- 2 This report, and the accounts upon which the report is based, use the same accounting policies.
- 3 This report does give a true and fair view of the matters disclosed.
- 4 This report is based on accounts which have been audited.
- 5 The entity has a formally constituted audit committee.

Signed: Date 15 August, 2016.
Company Secretary

Name: A I Grant

REPORT OF THE DIRECTORS

This Report by the Directors of Ansell Limited ('the Company') is made for the year ended 30 June 2016. The information set out below is to be read in conjunction with the:

- Remuneration Report appearing on pages 22 to 60, and
- Notes 20 and 21 to the financial statements, accompanying this Report.

1. DIRECTORS AND SECRETARY

The names and details of each person who has been a Director of the Company during or since the end of the financial year are:

- Glenn L L Barnes (Chairman)
- Magnus R Nicolin (Managing Director and Chief Executive Officer)
- Ronald J S Bell
- John A Bevan
- L Dale Crandall
- W Peter Day
- Leslie Desjardins (appointed 30 November 2015)
- Marissa T Peterson
- Annie H Lo (resigned with effect on 30 November 2015)

Particulars of the qualifications, experience and special responsibilities of each Director, as at the date of this Report, and of their other directorships, are set out on pages 7 to 10.

Details of meetings of the company's Directors (including meetings of Committees of Directors) and each Director's attendance are also set out on page 3.

The Company Secretary is Alistair Grant, BA/LLB, LL. M, AGIA and he was appointed to that position in October 2013. Mr Grant joined the Company in 2009, and has a legal background. He has held senior positions in the Corporate Head Office, including the position of Asia Pacific Regional Legal Counsel.

2. PRINCIPAL ACTIVITIES

The activities of Ansell Limited and its subsidiaries ('the Group') principally involve the development, manufacturing and sourcing, distribution and sale of gloves and protective personal equipment in the industrial and medical gloves market, as well as the sexual wellness category worldwide. Ansell operates in four main business segments: Medical, Industrial, Single Use and Sexual Wellness.

3. OPERATING AND FINANCIAL REVIEW

The Operating and Financial Review for the Group for the financial year is set out on pages 11 to 21, and forms part of this Report.

4. STATE OF AFFAIRS

During the year the Group continued to progress the strategies that have been identified to accelerate growth and create increased shareholder value. The Operating and Financial Review provides additional information on the Group's growth strategies. Other than set out in the Operating and Financial Review no significant changes occurred in the state of affairs of the Group during the financial year.

5. LIKELY DEVELOPMENTS

Likely developments in the operations of the Group are referred to on page 21 of this report. In the opinion of the Directors, the disclosure of any further information about likely developments in the operations

of the Group has not been included in the report because disclosure of this information would likely result in unreasonable prejudice to the Group.

6. SIGNIFICANT EVENTS SINCE BALANCE DATE

The Directors are not aware of any significant matters or circumstances that have arisen since the end of the financial year that has affected or may affect the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

7. DIVIDENDS AND SHARE ISSUE

The final dividend of US 23 cents per share (unfranked) in respect of the year ended 30 June 2015 was paid to shareholders on 10 September 2015. An interim cash dividend of US 20 cents per share (unfranked) in respect of the half-year ended 31 December 2015 was paid to shareholders on 10 March 2016. A final dividend of US 23.5 cents per share (unfranked) in respect of the year ended 30 June 2016 is payable on 8 September 2016 to shareholders registered on 22 August 2016. The financial effect of this dividend has not been brought to account in the financial statements for the year ended 30 June 2016 and will be recognised in subsequent financial reports.

On 13 August 2015, the Company issued (a) 15,213 shares to Mr. Salmon, CFO of Ansell Limited, which were earned from performance rights that were issued as partial compensation for value being left behind under prior employment agreements and had retention provisions applied to them; (b) 104,357 shares to Mr. Nicolin, CEO of Ansell Limited, due to a vesting under a plan approved at the 2010 AGM; and (c) 229,030 shares pursuant to the vesting of the FY13 Long Term Incentive Plan. On 10 September 2015, the Company issued 183,492 shares under its Dividend Reinvestment Plan. On 8 January 2016, the Company issued 26,981 shares to Mr. Joe Kubicek, President and General Manager Single Use Global Business Unit and 26,981 shares to Mr. Mike Mattos, Chief Commercial Officer North America and LAC regions (resigned on 31 January 2016), on the vesting of performance rights issued pursuant to a retention agreement following the 2014 acquisition of BarrierSafe Solutions International Inc. On 10 March 2016, the Company issued 199,830 shares under its Dividend Reinvestment Plan.

Details of unissued shares under option at the date of this Report and shares issued during or since the end of the financial year as a result of the exercise of options are set out in Note 13 to the financial statements, which accompany this Report.

INTERESTS IN THE SHARES OF THE COMPANY

The relevant interests of each Director in the share capital of the Company, as at the date of this Report, as notified to the ASX Limited pursuant to the Listing Rules and section 205G of the Corporations Act 2001, were:

G L L Barnes	61,748 [^]
R J S Bell	15,429
J A Bevan	17,402 [^]
L D Crandall	20,680
W P Day	27,307 [^]
L Desjardins	1,961
M T Peterson	20,133
M R Nicolin	229,030 [^]
A H Lo	3,529

[^] Beneficially held in own name or in the name of a trust, nominee company or private company.

8. DIRECTORS' MEETINGS

The following table sets out the number of Directors' meetings (including meetings of Board Committees) held during the financial year and the number of meetings attended by each Director.

	Board		Audit and Compliance		Risk		Human Resources Committee		Governance Committee	
	Held	Attended	Held	Attended	Held	Attended	Held	Attended	Held	Attended
G L L Barnes	6	6					8	8	2	2
R J S Bell	6	6					8	8	2	2
J A Bevan	6	6	5	5			8	8	2	2
L D Crandall	6	6	5	5	4	4				
W P Day	6	6	5	5	4	4				
L Desjardins ¹	4	4	4	4	2	2				
M T Peterson	6	6	5	5	4	4				
M R Nicolin	6	6								
A H Lo ²	2	2	1	1	2	2				

Held – Indicates the number of meetings held while each Director was a member of the Board or Committee.

Attended – Indicates the number of meetings attended during the period that each Director was a member of the Board or Committee.

1. Mrs. Desjardins was appointed as a director on 30 November 2015.

2. Mrs. Lo resigned as a director with effect on 30 November 2015.

A meeting of a special Board Committee comprising G L L Barnes and M R Nicolin was convened on 11 August 2015 in relation to the review and lodgement of the 2015 Financial Report and the 2015 Full Year Results Announcement. A meeting of a special Board Committee comprising G L L Barnes and M R Nicolin was convened on 8 February 2016 in relation to the review and lodgement of the Half-Year Results announcement, reports and financial statements for the six months ended 31 December 2015. Both special Board Committees are excluded from the number of meetings noted above. Audit and Compliance Committee meetings were generally attended by all other Directors.

9. CORPORATE GOVERNANCE

The Board of Ansell Limited believes that a strong corporate governance framework helps to underpin a strong company. Ansell's corporate governance policies and practices are set out in the Corporate Governance Statement. We will provide a summary of the Corporate Governance Statement in the Annual Report when it is published and the full Statement for FY16 will be available at www.ansell.com at the same time. The full FY15 statement, which sets out the extent to which Ansell's policies and practices comply with the requirements of the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations, can presently be found at www.ansell.com.

10. PERFORMANCE IN RELATION TO ENVIRONMENTAL REGULATIONS

Group entities are subject to environmental regulation in the jurisdictions in which they operate. The Group has risk management programs in place to address the requirements of the various regulations. From time to time, Group entities receive notices from relevant authorities pursuant to local environmental legislation. On receiving such notices, the Group evaluates potential remediation or other options, associated costs relating to the matters raised and, where appropriate, makes provision for such costs. The Directors are not aware of any material breaches of Australian or international environmental regulations during the year.

The Board monitors compliance with the Group's environmental policies and practices, and believes that any outstanding environmental issues are well understood and are being actively managed. At the date of this Report, any costs associated with remediation or changes to comply with regulations in the jurisdictions in which Group entities operate are not considered material.

11. INDEMNITY

Upon their appointment to the Board, each Director enters into a Deed of Access, Indemnity and Insurance with the Group. These Deeds provide for indemnification of the Directors to the maximum extent permitted under law. They do not indemnify for any liability involving a lack of good faith.

No Director or officer of the Group has received the benefit of an indemnity from the Group during or since the end of the year.

Rule 61 of the Group's Constitution also provides an indemnity in favour of officers (including the Directors and Company Secretary) of the Group against liabilities incurred while acting as such officers to the extent permitted by law. In accordance with the powers set out in the Constitution, the Group maintains a Directors' and officers' insurance policy. Due to confidentiality obligations and undertakings of the policy, no further details in respect of the premium or the policy can be disclosed.

12. AUDITOR INDEPENDENCE

The Directors received the Lead Auditors Independence Declaration under Section 307C of the *Corporations Act* 2001 as follows:

Lead Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

To: the directors of Ansell Limited

I declare that, to the best of my knowledge and belief, in relation to the audit for the financial year ended 30 June 2016 there have been:

- (i) no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and
- (ii) no contraventions of any applicable code of professional conduct in relation to the audit.

A handwritten signature in black ink, appearing to read 'KPMG'.

Gordon Sangster
Partner

Melbourne

15 August 2016

13. NON-AUDIT SERVICES

During the year, the Group's auditor, KPMG, was paid the following amounts in relation to non-audit services provided by KPMG:

Taxation and Other Services	\$28,101
Other Assurance and Advisory Services	\$4,646

The Directors are satisfied that the provision of such non-audit services is compatible with the general standards of independence for auditors imposed by, and do not compromise the auditor independence requirements of, the *Corporations Act* 2001 in view of both the amount and the nature of the services provided and that all non-audit services were subject to the corporate governance procedures adopted by the Group and have been reviewed by the Audit and Compliance Committee to ensure they do not impact the integrity and objectivity of the Auditor.

14. ROUNDING

The Group is a company of the kind referred to in Australian Securities and Investments Commission Corporations Instrument 2016/191 dated 31 March 2016 and, in accordance with that Instrument, unless otherwise shown, amounts in this Report and the accompanying financial statements have been rounded off to the nearest one hundred thousand dollars.

This Report is made in accordance with a resolution of the Board of Directors made pursuant to section 298(2) of the *Corporations Act* 2001 and is signed for and on behalf of the Directors.

G L L Barnes
Director

M R Nicolin
Director

Dated in Melbourne this 15th day of August 2016.

Glenn L L Barnes
Chairman

B Ag Sc (Melb), CPM, FAMI, FAICD, SF Fin, FRSA

Appointed Non-executive Director in September 2005 and Chairman in October 2012.

Chair of the Governance Committee and Member of the Human Resources Committee.

Current Directorships: Non-Executive Director at Sydney Children's Hospital Foundation, Stronghold Pty Ltd, Barnes Investments Pty Ltd (Retired as Chairman of Australian Unity Limited at end March 2016).

Mr Barnes has over twenty years of governance experience in banking and financial services, business information, consumer goods and the not-for-profit sector. He was involved in the packaged goods, banking and financial services sectors for over thirty years, as an executive, business leader and Director in Australia, New Zealand, the United Kingdom, United States of America, Republic of Ireland, Japan and China.

The Board considers Glenn Barnes to be an independent Director.

Magnus R Nicolin
Managing Director and Chief Executive Officer

BA, MBA (Wharton)

Managing Director and Chief Executive Officer since March 2010.

Current Directorships: Non-Executive Director at FAM AB.

Prior to joining Ansell, Mr Nicolin, a Swedish citizen spent three years with Newell Rubbermaid Inc., most recently as President, Europe, Middle East, Africa and Asia Pacific. Prior to that he spent seven years with Esselte Business Systems Inc. where in 2002 he led the leveraged buy-out of Esselte from the Stockholm and London Stock Exchanges. Following the buy-out he became the Chief Executive Officer of Esselte.

Mr Nicolin has also held senior management positions with Bayer AG, Pitney Bowes and McKinsey & Company.

Mr Nicolin holds an MBA from the Wharton School of the University of Pennsylvania and a BA from the Stockholm School of Economics.

As an Executive Director, Magnus Nicolin is not independent.

Ronald J S Bell
Non-executive Director

BA (Strathclyde)

Appointed Non-executive Director in August 2005.

Chairman of the Human Resources Committee and member of the Governance Committee.

Mr Bell is an experienced international consumer industry executive with a background of over 30 years in highly competitive global branded products. He is a former President of Kraft Foods, Europe

and served as Executive Vice President of Kraft Foods Inc. and brings to the Board broad general management and marketing skills particularly in the European and North American markets.

The Board considers Ronald Bell to be an independent Director.

John A Bevan
Non-executive Director

BCom (UNSW)

Appointed Non-executive Director in August 2012.

Member of the Human Resources Committee, the Governance Committee and the Audit and Compliance Committee.

Current Directorships: Chairman of BlueScope Steel Limited and Nuplex Industries Limited.

Mr Bevan was formerly the Chief Executive Officer and Executive Director of Alumina Limited and brings to the Board extensive international business experience. Prior to joining Alumina Limited in June 2008 he had a long career with the BOC Group Plc where he was a member of the Board of Directors and held a variety of senior management positions in Australia, Korea, Thailand, Singapore and the United Kingdom.

The Board considers John Bevan to be an independent Director.

L Dale Crandall
Non-executive Director

CPA, MBA (UC Berkeley)

Appointed Non-executive Director in November 2002.

Member of the Audit and Compliance Committee and the Risk Committee. Special Advisor for mergers and acquisitions.

Current Directorships: Director of Bridgepoint Education Inc., and Endurance International Group, Inc.

Mr Crandall has a background in accounting and finance and is a former Group Managing Partner for Southern California for Price Waterhouse. He was formerly President and Chief Operating Officer of Kaiser Foundation Health Plan and Hospitals in the United States and lead trustee of The Dodge and Cox Mutual Funds.

The Board considers Dale Crandall to be an independent Director.

W Peter Day
Non-executive Director

LLB (Hons), MBA (Monash), FCPA, FCA, FAICD

Appointed Non-executive Director in August 2007.

Chairman of the Audit and Compliance Committee and member of the Risk Committee.
Current Directorships: Alumina Limited, Australian Unity Investment Real Estate Limited, Boart Longyear Limited and SAI Global Limited.

Mr Day was formerly a Chairman and Director of Orbital Corporation, Chairman of Centro Retail Trust and a Director of Federation Centres. He was Chief Financial Officer of Amcor Limited for seven years, and Chief Financial Officer and Executive Director Finance of Bonlac Foods Limited. He also has held senior office and executive positions in the Australian Securities Commission (Deputy Chair), Rio Tinto, CRA and Comalco. He is also involved in disability services and education initiatives. He has a background in finance and general management across diverse and international industries.

The Board considers Peter Day to be an independent Director.

Leslie Desjardins
Non-executive Director

Bachelor Industrial Administration, Finance (Kettering), MS Management (MIT Sloan)

Appointed Non-executive Director in November 2015.

Member of the Audit and Compliance Committee and the Risk Committee.

Mrs Desjardins is an experienced international finance executive with a focus on business performance and growth. Mrs Desjardins was formerly a Director of AptarGroup and Chief Financial Officer for Amcor Limited. Mrs Desjardins held various executive roles at General Motors Corporation, including Chief Financial Officer, General Motors Holden, and Controller for General Motors North America. She has extensive experience in finance, strategy, government relations and global operations. Mrs Desjardins currently serves on the Terry Fox Cancer Foundation Audit Committee.

The Board considers Leslie Desjardins to be an independent Director.

Marissa T Peterson
Non-executive Director

BSc (MECH), MBA (Harvard), Hon Doctorate (MGMT)

Appointed Non-executive Director on 22 August 2006.

Chair of the Risk Committee and member of the Audit and Compliance Committee.

Current Directorships: Chair of Oclaro Inc. and Director of Humana Inc.

Mrs Peterson currently runs Mission Peak Executive Consulting, an executive coaching and consulting firm specialising in helping develop, grow and scale leaders in the high-technology space. Mrs Peterson retired from full-time executive roles in 2006, having spent 18 years with Sun Microsystems in senior executive positions. She has extensive experience in supply chain management, manufacturing and quality, logistics, information technologies, customer advocacy and leadership development.

The Board considers Marissa Peterson to be an independent Director.

Annie H Lo
Non-executive Director (resigned with effect on 30 November 2015)

BSc (Bus Adm), MBA (Eastern Michigan)

Appointed Non-executive Director on 1 January 2013. Member of the Audit and Compliance Committee and the Risk Committee. Resigned as a Non-executive Director and member of the Audit and Compliance Committee and Risk Committee in November 2015.

Mrs Lo was formerly the Chief Financial Officer of Johnson & Johnson's Worldwide Consumer and Personal Care Group. She retired from this role in late 2011, having spent over 20 years in executive roles with Johnson & Johnson.

Mrs Lo has significant experience in directing business expansion across the Asia Pacific region and globally as well as in managing healthcare business challenges and regulatory processes

The Board considers Annie Lo to be an independent Director.

Operating and Financial Review
Year ended 30 June 2016

Strategy

Ansell has the market leading position globally, in single and multi-use hand protection, for industrial end users and in surgical gloves. We also have the second largest market share in condoms and we have fast growing positions in body protection for industrial end users and products providing safety solutions to the surgical operating room.

The markets we focus on provide attractive long term sources of growth. Demand for improved protection of workers, whether in medical or industrial environments, is often driven by increased regulatory requirements or government initiatives to improve worker safety. This helps drive demand for advanced protection equipment in developed and particularly in emerging markets. Ansell's ability to build and maintain its leading positions in attractive markets arises from the following:

- The breadth and performance of our unmatched product range. Through our focus on R&D and innovation, we created many of these product categories and continue to lead the industry in product performance.
- Our unique material science capability allows us to combine the needs of protection, with a product that is comfortable to use, thus improving worker productivity and delighting our sexual wellness consumers. For example our products reduce the risk of skin irritation or allergic reaction. Other products are unique in their field in having ergonomic certification. Many of our latest product launches are surprisingly thin and dexterous, while still providing high protection levels.
- We have invested over many years in our patented Guardian technology (tools that provide comprehensive advice to end users on the right products to use for optimal safety and productivity) and so built strong relationships with end users.
- We are uniquely positioned to provide global solutions as the only industry participant with leading market positions in all our product ranges in all regions.
- Through a disciplined acquisition strategy, we have:
 - o strengthened our core market positions,
 - o increased our ability to differentiate in material science, and
 - o added near adjacent product portfolios that we think will be successful long term through the application of the above strategic focus.

Our current strategic priorities are summarised in the attached diagram.

Review of Operations

Summary

US\$ millions	FY15	FY16	% Change	% CC Change ¹
Sales	1,645	1,573	-4.4%	-0.1%
Profit before interest & tax (EBIT)	245	237	-3.3%	+8.5%
Profit for the period attributable to Ansell Ltd shareholders	188	159	-15.4%	-2.5%
EPS (US ¢)	122.5	105.1	-14.2%	-1.4%
Operating Cash Flow ²	116.4	144.8	+24.4%	
Dividend (US ¢)	43¢	43.5¢	+1.2%	

Group Commentary

Sales

- Sales revenue was 4% lower on currency translation. Constant currency revenue was flat in an external environment that remained challenging, with limited demand growth and volatility in both foreign exchange and emerging markets.
- Organic growth improved through the year in Industrial (up 2% in H2 – Hyflex® was up 9%) and Single Use segments, driven by improved distributor partnerships and success with NPD³ (Industrial NPD sales up 42%, success of Intercept® & Fortix® technologies)
- A strong year for Sexual Wellness division driven by emerging markets growth of 15%, and SKYN® up 12% and gaining market share.
- Disappointing results were seen in Medical GBU arising from manufacturing challenges in our Melaka, Malaysia facility, with sales down 8%, of which 2% related to capacity constraints and 6% from weak emerging markets and lower exam sales. The Group is on track to restore operational capability and return our Medical GBU to growth in FY17.

