversified portfolio of essential raw materials and integral in the flow of bulk commodities between Mongolia and China
	▪ Large Chinese SOE and one of the world's largest construction companies ▪ MOU with Aspire and two subsidiaries of China Railways Corporation to advance the development of the Erdenet to Ovoot railway and for investment into Northern Railways
 	▪ Wholly owned subsidiaries of China Railways Construction Corporation, one of the world's largest rail engineering construction firms ▪ China Railway 20 Bureau Corporation Group (CR20) and China Railway First Survey and Design Institute Group Co Ltd (FSDI) are Joint EPC contractor in relation to Northern Railways rail project ▪ CR20 and FSDI are supporting Northern Railways to progress completion of necessary financing, specialist design and construction for the Erdenet to Ovoot railway
	▪ Financing partner in relation to Northern Railways ▪ Provided Northern Railways with a Letter of Intent to fund up to 75% of the total EPC contract to build the Erdenet to Ovoot railway in October 2016 estimated at US\$1.25 billion (excluding contingencies)

OEDP - FAST TRACK PATH TO PRODUCTION

Targeting a production of washed premium “*fat*” coking coal to access 3 to 4 Mtpa of available rail capacity

Overview

- ▶ Low ash, high yielding “*starter*” open pit identified within the existing Ovoot orebody
- ▶ Involves the early works construction of a new private haul road to follow the existing planned rail path from Ovoot to the rail head at Erdenet for final transportation to international end customers
- ▶ Potential to achieve first production within 12 – 15 months following receipt of all approvals, funding committed and a decision to mine is made
- ▶ OEDP Feasibility Study (Mine & Road) due in 1H 2019

Key Benefits

- ☑ Transforms Aspire into a globally significant producer of high quality coking coal
- ☑ Brings forward significant Ovoot production and cashflow to capitalise on current price cycle
- ☑ Ovoot production no longer tied to sourcing of rail funding
- ☑ Strengthened ability to fund medium term rail development to unlock 10mtpa production profile

FAVOURABLE COAL MARKET FUNDAMENTALS

Key Themes

- ▶ Supportive macro environment after a five year period of sector-wide downturn / distress underpinned by limited to no reinvestment
- ▶ Supply pressure across the coal complex is now underpinning strong metallurgical coal prices
- ▶ Significant coal price increases have supported a surge in M&A activity (predominately for producing assets) that reflects an industry-wide renewal
- ▶ Chinese policy-led supply shock has underpinned stronger met coal spot prices since 2016 – current HCC spot price c.US\$214/t
- ▶ Demand for met coal going forward will be strengthened by emerging markets such as India with traditional markets such as Japan and Korea providing stable demand

Price Outlook for Benchmark HCC

Global Demand for Steelmaking Coal

OVOOT PROJECT OVERVIEW

- ▶ Advanced, globally significant premium coking coal project located in Northern Mongolia
- ▶ Ovoot PFS² confirms the potential to deliver up to 10Mtpa of washed high quality “fat” coking coal over a 20+ year mine life (pending a rail solution)
- ▶ Delivered washed coal will offer significant “*value in use*” benefits to customers including an ability to upgrade non-coking coals in a blend
- ▶ Now progressing with the Ovoot Early Development Plan (OEDP) which will deliver washed coking coal via a trucking solution to the existing rail head at Erdenet. Existing rail infrastructure can deliver 3 to 4 Mtpa.
- ▶ OEDP anticipated to deliver strong early cashflow and support medium term delivery of rail solution to unlock full 10Mtpa production profile

OVOOT PROJECT OUTLINE

100% ownership of a major coking coal basin

“Ovoot has a 247Mt open pit JORC Reserve with a mine design and Pre Feasibility Study confirming a future production profile of up to 10Mtpa of washed coking coal with rail”

- ▶ High fluidity levels make Ovoot coal an ideal product for blending and upgrading of thermal, oxidised and lower quality coking coals to saleable coking coal
- ▶ MOU agreed with Tavan Tolgoi to prepare blending feasibility study
- ▶ Ovoot offtake interest under non-binding MOUs totaling up to 7.4Mtpa

INVESTMENT HIGHLIGHTS

1

Highly strategic Ovoot Coking Coal Project positioned to unlock the Northern Mongolia mining province

2

One of Mongolia's largest coking coal JORC Reserves comprising 100% Chinese (FM) *"Premium Fat Coal"*

3

Highly experienced Board of Directors supported by key Mongolian shareholders and international partners (China Gezhouba, China Railway Construction, CDB and Noble Group)

4

Near term high value & low cost producer of saleable premium coking coal via the Ovoot Early Development Plan (OEDP)

5

Dedicated rail subsidiary, Northern Railways, holds a 30 year rail concession to unlock future production profile of up to 10Mtpa for >20 years Reserve mine life

6

Positioned as a priority One Belt One Road project

7

With new Russian Rail tariffs new markets are open to Mongolian Coking Coals
