The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'Group' or 'Appen') consisting of Appen Limited (referred to hereafter as the 'Company' or 'parent entity') and the entities it controlled at the end of, or during, the half-year ended 30 June 2018.

Directors

The following persons were directors of Appen Limited during the whole of the financial half-year and up to the date of this report, unless otherwise stated:

Christopher Charles Vonwiller - Chairman
 Mark Ronald Brayan
 Stephen John Hasker
 Robin Jane Low
 William Robert Pulver
 Deena Robyn Shiff

Principal activities

During the financial half-year the principal continuing activities of the Group consisted of the provision of quality data solutions and services for machine learning and artificial intelligence applications for global technology companies, auto manufacturers and government agencies.

Appen operates through two operating divisions:

- Content Relevance which provides annotated data used in search technology (embedded in web, e-commerce and social engagement) for improving relevance and accuracy of search engines, social media applications and e-commerce; and
- Language Resources which provides annotated speech and image data used in speech recognisers, machine translation, speech synthesisers and other machine-learning technologies resulting in more engaging and fluent devices including internet-connected devices, in-car automotive systems and speech-enabled consumer electronics.

Supporting both divisions is a global on-demand crowd workforce providing customers with very flexible in-country linguistic and cultural expertise in support of 140 global markets.

Appen was founded in 1996 and listed on the Australian Securities Exchange on 7 January 2015.

Dividends

Dividends paid during the financial half-year were as follows:

	Group	
	30 Jun 2018	30 Jun 2017

Final dividend paid out of the profits reserve for the year ended 31 December 2017 of 3.0 cents per ordinary share (2017: 3.0 cents)	3,174	2,928

On 28 August 2018, the Company declared an interim dividend for the year ending 31 December 2018 of 4.0 cents per share, fully franked. The dividend is to be paid out of the profits reserve. The record date for determining entitlements to the dividend is 4 September 2018. The financial effect of these dividends has not been brought to account in the financial statements for the half-year ended 30 June 2018 and will be recognised in subsequent financial periods.

Review of operations

The half-year statutory net profit after tax for the Group increased 73% to \$14,036,000 (30 June 2017: \$8,115,000). After adding back underlying adjustments (net of tax), underlying profit was up 119% to \$17,782,000 (30 June 2017: \$8,115,000).

Total revenue for the period ended 30 June 2018 was up 106% to \$152,755,000 compared to prior period revenue of \$74,058,000. Excluding Leapforce revenue for the period of \$43,778,500, revenue was \$108,975,500, representing organic revenue growth of 47%.

The drivers behind the growth in revenue were:

- The Language Resources division recorded a 4% increase in revenue over the prior year, driven mainly by increased demand for data collection and speech and image annotation services for technology customers. On a constant currency basis, the revenue growth was 5%.
- The Content Relevance division delivered a 146% increase in revenue over the prior year of \$77,862,000. This was driven by the Leapforce acquisition as well as organic growth in demand for human annotated data for a variety of machine learning applications. Excluding Leapforce, revenue was \$87,388,500, representing organic revenue growth of 64% for the half year ended 30 June 2018. On a constant currency basis, the revenue growth for the division was 151%.

The Company reported statutory EBITDA of \$23,883,000 for the half year period to 30 June 2018, representing an 87% increase over the prior corresponding period. The prior year EBITDA result included realised and unrealised foreign exchange gains of \$558,000, while the realised and unrealised foreign exchange gains for the current half only amounted to a loss of \$1,000.

After adding back underlying adjustments for transaction costs and share based payments in respect of Leapforce vendor shares, underlying EBITDA was \$25,588,000 representing a 100% increase over the prior year. This resulted from strong revenue increase in Content Relevance and the acquisition of Leapforce. Leapforce contributed EBITDA of \$11,612,000, while Content Relevance (excluding Leapforce) reported a significant organic increase in EBITDA of 88% for the period.