Group Sales Bridge – Foreign Exchange & Medical results impacting the Group

Constant Currency Sales were level on FY15 with growth in Single Use, Industrial and Sexual Wellness growth brands plus acquisitions offsetting divestments, poor Medical GBU performance and continued weakness in Russia and Brazil.

¹ CC denotes Constant Currency- which compares FY16 results to FY15, restated at FY16 average exchange rates.

² Operating Cash Flow, is Net cash provided by operating activities less payments for property, plant equipment and intangible assets plus proceeds from sale of property, plant and equipment per the Consolidated Statement of Cash Flows for 30 June 2016.

³ NPD – New Product Development

Group EBIT commentary

EBIT was 3% down on prior year, but 8% up at constant currency due to:

- Plant consolidation and ensuing operations performance challenges cost the group \$15m, but were offset by a similar amount in lower incentive compensation expense.
- FY16 EBIT results include \$8.1m pre-tax profit on sale of the Onguard Footwear business (\$2.2m after tax).
- FY15 EBIT includes \$17.8m pre-tax gain on sale of our Shah Alam, Malaysia facility, offset by pre-tax \$17m restructuring charge.
- FY15 results included \$22.6m Foreign Exchange hedge gains, which were not replicated in FY16.

Borrowing Costs & Taxes

- The tax rate for FY16 was higher than FY15 due to the absence of deferred tax asset recognition and tax losses in our Australian legal entity being fully recognised for accounting purposes.
- In addition:
 - The sale of the Onguard® footwear business attracted a high tax rate relative to the EBIT profit adding 2% to the Group rate
 - The country profit mix of earnings increased the overall effective tax rate
- Borrowing costs were in line with the prior year, including the full year funding impact of Microgard®

Cash Flow Commentary

Cash flow highlights included:

- Strong cash flow generation with Operating Cash Flow up 24%.
- 6.7 million shares were bought back during FY16.

FY16 continued the strong cash flow generation record of the Group. Despite higher tax payments, strong working capital management led to a significant year over year improvement in Operating Cash Flow performance.

Cash outlays on investing activities were significantly below the prior year, primarily due to the sale of the Onguard business this year whilst last year's outlays included the acquisition of the Microgard® body protection business. Capital expenditures were also lower as expected with a reduced rate of spend on IT and maintenance activities on completion of major programmes, with spend now oriented more to growth and high return productivity initiatives.

Financing outlays were higher due to the repayment of borrowings and also the funding of share buybacks during the year.

Industrial Global Business Unit

The Industrial GBU manufactures and markets high-performance, hand and body protection solutions for a wide-range of Industrial applications. Ansell protects workers in almost every industry including Automotive, Chemical, Metal Fabrication, Machinery & Equipment, Food, Construction, Mining, and First Responders.

Sales performance

Industrial achieved constant currency sales growth of 3% benefiting from very strong growth of new products and the Microgard® acquisition. Other notable items included:

- Growth rates improved through the year as new products continued to gain traction and market share gains were achieved through strengthened distributor partnerships
- Exceptional new product sales growth of 42% YoY driven by Hyflex® Intercept® cut resistance styles
- Hyflex® sales up 5% on prior year
- Emerging Markets up 5% with strong results in China and Mexico and Russia returning to growth in the second half and overall flat on the year. Weak conditions continued in Brazil and SE Asia
- Our Body Protection products are up 15% over FY15 (+23% CC) benefitting from the full year impact of the Microgard acquisition, whilst EBIT contribution was up \$4m.

	FY15 ⁽¹⁾	FY16	% Change	% change - CC
Sales	668.5	654.8	-2.1%	+3.3%
EBIT	92.7	89.0	-4.0%	+10.1%
% EBIT/ Sales	13.9%	13.6%		

EBIT performance

EBIT margin was moderately lower at 13.6% due to lower gross margins which resulted from temporarily higher waste levels in Mexico, subsequently resolved, as well as currency impacts where sales price increases couldn't offset the full impact of higher input costs. These effects were largely offset by strong discretionary cost control, and the benefit of higher margins earned by growing new products.

At constant currency EBIT grew 10% and margins improved.

⁽¹⁾ FY15 EBIT excludes restructuring.

MICROFLEX®

Medical Global Business Unit

The Medical GBU manufactures and markets surgical and examination gloves together with a range of healthcare safety devices such as disposable scalpels and antimicrobial surgical theater consumables. Its customer base includes Acute Care Hospitals, Emergency Services, Alternate Care, Dentistry & Veterinary clinics.

Sales performance

Medical sales were lower on the following factors:

- Supply constraints limited growth of its market leading synthetic surgical range.
- Emerging market sales fell on economic weakness and currency volatility in Russia and SE Asia.
- Pricing pressure in commodity Exam gloves, coupled with Healthcare expenditure cuts put pressure on sales pricing and led to some volume losses

	FY15 ⁽¹⁾	FY16	% Change	% change - CC
Sales	447.2	396.3	- 11.4%	-8.3%
EBIT	70.6	52.3	- 25.9%	-
% EBIT/Sales	15.8%	13.2%		

EBIT performance

EBIT was lower on sales decline, higher wastage and lower throughput from temporary manufacturing issues that increased costs by \$9m.

(1) FY15 EBIT excludes restructuring.

POLYISOPRENE + NEOPRENE

Single Use Global Business Unit

The Single Use GBU has the market leading range of high performance single use gloves used in a broad variety of industrial applications including Chemical, Food Services, Life Sciences, Electronics, and Automotive after Market. The GBU was created subsequent to the acquisition of BarrierSafe Solutions International (BSSI) in January 2014.

Sales Performance

Sales were marginally down on last year (in CC) with volume growth offset by price reductions, as the benefit of lower raw material prices was passed on to customers:

- Microflex® and TNT® up a combined 2% in revenue with volume up 5%, and prices lower as mentioned above
- Successful global launch of key Microflex® products is contributing ahead of target and expected to drive future growth.
- Strong results across almost all emerging markets including from new Edge® branded products.
- Continued innovation under Microflex® brand, including the launch of a new industry leading chemical resistant glove to significant customer interest.

	FY15 ⁽¹⁾	FY16	% Change	% change - CC
Sales	312.4	301.7	-3.4%	-1.1%
EBIT	59.7	64.6	+8.2%	+14.9%
% EBIT/Sales	19.1%	21.4%		

EBIT performance

EBIT margin improved on the benefit from lower raw materials and diligence in cost control plus continued delivery of BSSI integration synergies.

(1) FY15 EBIT excludes restructuring.

Sexual Wellness Global Business Unit

The Sexual Wellness GBU (SW) manufactures, sells and markets a range of branded condoms, lubricants, devices and fragrances globally. It sells through retail outlets and also supplies condoms to public health programmes globally.

Sales Performance

A strong sales and EBIT performance for SW on continued success with premium branded condoms and strong emerging market results

- SKYN® sales were up 12% on continued success with the global market leading non-rubber latex condom and rapid growth on the new SKYN® lubricant range
- China up 28%, India branded business up 13%
- Improved performance of our natural rubber latex brands contributed 10% growth.

	FY15 ⁽¹⁾	FY16	% Change	% change - CC
Sales	217.0	220.0	+1.4%	+8.2%
EBIT	26.1	31.0	+18.8%	+41.0%
% EBIT/Sales	12.0%	14.1%		

EBIT performance

EBIT margin improved significantly on success in emerging markets and with new products. Increased investment in marketing activities more than offset by reduced overhead and G&A cost and productivity gains in manufacturing and distribution.

⁽¹⁾ FY15 EBIT excludes restructuring.

Material Business Risks

Ansell has established controls and procedures that are focused on safeguarding the Groups assets and the integrity of its reporting. The Groups internal controls cover accounting, financial reporting, safety and sustainability, fraud, delegations of authority and other control points. The risk management framework below summarises the Group's approach to managing risk, including the identification of risk appetite and monitoring of risks to that appetite.

Risk management framework

Material Risks – Description and Mitigation Actions

RISK	NATURE OF RISK	MITIGATION ACTIONS
Global markets instability	The Group's presence in over 30 countries globally and its growing presence in emerging markets exposes the Company to geopolitical, regulatory and other factors beyond the Group's control.	- Continually monitor the Group's exposure to these risks through our local presence. - Geographic diversification provides protection in itself.
Systems and technology	As a modern business Ansell relies on Information Technology (IT) platforms. Interruption, compromise to or failure of these platforms could affect Ansell's ability to service its customers effectively.	- Modern ERP systems are in place in the largest regions of North America and EMEA whilst also managing our supply chain. - These systems will be deployed through the rest of the group at a later date. - The Group has a fall back redundancy and sought and received external assistance on system protection and security.
Major incident at a significant manufacturing site or warehouse	The Group has a number of materially sized manufacturing sites and warehouses. These are vital to the business and financial losses from natural disasters, civil or labour unrest, terrorism, major fire or other incidence are possible.	- The Group has business continuity and disaster recovery plans for all major sites. - Insurance coverage including business interruption cover. - Ongoing safety, fire preparedness and local country economic reviews are conducted.

RISK	NATURE OF RISK	MITIGATION ACTIONS
Organisational overstretch	The Group has set demanding targets and invested heavily in new acquisitions, new products and our staff. These initiatives can at times compete for internal resources which can lead to organisational overstretch and the inability of the organisation to effectively respond to all matters in a timely manner.	• Planning programs have been introduced to focus efforts on high priority projects. • Global employee engagement and cultural surveys have been carried out to monitor staff concerns; and • Staff are encouraged to alert senior management to issues of this nature.
Foreign exchange risk	Around half of the Group's revenues and costs are in currencies other than the US\$. With volatile foreign exchange markets, significant changes can occur in foreign exchange rates and result in a significant impact on US\$ earnings.	• The Group's foreign exchange risks and management strategies are detailed in Note 15 to the financial statements.
Product Quality	As a manufacturer, quality is paramount to the Group and failures in this area can have a significant negative effect on results and customer relationships.	• Investment in quality assurance and governance practices, including systematic quality assurance testing during and after the manufacturing and procurement process. • Dedicated team of quality and regulatory staff monitor this.
Loss of a key supplier	Raw materials purchased for manufacturing purposes and buying finished goods exposes the group to the risk of the failure of a supplier to perform leaving the Company short of a vital ingredient or product.	• Utilise dual sourcing strategy wherever feasible. • In recent years there has also been a strategy of vertical integration which reduces dependency on third parties.

Outlook

The group will continue to focus on:

- Organic Growth
- Profitability and cash flow
- Capital Deployment

Organic Growth

Ansell's organic growth focus in recent years has been on restoring clear differentiation in our product leadership through a significant increase in R&D and product innovation efforts. We have also continued to develop our Guardian[®] technology and trained our sales teams globally on its use and application and acquired businesses that we think will enhance our ability to grow long term.

Our overall organic growth achievement over the last 3 years, has shown significant success from this strategy as is evident from results of new products and our Growth Brands. Overall organic growth has been limited by a number of other factors. We have been rationalising and exiting some lower margin or non core products, particularly within Industrial. We have been able to lower prices in Single Use and Medical ensuring customers benefit from lower raw material costs. We have had capacity constraints in Medical while volatility in emerging markets has affected some businesses.

In all cases we believe these adverse influences on growth will be of reduced impact going forward. For example, we have largely completed the Industrial rationalisation programme and new capacity coming online early in FY17 will alleviate the Medical growth constraint.

With continued success with new products and our Growth Brands, and a reduced offset from other factors, we expected overall improved Organic Growth in FY17, and in the medium term believe a low to mid single digit Organic Revenue Growth rate is achievable.

Our business priorities for advancing our strategic goals in FY17 are oriented around the following main objectives:

- Build stronger and deeper partnerships with our key distributor partners
- Expand recently acquired product ranges such as Microflex[®] and Microgard[®] globally
- As capacity constraints are resolved in Medical, work to resume growth of our leading synthetic surgical range
- Continue improvement in service and quality metrics to ensure Ansell is the leading company globally on these criteria as well as in product performance

Profitability and Cash Flow

Ansell has continually delivered strong cash flow throughout the last 5 years, and has improved EBIT margin from 12.2% in FY10 to 15.0% in FY16.

The focus for FY17 is therefore:

- Fully resolve FY16 manufacturing issues, and then realise in full significant productivity benefits from recent investment in automation and in-sourcing production of key materials
- With an enhanced focus on Return on Capital Employed, the company will increase its focus on optimal use of working capital and generating high returns from manufacturing investments

Offsetting the above gains are expected higher underlying tax rates and the dilution of ongoing earnings by the sale of the Onguard[®] business.

Capital Deployment

Ansell has invested significantly in acquisitions and capital expenditure over the last 5 years while maintaining an investment grade balance sheet and delivering dividend increases in each year. In FY16 cash returns to shareholders were further supplemented by the share buyback programme. As we begin FY17 we have a more active acquisition pipeline that will be the short term focus while the Board will also consider a continuation of the current share buyback as an alternative capital deployment option.

2016 Remuneration Report

Dear Shareholders,

On behalf of the Board of Directors, we are pleased to present Ansell's Remuneration Report for the financial year ended 30 June 2016. It has been a challenging year for Ansell with demand subdued across many of our major markets. After six successive years of growth, our results in FY16 were lower than in FY15. Nevertheless, there have been significant achievements during the year positioning Ansell well for the future.

This year has also been a transitional one in respect to our remuneration arrangements. At the time of our notice of meeting to last year's AGM we announced a review of our remuneration structures. We also announced we had implemented a one off Special Incentive Plan (SIP) for FY16 as an interim measure to maintain alignment between the interests of shareholders and management, encourage retention of participants through time vesting requirements and encourage high performance through achievement of performance hurdles set at challenging levels (on a constant currency basis). This was done following the cancellation of the FY14 LTI grant, vesting of which had been rendered unachievable by material currency value shifts which are outside of management control. It was an interim measure while we conducted our review of remuneration structures. Further details of the SIP are provided in section 7.4 of this Remuneration Report;

At the subsequent 2015 Annual General Meeting (AGM), notwithstanding a strong majority (65%) of the votes cast last year approving our Remuneration Report, a sizable minority voted against the report, constituting a first strike. In addition, an offer of options to our CEO and Managing Director, Magnus Nicolin, as part of his remuneration package, was not approved.

What have we done since the 2015 Annual General Meeting?

The Board has taken the AGM vote seriously. In response, we have reviewed our remuneration structures and made adjustments to better support our business strategy and to respond to concerns raised by our stakeholders following the 'first strike' received in relation to our 2015 Remuneration Report.

Specifically we have:

- engaged broadly with a range of stakeholders to understand the reasons for the strong message being sent;
- redesigned our Remuneration Report to assist with clarity and readability, so that our shareholders can more easily see the linkages between our strategic drivers, company performance against those drivers and remuneration outcomes. We recognised that we did not clearly communicate a number of remuneration related matters in FY15; and
- approved a number of changes to our remuneration structures for FY17 after taking into account many factors, including:
 - the comments of our shareholders,
 - the need to better align our incentives with our strategic objectives,
 - expectations of continued volatility in foreign currency relativities,
 - the need for a 'global' remuneration framework,
 - the slowdown in economic growth globally and
 - the need to continue to attract, retain and reward our executive team.

These changes are summarised in section 1.2 of the Remuneration Report. With these changes in place, we do not feel it is necessary to repeat the FY16 Special Incentive for FY17.

FY16 financial performance and remuneration outcomes

Our financial results in FY16 were affected by the challenging economic environment globally, the impact of swings in global currencies affecting our US dollar reported results, a world economy that continues to grow at a slow and uneven rate and a significant increase in our global average tax rate. We communicated a revised performance range to the market earlier this year and are pleased to report that while lower than for FY15, our FY16 financial outcomes were within guidance. Furthermore:

- at constant currency, sales were level with FY15;
- at constant currency, EBIT was up 8.5% on FY15;
- our Operating Cash Flow was again strong, increasing by \$28m to \$145m in FY16; and
- our balance sheet remains investment grade with net debt to EBITDA at 1.5 times,

all of which are solid results given the economic conditions.

Other performance highlights include that our recent acquisitions in the Industrial and Single Use businesses are delivering targeted returns and creating organic growth opportunities. We also experienced strong sales growth in new products in the Industrial business. The Sexual Wellness and the Single Use businesses both performed well and we made significant progress addressing the manufacturing issues that affected Medical results in FY16.

In relation to our short term incentive (STI) plan for FY16 we set performance targets with the challenging global economic environment in mind. After normalising for the anticipated currency and tax headwinds, the FY16 targets required significant underlying growth in key metrics. These targets were not achieved for Sales and Profit Attributable (PA). However, the constant currency growth in earnings before interest and tax (EBIT) of 8.5% was above threshold and came close to the target and the strong cash flow improvement exceeded the target level. This level of financial performance has resulted in outcomes under our STI plan for senior executives that were in most cases moderately lower than those for FY15.

As the FY14 long term incentive plan (LTIP) was cancelled, no awards under the LTIP vested this year.

The SIP is a one-off incentive program implemented for FY16. It was put in place following cancellation of the FY14 LTI plan for reasons given above. The SIP was put in place at half the opportunity level of remuneration outcomes originally available under the cancelled FY14 LTIP and was linked to two of the performance conditions set under the STI Plan, the revenue performance condition which was not met and the EBIT performance condition which was met around target. Accordingly, the SIP outcomes were significantly below the maximum opportunity available.

As there was no LTI available for vesting in FY16 and the STI and SIP outcomes were well below target levels, the total actual remuneration outcomes for Executives in FY16 are materially below those for FY15.

We have again provided a voluntary realised pay table in section 5, in addition to the statutory remuneration tables in section 10. Both tables show a significant year over year reduction for our Executives, particularly for those Executives who were participants in the cancelled FY14 LTIP. Specifically for our CEO, the realised table shows his FY16 realised compensation was 47% lower than the amount realised in FY15. The performance linked component of his compensation (earned under the STI and SIP) was 26% of the maximum available in FY16.

Although our FY16 financial results were creditable given the prevailing market conditions we recognise that they were generally lower than FY15 and the Board considers our remuneration outcomes to appropriately reflect the Group's performance and the outcome experienced by our shareholders.

Ansell is a truly international company

Our shareholders understand that Ansell is a unique company when compared to many of its ASX peers. While Australian listed, all of the Executive KMP are located outside of Australia, as are nearly all of our employees and our operations. This means our financial performance is affected by economic conditions around the world (not just those prevailing in Australia) and our remuneration structures and practices need to be accepted and competitive in the markets where our people are based, including the US and Europe for our Executives. As these structures and practices are not those traditionally adopted by our Australian based ASX peers, we understand it is our responsibility to explain our structures to our shareholders.

We think our 2016 Remuneration Report transparently communicates remuneration outcomes for FY16, a transitional year as we have redesigned our remuneration system to better suit our business needs, and clearly explains the remuneration structures that we have put in place for FY17 and beyond. We hope you agree and welcome any feedback you may care to provide.

On behalf of the Directors, we look forward to welcoming you to the 2016 AGM.

Ronnie Bell
Chairman of the HR Committee

Section 1 – Introduction

1.1 Key Management Personnel (KMP)

The Directors of Ansell Limited (Ansell) present the Remuneration Report (Report) prepared in accordance with Section 300A of the *Corporations Act* for the Group for the financial year ended 30 June 2016. This Report, which has been audited by KPMG, forms part of the Report of the Directors.

The Report outlines the remuneration arrangements in place for the KMP of Ansell, which comprises all Directors (executive and non-executive) and those executives who have authority and responsibility for planning, directing and controlling the activities of the Group. In this Report, 'Executives' refers to members of the Group Executive team identified as KMP.

