PRESS RELEASE / SHAREHOLDER ANNOUNCEMENT

Mr J B Reid, Chairman of TechStar Limited and its subsidiary company Medteq Innovations Pty Ltd, announced today a significant contract for the sale within China of the CPR EZY kit and the CPR EZY Mask had been negotiated with the large Chinese medical products manufacturing and distribution group, Harbin Yida Medical Co. The contract was concluded in China late last week in the course of a visit by Dr Andrew Davaris, Director Medteq Innovations and the inventor of the products, and Mr John Laurie, a Director of TechStar Limited.

Mr Reid said that whilst the terms remained confidential, he could state that shipments against this contract would take place over the first six months of 2003. He also said this contract was the single largest contract of these products concluded to date, worldwide. The income from these sales is estimated to be AUD375,000.

Mr Reid said interest within China in these medical products was growing, following initial negotiations in December last year, with some sales already taking place. Distributors throughout China are now in place for the products, reflecting Harbin Yida's confidence in future sales prospects. The TechStar Group was anticipating an increasing trend of sales of CPR EZY Kits and CPR EZY Masks to China in the second half of 2003, and beyond.
