Investment in biotechnology companies

There are a number of inherent risks associated with the research, development and commercialisation of pharmaceutical products. Investment in companies specialising in these activities carry specific risks which are different to those associated with trading and manufacturing businesses. As such, these companies should be regarded as highly speculative. Medical Therapies recommends that investors seek professional advice before making an investment in its shares.

Forward-looking statement

This Announcement may contain forward looking statements regarding the Company's business and commercialisation objectives. These statements should be viewed as "at risk" and they are subject to the technical and commercial risks associated with companies engaged in developing pharmaceutical products. Although Medical Therapies may not publish changes to forward looking statements it will release all material information to the market in a timely manner.