The following table details Ansell's KMP during FY16:

Name	Role
Non-Executive Directors	
Glenn L L Barnes	Chairman, Independent Non-Executive Director
Ronald J S Bell	Independent Non-Executive Director
John Bevan	Independent Non-Executive Director
L Dale Crandall	Independent Non-Executive Director
W Peter Day	Independent Non-Executive Director
Leslie Desjardins	Independent Non-Executive Director (appointed on 30 November 2015)
Annie H Lo	Independent Non-Executive Director (retired on 30 November 2015)
Marissa T Peterson	Independent Non-Executive Director
Executive Director	
Magnus R Nicolin	Managing Director (MD) and Chief Executive Officer
Other Executives	
Neil Salmon	Chief Financial Officer (Finance and IT)
Scott Corriveau	President and General Manager Industrial GBU (ceased as a KMP on 30 September 2015)
Peter Dobbelssteijn	Chief Commercial Officer EMEA and APAC Region and Ansell Global Guardian
Steve Genzer	President and General Manager - Industrial Solutions GBU (prior to 30 September 2015, was Senior Vice President Global Supply Chain Operations)
Jeyan Heper	President and General Manager Sexual Wellness GBU
Joe Kubicek	President and General Manager Single Use GBU
Anthony Lopez	President and General Manager Medical GBU
Mark Nicholls	Chief Commercial Officer Americas (commenced on 1 January 2016)
Mike Mattos	Chief Commercial Officer North America and LAC Region (ceased as a KMP on 1 January 2016)

1.2 Response to first strike and changes for FY17

Since incurring a 'first strike', Ansell has engaged extensively with stakeholders to understand their concerns.

Set out below is a summary of the Board's responses to the key issues raised by some shareholders and proxy advisers to the 2015 Remuneration Report and changes to our remuneration arrangements following review of our remuneration structures:

Issue	Changes for FY17
Base salary	<i>Response to misunderstandings surrounding base salary</i> There was some misunderstanding regarding the CEO's fixed remuneration and incentive opportunity levels last year. These misunderstandings arose from: • translation of our then US based CEO's remuneration to A\$ by proxy advisers despite it being paid and reported in US\$. This translation, coupled with a near 30% depreciation in the Australian dollar, made it appear like the CEO had received a large pay increase, when this was not the case but was in fact a foreign exchange effect; and • the difference between 'base salary' (which determines incentive opportunities for our Executives) and 'fixed remuneration' (which includes base salary and other benefits such as retirement benefits, but is not used to determine opportunity levels). We will aim to better communicate these matters going forward but would urge all advisors to note that our reporting currency is US\$ and to be cognisant that we use base salary and not fixed annual remuneration in determining our incentive opportunities.
STI deferral	<i>Introduction of incentive deferral</i> There was concern that our STI plan incentives are paid entirely in cash following the determination of results each year, which may encourage management to pursue short term objectives at the expense of longer term value. While we believe our short term and long term remuneration arrangements complement and counterbalance each other, from FY17 onwards, a part of our STI awards will be deferred in the form of restricted shares (determined with reference to the extent that performance is at or above the midpoint between threshold and stretch to a maximum of 50% of the overall STI opportunity). Restricted shares will be awarded in place of cash to place a part of the reward at continued risk against future share price movements. The restriction will see the shares held for a period of two years from when the shares are granted. This change recognises the sizeable short term rewards that may be earned for exceptional performance and a desire to ensure those short term targets are exceeded in a manner that is sustainable over the longer term.
STI – performance conditions and setting of targets	<i>Selection of performance measures</i> The selection of financial metrics used in the STI plan will generally include a revenue measure, a profit measure plus also in some cases, a measure of asset efficiency or Cash flow depending on priorities set for the coming year. Incentives will be calculated on a constant currency basis based on total Ansell performance for Executives, and for all others on a combination of total Ansell and individual business unit or regional performance. Beginning in FY17, incentive payments will incorporate a lower threshold and lower starting incentive amount as compared to the current plan. Incentive outcomes will be calculated in a straight line from zero to maximum, similar to the new LTI plan (discussed below).

Issue	Changes for FY17												
STI – non-financial measures	<i>Use of non-financial metrics</i> In recognition of the importance of measures other than financial targets to our longer term prosperity as a company, we are continuing our practice of having non-financial performance measures as a portion of the STI scorecard for our Executives. Non-financial measures will comprise a maximum of 20% of the total scorecard in any given year. In FY17 these non-financial measures will make up 10% of the scorecard for our Executives and include metrics on safety and customer satisfaction. These measures are intended to augment our strong financial measures and will be clearly defined and measurable in order to deliver results that are consistent with the Group’s strategic priorities and relevant to the particular role of the Executives.												
STI – vesting schedule	<i>Updated vesting schedule</i> The vesting schedule will be on a straight line basis from zero to maximum which represents a change from the current plan where separate threshold, target and maximum levels are set. Payout amounts (as a percentage of base salary) under the FY17 STI plan (as compared to FY16) will be as follows: <table><tr><th></th><th>Threshold STI (previous)</th><th>Maximum STI (previous)</th></tr><tr><td>CEO</td><td>0% (50%)</td><td>225% (200%)</td></tr><tr><td>CFO</td><td>0% (30%)</td><td>150% (125%)</td></tr><tr><td>Other Executives</td><td>0% (25%)</td><td>100% (105%)</td></tr></table>		Threshold STI (previous)	Maximum STI (previous)	CEO	0% (50%)	225% (200%)	CFO	0% (30%)	150% (125%)	Other Executives	0% (25%)	100% (105%)
	Threshold STI (previous)	Maximum STI (previous)											
CEO	0% (50%)	225% (200%)											
CFO	0% (30%)	150% (125%)											
Other Executives	0% (25%)	100% (105%)											
LTI – equity not cash	<i>Payment of awards entirely in equity for all Executives</i> Our LTI awards in prior years have generally comprised cash and Performance Share Rights (PSR), other than for the CEO who receives only PSRs. This reflected the international dispersal of LTI plan participants and global practice with respect to incentive awards. From FY17, all of our LTI plan awards will be granted entirely in the form of PSRs (i.e. with no cash element) to further strengthen the alignment with our shareholders.												
LTI – performance conditions	<i>Introduction of two additional performance measures</i> As Ansell has continued to invest capital in acquiring businesses that we believe complement or augment our existing business, some stakeholders have expressed concern at our single LTI plan performance condition relating to growth in earnings per share (EPS). The Board has therefore decided to introduce two additional performance measures for FY17 and beyond – Group return on capital employed (ROCE) and long term growth in revenue (Organic Growth). Using these measures in combination with EPS growth should improve the alignment between incentive outcomes and long term value creation. A gateway still applies to the EPS performance condition.												

Issue	Changes for FY17
	<i>Introduction of two additional performance measures (Continued)</i> The Board considered the introduction of a relative total shareholder return measure (TSR), which was favoured by some of our shareholders. Given Ansell's specific characteristics (in terms of being Australian listed but a global company, not having many global listed competitors and being of a different size to many of them), we were unable to identify an appropriate comparator group (globally or regionally). While we considered having multiple TSR comparator groups across the US, Europe and Asia Pacific, this did not meet our key criteria of simplicity and transparency and so the Board determined that relative TSR would not be an appropriate performance measure for the LTI plan.
LTI – gateway	<i>Change to a ROCE gateway</i> We have had a minimum return gateway on the EPS performance condition before the EPS measure is able to vest. Traditionally our return gateway for the LTI has been based on return on equity (ROE). As our investments are funded by both equity and debt, we considered that from FY17 it would be more appropriate to use a return on capital employed (ROCE) gateway, which measures our returns against both equity and debt in the business, rather than the ROE gateway used previously which only takes into account equity capital. Therefore, achieving at least the minimum ROCE threshold set for the new ROCE performance condition will be required as the gateway to achieve any incentive against the EPS measure. That is, if the ROCE measure does not vest, the ROCE gateway will not be met and the EPS measure cannot vest either. ROCE is, therefore, being used as: • a performance measure in its own right applicable to one third of the LTI grant; and • a gateway to the EPS performance condition.
LTI – setting of targets	<i>Approach to setting targets</i> Target performance ranges setting the minimum to maximum incentive range for EPS, Organic Growth and ROCE may vary from year to year and will be set after taking account of expected economic conditions and strategic priorities of the business. The low end of the target performance range will be lower compared to the current plan as payout will begin in a straight line from zero, versus today's minimum payout for the CEO at 25% of maximum opportunity (being 100% of base salary). Achieving the upper end of incentive targets where excellent performance is now required against three measures over three years is more challenging than a plan focused only on one measure.

Issue	Changes for FY17												
LTI – vesting schedule	<i>Updated vesting schedule</i> The vesting schedule will be a straight line from zero to maximum, a change from the current plan where separate threshold, target and maximum levels are set. Payout amounts (as a percentage of base salary) under the LTI plan going forward (as compared to last year) will be as follows: <table><tr><th></th><th>Threshold LTI (previous)</th><th>Maximum LTI (previous)</th></tr><tr><td>CEO</td><td>0% (100%)</td><td>360% (400%)</td></tr><tr><td>CFO</td><td>0% (62.5%)</td><td>300% (250%)</td></tr><tr><td>Other Executives</td><td>0% (50%)</td><td>200% (200%)</td></tr></table> In addition to the EPS performance condition, an additional two performance conditions have been introduced as discussed above. In order for Executives to earn the total maximum opportunity available, maximum performance must be achieved for all 3 performance conditions. For example, for the CEO, 120% of base salary is achievable for maximum performance under each of the performance conditions. Therefore, in order to achieve the maximum 360% of his base salary, the maximum performance must be achieved for each of those 3 performance conditions.		Threshold LTI (previous)	Maximum LTI (previous)	CEO	0% (100%)	360% (400%)	CFO	0% (62.5%)	300% (250%)	Other Executives	0% (50%)	200% (200%)
	Threshold LTI (previous)	Maximum LTI (previous)											
CEO	0% (100%)	360% (400%)											
CFO	0% (62.5%)	300% (250%)											
Other Executives	0% (50%)	200% (200%)											
Constant Currency measurement	<i>Use of Constant Currency reporting</i> As Ansell’s operations (whether sales or manufacturing) occur in many countries in many currencies, and our financial reporting translates all of these results to a single currency (US dollars) for reporting purposes, the fluctuations in exchange rates can cause significant distortion to reported performance. Accordingly, the performance measures under our current STI and LTI plans and going forward will be tested on a Constant Currency basis (which will remove foreign exchange fluctuations for the period which may either favour or penalise management). In the interest of transparency, Ansell will include details of its performance in Constant Currency terms in addition to its statutory reporting requirements.												
Mandatory shareholding requirements	<i>New mandatory shareholding requirements for Executives</i> Ansell has, for some years, been committed to encouraging strong alignment between our Executives and shareholders through a mandatory shareholding requirement. After reviewing international practice, noting that our requirements were significantly higher than many of our peers and considering the shift to a much larger emphasis on equity in our short and long term incentives, we have determined to reset the level of mandatory shareholding requirements from FY17 (which is not inclusive of any unvested equity rights held pursuant to the incentive plans) to: • CEO – 3 x base salary (previously 4 x base salary) • Executives – 1 x base salary (previously 2 x base salary) These adjusted mandatory shareholding requirements remain market leading. Restricted shares granted under the FY17 STI and FY16 SIP will be included in assessing whether an Executive meets the mandatory shareholding targets.												

Issue	Changes for FY17
Board discretion	<i>Exercise of discretion by the Board</i> Our remuneration policy aims to link management incentive outcomes to performance against strategic objectives that drive long term shareholder value creation. In certain circumstances, events or accounting rules (such as the recognition of deferred tax assets) can create favourable or unfavourable effects on earnings for a single year that may cause a misalignment between incentive outcomes and shareholder value creation. In these circumstances the Board retains its discretion to incorporate adjustments to the calculation of incentive outcomes. The Board has developed a detailed policy that will guide it in applying this discretion and that will be applied consistently. The policy covers individually material items including restructuring charges, acquisitions and divestments and equity capital issuance and repurchase. The Board will continue its practice of clearly explaining in its annual remuneration report the basis and calculation of any adjustments made that have influenced incentive outcomes.

Section 2 – Remuneration philosophy and strategy

Our remuneration philosophy links the achievement of our strategic objectives and corporate plans with appropriate and measured rewards for our Executives.

Our governing principles are summarised below:

The remuneration design and quantum for our Executives is determined by fit for purpose contemporary criteria as well as reviewing what is generally paid for similar roles in similar businesses in the relevant geographic locations – the locations where the Executives reside and work. While Ansell is publicly listed on the ASX, it reports in US dollars, more than 95 per cent of its revenue is derived outside of Australia and it is active in a diverse range of geographies. Additionally, many Executives are located in our four global corporate hubs. As such, the mix of remuneration for individual Executives is reflective of prevailing best practice and market conditions in the region in which the Executive is based.

Our Remuneration Policy and Strategy document is available on our website at the following link <http://www.ansell.com/en/About/Investor-Center/Corporate-Governance-and-Corporate-Governance-Statement.aspx>.

Section 3 – FY16 Remuneration framework components

Our executive remuneration framework for FY16 consisted of the following components:

- Fixed Annual Remuneration (FAR);
- a Short Term Incentive (STI) plan; and
- a Long Term Incentive (LTI) plan.

In FY16, Executives were also invited to participate in a one-off Special Incentive Plan (SIP). We have provided further detail on the operation of the SIP in section 7.4.

Remuneration framework

The diagram overleaf outlines the link between the components of remuneration for Executives, the relevant performance conditions and the strategic objectives of Ansell that these components were designed to achieve for FY16. Further information on each of these components can be found in section 7.

Section 3 - FY16 Remuneration framework components (Continued)

Section 4 – Group performance

4.1 Group performance

The five year performance history of the Group shows growth in top line sales and underlying profitability from FY12 to FY15, before a decline in FY16. The primary reasons for the decline were the adverse impact of foreign currency translation, a sluggish world economy and an increased tax rate for the Group. Furthermore, manufacturing issues in our medical division temporarily increased costs and affected supply. The Constant Currency (CC) column below is intended to show the year over year performance after restating FY15 results using FY16 exchange rates. These show a robust financial performance year over year, despite the factors noted above.

Table 4.1 a)	2012	2013	2014	2014 Underlying¹	2015	2016	2016 vs 2015
	US\$m	US\$m	US\$m	US\$m	US\$m	US\$m	CC%²

Table 4.1 b) - Cumulative Total Shareholder Return (TSR)⁴

¹ During FY14, the Group acquired BSSI and restructured the business, which involved significant non-cash write-downs as well as cash expenses totaling \$122m. The underlying results exclude this charge.

² 2016 v 2015 CC % refers to the percentage change when comparing FY16 to FY15 expressed in Constant Currency as defined in the Glossary section.

³ Dividends have been declared in US\$ since Ansell adopted the US\$ as reporting currency in 2014.

⁴ Cumulative Total Shareholder Return (TSR) is the cumulative financial return which an investor received from holding shares in Ansell, assuming dividends paid are reinvested in Ansell shares. It is expressed as a cumulative percentage change from a starting value at 1 July 2012 and finishing on 30 June 2016.

Section 5 – Realised pay (Non-Statutory Remuneration Disclosure)

The table in this section uses non-IFRS financial information which is used to detail realised pay earned by the CEO and Other Executives during FY16. This is a voluntary disclosure and is supplemental information to the statutory remuneration disclosure prepared in accordance with statutory requirements and accounting standards as detailed in Section 10 of this Remuneration Report. A description of how to calculate the non-IFRS financial information is set out below and in the footnotes to the tables. Realised pay includes cash salary, retirement benefits, non-cash benefits paid/payable in relation to FY16 and the full value of incentives earned for the performance period ended 30 June 2016. The table below shows realised pay for FY16 along with comparatives to FY15 and has been audited.

Table 5 a) – Realised Pay Summary

Section 5 – Realised pay (Non-Statutory Remuneration Disclosure) - Continued

Table 5 a) – Realised Pay Summary - Footnotes

¹ **Base salary** is the base salary earned by the individual in FY16. The increases in the base salary for Executives are based on benchmarking of similar positions in the jurisdictions in which the executives are based, as well as their performance during the previous year. As a result, whilst the CEO increase was 4% with effect from 1 October 2015, increases for Other Executives' pay were either lower or higher depending the outcomes of the benchmarking and performance reviews.

² **Retirement Benefits** includes the retirement benefits earned by the individual in FY16.

³ **Other Benefits** includes the cost to the company of cash benefits such as motor vehicle, executive expatriation and relocation allowances, executive insurance, expat tax equalization payments and other amounts. Significant year over year variations in other benefits above are detailed below.

⁴ **2016 STI** represents amounts payable under the 2016 STI plan– refer section 7.2.

⁵ **2016 SIP Restricted Shares** represents the value of the restricted share awards under the one-off SIP – refer section 7.4. These awards are awarded as restricted shares, which will be bought on market by the Group, with recipients being unable to sell the shares for a period of 2 years from the issue date.

⁶ **LTI PSRs** - Given the cancellation of the FY14 LTI, the PSRs column relates only to the FY13 LTI grant, which vested in the FY15 performance period. The figure represents the value, in US\$, of the PSRs which vested from the FY13 LTI grant, multiplied by the closing share price of Ansell Ltd on ASX on 5th August 2015. This was the date on which the HRC approved the vesting of shares at the prevailing price of A\$25.08 (the translation to US\$ used an average exchange rate of US\$1: A\$1.195). Each individual is subject to the holding restrictions on those shares as outlined in the Share Purchasing Policy of Ansell Ltd.

⁷ **Total Realised Pay** is the sum of Base Salary, Retirement Benefits, Other, Total Cash Awards and Total Equity Award referred to in each of the above columns.

⁸ **Mike Mattos** and **Scott Corriveau** were KMP during the year, but have not been included in this section as they ceased their employment with the Group during FY16.

⁹ **Mr Salmon** relocated to Belgium during FY16 and his other benefits include relocation costs.

¹⁰ **Mr Salmon** did not participate in the FY13 LTI Grant due to the timing of his commencement of his employment and the LTI is therefore not applicable.

¹¹ **Mr Dobbsteijn** is Chief Commercial Officer for EMEA and APAC and so is required to travel extensively in his role. As a result he is potentially exposed to various complex income tax issues. Following a review by relevant authorities during FY16 of his previous tax returns, Mr Dobbsteijn was assessed to owe additional tax liabilities to the Belgian authorities. These were reimbursed by Ansell pursuant to the terms of his employment agreement. These amounts have been included in the other benefits category above and are the main reason for the year over year increase. In addition, his base salary disclosed above as expressed in US\$ has reduced as a result of foreign exchange translation.

¹² **Mr Heper** joined Ansell part way through FY15 and his FY15 remuneration is not an annualised figure. He was also not a participant of the FY14 LTI grant or 2016 SIP.

¹³ **Mr Lopez** relocated to Brussels, Belgium part way through FY15 and is entitled to housing and other allowances. The year over year increase is primarily due to the full year impact of the allowances paid during FY16 as they commenced part way through the FY15 period.

¹⁴ **Mr Nicholls** was appointment as a KMP on 1 January 2016 following the decision by Mike Mattos to resign from Ansell. Mr Nicholls was not a participant of the FY14 LTI grant and is not entitled to participate in the 2016 SIP. His pay details above represent the 6 months of realised pay for his time following his commencement as KMP.

Section 6 – Remuneration governance

6.1 Role of the Human Resources Committee

Ansell's approach to Executive remuneration is founded on the understanding that shareholders expect reward to reflect Group performance. The Human Resources Committee (HRC) is responsible for ensuring that our executive remuneration philosophy, strategy and policies are designed with this objective in mind.

Our governance framework for determining executive remuneration is outlined below:

6.2 External consultants

From time to time during the financial year ended 30 June 2016, the Group engaged external consultants to provide insights on remuneration trends, regulatory and governance updates and market data in relation to the remuneration of Non-Executive Directors, the CEO and Other Executives. No remuneration recommendations as defined in Section 9B of the *Corporations Act 2001* were obtained during the financial year ended 30 June 2016.

6.3 Mandatory shareholding policy

To encourage alignment with shareholder interests, the Board has adopted a mandatory shareholding policy, known as the Share Purchasing Policy, which requires Directors and Executives to purchase a multiple of their Directors' fees / base salary in Ansell shares over a set period.

Ansell has developed a mechanism to enable Directors and Executives to regularly purchase Ansell shares, known as the Voluntary Share Purchasing Plan, to facilitate compliance with the Share Purchasing Policy, while complying with ASX trading rules and the restrictions of the Share Trading Policy (detailed below).

