**Note - AUD EPS increased from 67.6¢ to 73.9¢, up 9%**

# F'08 – Strong Results

## Positives

- Sales growth excluding acquisitions was 12% - with all regions up.
- EBIT growth strong across most regions/businesses.
- Strong Free Cash Flow of \$80M.
- Hawkeye acquisition creates new channel for Ansell.
- Successful launch of polyisoprene condom in the US (SKYN™).
- Bought back 9.3M shares, returning \$98M to shareholders.
- Jissbon (China) and Blowtex (Brazil) had excellent results.

## Negatives

- Latex prices were higher than last year.
- Unimil was EPS dilutive; lower sales & margins due to competition, impact of working down inventory, and restructuring.
- US condoms – strong competition continues.
- Inflation being felt on many fronts.

Steady overall progress made in line with Ansell's strategy .....

# F'08 - Occupational business ... strong performance continues

## Strategy:

- ❑ Focus on Core Brands
- ❑ Expanding channels – Do-It-Yourself, Construction, Military
- ❑ Guardian<sup>SM</sup> / Solution Selling – winning new accounts
- ❑ Outsourcing programs and plant rationalisations to reduce product costs
- ❑ New Products and SKU rationalisation
- ❑ Emerging Markets Focus; BRIC + other LA + EMEA

# Ansell Solutions Building Satisfaction

Ansell's Guardian<sup>SM</sup> program uses our unique SafetyNet<sup>®</sup> software and Six Sigma Methodology/process:

- Ansell OH & S qualified experts visit plants, observe each work station and question operators.
- SafetyNet<sup>®</sup> software assesses 5 key areas, plots outcome and selects the best glove.

Result:

- Higher sales and customer loyalty.
- Reduced hand injuries & OH&S costs.
- Improved Net Promoter Scores (NPS).

**Selling Solutions and great products helps Ansell build its market leadership**

# Hawkeye Acquisition

## Basics:

- Hawkeye business acquired at start of F'09 (1 July 2008) via an asset purchase. Price was \$10.8M plus possible earn out.
- Sales approximately \$20M p.a., but variable.
- Largest single glove supplier to US military.
- Five small but flexible US factories.

## Opportunity:

- New channel for Ansell.
- New expertise unknown to Ansell.
- Potential to expand sales to other Government branches/agencies.

## Outlook:

- Expected to be EPS accretive in the first year.

### Strategy:

- ❑ Increase pricing and reduce cost to serve, to offset product cost increases.
- ❑ Drive sales through NPD, marketing programs, conversions to synthetic & PF.
- ❑ Rationalise commodity exams SKU's, improve mix.

# Solution Selling – Cytostatic Medical Gloves

**The World Health Organisation believes between now and 2020, the cancer rate will rise 50% to about 15 million new cases a year worldwide.**

**In many cases, these new patients will undergo treatment involving Chemotherapy which involves handling hazardous cytostatic agents.**

**Ansell has started a cytostatic permeation program to assist medical staff to assess the risks and obtain the best protection while handling these agents. It consists of:-**

- **Advice on handling cytostatic agents.**
- **Advice on what gloves to use with cytostatic agents.**
- **Advice on the time duration these gloves can be worn before becoming hazardous.**
- **Examples of real life situations to be avoided with these agents.**

Part of the **Ansell Cares** Program

- The weaker USD made a solid year on year contribution to F'08 Sales and Profits.
- SG&A increases higher than planned in H2 mostly due to FX and performance related incentives.

# F'08 – Portfolio Performance Solid

**FY'08 SALES = \$1,116M** **14%**

Occupational Professional Consumer

Asia Pacific

EMEA

Americas

**FY'08 SEGMENT EBIT = \$123M** **17%**

Occupational Professional Consumer

> +5%  From 0% to +5%  < 0%

**AP:** Solid results in Occupational and Professional; Consumer hurt by higher plant costs and Manix® launch costs in Australia and China. Outstanding sales and profit growth in China.

