

FIRST STOPE ORE FIRED AT FEDERATION

Aurelia Metals Limited (ASX: AMI) (**Aurelia** or the **Company**) is pleased to announce that it has fired the first stope at its Federation Mine, located 103kms south-east of Cobar in western New South Wales (NSW), with bogging of the ore to commence shortly.

Figure 1: First production firing from the 1180 N20 Stope at Federation.

Managing Director and Chief Executive Officer, Bryan Quinn commented:

“The safe commencement of underground stoping at our Federation Mine was delivered in-line with our previous commitments to shareholders and represents another milestone achievement for the business. It follows closely behind last week’s opening ceremony for the Federation Mine in which we were delighted to have the Honourable Courtney Houssos, Minister for Natural Resources in NSW in attendance.

The successful delivery of first stope ore is a testament to the quality and timeliness of work completed to date at Federation by our team. Our underground focus now continues to be on mine development to advance the decline and open up additional working areas to ramp up production.”
