Dear Sir or Madam

Net Tangible Asset Backing

The net tangible asset backing of AMCIL Limited shares at 30 November 2006 was 81 cents per share (last month 79 cents) before providing for the deferred tax on the unrealised gains on its long term investment portfolio.

The Company is a long term investor and does not intend disposing of its total long term investment portfolio. Under current Accounting Standards, the Company is required to provide for tax on any gains that may arise on such a theoretical disposal. However, due to the current availability of brought forward losses for capital gains tax purposes, no such provision needs to be made.

The Company has also issued options exercisable into shares at 50 cents per share at any time up until 28 February 2007. Each option entitles the holder to one share. If all outstanding options were exercised as at 30 November 2006 (65,649,896 options) the diluted net asset value per share would have been 69 cents (last month 68 cents).

The net tangible asset backing figure at 31 December 2006 is expected to be announced by Friday 12 January 2007.

Yours faithfully,