The Share Purchasing Policy requires that, in addition to existing share grants as part of the LTI plan, Executives must hold a proportion of their base salary in shares. As set out in section 1.2, for FY16 this is 4 times base salary for the CEO and 2 times base salary for the Other Executives. From FY17, this will be 3 times base salary for the CEO and 1 times base salary for Other Executives.

Non-Executive Directors are expected to invest an appropriate percentage of their gross fees in acquiring shares on market, to achieve a shareholding worth two times the annual Directors' fees within a 10-year period from the later of 2013 or their start date. Further details on this share plan are outlined in section 6.5.

The movement in the number of shares held by each KMP and the progress of each KMP during FY16 in achieving their respective share ownership goals is as follows:

<i>Table 6.3 a) KMP share ownership</i>	Held at 1 July 2015	Purchases	Granted under awards	Net movement due to other changes	Held at 30 June 2016	% of share ownership goals met ⁽⁵⁾

FY15	n.a.	n.a.	n.a.	n.a.	n.a.	n.a.

- (1) Leslie Desjardins was appointed as a Non-Executive Director on 30 November 2015, and in accordance with the policy, is required to be compliant with the policy within a 10 year period.
- (2) Annie Lo retired from the Board with effect from 30 November 2015 and accordingly is no longer required to comply with the policy.
- (3) During the year, Magnus Nicolin sought leave to sell a portion of his shareholdings to pay for tax liabilities on past PSR awards and the Board authorized the sale in accordance with the Group's share trading policies.
- (4) Scott Corriveau and Mike Mattos ceased their employment with the Group during FY16 and accordingly are no longer required to be compliant with the policy.
- (5) The percentage of ownership goals met are based upon a multiple of an individual's base pay or directors fees (as applicable). The combination of a lower A\$ share price and stronger US\$ exchange rate has resulted in a higher shareholding requirement in FY16, which has seen the percentage of ownership goals met, in some cases, fall from the prior year despite purchases made during the year.

6.4 Share Trading Policy

Ansell has a Share Trading Policy which prohibits certain individuals within the Company, including the KMP, from trading Ansell shares other than during specified trading windows or in accordance with the Voluntary Share Purchasing Plan. All KMP are required to declare to either the CEO (for Other Executives) or the Chairman (for Non-executive Directors) and the Company Secretary any share trades into which they enter during trading windows for the purpose of disclosure on the ASX.

6.5 Non-Executive Directors' Share Purchases

As noted above, the Non-Executive Directors are expected to invest an appropriate percentage of their gross fees in acquiring Ansell shares on market to achieve a shareholding worth two times' annual Non-Executive Directors' fees within a 10-year period from the earlier of 2013 or their start date. Under the Voluntary Share Purchasing Plan, a pre-agreed amount of Ansell shares (by value) are acquired monthly on the ASX through a trustee company at the prevailing market price and are transferred into the name of the Director, but are subject to a restriction on dealing until the Director ceases to hold office.

Shares were purchased on market (at no discount) on behalf of the Directors throughout FY16 pursuant to the Voluntary Share Purchasing Plan at the following prices per share (Table 6.5 a)).

The second table 6.5 b), shows the total number of shares purchased by the directors, both under the Voluntary Share Purchasing Plan and individual purchases in compliance with the Share Trading Policy.

Table 6.5 a) – Share price per share

Month	Share Price

Section 7 – Executive Remuneration

7.1 Fixed remuneration

Ansell seeks to offer competitive levels of remuneration in the relevant employment marketplace in which our Executives are based to attract and retain the best talent available.

In setting fixed remuneration, regard is had to role, responsibility and experience of the Executive as well as what is generally paid for similar roles in appropriate comparator businesses for each role in the relevant geographic locations where executives reside and work. Accordingly, our remuneration arrangements are truly global, not those traditionally adopted by most of our predominantly Australian operating ASX peers.

The Group considers the 50th percentile of an appropriate comparator group as the general benchmark for fixed remuneration at the commencement of an employee's tenure or upon promotion to KMP. Fixed remuneration levels are reviewed annually.

7.2 At risk remuneration – STI

A summary of the key features of the FY16 STI plan is as follows:

Form and purpose of the plan	
What is the STI plan?	The STI plan enables Executives the opportunity to earn an annual cash award (expressed as a percentage of base salary) if they meet specific, pre-established annual performance targets.
Who is able to participate?	In addition to the Executives, the Board invites a number of other senior managers to participate.
Why does the Board consider the STI an appropriate incentive?	The STI plan puts a significant portion of a participant's annual remuneration "at risk", as it is earned only if the business and the participant meet specific performance targets directly linked to Ansell's annual business objectives.
Does the STI contain a deferred component?	Historically, no. However, from FY17, STI deferral will be implemented. See section 1.2.
Governance	
How is performance against the performance conditions assessed?	All performance conditions under the STI are clearly defined and measurable. The HRC assesses the Group and CEO's performance during the performance period and recommends to the Board an annual incentive award for the CEO. The CEO assesses the performance of Other Executives against their objectives for the performance year and recommends to the HRC for its approval annual incentive awards for the Other Executives.
When is performance against the performance conditions determined and the award paid?	Performance against the targets for the performance year is assessed in August following the completion of the audit of the financial statements for the relevant financial year. Payments (or share awards as will be the case for FY17 onwards) are typically made in September following the performance year. From FY17, share awards will be unable to be sold for a period of 2 years from the date of receipt of the award.
Does the Board have an overriding discretion?	Yes. The Board may adjust incentive outcomes under the STI plan (up or down) to ensure that executive reward aligns with shareholder experience and they have not exercised that discretion this year.
Performance conditions	
What are the STI performance conditions and why were they chosen?	Performance conditions for FY16 were based on a weighted mix of improvements across the Group, the Group Business Units, and the Regions in Sales Revenue, EBIT, and Free Cash Flow. In addition, for the CEO and CFO conditions also included Profit Attributable. The Board considers these metrics to be appropriately aligned with the Group's objectives of delivering profitable growth and improving shareholder return.

	<u>Individual multipliers</u> For Executive KMP's excluding the CEO, an assessment of the individual's performance (against objectives agreed at the beginning of the year) is made by the CEO and approved by the Board. If objectives are judged as having been met, the STI award will be paid in full at 100% of the scorecard calculation derived from the relevant financial performance conditions. If the assessment is that objectives were only partially met or were exceeded, the financial amount, will be adjusted down or up accordingly with the maximum permissible range between zero% and 140% of the STI calculation. The total maximum payout remains capped at the maximum available under the STI plan regardless of whether this is achieved through financial performance alone or a combination of financial performance and achievement against personal objectives. From FY17, non-financial performance measures will also be included as outlined in section 1.2.																			
What are the weightings of each of the performance conditions?	The weightings of the performance conditions for each Executive is as follows: <table><tr><th></th><th>Sales</th><th>EBIT</th><th>Free Cash Flow</th><th>Profit Attributable</th></tr><tr><td>CEO/CFO</td><td>40%</td><td>30%</td><td>20%</td><td>10%</td></tr><tr><td>Other Executives</td><td>40%</td><td>40%</td><td>20%</td><td>N/A</td></tr></table>		Sales	EBIT	Free Cash Flow	Profit Attributable	CEO/CFO	40%	30%	20%	10%	Other Executives	40%	40%	20%	N/A				
	Sales	EBIT	Free Cash Flow	Profit Attributable																
CEO/CFO	40%	30%	20%	10%																
Other Executives	40%	40%	20%	N/A																
Reward opportunity																				
What level of reward can be earned under the STI?	The opportunity levels under the FY16 STI plan are as follows: <table><tr><th rowspan="2"></th><th colspan="3">% of base salary</th></tr><tr><th>Threshold</th><th>Target</th><th>Maximum</th></tr><tr><td>CEO</td><td>50%</td><td>100%</td><td>200%</td></tr><tr><td>CFO</td><td>30%</td><td>60%</td><td>125%</td></tr><tr><td>Other Executives</td><td>25%</td><td>50%</td><td>105%</td></tr></table> The opportunity levels are applied to each performance condition and weighted in accordance with the table above. Accordingly, it is possible for the Executives to achieve a below threshold outcome depending upon the mix of outcomes against the individual performance conditions. From FY17, however, these opportunity levels will change as outlined in section 1.2.		% of base salary			Threshold	Target	Maximum	CEO	50%	100%	200%	CFO	30%	60%	125%	Other Executives	25%	50%	105%
	% of base salary																			
	Threshold	Target	Maximum																	
CEO	50%	100%	200%																	
CFO	30%	60%	125%																	
Other Executives	25%	50%	105%																	
Cessation of employment or clawback																				
If a participant ceases employment during the year, will they receive a payment?	If an Executive ceases his or her employment with Ansell at any time prior to the end of the performance period, the Executive shall not be entitled to any STI payment. However, the HRC may, in its sole discretion, pay a pro-rated award in certain circumstances (such as death, disablement, retirement, or other approved situations).																			
Is there an ability to claw back awards in appropriate circumstances?	Unvested awards may be forfeited in the event of fraud, gross misconduct or the material misstatement of the Financial Statements by executives. From FY17, the STI deferral into equity initiatives will more easily allow clawback of equity instruments to occur during the restricted period.																			

STI – actual outcomes

Outlined below is Executives' performance against the STI performance measures for FY16:

	Sales	EBIT	Free Cash Flow	Profit Attributable
CEO and CFO	Threshold not met	Threshold met or exceeded	Target met or exceeded	Threshold not met
Other Executives	Threshold not met	Threshold met or exceeded	Target met or exceeded	Not applicable

The above outcomes reflect the following:

- Sales did not meet the STI growth targets as good growth in Sexual Wellness and success with new products in Industrial could not offset the effects of slow worldwide economic growth, declining demand in many emerging markets and manufacturing issues in our Medical division which affected supply.
- EBIT performance was stronger than sales performance as the company successfully implemented price increases in some regions and managed costs effectively throughout the year.
- Free Cash Flow performance was again strong and exceeded expectations as a result of a reduction in working capital and careful management of capital expenditure.
- Profit Attributable levels were below the Threshold levels primarily because of a higher tax expense.

As a result of these performance outcomes, the CEO and CFO received 29% and 31% respectively of their maximum opportunity under the STI plan whilst Other Executives were generally similar to the outcomes of the CEO and CFO. The difference between the two outcomes reflects a portion of the CEO's and CFO's performance being linked to the Profit Attributable performance measure.

The table below outlines the amounts payable to Executives under the STI plan for FY16:

Table 7.2 a – FY16 STI amounts payable

For the financial year ended 30 June 2016	Maximum potential STI opportunity as % of base salary	% of the maximum STI opportunity achieved	% of the STI maximum opportunity not achieved ⁽¹⁾	Maximum potential STI opportunity (\$) ⁽¹⁾	Actual STI payment ⁽²⁾
Executive Director					
Magnus R Nicolin	200%	29%	71%	2,080,000	600,000
Other Executives					
Neil Salmon	125%	31%	69%	632,709	196,682
Scott Corriveau ⁽³⁾	105%	30%	70%	102,742	31,312
Peter Dobbelssteijn	105%	30%	70%	407,336	124,141
Steve Genzer	105%	27%	73%	435,469	119,443
Jeyan Heper	105%	43%	57%	298,856	127,512
Joe Kubicek	105%	30%	70%	410,550	125,120
Anthony Lopez	105%	27%	73%	397,341	108,985
Mike Mattos ⁽⁴⁾	0%	n/a	n/a	n/a	0
Mark Nicholls	105%	30%	70%	183,750	56,000

⁽¹⁾ Where the actual STI payment is less than the maximum potential, the difference is forfeited and not payable in subsequent years.

⁽²⁾ The 2016 STI was determined in conjunction with the finalisation of the FY16 results and will be paid in September 2016.

⁽³⁾ Mr Corriveau left the Group during FY16 and STI payments were pro-rated accordingly under the terms of his separation agreement.

⁽⁴⁾ Mr Mattos ceased his employment prior to the STI vesting period and is therefore not entitled to participate in the FY16 STI.

7.3 At risk remuneration – LTI

A summary of the details of how the LTI operates in respect of the grant made to Executives during FY16 is set out below:

Driving performance	
What is the LTI plan?	The LTI plan enables Executives to earn an award (expressed as a percentage of base salary) if the Group achieves specific, pre-established targets over a three-year performance period.
Who participates?	In addition to the Executives, the Board invites a number of other senior managers to participate.
How does the LTI plan drive performance and align participants' interests with shareholders?	Participation in the LTI plan is only offered to executives who are able, or have the potential, to influence shareholder value in a significant way. Also, by making awards primarily in equity, this element of remuneration for Executives is strongly linked to long-term shareholder value realisation.
Instrument	
How are awards delivered?	For the grant under the FY16 LTI: • 100% of the CEO's award will be delivered in PSRs; • 60% of the CFO's award will be delivered in PSRs and 40% in cash; and • 50% of Other Executives' awards will be delivered in PSRs and 50% in cash. PSRs are granted at no cost to the Executive. Each PSR granted will entitle the Executive to one ordinary share in the Group at the time of vesting, subject to the satisfaction of performance conditions as described below. Any PSRs which vest are subject to holding restrictions in accordance with the Group's Share Purchasing Policy. Cash awards that are granted will vest subject to satisfaction of performance conditions. From FY17, awards will be delivered entirely by way of PSRs to all participants, as outlined in section 1.2.
Gateway and performance conditions	
Does a gateway apply to the LTI?	Yes. The gateway condition is a minimum acceptable level of performance that must be achieved before the any LTI awards granted may vest. For the FY16 grant, the gateway requires that the Group's ROE to be at least 1.5 x the Weighted Average Cost of Capital (WACC) at the end of the performance period to ensure that the Group's capital was being employed effectively and earnings growth was translating to shareholder value. WACC is calculated based on a methodology defined by the HRC and is applied consistently from year to year. The calculation is performed and the gateway condition tested at the conclusion of each three-year performance period over which EPS performance is measured for LTI reward purposes. Specific components of the WACC are calculated using the principles outlined below: • Risk-free Rate: four year historical average United States five year bond rate. • Cost of Debt: Ansell's actual average cost of debt over the previous four years. • Market Risk Premium: four year average equity risk premium for United States equity markets. • Beta is assessed based on observed beta for Ansell and a basket of comparable companies. Four years was chosen as the relevant period over which to calculate the WACC components reflecting the fact that many of the decisions driving EPS growth over the LTI period will have been taken with reference to cost of debt and equity measurement in the year prior to the first year of EPS measurement.

What is the performance condition?	EPS growth is the sole performance condition for the FY16 LTI grant. The Board selected EPS as a performance measure on the basis that it: • is a relevant indicator of increases in shareholder value; and • is a target that provides a suitable line of sight to encourage and motivate executive performance. As outlined in section 1.2, EPS growth will be measured on a Constant Currency basis. From FY17 the performance measures for the LTI plan will also include Organic Growth and ROCE, as outlined in section 1.2.																				
Reward opportunity																					
What are the performance targets and how is performance calculated?	The performance hurdles under the FY16 LTI grant are as follows: <table><tr><td></td><td>EPS growth hurdle</td></tr><tr><td>Threshold</td><td>7% CAGR</td></tr><tr><td>Target</td><td>8% CAGR</td></tr><tr><td>Stretch</td><td>12% CAGR</td></tr></table> Base year EPS delivered in FY15, less adjustments made to FY15, was US\$ 1.183. Therefore, the EPS growth required at +7%, +8%, and +12% CAGR will be: • + 26.6c in order to achieve threshold performance; • + 30.7c in order to achieve target performance; and • + 47.9c in order to achieve stretch performance. EPS growth at Constant Currency will be calculated each year and the total of 3 years of Constant Currency EPS growth will be compared to the above performance hurdles. These performance targets were chosen as being consistent with the Group’s longer range corporate plans in FY16 and considered appropriate because the Group has invested heavily in new products, improved manufacturing efficiencies through its profit improvement capital expenditures, expanded its presence in emerging markets and pro-active in acquisition efforts.		EPS growth hurdle	Threshold	7% CAGR	Target	8% CAGR	Stretch	12% CAGR												
	EPS growth hurdle																				
Threshold	7% CAGR																				
Target	8% CAGR																				
Stretch	12% CAGR																				
What level of reward can be earned under the LTI?	The opportunity levels under the FY16 LTI grant are as follows: <table><tr><td></td><td colspan="3">% of base salary</td></tr><tr><td></td><td>Threshold</td><td>Target</td><td>Maximum</td></tr><tr><td>CEO</td><td>100%</td><td>200%</td><td>400%</td></tr><tr><td>CFO</td><td>62.5%</td><td>125%</td><td>250%</td></tr><tr><td>Other Executives</td><td>50%</td><td>100%</td><td>200%</td></tr></table> Vesting will increase on a straight line basis for each 0.1% of EPS growth over the performance period between the threshold EPS growth value and target EPS growth and between the target EPS growth and the stretch EPS growth. From FY17, however, these opportunity levels will change as outlined in section 1.2.		% of base salary				Threshold	Target	Maximum	CEO	100%	200%	400%	CFO	62.5%	125%	250%	Other Executives	50%	100%	200%
	% of base salary																				
	Threshold	Target	Maximum																		
CEO	100%	200%	400%																		
CFO	62.5%	125%	250%																		
Other Executives	50%	100%	200%																		
How are the number of PSRs determined?	The number of PSRs granted is calculated by reference to Ansell’s average closing share price on the Australian Securities Exchange over the ninety trading days prior to the grant date. The average closing price is then discounted for dividends foregone over the intended life of the PSRs on Ansell ordinary shares during the performance period.																				

Governance	
Will the Board exercise discretion with respect to the calculation of performance?	The Board has discretion to make adjustments in calculating the applicable performance conditions to: • exclude matters that are beyond the reasonable control or foresight of management; and • include matters that are within management control or should reasonably have been foreseen to ensure no unfair advantage or penalty in incentive outcomes when viewed in light of shareholder value creation.
Is retesting permitted?	No. Retesting is not permitted.
Are participants entitled to 'hedge' against awards?	It is strictly prohibited to hedge or to use any other instrument to affect the value of particular holdings which the individual holds or has been granted.
Cessation of employment, clawback or change of control	
Is there an ability to 'claw back' in appropriate circumstances?	The Board may, in its discretion, cancel, reset and/or require repayment of an award if the Award has vested in certain circumstances. These are detailed in the LTI plan rules, but typically relate to acts of fraud, dishonesty or serious breach of obligations. From FY17, as all awards will be in the form of PSRs and Shares, the clawback arrangements will be easier to enforce than previous cash based awards.
What happens to awards that are not yet exercisable on cessation of employment?	If an Executive ceases his or her employment with Ansell at any time prior to the end of the vesting period, the Executive shall not be entitled to any award. However, the Board may, in its sole discretion, pay a pro-rated award in certain circumstances such as death, disability, retirement or other reason approved by the Board.
How would a change of control impact LTI entitlements?	On a change of control, the Board has discretion to vest some or all of the LTI awards. In exercising this discretion, the Board will consider all relevant circumstances, including performance against the various measures and conditions for the part period up to the change of control event and the portion of the performance period which has expired.

LTI – actual outcomes under the FY14 LTI grant

As the FY14 LTI grant was cancelled, no outcomes were achieved as reflected in the table below.

Table 7.3 a FY14 LTIP outcomes (vesting in FY16)

Name	Date Award Granted	Maximum Cash Opportunity ¹ (US\$)	Maximum Value of PSRs Granted (US\$)	Cash Award vested (US\$)	Number of PSRs vested (shares)	Amount of Cash Forfeited (US\$)	Number of PSRs Forfeited (shares)
Executive Director							
Magnus R Nicolin	17 October 2013	n.a.	3,400,000	n.a.	0	n.a.	216,070
Other Executives							
Neil Salmon	15 August 2013	440,000	440,000	0	0	440,000	27,962
Scott Corriveau	15 August 2013	365,000	365,000	0	0	365,000	23,196
Peter Dobbelssteijn	15 August 2013	284,300	284,300	0	0	284,300	18,120
Steve Genzer	15 August 2013	340,000	340,000	0	0	340,000	21,607
Jeyan Heper ²	n.a.	n.a	n.a	n.a	n.a	n.a	n.a

Anthony Lopez	15 August 2013	340,000	340,000	0	0	340,000	21,607
Mike Mattos	15 August 2013	307,489	307,489	0	0	307,489	19,541
Mark Nicholls ²	n.a.	n.a	n.a	n.a	n.a	n.a	n.a

1. Calculated at average FX rates at the time of grant being A\$1:US\$1.89 and A\$1:€0.7634

2. Mr. Heper and Mr. Nicholls commenced employment with the company after the award grant date of 15 August 2013 and are therefore not participants in the FY14 Plan.