**EMEA:** Occupational (with both Mature and Emerging countries doing very well) and Professional (with improved exam margins) were strong. Unimil the cause of Consumer EBIT decline.

**Amer:** Occupational performance strong in slowing US economy, Professional big improvement, pressure unabated on US Consumer. Strong Latin American results.

# F'08 – Restructuring and Investing to Grow Continued

**Ansell continued to restructure and invest to improve its competitive position:**

- **Manufacturing;**
  - Three plants were closed; in the US, India and Poland, costing (~\$1M).
  - Estimated lives of Dip Line conversions & refurbishments reduced (~\$6M impact in H1).
  - Uncompetitive equipment was written off (~\$1M).
  - Significant investments in new Surgical and Occupational glove manufacturing lines (~\$21M in total capex).
- **Science & Technology;**
  - ~\$3M of deferred project costs written off, resources re-focused, higher net spending.
  - Increased spending on new product development with a new to market PI condom (SKYN™) launched.

**Result: A more competitive manufacturing and technology footprint.**

# Performance of F'07's Acquisitions Mixed

## Blowtex

- Outstanding sales & profits – above business case. US1¢ EPS accretive in F08.
- Offering broadened by drawing on Ansell's extensive condom/lubricant range.
- Expansion and growth in new regions of Brazil.
- Strong management team unchanged.
- Significant Brazilian manufacturing capacity expansion underway.

## Unimil

- Disappointing sales and profits in both halves. US3¢ EPS dilutive in F'08.
- Market share erosion since pre-acquisition period. Campaign to rejuvenate offering via new products, global graphics and pricing underway.
- Several management changes.
- Polish plant closed with 2 manufacturing lines moved to Brazil to expand capacity. German plant still underutilised.
- Recovery expected in H2 F'09; based on sales growth turnaround and higher capacity utilisation.

**Note: Jissbon, 75% of which was acquired in F'06, has had sustained sales & profit growth**

# F'08 - SG&A Investment Continued

| <u>SG&amp;A (\$M)</u>                               | F'07  | F'08  | Increase     |

- Significant investments in geographic expansion, acquisitions, innovation and support continued – with strong performance increasing incentive costs in H2.
- Translation of non-USD SG&A expenses into USD results accounted for part of the year on year increase.
- Growth drivers; Acquisitions (\$9M), Selling & Marketing people/programs (\$9M), S&T deferred project cost write-offs and higher spend (\$3M), Incentives (\$3M).
- Support drivers; Acquisitions (\$2M), Litigation costs (\$2M), Headcount & other people costs (\$3M), Incentives (\$4M), Debt provisions (\$1M).

## **Wrap Up**

# F'08 - Growth Strategy Unchanged

Methodology: Multi-faceted approach to growth

Overall perspective: We intend to continue to deliver sales and profit growth

# F'09 – Not Business As Usual

- **F'08 was a very good year with;**
  - **Broad based organic sales growth.**
  - **Improvement in operating margins.**
  - **EPS commitments exceeded despite difficult operating environment with higher Latex and other input costs.**
  - **M&A progress with Hawkeye purchased on July 1<sup>st</sup> 2008 and others under review.**
- **Cost Inflation is a concern for F'09 and the initiatives established to counter this include:**
  - **Selling Price increases.**
  - **Growing Emerging Market revenues at an even higher rate.**
  - **New Product releases.**
  - **SKU rationalisation.**
  - **Manufacturing efficiency; Continued rationalisation.**
  - **Reducing overhead growth.**

**The F'09 EPS Guidance takes all of the above into account**

## F'09 – Guidance

- **Background:**
  - Global Economic outlook uncertain .... but Ansell's diverse, recession resistant portfolio provides benefits.
  - FX volatile ... but hedging program protects US dollar EPS.
  - Inflation impacting input costs .... but Pricing opportunities emerging.
  - New fiscal year brings higher targets ..... but F'09 has started well with a solid July result.
- **Guidance:**
  - F'09 EPS to be within a US70¢ - US74¢ range.
  - Ansell acknowledges the current uncertain environment and has taken the above factors into account in providing this guidance range.