EBITDA in the Language Resources division was significantly impacted by the customer mix, which resulted in a significant reduction in complex, value added government work, impacted by budget approval delays, and an increase in volumes from the technology sector at lower margins. Going forward, there will be a strategic, increased focus on expanding the sales pipeline in the technology sector, with a view to increasing efficiency down the track. The reduction in the operating margin is seen as a timing issue, not structural. This is further validated by the fact that expenses as a percentage of revenue for the full year forecast ended 31 December 2018 are exactly in line with the expense percentage in the prior year for the same period. As a result, no significant cost reduction activities are planned, however efficiency gains will continue to be targeted.

Notwithstanding, the margin impact from Language Resources, operating expenses (expenses excluding services purchased, share based payment expense, depreciation, transaction costs, finance costs and foreign exchange) for the first half period comprised 18.9% of revenue as compared to 24.4% for the prior corresponding period due to continued operational improvements in delivery of services at scale, via a streamlined operating model, delivering cost efficiency and economies of scale.

The Language Resources division reported return on sales of 16.0% down from 36.0%, due to movements in customer mix, resulting in a lower gross margin percentage, as explained above. The Content Relevance division reported return on sales of 21.7% up from 16.8%, impacted positively by the Leapforce acquisition and by continued improvements in operational scale and efficiency.

Significant changes in the state of affairs

There were no significant changes in the state of affairs of the Group during the financial half-year.

Rounding of amounts

The Company is of a kind referred to in ASIC Corporations (Rounding in Financial/Directors Reports) Instrument 2016/191 (Rounding Instrument), issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

Note 1. General information

The financial statements cover Appen Limited as a Group consisting of Appen Limited (the 'Company') and the entities it controlled at the end of, or during, the half-year (collectively referred to as the 'Group'). The financial statements are presented in Australian dollars, which is Appen Limited's functional and presentation currency.

Appen Limited is a listed public company limited by shares, incorporated and domiciled in Australia. Its registered office and principal place of business is:

Level 6
 9 Help Street
 Chatswood NSW 2067

A description of the nature of the Group's operations and its principal activities are included in the directors' report, which is not part of the financial statements.

The financial statements were authorised for issue, in accordance with a resolution of directors, on 28 August 2018.

Note 2. Significant accounting policies

These financial statements for the interim half-year reporting period ended 30 June 2018 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the prior year annual report and any public announcements made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the policies stated below.

New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The details of the new significant accounting policies and the nature of the changes to previous accounting policies in relation to the Group's various services are set out below.

Initial adoption of AASB 15 'Revenue from contracts with customers'

Under AASB 15, revenue is recognised when a customer obtains control of the goods or services. Determining the timing of the transfer of control – at a point in time or over time – requires judgement.

Type of service	Nature of service
Content Relevance	Content Relevance provides annotated data used in search technology (embedded in web, e-commerce and social engagement) for improving relevance and accuracy of search engines, social media applications and e-commerce.
Language Resources	Language Resources provides annotated speech and image data used in speech recognisers, machine translation, speech synthesisers and other machine-learning technologies resulting in more engaging and fluent devices including internet-connected devices, in-car automotive systems and speech-enabled consumer electronics.

Note 2. Significant accounting policies (continued)

Timing of satisfaction of performance obligations and significant payment terms

The Group has determined that for both Content Relevance and Language Resources services, the customer obtains control of the data as the services are being performed. This is because under those contracts, the services are provided to a customer's specification and if a contract is terminated by a customer, then the Group is entitled to the payment for services performed to date. Therefore, revenue from these contracts and the associated costs are recognised over time i.e. before the date of delivery to the customer.

Under AASB 15, the total consideration in the contract is allocated to each service based on the stand alone selling prices. Invoices are issued according to contractual terms and are payable with varying payment terms. Uninvoiced amounts are presented as contract assets. Amounts invoiced in advance of the service are presented as contract liabilities.

Nature of change in accounting policy

AASB 15 did not have a significant impact on the Group's accounting policy. Under AASB 118, uninvoiced amounts were presented as work in progress. Under AASB 15, as control passes to the customer over time, uninvoiced amounts are presented as contract assets. On transition to AASB 15, other liabilities were reclassified as contract liabilities.