7.4 At risk remuneration – SIP

The key features of the 'one off' SIP for FY16 are as follows:

Driving performance	
What is the SIP?	The SIP is a one-off plan introduced at 50% of the FY14 LTI grant, but linked to performance conditions similar to the STI.
Why was the SIP introduced?	The Board has issued the SIP for FY16 to achieve the following purposes: • to maintain the alignment between the interests of shareholder and Ansell management; • to provide a replacement plan for the FY14 LTI grant which has been cancelled by the Board; • encourage retention of participants through time vesting requirements; and • encourage high performance through achievement of performance hurdles.
Who participates?	Those Executives and other senior managers whose grants under the FY14 LTI were cancelled.
Instrument	
How are awards delivered?	Awards are made by way of restricted shares (i.e. ordinary shares in Ansell that are unable to be sold, transferred, pledged, encumbered or otherwise dealt with for a period of two years from date of issue). The Group will purchase each restricted share on-market on the ASX.
Gateway and performance conditions	
Does a gateway apply to the SIP?	Yes. As in the FY14 LTI grant, the gateway requires that the Group's ROE is at least 1.5 x the WACC at the end of the performance period in order for any awards under the SIP to vest (see section 7.3).
What are the performance conditions?	The performance conditions are the same as those for sales and EBIT under the STI plan (see section 7.2).
Reward opportunity	
What are the performance targets and what level of reward can be earned under the SIP?	The performance targets under the SIP are exactly the same for Sales and EBIT as those in the STI (see section 7.2). The opportunity levels under the SIP are 50% of the cancelled FY14 LTI grant opportunity levels, adjusted for current pay rates (see section 7.3).
Governance	
Will the Board exercise discretion with respect to the calculation of performance?	The Board has discretion to make adjustments in calculating the applicable performance conditions to: • exclude matters that are beyond the reasonable control or foresight of management; and • include matters that are within management control or should reasonably have been foreseen to ensure no unfair advantage or penalty in incentive outcomes when viewed in light of shareholder value creation.
Is retesting permitted?	No. Retesting is not permitted.
Cessation of employment, clawback or change of control	
Is there an ability to 'claw back' in appropriate circumstances?	The Board may, in its discretion, cancel, reset and/or require repayment of an award if the Award has vested in certain circumstances. These are detailed in the SIP plan rules, but typically relate to acts of fraud, dishonesty or serious breach of obligations.
What happens to awards that are not yet exercisable on cessation of	If an Executive ceases his or her employment with Ansell at any time prior to the end of the vesting period, the Executive shall not be entitled to any award. However, the Board may,

employment?	in its sole discretion, pay a pro-rated award in certain circumstances such as death, disability, retirement or other reason approved by the Board.
How would a change of control impact SIP entitlements?	On a change of control, unless the Board determines otherwise in its absolute discretion, the shareholding restrictions on the SIP awards will cease to apply.

SIP – actual outcomes

Performance under the SIP is linked to FY16 Sales and EBIT performance under the STI plan. Please refer to section 7.2 for details about performance against the relevant measures.

Gateway Condition

In addition to the performance conditions for Sales and EBIT above, a gateway condition exists relating to the Company's Return on Equity (ROE), which requires that the FY16 ROE to be at least 1.5 times the Company's WACC at 30 June 2016.

Ansell's WACC for FY16 was determined to be 7.4%. This represents the minimum return anticipated on the assets of the Group and takes into consideration the Group's mix of funding between debt and equity. The gateway condition calculated at 1.5 x WACC was 11.1%. The Company's actual ROE for FY16 was 14.1%, exceeding the gateway condition.

SIP shares

The grant of restricted shares as shown in the table below reflects the performance achieved and the value of shares issued to participants of the FY16 SIP.

Table 7.4 a – FY16 SIP outcomes

For the financial year ended 30 June 2016	Maximum potential SIP opportunity as % of base salary	Maximum potential SIP opportunity (\$) ⁽¹⁾	\$ Value of SIP Equity Award ⁽²⁾	% of the maximum SIP opportunity achieved	% of the maximum SIP opportunity Not achieved ⁽¹⁾
Executive Director					
Magnus R Nicolin	200%	2,080,000	499,200	24%	76%
Other Executives					
Neil Salmon	125%	635,250	150,645	24%	76%
Peter Dobbelssteijn	100%	387,939	93,105	24%	76%
Steve Genzer	100%	414,732	99,536	24%	76%
Jeyan Heper ⁽³⁾	n.a.	n.a.	n.a.	n.a.	n.a.
Joe Kubicek ⁽⁴⁾	100%	325,834	78,200	24%	76%
Anthony Lopez	100%	378,420	90,821	24%	76%
Mike Mattos ⁽⁴⁾	100%	269,727	64,750	24%	76%
Mark Nicholls ⁽³⁾	n.a.	n.a.	n.a.	n.a.	n.a.
Scott Corriveau ⁽⁵⁾	100%	293,550	70,452	24%	76%

⁽¹⁾ The maximum opportunity represents half of the maximum opportunity available under the FY14 LTI grant. Where the actual SIP payment is less than the maximum potential, the difference is forfeited and does not become payable in subsequent years.

⁽²⁾ The 2016 SIP was determined in conjunction with the finalisation of the FY16 results. As discussed above, the \$ value of the SIP Award is the gross value (prior to tax) made via restricted shares.

⁽³⁾ As indicated in Section 5, Mr Heper and Mr Nicholls were not participants in the FY14 LTI grant and therefore are not entitled to an award under the SIP.

⁽⁴⁾ Mike Mattos and Joe Kubicek joined the Group in January 2014 after the BSSI acquisition and are entitled to a pro-rata SIP award as a result of the link to the FY14 LTI. As Mr Mattos ceased his employment with the Group during FY16, a pro-rata reduction will be applied to Mr Mattos' SIP to reflect his tenure with the Group.

⁽⁵⁾ Mr Corriveau left the group on 30 September 2015, which has distorted his SIP as a percentage of his base salary for the year. His SIP Award based on his annualised base salary is 18%.

Section 8 – Executive Service Agreements

The remuneration and other terms of employment for Executives are covered in formal agreements or letters of offer.

Chief Executive Officer

The CEO, M Nicolin, was recruited as a US based executive and his contract reflects this. He has subsequently relocated to Belgium and there has been no substantial change to the terms and conditions of his contract. He is engaged by the Group under an agreement which:

- does not specify a fixed term of engagement;
- provides that the Group may terminate the CEO's engagement upon giving 12 months' notice or payment in lieu, and may terminate immediately in the case of wilful misconduct;
- provides that in certain circumstances, such as a material diminution of responsibility or the CEO ceasing to be the most Senior Executive of Ansell, the CEO may be entitled to a payment equivalent to 12 months' base salary;
- requires the CEO to give the Group at least six months' notice of termination of services; and
- in order to protect the Group's business interests, prohibits the CEO from engaging in any activity that would compete with the Group for a period of 12 months following termination of his engagement for any reason.

The agreement entered into with the CEO has been drafted to comply with the Corporations Act regarding the payment of benefits on termination.

Other Executives

N Salmon was recruited as a US based executive and his contract reflects this. He has subsequently relocated to Belgium and there has been no substantial change to the terms and conditions of his contract. His services are engaged by the Group for an unlimited duration. He is entitled to a separation fee upon termination by the Group (other than for gross misconduct) equal to 12 months' base salary plus certain other contractual entitlements. He is required to give the Group six months' prior notice of termination of services.

S Genzer and M Nicholls, who are based in the United States, and A Lopez, who is seconded to the Group's office in Brussels, are employed 'at will' and as such, their service agreement does not specify a fixed term of employment.

P Dobbelsteijn manages the sales and marketing operations of three major geographies being Europe, Middle East & Africa and Asia Pacific. His services are engaged by the Group for an unlimited duration. He is entitled to a separation fee upon termination by the Group (other than for gross misconduct) equal to 12 months' base salary plus STI and LTI awards pro-rated according to the applicable performance period and subject to final approval by the Board. He is required to give the Group three months' prior notice of resignation.

J Heper is a Belgium based executive who is employed by the Group for an unlimited duration. He is eligible for 10 week's severance benefits upon termination by the Group in accordance with applicable Belgian laws and regulations. He is required to give 5 weeks' notice to the Group if he wishes to resign..

M Mattos (resigned 31 January 2016) and J Kubicek were employed under agreements entered into at the time of Ansell's acquisition of the BarrierSafe Solutions International business in January 2014. These employment agreements have a fixed two-year term through 2 January 2016. As this period has now passed, employment continues on an 'at-will' basis.

Section 9 – Non-Executive Directors' fees

9.1 Policy and approach to setting fees

Overview of policy	Reflecting the Board's focus on long term strategic direction and corporate performance rather than short term results, remuneration for the Chairman and other Non-Executive Directors is structured with a fixed fee component only. Fees are not linked to the performance of Ansell so that independence and impartiality is maintained. To reflect the global representation that exists in the composition of the current Board (which includes Australian, US and UK resident directors), Directors are paid in their local currency. This is done by converting their US dollar fees into their local currency using the applicable monthly spot exchange rates at the time of payment. The methodology was different during FY15, which used foreign exchange rates that were agreed by the Board at the beginning of the financial year and consistent with rates used by the business in the annual planning process. Board and Committee fees are set by reference to a number of relevant considerations including: > responsibilities and risks attaching to the role of Director; > time commitment expected of Directors; > fees paid by peer companies; > independent advice received from external advisers; > the global nature of our businesses (to ensure that the Directors' fee attracts and retains the best international Directors); and > the requirement to travel internationally to familiarize oneself with international operations and for required meetings.																					
Aggregate fees approved by shareholders	The current aggregate fee pool for Non-Executive Directors of US\$1,600,000 was approved by shareholders at the 2014 AGM. The fee pool in US\$ reflects the fact that business operations are run from outside Australia.																					
Base fees for 2016	The Board periodically reviews its approach to Non-Executive Director remuneration to ensure it remains in line with general industry practice and best practice principles of corporate governance. Fees for Non-Executive Directors during FY16 were as follows: <table><tr><th colspan="3">Base fees (Board)</th></tr><tr><td>Non-Executive Chairman ⁽¹⁾</td><td colspan="2">US\$320,000</td></tr><tr><td>Non-Executive Director</td><td colspan="2">US\$116,500</td></tr><tr><th>Committee fees</th><th>Committee chair</th><th>Committee member</th></tr><tr><td>Audit and Compliance Committee</td><td>US\$30,000</td><td>US\$12,000</td></tr><tr><td>HR Committee</td><td>US\$24,000</td><td>US\$12,000</td></tr><tr><td>Risk Committee</td><td>US\$24,000</td><td>US\$12,000</td></tr></table> Directors are permitted to be paid additional fees for special duties, including fees paid for serving on ad hoc projects or transaction-focused committees. In addition, Directors are also entitled to be reimbursed for all business related expenses, including travel expenses as may be incurred in the discharge of their duties. A travel allowance of US\$15,000 per annum is paid to each Non-Executive Director, which is in addition to the above fees. Superannuation contributions are made on behalf of the Non-Executive Directors at a rate of 9.5% as required by Australian law. For non-Australian based Directors, these payments are pro-rated for the period of time spent in Australia. The Directors fees above are inclusive of any Superannuation payments payable by law.	Base fees (Board)			Non-Executive Chairman ⁽¹⁾	US\$320,000		Non-Executive Director	US\$116,500		Committee fees	Committee chair	Committee member	Audit and Compliance Committee	US\$30,000	US\$12,000	HR Committee	US\$24,000	US\$12,000	Risk Committee	US\$24,000	US\$12,000

Section 10 – Key Management Personnel disclosure tables

10.1 Non-Executive Directors' statutory remuneration

Details of Non-Executive Directors' remuneration are set out in the following table:

Table 10.1 a)

Non-Executive Directors	Year	Directors Fees ^{(1) (5)} \$	Superannuation ⁽²⁾ \$	Total \$
G LL Barnes (Chairman)	2016	335,000	0	335,000
	2015	323,622	0	323,622
R J S Bell	2016	153,685	1,815	155,500
	2015	154,293	2,125	156,418
J A Bevan	2016	143,311	12,189	155,500
	2015	144,150	12,269	156,419
LD Crandall	2016	165,722	1,778	167,500
	2015	165,007	2,325	167,332
W P Day	2016	159,749	13,751	173,500
	2015	159,100	13,689	172,789
L Desjardins ⁽³⁾	2016	90,708	0	90,708
	2015	n.a.	n.a.	n.a.
A H Lo ⁽⁴⁾	2016	64,054	738	64,792
	2015	154,272	2,146	156,418
M T Peterson	2016	165,722	1,778	167,500
	2015	165,011	2,167	167,178
Total Non-Executive Directors' Remuneration	2016	1,277,951	32,049	1,310,000
	2015	1,265,455	34,721	1,300,176

(1) Directors Fees include Base and Committee fees plus travel allowances less applicable Superannuation (see footnote (2) below). All fees are expressed in US\$ and are unchanged from the prior year. The methodology of converting the Fees into the base currency of the Directors has changed such that the payments are converted using spot foreign exchange rates at the date of payment. During the prior year, the foreign exchange rates used to convert to the base currency of each Director were based on a fixed average exchange rate for the year (US\$1: A\$1.195 and US\$1: GBP 0.6347), which resulted in non-US based Directors being paid less than their full US\$ entitlement.

(2) Superannuation contributions are made on behalf of the Non-Executive Directors at a rate of 9.5% as required by Australian law. For non-Australian based Directors, these payments are pro-rated for the period of time spent in Australia.

(3) Leslie Desjardins was appointed on 30 November 2015 and her Directors fees and associated entitlements reflect a part year entitlement from her appointment date. During FY16, Leslie Desjardins did not attend any meetings in Australia and was therefore not affected by footnote 2) above relating to Superannuation.

(4) Annie Lo retired from the Board on 30 November 2015 and her Directors fees and associated entitlements reflect a part year entitlement up to her retirement date.

(5) The composition of the Committees is summarised in the Directors Report.

- 1) **Base salary** includes the base salary earned by the individual in FY16. The increases in base salary for Executives are based on external benchmarking of similar positions in the jurisdictions in which the executives are based. As a result, whilst the CEO increase was 4% with effect from 1 October 2015, increases for Other Executives' pay were either lower or higher depending upon their benchmarking of similar positions as well as by reference to their prior year performance against their personal objectives in their respective role.
- 2) **STI** represents amounts payable under the 2016 Short Term Incentive Plan, which are significantly below the 2015 outcomes – refer section 7.2.
- 3) **Other** includes benefits such as motor vehicle, executive expatriation and relocation allowances, executive insurance, expat tax equalization payments and other amounts. Significant year over year variations in other benefits are detailed in Section 5: Realised Remuneration.
- 4) **Retirement Benefits** includes retirement benefits earned by the individual in FY16.
- 5) **Share based payment expenses** includes amounts provided in respect of the Group's shared based LTI Plan. Primarily as a result of the cancellation of the FY14 grant, the Group reversed previously expensed amounts relating to these plans. As such, these reversals are being reflected in the negative amounts shown above in accordance with accounting requirements.
- 6) **Cash based payment expenses** includes amounts provided in respect of the Groups cash based LTI Plans. The negative amounts shown are due to the same factors as note 5) above (share based LTI plans).
- 7) **SIP** represents the value of the restricted shares awarded under the one-off Special Incentive Plan – please refer section 7.4
- 8) During FY15, the Board announced that the CEO Mr Magnus Nicolin, would relocate his primary place of residence from the USA to Belgium. Mr Nicolin would continue to spend the same or similar amounts of time in the USA as he did previously, but the move to Brussels makes it far easier for him to travel to the Asia Pacific region where the majority of our plants and supply chain activities are located. As part of this announcement, the Board advised that a maximum relocation cash cost of \$300,000 would be incurred by Ansell and that this cost had previously been accrued for. These costs were paid in FY15 and FY16 and have not been included in the remuneration report above.
- 9) **Mr Corriveau** and **Mr Mattos** left the Group during FY16 on 30 September 2015 and 31 January 2016 respectively. Termination benefits paid related to unused leave entitlements accrued during the year. Other benefits payable to Mr Corriveau for FY15, included tax equalisation payments made as part of his tenure in Brussels.
- 10) **Mr Carroll** left the Group during FY15.

10.3 Equity instruments

The below table details the movement in the number of options, Performance Rights (PRs) and PSRs over ordinary shares of Ansell Limited by the CEO and Other Executives during FY16.

11 Glossary

Beta means a beta which is calculated in Australian dollars against peer Australian-dollar denominated companies in the ASX/S&P 100.

Board means the Board of Directors of Ansell Limited.

Capex is an abbreviation for Capital Expenditure and means the Payments for property, plant, equipment (PP&E) and intangibles less the proceeds from sale of PP&E.

Constant Currency – Constant currency financial reporting is supplemental information. It is provided using the best estimate of the prior year results translated at the foreign currency exchange rates applicable to the current period and compared to the financial performance for the current year. As such, it is unaudited non-IFRS financial information and uses only a convenience translation. The Board believes that this provides greater insight into the financial performance of the business by the removal of year on year foreign exchange volatility. The principles of constant currency reporting and its implementation are subject to oversight by the Audit and Compliance Committee of the Board.

CAGR means Compound Average Growth Rate which as used in this document measures the average year-over-year growth rate of a financial metric over the specified time period.

Corporations Act means the *Corporations Act 2001 (Cth)*.

EBIT means all profits of Ansell before taking into account interest payments and income taxes.

EBITDA means EBIT before Depreciation and Amortisation.

EMEA means Europe, Middle East and Africa.

EPS or Earnings per Share (including Basic Earnings per share) means the portion of Ansell's profit which is allocated to the average number of ordinary fully paid shares on issue for the year.

Executive or Group Executive in this report refers to the CEO and Other Executive KMP.

Free Cash flow for FY15 and FY16 means EBITDA less changes in working capital (excluding foreign currency impacts and net of acquisitions and disposals), Capex, Tax payments, Net interest adjusted for non-recurring items such as major restructuring outlays, sale of businesses or other major assets.

FY15 means the 2015 financial year commencing on 1 July 2014 and ended on 30 June 2015.

FY16 means the 2016 financial year commencing on 1 July 2015 and ended on 30 June 2016.

FY17 means the 2017 financial year commencing on 1 July 2016 and ended on 30 June 2017.

Group or Ansell Group means Ansell Ltd and its subsidiaries.

HRC means the Human Resources Committee of the Board.

KMP means the Key Management Personnel of Ansell, which comprises all Directors (executive and non-executive) and those executives who have authority and responsibility for planning, directing and controlling the activities of the Group.

Long Term Incentive (LTI) means the Ansell Long Term Incentive Plan which is subject to the rules of the Ansell Long Term Incentive Plan as periodically approved by the Board.

Net Operating Assets means the Net Assets as per the Consolidated Balance Sheet less Net Interest Bearing Debt.

Net Interest Bearing Debt as per Note 10 to the Financial Statements.

Operating Cash Flow as referred to in the Chairman's introductory letter to the Remuneration Report, means Net cash provided by operating activities per the Consolidated Statement of Cash Flows adjusted for Capex (see above), Interest received and paid (Net Interest).

Operating Cash Flow as referred to in the Chairman's introductory letter to the Remuneration Report, means Net cash provided by operating activities per the Consolidated Statement of Cash Flows adjusted for Capex (see above) and Interest received and paid (Net Interest).

Other Executives means the group of people who are KMP but are not Non-executive Directors or the CEO.

PSRs means Performance Share Rights.

