ASX Announcement (AMX)

MetroMap and 3D modelling product demonstration and strategy update

Aerometrex Limited (ASX: AMX) is pleased to invite investors to attend an online MetroMap and 3D modelling product demonstration and strategy session.

The session will be conducted by Aerometrex's Chief Executive Office Mark Deuter, Chief Operating Officer David Byrne and key technical staff, and will take place at 11am (AEDT) on Tuesday, 16 November 2021.

The presentation will be followed by a Q&A session.

The webinar will provide participants with a better understanding of the Company's MetroMap product and 3D modelling capabilities, including the key applications and recent R&D advancements.

The session will also cover the growth strategy for these key verticals, including Aerometrex's US 3D commercialisation strategy.

ABOUT AEROMETREX

Aerometrex Limited is a geospatial technology company with a strong technical history as a professional aerial mapping business specialising in aerial photography, photogrammetry, LiDAR, 3D modelling and aerial imagery subscription services.

Aerometrex's MetroMap Data-as-a-Service (DaaS) subscription business is now the company's focus for sales of aerial imagery in Australia to an increasing client base. MetroMap offers high-quality, accurate, current, very high resolution aerial imagery to Australia's cities and large regional towns.

The company also offers a world-leading 3D modelling service in Australia and the USA market, where we believe there is potential for strong growth. Our 3D models are recognised world-wide by the leading practitioners in this field as being market leading products.

Aerometrex also offers a state-of-the-art LiDAR mapping service in Australia, covering all aspects of LiDAR mapping from data capture through to the delivery of value-added products and data analytics.

The company listed on the ASX in December 2019 and has a clear strategy to provide value to its shareholders by providing geospatial data and analytics to a growing client base.