There was no material impact of transition to AASB 15 on the opening balance of retained earnings.

Initial adoption of AASB 9 'Financial Instruments'

The Group has adopted AASB 9 from 1 January 2018. The adoption of AASB 9 has resulted in changes to the Group's accounting policies as follows:

AASB 9 sets out the requirements to recognise and measure financial assets and financial liabilities. This standard replaces AASB 139 'Financial Instruments: Recognition and Measurement'. There was no material impact of transition to AASB 9 on the opening balance of retained earnings. The details of this new significant accounting policy is set out below.

Financial assets

Under AASB 9, on initial recognition, a financial asset is classified at amortised cost or fair value through profit or loss ('FVTPL'). The classification under AASB 9 is based on the Group's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. A financial asset is measured at amortised cost only if: (i) it is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and (ii) the contractual terms of the financial asset represent contractual cash flows that are solely payments of principal and interest, and is not designated as at FVTPL.

All financial assets not measured at amortised cost as described above are measured at FVTPL. This includes all derivative assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost as at FVTPL if doing so eliminates or significantly reduces an accounting misstatement that would otherwise arise.

The following accounting policies apply to the subsequent measurement of financial assets.

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains or losses, including interest or dividend income are recognised in profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses (see impairment of financial assets).

Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

The following table and accompanying notes below explain the original measurement categories under AASB 139 and the new measurement categories under AASB 9 for each class of the Group's financial assets as at 1 January 2018.

Note 2. Significant accounting policies (continued)

Financial assets	Original classification	New classification	Change in carrying amount
Trade and other receivables	Loans and receivables	Amortised cost	There was no impact on the carrying amount from the transition to AASB 9
Cash and cash equivalents	Loans and receivables	Amortised cost	
Forward foreign exchange contract (derivative financial instruments)	Held-for-trading	FVTPL	

Impairment of financial assets

The AASB 9 impairment model is based on an expected credit loss ('ECL') methodology instead of the incurred loss methodology of AASB 139.

Impairment of receivables

The Group has elected to measure loss allowances on trade receivables using a life-time expected loss model. The Group has also used the practical expedient of a provisions matrix using a single loss rate approach to approximate the expected credit losses. These provisions are considered representative across all business and geographic segments of the Group based on historical credit loss experience over the past five years.

The Group has determined that the application of AASB 9's impairment requirement at 1 January 2018 did not result in a material change to the impairment allowance.

Note 3. Operating segments

Identification of reportable operating segments

The Group is organised into two operating segments based on differences in products and services provided: Content Relevance and Language Resources. These operating segments are based on the internal reports that are reviewed and used by the Group's Chief Executive Officer ('CEO'), who is identified as the Chief Operating Decision Maker, in assessing performance and in determining the allocation of resources. There is no aggregation of operating segments.

The CEO reviews a set of financial reports which covers EBITDA (earnings before interest, tax, depreciation and amortisation), revenue and operating segment reports on a monthly basis. The accounting policies adopted for internal reporting to the CEO are consistent with those adopted in the financial statements.

Types of products and services

The principal products and services of each of these operating segments are as follows:

Content Relevance	Content Relevance provides annotated data used in search technology (embedded in web, e-commerce and social engagement) for improving relevance and accuracy of search engines, social media applications and e-commerce.
Language Resources	Language Resources provides annotated speech and image data used in speech recognisers, machine translation, speech synthesisers and other machine-learning technologies resulting in more engaging and fluent devices including internet-connected devices, in-car automotive systems and speech-enabled consumer electronics.

Intersegment transactions

Intersegment transactions were made at market rates. Intersegment transactions are eliminated on consolidation.

Intersegment receivables, payables and loans

Intersegment loans are initially recognised at the consideration received. Intersegment loans receivable and loans payable that earn or incur non-market interest are not adjusted to fair value based on market interest rates. Intersegment loans are eliminated on consolidation.