Profit Attributable means those profits of the Company which are available to the shareholders for distribution after deduction of tax and certain other provisions.

ROCE means Return on Capital Employed which is defined as **EBIT** divided by **Net Operating Assets**.

ROE means Return on Equity which is the amount of net income returned as a percentage of average shareholders' equity.

Short Term Incentive Plan (STI) or (STIP) means the Ansell Short Term Incentive Plan which is subject to the rules of the Ansell Short Term Incentive Plan as periodically approved by the Board.

TSR means Total Shareholder Return which means the total financial return which an investor receives from holding shares in Ansell, assuming dividends paid are reinvested in Ansell shares.

TSR (A\$) means Total Shareholder Return calculated in Australian dollars.

Working Capital is the balance as defined in Note 7 to the Financial Statements.

Underlying means, in connection with Underlying EPS and Underlying Profit Attributable, the respective EPS or Profit Attributable which is adjusted to exclude certain items (which might relate to one-off or extraordinary items). The exclusion of any items from the underlying result is approved by Ansell's Board. The underlying measure may also be used in connection with the calculation of the vesting of the LTI Plan.

WACC means the Weighted Average Cost of Capital which is a calculation of the average cost to Ansell of the debt and equity capital employed in the business.

Cash and cash equivalents at the beginning of the financial year		281.4	324.2
Effect of exchange rate changes on the balances of cash and cash equivalents held in foreign currencies at the beginning of the financial year		(9.5)	(42.1)
Cash and Cash Equivalents at the End of the Financial Year	6(a)	272.7	281.4

The above consolidated statement of cash flows should be read in conjunction with the accompanying notes.

Notes to the Financial Statements

1. Summary of Significant Accounting Policies

General

Ansell Limited ("the Company") is a company domiciled in Australia. The Company and its subsidiaries (together referred to as the "Group") is a global leader in protection solutions. The Group is a for-profit entity and designs, develops and manufactures a wide range of hand and arm protection solutions, clothing and condoms and is organised around four Global Business Units ("GBUs"):

- Industrial GBU: multi use hand, foot and body protection solutions for industrial worker environments and specialty applications.
- Medical GBU: surgical and examination gloves, healthcare safety devices and active infection prevention products for healthcare professionals and patients.
- Single Use GBU: single use industrial application gloves.
- Sexual Wellness GBU: condoms, lubricants and devices.

Statement of Compliance

The financial report is a general purpose financial report which has been prepared in accordance with Australian Accounting Standards adopted by the Australian Accounting Standards Board ("AASB") and the *Corporations Act 2001*. The financial report of the Group also complies with International Financial Reporting Standards and interpretations adopted by the International Accounting Standards Board.

The consolidated financial statements were authorised for issue by the Board of Directors on 15 August 2016.

Basis of Accounting

The financial report is presented in United States dollars and on the historical cost basis except that assets and liabilities in respect of derivative financial instruments and available-for-sale financial assets are stated at their fair value.

The Company is of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 dated 31 March 2016 and in accordance with the Instrument, amounts in the financial report and Directors' Report have been rounded off to the nearest hundred thousand dollars, unless otherwise stated. A summary of the significant accounting policies of the Group are disclosed below. The accounting policies have been applied consistently by all entities in the Group.

Changes in Accounting Policies

There have been no changes to the Group's accounting policies during the financial year.

New Accounting Standards Issued but not yet Applied

IFRS 15/AASB 15 *Revenue from Contracts with Customers* establishes a comprehensive framework for determining whether, how much, and when revenue is recognised. It replaces existing revenue recognition guidance, including IAS 18 / AASB 118 Revenue, IAS 11 / AASB 111 Construction contracts, and IFRIC 13 / Australian Interpretations 13 Customer Loyalty Programmes. IFRS 15 / AASB 15 is effective for annual reporting periods beginning on or after 1 January 2018, with early adoption permitted. The Group is assessing the potential impact on its consolidated financial statements resulting from the application of IFRS 15/AASB 15.

IFRS 16/AASB 16 *Leases* removes the classification of leases as either operating leases or finance leases. IFRS 16/AASB 16 introduces a single lessee accounting model and requires a lessee to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. Short-term leases (less than 12 months) and leases of low-value assets (such as personal computers) are exempt from the lease accounting requirements. There are also changes in accounting over the life of the lease. In particular, companies will now recognise a front-loaded pattern of expense for most leases, even when they pay constant annual rentals. IFRS 16/AASB 16 is effective for annual reporting periods beginning on or after 1 January 2019, with early adoption permitted. The Group is assessing the potential impact on its consolidated financial statements resulting from the application of IFRS 16/AASB 16.

Notes to the Financial Statements

1. Summary of Significant Accounting Policies (continued)

Principles of Consolidation

The financial statements of the Group include the Company being the parent entity, and its subsidiaries.

The financial statements incorporate the assets and liabilities of all subsidiaries of the Company as at balance date and the results of all subsidiaries for the year then ended. Subsidiaries are entities controlled by the Company. Control exists when the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Results of subsidiaries are included in the income statement from the date on which control commences and continue to be included until the date control ceases to exist. The effects of all transactions between entities in the Group are eliminated in full. Non-controlling interests in the results and equity of subsidiaries are shown separately in the income statement and balance sheet respectively.

Foreign Currency

Transactions

Transactions in foreign currencies are recorded at the rate of exchange ruling on the date of each transaction. At balance date, amounts payable and receivable in foreign currencies are converted at the rates of exchange ruling at that date with any resultant gain or loss recognised in the income statement except when deferred in equity as qualifying cash flow hedges or qualifying net investment hedges.

Translation

The financial statements of overseas subsidiaries are maintained in their functional currencies and are converted to the Group's presentation currency as follows:

- assets and liabilities are translated at the rate of exchange as at balance date;
- income statements are translated at average exchange rates for the reporting period which approximate the rates ruling at the dates of the transactions; and
- all resultant exchange differences are recorded in the foreign currency translation reserve.

On consolidation, exchange differences arising from borrowings and any other currency instruments designated as hedges of investments in overseas subsidiaries, are transferred to the foreign currency translation reserve on a net of tax basis where applicable. When an overseas subsidiary is sold the cumulative amount recognised in the foreign currency translation reserve relating to the subsidiary is recognised in the income statement as part of the gain or loss on sale.

Recoverable Amount of Non-Current Assets Valued on the Cost Basis

The carrying amounts of non-current assets valued on the cost basis are reviewed to determine whether they are in excess of their recoverable amount at balance date. An impairment loss is recognised whenever the carrying amount of a non-current asset exceeds its recoverable amount. The impairment loss is recognised as an expense in the income statement in the reporting period in which it occurs.

The recoverable amount of a non-current asset is the higher of an asset's fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a post-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash flows, the recoverable amount is determined for the cash generating unit to which the asset belongs.

Impairment losses, other than those in respect of goodwill, are reversed through the income statement when there is an indication that the impairment loss may no longer exist.

Notes to the Financial Statements

1. Summary of Significant Accounting Policies (continued)

Accounting Estimates and Judgements

The preparation of consolidated financial statements in conformity with Australian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reported period. The estimates and associated assumptions are based on historical experience and various factors that are believed to be reasonable under the circumstances and are reviewed on an ongoing basis. Actual results could differ from these estimates.

Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The key estimates and assumptions that may have a significant impact on the financial statements are as follows:

Business combinations

A business acquisition requires judgement with respect to the determination of the fair value of purchase consideration given and the fair value of identifiable assets and liabilities acquired. Many of these assets and liabilities either given up or acquired are not normally traded in active markets, and thus management judgement is required in determining their fair values. Management judgement is also required in ascertaining the assets and liabilities which should be recognised, in particular with respect to intangible assets such as brand names, customer relationships, patents and trademarks and contingent liabilities.

Current asset provisions

In the course of normal trading activities, management uses its judgement in establishing the net realisable value of various elements of working capital – principally inventory and accounts receivable. Provisions are established for obsolete or slow moving inventories and bad or doubtful receivables. The actual level of obsolete or slow moving inventories and bad or doubtful receivables in future periods may be different from the provisions established and any such differences would affect future earnings of the Group.

Property, plant and equipment and definite life intangible assets

The Group's property, plant and equipment and intangible assets, other than indefinite life intangible assets, are depreciated/amortised on a straight line basis over their useful economic lives. Management reviews the appropriateness of useful economic lives of assets at least annually and any changes to useful economic lives may affect prospective depreciation rates and asset carrying values.

Impairment of goodwill and brand names

The Group tests whether goodwill and brand names are impaired at least annually, or more frequently if events or changes in circumstances indicate that their carrying values may be impaired, in accordance with the accounting policy on Intangible Assets. The policy requires the use of assumptions in assessing the carrying values of cash generating units. These assumptions are detailed in Note 9.

Income Tax

The reviews undertaken to determine whether a deferred tax asset should be recognised in jurisdictions where unbooked tax losses exist and in assessing the recoverability of booked tax losses, involve the use of judgement and estimates in assessing the projected future trading performances of relevant operations. These judgements and estimates are subject to risk and uncertainty hence there is a possibility that changes in circumstances will alter expectations which may impact on the amount of the deferred tax asset in respect of tax losses recognised on the balance sheet. In such circumstances the carrying amount of this asset may require adjustment resulting in a corresponding credit or charge to the income statement.

Defined Benefit Superannuation Plans

Various actuarial assumptions are utilised in the determination of the Group's defined benefit superannuation plan obligations. These assumptions are detailed in Note 12.

Other accounting policies

Other accounting policies that summarise the measurement basis used and are relevant to an understanding of the financial statements are provided throughout the notes to the financial statements.

Notes to the Financial Statements

2. Segment Information

The Group comprises the following main operating segments:

Industrial GBU: multi use hand, foot and body protection solutions for industrial worker environments and specialty applications.

Medical GBU: surgical and examination gloves, healthcare safety devices and active infection prevention products for healthcare professionals and patients.

Single Use GBU: single use industrial application gloves.

Sexual Wellness GBU: condoms, lubricants and devices.

2. Segment Information (continued)

Regional Information

The allocation of Operating Revenue and Operating Results reflect the geographical regions in which the products are sold to external customers. Assets Employed (excluding goodwill, brand names and other intangibles per Note 9 and Corporate Segment Assets) are allocated to the geographical regions in which the assets are located.

Asia Pacific: manufacturing facilities in Malaysia, Thailand, India, Sri Lanka, South Korea, China and Vietnam and sales activity.

Europe, Middle East and Africa: manufacturing facilities in Lithuania and Portugal and sales activity.

Latin America and Caribbean: manufacturing facilities in Brazil and sales activity.

North America: manufacturing facilities in USA and Mexico and sales activity.

Regions	Sales Revenue		Regional Assets	
	2016 US\$m	2015 US\$m	2016 US\$m	2015 US\$m
Asia Pacific	284.4	273.8	376.4	343.7
Europe, Middle East and Africa	524.6	557.9	187.8	222.9

Defined benefit superannuation plan expense	2.8	2.3
Equity settled share-based payments expense	(2.2)	3.8
Employee benefits expense	259.9	268.8

Notes to the Financial Statements

3. Profit Before Income Tax (continued)

3(a). (continued)

	2016	2015
	US\$m	US\$m
Net foreign exchange gain	(0.7)	(19.6)
(Profit)/loss on the sale of property, plant and equipment (excluding amount included in 3(b) below)	(1.1)	0.2
Gain on the sale of a subsidiary	(8.1)	-
Operating lease rentals	26.0	27.2
Write-down in value of inventories	6.1	4.0

3(b). Restructuring and asset impairments

Cost of goods sold

Restructuring	-	1.2
Asset impairment - property, plant and equipment	-	4.0
Total restructuring and asset impairments in cost of goods sold	-	5.2

Selling, general and administration

Restructuring	-	10.0
Gain on the sale of property, plant and equipment	-	(17.8)
Asset impairment - other	-	0.5
Asset impairment - property, plant and equipment	-	0.1
Total restructuring and asset impairments in selling, general and administration	-	(7.2)
Total restructuring and asset impairments	-	(2.0)

3(c). Recognition and measurement

Sales revenue

Sales revenue is measured at the fair value of the consideration received or receivable, net of returns, trade discounts and allowances. External sales are recognised when the significant risks and rewards of ownership of the goods have been transferred to the buyer and it can be measured reliably.

Notes to the Financial Statements

4. Income Tax

4(a). Income Tax Expense

	2016 US\$m	2015 US\$m
Prima facie income tax calculated at 30% (2015: 30%) on profit before income tax	64.4	67.1
Reduced taxation arising from:		
Prior year overprovision	-	(1.6)
Gain on sale of property, plant and equipment	-	(4.4)
Investment and export incentive allowances	(3.5)	(2.6)
Net lower overseas tax rates	(0.5)	(4.8)
Utilisation/recognition of previously unbooked tax losses	(7.3)	(15.5)
Other permanent differences	(0.5)	(3.5)
Income tax expense attributable to profit before income tax	52.6	34.7
Income tax expense attributable to profit before income tax is made up of:		
Current year income tax	36.8	19.2
Deferred income tax attributable to:		
Increase/(decrease) in deferred tax liability	4.5	6.6
(Increase)/decrease in deferred tax asset	11.3	8.9
	52.6	34.7

	2016 US\$m	2015 US\$m
Income tax benefit/(expense) recognised in other comprehensive income		
Actuarial gain/loss on defined benefit superannuation plans	1.3	1.0
Change in fair value of available for sale financial assets	-	(2.5)
Movement in effective hedges for year	(0.5)	0.2
	0.8	(1.3)

Notes to the Financial Statements

4. Income Tax (continued)

4(b). Deferred Tax Assets

	2016 US\$m	2015 US\$m
Deferred tax assets arising from:		
Deductible temporary differences	45.2	43.0
Accumulated tax losses	45.4	58.2
	90.6	101.2

Deferred tax assets are attributable to the following:

	2016 US\$m	2015 US\$m
Trading stock tax adjustments	6.4	7.3
Provisions	19.9	23.9
Accruals	6.0	2.2
Depreciation of plant and equipment and capital allowances	-	0.9
Amortisation of intangible assets	12.9	8.7
Accumulated tax losses	45.4	58.2
Total Deferred Tax Assets	90.6	101.2

Details of the movement in the balance of deferred tax assets are as follows:

	2016 US\$m	2015 US\$m
Balance at the beginning of the financial year	101.2	122.7
Over provision of prior year balance	1.6	-
Amount charged to the income statement	(11.3)	(8.9)
Amount credited/(charged) to other comprehensive income	0.8	(1.7)
Net exchange differences on translation of foreign subsidiaries	(1.7)	(10.9)
Balance at the end of the financial year	90.6	101.2

4(c). Deferred Tax Liabilities

The tax effect of temporary differences that give rise to significant portions of the provision for deferred income tax are presented below:

	2016 US\$m	2015 US\$m
Depreciation on plant and equipment	3.8	5.1
Amortisation of intangible assets	85.2	78.2
Other	0.5	1.1
Total Deferred Tax Liabilities	89.5	84.4

Details of the movement in the balance of deferred tax liabilities are as follows:

	2016 US\$m	2015 US\$m
Balance at the beginning of the financial year	84.4	75.5
Over provision of prior year balance	1.0	0.8
Entities acquired	-	2.2
Amount charged to the income statement	4.5	6.6
Net exchange differences on translation of foreign subsidiaries	(0.4)	(0.7)
Balance at the end of the financial year	89.5	84.4

Notes to the Financial Statements

4. Income Tax (continued)

4(d). Recognition and measurement

Current tax

Income tax on the profit or loss for the financial year comprises current and deferred tax and is recognised in the income statement.

Current tax is the expected tax payable or receivable on taxable income for the financial year, using tax rates enacted or substantively enacted at reporting date, and any adjustments to tax payable or receivable in respect of previous years.

Deferred tax

Deferred tax balances are determined using the balance sheet method which calculates temporary differences based on the carrying amounts of an entity's assets and liabilities in the balance sheet and their associated tax bases. The amount of deferred tax provided is based on the expected manner of realisation of the asset or settlement of the liability, using tax rates enacted or substantively enacted at reporting date. In jurisdictions where unbooked tax losses exist, regular reviews are undertaken of the past trading history and projected future trading performance of the operations in these jurisdictions as part of the determination of the value of any deferred tax asset that should be reflected in the accounts in respect of such losses. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent it is no longer probable that the related tax benefit will be realised.

The Group has not recognised the tax value of deferred tax assets in respect of trading tax losses of \$14.3 million (2015: \$21.0 million) and \$113.4 million of capital losses (2015: \$118.4 million). Deferred tax assets in respect of these losses have not been recognised as it is not probable that future taxable profits will be available against which these losses can be utilised.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income. In this case, the associated tax is also recognised in other comprehensive income.

Notes to the Financial Statements

5. Earnings per Share

	2016 US\$m	2015 US\$m
Earnings reconciliation		
Profit for the period	161.9	189.1
Less profit for the period attributable to non-controlling interests	(2.8)	(1.6)

6(b). Reconciliation of net profit after tax to net cash provided by operating activities

	2016	2015
	US\$m	US\$m
Profit for the period	161.9	189.1
Add/(less) non-cash items:		
Depreciation	29.0	28.3
Amortisation	9.0	7.1
Impairment - trade receivables	0.4	0.5
Share-based payments expense	(2.2)	3.8
Restructuring costs	-	11.2
Asset impairments	-	4.1
Add/(less) items classified as investing/financing activities:		
Interest received	(4.1)	(5.2)
Interest and financing costs paid	26.4	26.5
Gain on the sale of property, plant and equipment	(1.1)	(17.6)
Gain on the sale of a subsidiary	(8.1)	-
Net cash provided by operating activities before change in assets and liabilities	211.2	247.8
Change in assets and liabilities net of effect from acquisitions and disposals of businesses and subsidiaries:		
Decrease in trade and other receivables	14.3	29.0
Decrease/(increase) in inventories	0.7	(46.9)
Increase in other assets	(2.4)	(5.1)
Decrease in trade and other payables	-	(17.8)
Decrease in provisions/other liabilities	(15.8)	(26.6)
Increase/(decrease) in retirement benefit obligations	1.4	(1.1)
Increase in provision for deferred income tax	6.6	7.5
Decrease in deferred tax asset	10.3	12.3
Increase/(decrease) in provision for income tax	5.5	(13.2)
Other non-cash items (including foreign currency impact)	0.5	13.6
Net cash provided by operating activities	232.3	199.5

6(c). Recognition and measurement

Cash at bank and on deposit

Cash and cash equivalents includes cash on hand and at banks and investments in money market instruments, net of outstanding bank overdrafts.

Restricted deposits

Restricted deposits represent cash set aside (under Court orders) to cover the provisions established to address any remaining liability of members of the Group for claims arising with respect to the Accufix Pacing Lead (refer Note 11 Provisions - Other provisions).

Notes to the Financial Statements

7. Working Capital

	2016	2015

Other payables	35.3	33.3
Total Current Trade and Other Payables	235.2	229.7

7(d). Recognition and measurement

Trade receivables

Trade receivables are carried at amounts due. Receivables that are not past due and not impaired are considered recoverable. Trade receivables are recognised initially at the value of the invoice sent to the customer and subsequently at the amount considered recoverable. Customer trading terms are generally between 30 - 60 days.

Allowance for impairment of trade receivables

The collectability of trade receivables is assessed continuously and at balance date specific allowances are made for any doubtful trade receivables based on a review of all outstanding amounts at year end. Bad debts are written off during the year in which they are identified. The following basis have been used to assess the allowance for doubtful trade receivables:

- Individual account by account assessment based on past credit history;
- Prior knowledge of debtor insolvency;
- High risk customers assessments based on continuous analysis of customers' payment trends and monitoring of the political and economic climates particularly for those customers who are located in emerging market countries; and
- Customer accounts that have been referred to a collection agency.

Inventories

Inventories are valued at the lower of cost and net realisable value. The net realisable value of inventories is the estimated selling price in the ordinary course of business less estimated costs to sell. The cost of inventories is based on the first-in, first-out principle. In the case of manufactured inventories and work in progress, cost includes an appropriate share of the production overheads as applicable.