Contract balances

The following table provides information about receivables, contract assets and contract liabilities from contracts with customers.

Note 4. Revenue (continued)

	30 Jun 2018 \$'000	1 Jan 2018 \$'000
Receivables which are included in 'Trade and other receivables'	44,150	31,638
Contract assets	11,502	11,270
Contract liabilities	(1,672)	(1,237)

On transition to AASB 15, 'Work in progress' balances were reclassified as 'Contract assets'. 'Unearned revenue' was reclassified as 'Contract liabilities'.

There were no other impacts from the application of AASB 15.

The contract assets primarily relate to the Group's right to consideration for work completed but not billed at the reporting date. The contract assets are transferred to receivables when the right becomes unconditional. This usually occurs when the Group issues an invoice to the customer. The contract consideration received from customer is recognised over time.

The amount of revenue recognised in contract liabilities at the beginning of the period has been disclosed in note 8.

Goodwill has been adjusted to recognise the separately identifiable intangible assets associated with the Leapforce acquisition.

Valuations

These identifiable intangible assets have been valued according to the following valuation methodologies:

Note 7. Non-current assets - intangibles (continued)

Customer relationships	Customer relationships were valued on an excess earnings basis. The excess earnings method is predicated on the basis that the value of an intangible asset is the present value of the earnings it generates, net of a reasonable return on other assets also contributing to that stream of earnings.
Crowd database	Crowd database was valued on a replacement cost basis. Under the replacement cost-based methodology, the value of an intangible asset is estimated by reference to the costs that would have to be expended in order to recreate the asset or the cost historically incurred to create the asset.
Platform development	Platform development was valued on a replacement cost basis. Under the replacement cost-based methodology, the value of an intangible asset is estimated by reference to the costs that would have to be expended in order to recreate the asset or the cost historically incurred to create the asset. This was cross checked to the relief from royalty methodology. The relief from royalty methodology involves estimating the amount of hypothetical royalty that would be paid if the identifiable intangible asset was licensed from an independent third party owner. The fair value of the identifiable intangible asset is the net present value of the prospective stream of hypothetical royalty savings that would be generated over the expected useful life of the intangible asset.

Note 13. Events after the reporting period

Apart from the dividend declared as disclosed in note 10, no other matter or circumstance has arisen since 30 June 2018 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

In the directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, Australian Accounting Standard AASB 134 'Interim Financial Reporting', the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes give a true and fair view of the Group's financial position as at 30 June 2018 and of its performance for the financial half-year ended on that date; and
- there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors made pursuant to section 303(5)(a) of the Corporations Act 2001.

Independent Auditor's Review Report

To the members of Appen Limited

Report on the Half-year Financial Report

Conclusion

We have reviewed the accompanying **Half-year Financial Report** of Appen Limited.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the Half-year Financial Report of Appen Limited is not in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the Group's financial position as at 30 June 2018 and of its performance for the Half-year ended on that date; and
- complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

The **Half-year Financial Report** comprises:

- Consolidated statement of financial position as at 30 June 2018
- Consolidated statement of profit or loss and other comprehensive income, Consolidated statement of changes in equity and Consolidated statement of cash flows for the Half-year ended on that date
- Notes 1 to 13 comprising a summary of significant accounting policies and other explanatory information
- The Directors' Declaration.

The **Group** comprises Appen Limited (the Company) and the entities it controlled at the Half year's end or from time to time during the Half-year.

Responsibilities of the Directors for the Half-year Financial Report

The Directors of the Company are responsible for:

- the preparation of the Half-year Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*
- for such internal control as the Directors determine is necessary to enable the preparation of the Half-year Financial Report that is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the Half-year Financial Report

Our responsibility is to express a conclusion on the Half-year Financial Report based on our review. We conducted our review in accordance with *Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the Half-year Financial Report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Group's financial position as at 30 June 2018 and its performance for the half-year ended on that date; and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*. As auditor of Appen Limited, *ASRE 2410* requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a Half-year Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