Allowances are established for obsolete or slow moving inventories taking into consideration the ageing or seasonal profile of inventories, the nature of inventories, discontinued lines, sell through history and forecast sales.

Trade and other payables

Trade and other payables are normally settled within 30 days from invoice date or within the agreed payment terms with the supplier.

Balance at the end of the financial year	10.2	22.9	34.4	136.8	26.9	231.2

Recognition and measurement

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the item. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and that the cost of the item can be measured reliably.

Depreciation

Depreciation is generally calculated on a straight-line basis so as to write off the net cost of each item of property, plant and equipment, excluding land, over its estimated useful life.

The expected useful lives in the current and prior years are as follows:

Freehold buildings	20 - 40 years
Leasehold buildings	The lesser of 50 years or life of lease
Plant and equipment	3 - 20 years

Depreciation rates and methods are reviewed annually for appropriateness.

Notes to the Financial Statements

	1,001.9	1,040.0

Notes to the Financial Statements

9. Intangible Assets (continued)

Recognition and measurement

Goodwill and Brand Names

Goodwill on acquisition is measured at cost being the excess of the cost of the acquisition over the fair value of the Group's share of the net identifiable assets acquired. Goodwill is not amortised. Brand names are initially recorded at cost based on independent valuation at acquisition date, which equates to fair value. Based on the nature of the major brand names acquired by the Group, which are international brands that benefit from competitive advantages due to technology, innovation and product development, it is not possible to make an arbitrary assessment that these brand names have a finite useful life, quantifiable in terms of years except where such brands are subject to licensing agreements covering a finite period or where management intends to phase out the use of a brand. Brand names subject to a licensing arrangement are amortised over the life of the arrangement. Brand names that are intended to be phased out are amortised over the period management anticipates that this process will take. The amortisation of brand names, development and software costs and other intangibles are recognised in selling, general and administration costs in the income statement. No amortisation is provided against the carrying value of those brand names not subject to a licensing arrangement or phase out process as the Group believes that the lives of such assets are indefinite at this point.

Development and Software Costs

Capitalised development and software costs are amortised over a three to ten year period.

Other Intangible Assets

Other intangible assets that are acquired by the Group and have finite useful lives are initially recorded at cost based on independent valuation at acquisition date, which equates to fair value. These assets include patents which are amortised on a straight line basis over the legal life of the patent and customer and distributor relationships which are amortised on a straight line basis over their estimated useful lives which range from six to twenty years.

Impairment

Goodwill and indefinite life intangible assets are tested for impairment at least annually. The carrying amount of other non-current assets, excluding any defined benefit fund assets, deferred tax assets and financial assets are reviewed at each reporting date to determine whether there are any indicators of impairment. If such indicators exist, the asset is tested for impairment by comparing its recoverable amount to its carrying amount. The recoverable amount of an asset is determined as the higher of fair value less costs of disposal and value in use. The recoverable amount is estimated for each individual asset or where it is not possible to estimate for individual assets, it is estimated for the Cash-Generating Unit (CGU) to which the asset belongs. A CGU is the smallest identifiable group of assets that generate cash inflows largely independent of the cash inflows of other assets or group of assets with each CGU being no larger than a reportable segment.

The recoverable amount of the CGUs has been determined based on a value in use calculation utilising five-year cash flow projections. The base for each CGU is the budget for the 2017 financial year as approved by the Board. Specific growth and after tax WACC rates have been used for each CGU for forecasts for financial years ending June 2018 to 2021 and for the terminal year. Factors such as country risk, forecasting risk and country specific growth and tax rates have been taken into consideration in arriving at these rates.

Cash flows used for value in use calculations are estimated for the asset in its present condition and therefore do not include cash inflows or outflows that improve or enhance the asset's performance or that may arise from future restructuring.

The post-tax discount rate used for a value in use calculation is derived based on an independent external assessment of the Group's post-tax weighted average cost of capital in conjunction with risk specific factors to the countries in which the CGU operates.

The average annual sales revenue growth rates applied in the discounted cash flow models range between 2 per cent and 4 per cent (2015: 2 per cent and 7 per cent) while the growth in the terminal year was between 2 per cent and 3 per cent (2015: between 2 per cent and 3 per cent). The post tax discount rates applied range between 8 per cent and 9 per cent (2015: 8 per cent and 9 per cent).

An impairment loss is recognised whenever the carrying amount of an asset or its CGU exceeds its recoverable amount. Impairment losses are recognised in the income statement as part of cost of goods sold and selling, general and administration expenses. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to CGUs and then to reduce the carrying amount of the other assets in the unit.

An impairment loss is reversed if the subsequent increase in recoverable amount can be related objectively to an event occurring after the impairment loss was recognised. An impairment loss in respect of goodwill or other indefinite life intangible assets is not reversed. An impairment loss in other circumstances is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Notes to the Financial Statements

10. Interest Bearing Liabilities

	2016 US\$m	2015 US\$m
Current		
Loans repayable in:		
Canadian dollars	3.9	4.0
Indian rupees	1.1	2.2
US dollars	-	0.9
Total Current	5.0	7.1
Non-Current		
Loans repayable in:		
Euros	149.7	162.2
US dollars	474.0	482.0
UK pounds	62.9	89.8
Total Non-Current	686.6	734.0
Total Interest Bearing Liabilities	691.6	741.1

The Group has a syndicated borrowing facility of US\$500 million (US\$204 million and GBP 46.8 million drawn down at 30 June 2016) maturing in June 2019, a Euro 50 million revolving credit facility (Euro 33 million drawn down at 30 June 2016) maturing in June 2018 and Senior Notes to the equivalent of US\$383 million. The Senior Notes of US\$270 million and Euro 101.5 million mature between June 2020 and April 2026. These facilities can be accessed by certain Australian, US, UK and European subsidiaries.

There are a number of financial covenants attaching to the bank and note facilities including restrictions on the level of borrowings of non-guarantor subsidiaries and ensuring certain financial ratios are maintained. If any breaches of these covenants occur all monies outstanding under the facility become immediately due and payable. The Company is in compliance with all covenants. The interest rates for these facilities are determined based on market rates at the time amounts are drawn down.

	2016 US\$m	2015 US\$m
Net Interest Bearing Debt		
Current interest bearing liabilities	5.0	7.1
Non-current interest bearing liabilities	686.6	734.0
Cash at bank and short-term deposits	(269.6)	(278.2)
Net interest bearing debt	422.0	462.9

Recognition and measurement

Interest bearing liabilities are initially recognised at fair value less attributable transaction costs. Subsequent to initial recognition interest bearing liabilities are stated at amortised cost. Any difference between the cost and redemption value is recognised in the income statement over the period of the liability using the effective interest method.

Notes to the Financial Statements

10. Interest Bearing Liabilities (continued)

The following table sets out details in respect of Interest Bearing Liabilities at 30 June.

		Effective Interest	Financial Year	2016

Notes to the Financial Statements

11. Provisions

	2016 US\$m	2015 US\$m
Current		
Provision for employee entitlements	38.0	42.5
Provision for rationalisation and restructuring costs	6.9	16.1
Other provisions	3.9	4.2
Total Current	48.8	62.8
Non-Current		
Provision for employee entitlements	10.6	14.7
Total Non-Current	10.6	14.7
Total Provisions	59.4	77.5

Reconciliations of the carrying amount of each class of provision, except for employee entitlements, are set out below:

	2016 US\$m	2015 US\$m
Provision for rationalisation and restructuring		
Balance at the beginning of the financial year	16.1	22.9
Amounts (credited)/charged to the income statement	(2.4)	11.2
Amounts utilised for intended purposes	(6.4)	(17.6)
Net exchange differences on translation of foreign subsidiaries	(0.4)	(0.4)
Balance at the end of the financial year	6.9	16.1
Other provisions		
Balance at the beginning of the financial year	4.2	4.9
Amounts utilised for intended purposes	(0.2)	(0.1)
Net exchange differences on translation of foreign subsidiaries	(0.1)	(0.6)
Balance at the end of the financial year	3.9	4.2

Recognition and measurement

A provision is recognised when there is a legal, equitable or constructive obligation as a result of a past event and it is probable that a future sacrifice of economic benefits will be required to settle the obligation, the timing or amount of which is uncertain.

A provision is determined by discounting the expected future cash flows required to settle the obligation at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Employee Entitlements

Wages, Salaries and Annual Leave

Liabilities for employee entitlements to wages, salaries and annual leave represent the amount which members of the Group have a present obligation to pay resulting from employees' services provided up to the balance date calculated at undiscounted amounts based on expected wage and salary rates that will be paid when the obligation is settled and include related on-costs.

Long Service Leave and Post-retirement Health Benefits

The liability for employee entitlements to long service leave represents the present value of the estimated future cash outflows to be made by the Group resulting from employees' services provided in the current and prior periods. Post retirement health benefits are subject to annual actuarial reviews.

The liability is calculated using estimated future increases in wage and salary rates including related on-costs, expected settlement dates based on turnover history and medical cost trends and is discounted using corporate bond rates at balance date, which most closely match the terms of maturity of the related liabilities.

Provision for rationalisation and restructuring costs

Provisions for rationalisation and restructuring are only recognised when a detailed plan has been approved and the restructuring has either commenced or been publicly announced, or firm contracts related to the restructuring have been entered into. Costs related to ongoing activities are not provided for.

Other Provisions

Other provisions are recognised to cover specifically identified or obligated costs relating to the Accufix Pacing Lead and insurance claims. The Accufix Pacing Lead related expenses include costs of patients associated with the monitoring and (where appropriate) explantation of the leads and for legal costs in defence of claims made in respect of the Accufix Pacing Leads. This provision is covered by cash required to be set aside by the Courts (refer to Note 6 - Cash and Cash Equivalents - Restricted deposits).

Notes to the Financial Statements

12. Retirement Benefit Obligations

Certain members of the Group contribute to defined benefit and defined contribution superannuation plans maintained to provide superannuation benefits for employees. They are obliged to contribute to the various superannuation plans as a consequence of legislation or Trust Deeds. Legal enforceability is dependent on the terms of the legislation or the Trust Deeds.

12(a). Defined benefit superannuation plans

Funding for post-employment benefits is carried out in accordance with the requirements of the Trust Deed for the Fund and the advice of the Fund's actuarial adviser. Plan assets are held in trusts which are subject to supervision by prudential regulators. Responsibility for governance of the plan, including investment decisions and plan rules, rests solely with the board of trustees of the plan.

The amounts recognised in the balance sheet are determined as follows:

	2016 US\$m	2015 US\$m
Present value of accumulated defined benefit obligations	62.6	63.9
Fair value of defined benefit plan assets	(39.5)	(45.8)
Net defined benefit liability recognised in the balance sheet	23.1	18.1

The principal actuarial assumptions used (expressed as a weighted average) to calculate the net defined benefit liability were as follows:

	2016	2015
Discount rate	2.5%	3.3%
Future salary increases	2.3%	2.6%

The movements in the net defined liability during the year are outlined below:

	2016 US\$m	2015 US\$m
Balance at the beginning of the financial year	18.1	16.2
Actuarial losses ⁽ⁱ⁾	3.8	3.0
Current service cost ⁽ⁱⁱ⁾	2.5	2.0
Net interest cost ⁽ⁱⁱ⁾	0.3	0.3
Employer contributions ⁽ⁱⁱⁱ⁾	(1.4)	(1.6)
Net exchange differences on translation of foreign subsidiaries	(0.2)	(1.8)
Balance at the end of the financial year	23.1	18.1

(i) Actuarial losses are recorded in other comprehensive income.

(ii) Current service cost and interest cost are recorded in the Consolidated Income Statement as part of selling, general and administration expenses.

(iii) Employer contributions are a cash payment and are recorded as part of payments to suppliers and employees in the Consolidated Statement of Cash Flows.

The Group expects \$1.5 million in contributions to be paid to its defined benefit plans during the year ending 30 June 2017.

The major categories of plan assets as a percentage of the fair value of total plan assets are as follows:

	2016	2015
Equity securities	29%	38%
Fixed interest securities	63%	51%
Property	3%	2%
Other	5%	9%

12(b). Defined contribution superannuation plans

	2016 US\$m	2015 US\$m
Contributions to defined contribution plans during the year	14.9	11.9

Conversion of Executive Share Plan shares to fully paid	-	4,000
Buy-back/cancellation of shares	(6,366,083)	-
Balance at the end of the financial year	147,660,815	153,154,841

Executive Share Plan Shares		
Balance at the beginning of the financial year	58,900	62,900
Conversion of Executive Share Plan shares to fully paid	-	(4,000)
Balance at the end of the financial year	58,900	58,900

Issued Capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax where applicable, from the proceeds. When shares are repurchased, the amount of the consideration paid, including directly attributable costs, is recognised as a deduction from equity.

Ordinary shares are fully paid and do not have authorised capital or par value. They carry one vote per share and the right to dividends as declared from time to time. In the event of winding up of the Company ordinary shareholders rank after all other shareholders and creditors and are fully entitled to any proceeds of liquidation.

Dividend Reinvestment Plan

The Company operates a dividend reinvestment plan which is open to all shareholders. Under this plan 383,322 were issued during the year. (2015: 133,952).

Executive Share Plan

During the financial year, nil Executive Plan shares were paid (2015: 4,000). Shares allotted under the Pacific Dunlop Executive Share Plan (which was discontinued in 1996) have been paid to A\$0.05 per share. Refer to Note 21 Ownership-based Remuneration Schemes for details of the price payable for shares issued under this plan.

Options

As at the date of this report, there are nil (2015: nil) unissued shares in the Company remaining under option.

Share-based Payments

The fair value of PRs granted to the Managing Director and Chief Executive Officer (CEO), Chief Financial Officer (CFO) and other senior executives on their appointments and PSRs granted to the CEO, CFO and other senior executives under the Long Term Incentive Plans is recognised as an employee benefit expense with a corresponding increase in equity over the vesting period.

Notes to the Financial Statements

13. Issued Capital and Reserves (continued)

13(b). Nature and Purpose of Reserves

Share-based payments reserve

This reserve is used to record the value of equity benefits provided to employees as part of their remuneration under various Long Term Incentive Plans. Refer to Note 21 Ownership-based Remuneration Schemes for further details of these plans.

Hedging reserve

This reserve records the portion of the unrealised gains or losses on cash flow hedges that are deemed to be effective.

General reserve

In certain jurisdictions regulatory requirements result in appropriations being made to a general reserve. The amount in the general reserve is available for release to retained profits/(accumulated losses).

Foreign currency translation reserve

The foreign currency translation reserve records the foreign currency differences arising from the translation of the financial statements of foreign subsidiaries where their functional currency is different to the presentation currency of the Group, as well as the translation of borrowings or any other currency instruments that hedge the Company's net investment in a foreign operation. Refer to Note 1 Summary of Significant Accounting Policies.

Transactions with non-controlling interests

Represents the excess paid over the fair value of assets acquired as a result of the purchase of additional equity in non-wholly-owned subsidiaries.

Fair value reserve

This reserve records the cumulative net change in the fair value of financial assets.

14. Dividends Paid or Declared

	2016 US\$m	2015 US\$m
Dividends Paid		
A final dividend of US23.0 cents per share unfranked for the year ended 30 June 2015 (June 2014: US22.0 cents unfranked) was paid on 10 September 2015 (2014: 24 September 2014)	34.0	31.6
An interim dividend of US20.0 cents per share unfranked for the year ended 30 June 2016 (June 2015: US20.0 cents unfranked) was paid on 10 March 2016 (2015: 11 March 2015)	31.6	30.4
	65.6	62.0

Dividends Declared

Since the end of the financial year the Directors have declared a final dividend of US23.5 cents per share unfranked, to be paid on 8 September 2016. The financial effect of this dividend has not been brought to account in the financial statements for the year ended 30 June 2016 and will be recognised in subsequent financial reports.

Dividend Franking Account

The balance of the dividend franking account as at 30 June 2016 was nil (2015: nil).

Notes to the Financial Statements

15. Financial Risk Management

Ansell has a range of financial policies designed to mitigate any potential negative impact financial risks may have on the Group's results. The Group's risk management is carried out by a central treasury department under policies approved by the board of directors. Group treasury identifies, evaluates and hedges financial risks in close co-operation with the group's business units. The board reviews and approves the Group's policies for managing each of these risks which are summarised below:

- Note 15(a) Foreign exchange risk;
- Note 15(b) Interest rate risk;
- Note 15(c) Credit risk;
- Note 15(d) Liquidity risk; and
- Note 15(e) Commodity price risk.

These risks affect the fair value measurements applied by the Group, which is discussed in Note 15(f).

15(a). Foreign Exchange Risk

The Group is exposed to a number of foreign currencies however the predominant operating currency is the US dollar (US\$). As such the Group has determined it appropriate to manage its foreign currency exposure against the US\$. On this basis the Company manages its transactional exposures as follows:

- Major revenue and cost currency net cash flow exposures are predominantly hedged back to US\$ on a twelve to eighteen-month rolling basis so as to reduce any significant adverse impact of exchange rate fluctuations on the earnings per share guidance provided by the Company to the market.
- The Group hedges up to 90 per cent of its estimated foreign currency exposure in respect of forecast purchases and sales.

The Group undertakes a range of derivative financial instruments, which can be defined in the following broad categories:

(i) Forward/Future Contracts

These transactions enable the Group to buy or sell specific amounts of foreign exchange or financial instruments at an agreed rate/price at a specified future date. Maturities of these contracts are predominantly up to one year.

(ii) Foreign Exchange Options

This is a contract between two parties, which gives the buyer of the put or call option the right, but not the obligation, to transact at a specified exchange rate. The Group typically uses a combination of bought and sold options, generally for zero cost, to hedge foreign currency receivable and payable cash flows predominantly out to one year.

As at 30 June the exposure to foreign currency risk from the Group's primary trading currency (US\$) is:

	Net Receivable/(Payable)	
	2016 US\$m	2015 US\$m
Net receivable/(payable) in non-US\$ reporting entities	28.2	(5.2)

The following table demonstrates the estimated sensitivity in the valuation of outstanding forward contracts and foreign exchange options to a 10 per cent increase/decrease in the US\$ exchange rate, with all other variables held constant, on profit for the period and equity.

	Profit for the period		Equity	
	2016 US\$m	2015 US\$m	2016 US\$m	2015 US\$m
With all other variables held constant:				
10% increase in US\$ exchange rate	-	-	3.9	2.0
10% decrease in US\$ exchange rate	-	-	1.4	1.2

15(b). Interest Rate Risk

The Group has a broad aim of managing interest rate risk on its debt by setting a minimum level of interest rate risk days (the weighted average term of all interest rates in the portfolio) and a minimum fixed/floating interest rate ratio. The Group enters into interest rate swaps that enable parties to swap interest rates (from or to a fixed or floating basis) for a defined period of time. Maturities of the contracts are principally between one and ten years.

Prior to the beginning of each year, the Group calculates its Financial Budget for the upcoming year using an updated set of financial assumptions and management's view of the marketplace in the coming financial year. The Group forecasts interest rates for all debt repricing and new financing.

In this context interest rate risk is the risk that the Group will, as a result of adverse movements in interest rates, experience:

- Unacceptable variations to the cost of debt in the review period for which the Financial Budget has been finalised; and
- Unacceptable variations in interest expense from year to year.

It is recognised that movements in interest rates may be beneficial to the Group. Within the context of the Group's operations, interest rate exposure occurs from the amount of debt repricing that occurs in any one year.

Notes to the Financial Statements

15. Financial Risk Management (continued)

The exposure to interest rate risk and the effective weighted average interest rate for interest bearing financial liabilities are set out below:

	Weighted Average Effective Interest Rate %	Floating US\$m	1 year or less US\$m	Fixed Interest repricing in:			Total US\$m
				1 to 2 years US\$m	2 to 5 years US\$m	> 5 years US\$m	
2016							
Bank and other loans	3.1	307.5	1.1	-	103.4	279.6	691.6
Effect of interest rate swaps*	0.1	(108.0)	-	37.8	110.0	(39.8)	-
		199.5	1.1	37.8	213.4	239.8	691.6
2015							
Bank and other loans	2.9	354.2	3.0	-	53.7	330.2	741.1
Effect of interest rate swaps*	0.2	(148.6)	73.7	30.0	85.0	(40.1)	-
		205.6	76.7	30.0	138.7	290.1	741.1

* Represents notional amount of interest rate swaps.

A separate analysis of debt by currency can be found at Note 10 - Interest Bearing Liabilities.

The table below shows the effect on profit for the period and equity, if interest rates had been 10 per cent higher or lower with all other variables held constant, taking into account all underlying exposures and related hedges. A sensitivity of 10 per cent has been selected as this is considered reasonable given the current level of both short-term and long-term US\$ interest rates.

	Profit for the period		Equity	
	2016 US\$m	2015 US\$m	2016 US\$m	2015 US\$m
With all other variables held constant:				
If interest rates were 10% higher	-	-	0.4	0.6
If interest rates were 10% lower	-	-	(0.4)	(0.6)

15(c). Credit Risk

The credit risk on financial assets (excluding investments) of the Group, is the carrying amount, net of any provision for impairment, which has been recognised on the balance sheet. The Group is exposed to credit risk from its operating activities, primarily from customer receivables and from its financing activities, including deposits with financial institutions, foreign exchange transactions and other financial instruments.

The carrying amount of the Group's financial assets represents the maximum credit exposure. The Group does not hold any collateral over any of the receivables.

(i) Credit Risk - Cash and Cash Equivalents

The Group held cash and cash equivalents of US\$272.7 million at 30 June 2016 (2015: \$281.4 million). The material cash and cash equivalent balances are held with bank and financial institution counterparties which are rated A3 or above by Moody's Investor Service.

(ii) Credit Risk - Trade Receivables

Customer credit risk is managed by each region subject to established policies, procedures and controls relating to customer credit risk management. The Group trades with recognised, creditworthy third parties, and also minimises concentrations of credit risk by undertaking transactions with a large number of customers and counter-parties in various countries. Customers who wish to trade on credit terms are subject to credit verification procedures including an assessment of their independent credit rating, financial position, past experience and industry reputation. In addition receivable balances are monitored on an ongoing basis. The Group is not materially exposed to any individual customer. An ageing of trade receivables past due is included in Note 7.

The Group's maximum exposure to credit risk at the reporting date was:

	Carrying amount	
	2016 US\$m	2015 US\$m
Net trade receivables	219.0	230.9

Individual trade receivables which are known to be uncollectible are written off by reducing the carrying amount directly. Other trade receivables are assessed where there is objective evidence that an impairment has been incurred but not yet recognised. For these receivables, the estimated impairment losses are recognised as an allowance for impairment. Receivables for which an impairment provision was recognised are written off against the provision where there is no expectation of recovering additional cash. Allowances for impairment are recognised in the income statement. Subsequent recoveries of amounts previously written off are credited to the income statement. Movements in the allowance for impairment and the ageing of trade receivables are included in Note 7.

Notes to the Financial Statements

15. Financial Risk Management (continued)

(iii) Credit Risk by Maturity

Based on the policy of not having material overnight exposures to an entity rated lower than A3 by Moody's Investors Service, the risk to the Group of counter-party default loss is not considered material. The following table indicates the value of amounts owing by counter-parties by maturity.

	Foreign Exchange Related Contracts		Interest Rate Contracts		Foreign Exchange Options		Total	
	2016	2015	2016	2015	2016	2015	2016	2015
	US\$m	US\$m	US\$m	US\$m	US\$m	US\$m	US\$m	US\$m
Term:								
0-6 mths	1.3	7.8	-	-	3.1	5.1	4.4	12.9
6-12 mths	0.4	1.5	-	-	3.4	4.2	3.8	5.7
1-2 yrs	-	-	-	-	-	-	-	-
2-5 yrs	-	-	0.7	0.5	-	-	0.7	0.5
> 5 yrs	-	-	4.2	2.6	-	-	4.2	2.6
Total	1.7	9.3	4.9	3.1	6.5	9.3	13.1	21.7

15(d). Liquidity Risk

Liquidity risk is the risk of an unforeseen event or miscalculation in the required liquidity level that may result in the Group foregoing investment opportunities or not being able to meet its obligations in an orderly manner, and therefore give rise to poor investment income or to excessive borrowing costs.

The Group seeks to reduce the risk of:

- (a) being forced to exit derivative financial instrument positions at below their real worth, or
- (b) finding it cannot exit the position at all, due to lack of liquidity in the market by:
 - (i) dealing only in liquid contracts dealt by many counter-parties;
 - (ii) dealing only in large, highly liquid and stable international markets; and
 - (iii) ensuring maturity risk days (the weighted average term of all maturity dates in the portfolio) remain within a specified range.

The following table sets out the contractual maturities of the Group's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows comprising principal and interest repayments.

	Total		Contractual Maturity (Years)			
	Carrying Amount	Contractual Cash Flows	0-1	1-2	2-5	> 5
	US\$m	US\$m	US\$m	US\$m	US\$m	US\$m
2016						
Trade and other payables	239.3	239.3	235.2	4.1	-	-
Bank and other loans	691.6	819.0	27.4	59.1	419.8	312.7

Bank and other loans	741.1	912.5	52.6	22.8	463.0	374.1
Derivative financial instruments	15.9	15.9	13.8	0.1	2.0	-
Total	993.8	1,165.2	296.1	30.0	465.0	374.1

Notes to the Financial Statements

15. Financial Risk Management (continued)

15(e). Commodity Price Risk

Ansell is a significant buyer of natural rubber latex and a range of synthetic latex products. It purchases these products in a number of countries in Asia, predominately Malaysia, Thailand and Sri Lanka. The Group is not active in hedging its purchases on rubber exchanges but may, from time to time, buy from suppliers or brokers at a fixed price for up to several months into the future. To the extent that any increases in these costs cannot be passed through to customers in a timely manner, the Group's profit after income tax and shareholder's equity could be impacted adversely.

15(f). Fair Value

The Group considers that the carrying amount of recognised financial assets and financial liabilities approximates their fair value. Derivative financial instruments are carried at their fair value.

The following table displays:

(i) Nominal/Face Value

This is the contract's value upon which a market rate is applied to produce a gain or loss which becomes the settlement value of the derivative financial instrument.

(ii) Credit Risk (derivative financial instruments)

This is the maximum exposure to the Group in the event that all counter-parties who have amounts outstanding to the Group under derivative financial instruments, fail to honour their side of the contracts. The Group's exposure is almost entirely to banks. Amounts owed by the Group under derivative financial instruments are not included.

(iii) Net Fair Value

This is the amount at which the instrument could be realised between willing parties in a normal market in other than a liquidation or forced sale environment. The net amount owing to financial institutions under all derivative financial instruments would have been \$2.3 million (2015: \$5.8 million) if all contracts were closed out on 30 June 2016.

	Nominal/Face Value		Credit Risk		Net Fair Value

Total	743.2	840.1	13.1	21.7	2.3	5.8

Notes to the Financial Statements

15. Financial Risk Management (continued)

(iv) Fair Value Hierarchy

The table below analyses financial assets and financial liabilities carried at fair value, including their levels in the fair value hierarchy as well as the valuation method. It does not include information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

The different valuation methods have been defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as price or indirectly (i.e. derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Group currently holds only Level 2 derivative financial instruments. In order to determine the fair value of the financial instruments, management used valuation techniques in which all significant inputs were based on observable market data.

	Level 2	
	2016	2015
	US\$m	US\$m
Derivative financial assets	13.1	21.7
Derivative financial liabilities	10.8	15.9

15(g). Recognition and measurement

Derivatives

The Group uses derivative financial instruments, principally foreign exchange and interest rate related, to reduce the exposure to foreign exchange rate and interest rate movements.

The Group has adopted certain principles in relation to derivative financial instruments:

- Derivatives may be used to hedge underlying business exposures of the Group. Trading in derivatives is not undertaken.
- Derivatives acquired must be able to be recorded in the Group's treasury management systems, which contain extensive internal controls.
- The Group predominantly does not deal with counter-parties rated lower than A3 by Moody's Investors Service.

The Group follows the same credit policies, legal processes, monitoring of market and operational risks in the area of derivative financial instruments, as it does in relation to other financial assets and liabilities on the balance sheet.

On a continuing basis, the Group monitors its future exposures and on some occasions hedges all or part of these exposures. The transactions which may be covered are future net cash flows of overseas subsidiaries, future foreign exchange requirements and interest rate positions.

These exposures are then monitored and may be modified from time to time. The foreign exchange hedge instruments are predominantly up to twelve months' duration and are used to hedge operational transactions the Group expects to occur in this time frame. From time to time minor mismatches occur in the forward book, however these mismatches are managed under guidelines, limits and internal controls. Interest rate derivative instruments can be for periods up to ten years as the critical terms of the instruments are matched to the underlying borrowings.

Derivative financial instruments are recognised initially at fair value and subsequently remeasured to their fair value at each reporting date. The fair value of forward exchange contracts, foreign exchange options and interest rate swap contracts is determined by reference to current market rates for these instruments.

The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedging instrument and continues to satisfy the conditions for hedge accounting, and if so, the nature of the item being hedged. The Group designates certain derivatives as either; (1) hedges of the fair value of recognised assets or liabilities (fair value hedges); or (2) hedges of highly probable forecast transactions (cash flow hedges).

Notes to the Financial Statements

15. Financial Risk Management (continued)

The Group documents at the inception of the transaction the relationship between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking various hedge transactions. The Group also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions have been and will continue to be highly effective in offsetting changes in fair values or cash flows of hedged items.

Fair value hedge

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the income statement, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

Cash flow hedge

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in equity in the hedging reserve. The gain or loss relating to the ineffective portion is recognised immediately in the income statement.

Gains or losses that are recognised in the hedging reserve are transferred to the income statement in the periods when the hedged item will affect profit or loss. However, when the forecast transaction that is hedged results in the recognition of a non-financial asset or a non-financial liability, the gains or losses previously deferred in equity are transferred from equity and included in the measurement of the initial cost or carrying amount of the asset or liability.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or exercised, or no longer meets the conditions for hedge accounting. At that point in time, any cumulative gain or loss on the hedging instrument recognised in equity remains in equity until the forecasted transaction is ultimately recognised in the income statement. When a hedged transaction is no longer expected to occur, the cumulative gain or loss that was reported in equity is immediately transferred to the income statement.

Derivatives that do not qualify for hedge accounting

Changes in the fair value of any derivative instrument that does not qualify for hedge accounting are recognised immediately in the income statement.

Hedge Effectiveness

The Group determines its economic exposure to unexpected movements in foreign currency rates and interest rates and ensures the hedging instruments entered into satisfactorily mitigate these risks. The Group ensures the changes in the fair value of the hedging instruments are highly correlated to the change in the fair value of the underlying hedged item and are therefore effective.

Potential sources of ineffectiveness include but are not limited to:

- The Group no longer having the economic exposure rendering the hedge instrument ineffective;
- Hedging instrument expires or is sold, terminated or exercised; and
- Changes in counterparty credit status.

16. Expenditure Commitments

	2016 US\$m	2015 US\$m
16(a). Capital expenditure commitments		
Contracted but not provided for in the financial statements:		
Plant and equipment	7.9	4.3
	7.9	4.3
Payable within one year	7.9	4.3
16(b). Operating Lease commitments		
Future operating lease commitments not provided for in the financial statements and payable:		
Within one year	8.7	6.7
One year or later and no later than five years	20.2	18.5
Later than five years	2.2	6.0
	31.1	31.2

The Group leases property under operating leases expiring from one to fifteen years. Leases generally provide the Group with a right of renewal at which time all terms are renegotiated. Operating lease commitments refer to future undiscounted minimum rentals payable under non-cancellable operating leases not included within this financial report. Operating lease payments are recognised as an expense in the income statement on a straight line basis over the lease term.

 Union Knitting Mills Pty. Ltd.

18. Acquisition and Disposal of Subsidiaries and Businesses

18(a). Acquisitions

Hands International

The acquisition accounting for Hands International, acquired effective 1 November 2014, was completed and resulted in an increase of \$0.2 million to previously reported goodwill.

Microgard Ltd

The acquisition accounting for Microgard Ltd, acquired effective 1 May 2015, was completed and resulted in a reduction of previously reported goodwill of \$10.7 million principally due to the recognition of brand names totalling \$11.3 million.

18(b). Disposals

Onguard Industries Inc.

Effective 29 April 2016 the Group disposed of its interest in Onguard Industries Inc for \$42.1 million.

Recognition and measurement

Business Combinations

The Group accounts for business combinations using the acquisition method. Identifiable assets acquired and liabilities and contingent liabilities assumed are measured at fair value. Any excess of the cost of acquisition over the fair values of the net identifiable assets acquired is recognised as goodwill. Transaction costs are expensed as incurred unless related to the issue of debt or equity securities.

Notes to the Financial Statements

19. Parent Entity Disclosures

As at the end of and throughout the financial year ending 30 June 2016, the parent company of the Group was Ansell Limited.

	2016 US\$m	2015 US\$m
Result of the parent entity		
Profit for the period	68.3	108.7
Other comprehensive income	(5.9)	9.1
Total comprehensive income for the period	62.4	117.8
Financial position of the parent entity at year end		
Current assets	653.1	664.0
Total assets	2,245.1	2,304.3
Current liabilities	1,024.5	956.0
Total liabilities	1,027.8	954.4
Total equity of the parent entity comprising:		
Issued capital	1,146.9	1,229.6
Reserves	(289.7)	(237.2)
Retained profits	360.1	357.5
Total Equity	1,217.3	1,349.9

The Group has a net current asset position of \$528.8 million (2015: \$568.4 million) which the parent company controls. As at 30 June 2016, the parent company has a net current liability position of \$371.4 million (2015: \$292.0 million). The Directors will ensure that the parent company has, at all times, sufficient funds available from the Group to meet its commitments.

Parent entity guarantee

The parent entity guarantees the debts of certain subsidiaries that are guarantors under the Group's revolving credit bank facility.

20. Related Party Disclosures

20(a). Subsidiaries

Ansell Limited is the parent entity of all entities detailed in Note 17 Particulars Relating to Subsidiaries and from time to time has dealings on normal commercial terms and conditions with those entities, the effects of which are eliminated in these consolidated financial statements.

20(b). Transactions with key management personnel

(i) Key management personnel remuneration

	2016 US\$	2015 US\$
Short term benefits	7,454,232	8,059,621
Post-employment benefits	878,829	945,329
Share-based payments	(1,466,068)	2,256,715
Long term cash-based incentives	(678,221)	630,931
Restricted share awards	1,146,709	-
Termination benefits	11,512	648,628
	7,346,993	12,541,224

(ii) Service agreements with key management personnel

The Company has no service agreements with the Non-executive Directors. Refer to Section 8 of the Remuneration Report for details of service agreements with the Managing Director and other Key Management Personnel.

Notes to the Financial Statements

21. Ownership-based Remuneration Schemes

Long Term Incentive Plans

The above plans involve the granting of Performance Share Rights (PSRs) to the Managing Director, other members of the Executive Leadership Team and other members of senior management.

In accordance with the disclosure requirements of Australian Accounting Standards remuneration includes a proportion of the fair value of PSRs granted or outstanding during the year. The fair value is determined as at grant date and is progressively allocated over the vesting period for these securities.

The fair value of PSRs is calculated at grant date. The fair values and the factors and assumptions used in determining the fair values of the PSRs applicable for the 2016 financial year are as follows:

Instrument	Grant Date	Vesting Date	Fair Value	Share Price on Grant Date	Risk Free Interest Rate	Dividend Yield
PSRs	14/8/2014	30/6/2017	A\$17.73	A\$19.05	N/A	2.50%
PSRs	13/8/2015	30/6/2018	A\$18.53	A\$20.20	N/A	3.00%

The PSRs are subject to a gateway condition and a performance condition as outlined in the Remuneration Report. As the hurdles within these conditions are all non-market based performance hurdles the valuation excludes the impact of performance hurdles.

During the year the Company cancelled the F'14 Long Term Incentive Plan which had a vesting date of 30 June 2016.

Options

As at the date of this report, there is no unissued ordinary shares in the Company that remain under option.

Executive Share Plan

The number of Executive Plan Shares (ordinary plan shares paid to five cents) as at balance date are shown in Note 13 Issued Capital and Reserves.

22. Auditors' Remuneration

	2016 US\$	2015 US\$
Audit and review of the financial reports:		
Auditors of Ansell Limited and Australian entities - KPMG	1,282,622	1,277,154
Other member firms of KPMG ⁽ⁱ⁾	1,135,575	1,006,876
	2,418,197	2,284,030
Other services ⁽ⁱⁱ⁾ :		
Other audit and assurance services		
Other member firms of KPMG	4,646	228,320
Taxation and other services		
Other member firms of KPMG	28,101	3,052
Total other services	32,747	231,372
Total auditors' remuneration	2,450,944	2,515,402

(i) Includes fees paid or payable for overseas subsidiaries' local statutory lodgement purposes, group reporting, and other regulatory compliance requirements.

(ii) Other services primarily include assurance based engagements undertaken for compliance and internal governance purposes, tax and IT compliance. Other services provided by KPMG to the Group are subject to appropriate corporate governance procedures encompassing the selection of service providers and the setting of their remuneration.

Directors' Declaration

1. In the opinion of the Directors of Ansell Limited ('the Company'):

(a) the consolidated financial statements and notes, set out on pages 2 to 40, and the Remuneration Report contained in the Directors' Report, set out on pages 22 to 60, are in accordance with the *Corporations Act 2001*, including:

(i) giving a true and fair view of the Group's financial position as at 30 June 2016 and of its performance, for the year ended on that date; and

(ii) complying with Australian Accounting Standards and the Corporations Regulations 2001;

(b) the consolidated financial statements and notes also comply with International Financial Reporting Standards as disclosed in Note 1;

(c) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

2. The directors have been given the declarations required by Section 295A of the *Corporations Act 2001* from the Chief Executive Officer and the Chief Financial Officer for the financial year ended 30 June 2016.

Signed in accordance with a resolution of the directors:

A handwritten signature in black ink, appearing to read 'G L L Barnes', with a long horizontal line extending from the end of the signature.

Dated in Melbourne this 15th day of August 2016

Independent auditor's report to the members of Ansell Limited

Report on the financial report

We have audited the accompanying financial report of Ansell Limited ("the Company"), which comprises the consolidated balance sheet as at 30 June 2016, and consolidated income statement and consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year ended on that date, notes 1 to 22 comprising a summary of significant accounting policies and other explanatory information and the directors' declaration of the Group comprising the Company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' responsibility for the financial report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement whether due to fraud or error. In note 1, the directors also state, in accordance with Australian Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements of the Group comply with International Financial Reporting Standards.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We performed the procedures to assess whether in all material respects the financial report presents fairly, in accordance with the *Corporations Act 2001* and Australian Accounting Standards, a true and fair view which is consistent with our understanding of the Group's financial position and of its performance.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*.

Auditor's opinion

In our opinion:

- (a) the financial report of the Group is in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the Group's financial position as at 30 June 2016 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001.
- (b) the financial report also complies with International Financial Reporting Standards as disclosed in note 1.

Report on the remuneration report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2016. The directors of the Company are responsible for the preparation and presentation of the remuneration report in accordance with Section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with auditing standards.

Auditor's opinion

In our opinion, the remuneration report of Ansell Limited for the year ended 30 June 2016, complies with Section 300A of the *Corporations Act 2001*.

Report on non-IFRS financial information

We have audited the non-IFRS financial information comprising the non-statutory remuneration disclosure set out in the remuneration report for the year ended 30 June 2016. The directors of the Company are responsible for the preparation and presentation of the non-IFRS financial information report in accordance with the basis of preparation set out in section 5 of the remuneration report for the year ended 30 June 2016.

Our responsibility is to express an opinion on the non-IFRS financial information, based on our audit conducted in accordance with auditing standards.

Auditor's opinion

In our opinion, the non-IFRS financial information comprising the non-statutory remuneration disclosures within the remuneration report for the year ended 30 June 2016, is prepared, in all material respects, in accordance with the basis of the basis of preparation set out in section 5 of the remuneration report for the year ended 30 June 2016.
