ASX Code: AQC

DIRECTORS' REPORT

Your directors present their report, together with the financial statements of the Group, being the company and its controlled entities, for the financial year ended 30 June 2012.

Principal Activities and Significant Changes in Nature of Activities

The principal activities of the consolidated group during the financial year were:

- evaluating coal exploration tenements held in the Bowen, Galilee, Surat and Clarence-Moreton basins;
- identifying exploration opportunities on selected coal tenements including exploration by way of joint venture agreement;
- planning and initial implementation of exploration programs covering selected coal tenements;
- seeking opportunities for divestment or joint venture operation of industrial minerals projects; and
- reviewing other resource investment opportunities.

There were no significant changes in the nature of the consolidated group's principal activities during the financial year.

Operating Results

The consolidated profit of the consolidated group amounted to \$653,118 (2011: loss \$2,462,700) after providing for income tax and eliminating minority equity interests.

The significant improvement was largely a result of the receipt of a payment of \$2,300,000 following the execution of an Exploration, Option and Joint Venture Agreement with Rio Tinto Exploration Pty Ltd covering four of the Group's Mt Hillalong tenements.

Review of Operations

Australian Pacific Coal is a coal focused exploration group with strategic tenement holdings located in Queensland's principal coal Basins close to established infrastructure.

During the course of 2012 the Group advanced its exploration program completing drilling on two of its project areas and completing entry requirements for three additional project areas. Evaluation of drilling results and collation with historical data has progressed and the company has identified a number of prospective tenement areas within its holdings in the Blackwater region. The four main exploration projects identified are Dingo, Carlo Creek, Churchyard Creek and Mt Stuart. Activities being undertaken are focused on drilling these target areas and improving the resource status of tenements. Planning and entry requirements have been completed to enable further drilling on EPC 1827 "Cooroora" in order to improve the resource status and move the tenement towards grant of a mining development licence.

Significantly, during the early part of the financial year the Group finalised its agreement with Rio Tinto Exploration Pty Ltd covering 4 of the Group's Mt Hillalong tenements. The Group retains a 25% free carry interest in the projects through the exploration stage which is expected to be completed within the next two years. The agreement, has the potential to provide substantial additional funding to the group over the next two years.

The Group also holds a 10% free carry interest through to feasibility stage in four tenements that it transferred to Blackwood Resources Pty Ltd. Blackwood is a subsidiary of the newly listed Cuesta Coal Limited. Cuesta has secured funding to complete its exploration program and is actively drilling the joint venture exploration tenements.

DIRECTORS' REPORT

Financial Position

The net assets of the consolidated group at 30 June 2012 are \$3,333,916 (2011: \$1,600,979). This increase arises taking account of the following factors:

- proceeds from sale of interest in tenements \$2,425,000
- proceeds from share issues raising \$700,000;
- increases in capitalised exploration expenditure; and
- operating expenditure.

The Group's working capital, being current assets less current liabilities, is \$865,770 (2011: \$99,584).

The Group holds a number of highly prospective coal tenements in Queensland's Bowen, Galilee, Surat and Clarence-Moreton basins. During the past year, the Group has expended funds in evaluating, planning and initial exploration of selected coal tenements held by the Group.

The directors believe the Group is in a stable financial position to expand and grow its current operations.

Significant Changes in State of Affairs

The following significant changes in the state of affairs of the parent entity occurred during the financial year:

Changes in capital structure:

- i. The company issued an additional 21,875,000 ordinary shares to various sophisticated and professional investors raising \$700,000 to provide additional working capital.
- ii. The company issued 10,000,000 ordinary shares to qualifying persons in accordance with the Company's Officers, Executives, Consultants and Employee Share Plan to raise \$425,250. The terms of the plan enabled the company to fund the purchase by way of limited-recourse loans totalling \$425,250 repayable from future dividends or out of proceeds when the allotted shares are sold.

Changes in controlled entities and divisions:

- i. Deregistration of dormant subsidiaries:
 - Inter-Ironbar Pty Ltd
 - Eyebionics Pty Ltd
 - Home and Garden Waterwise Pty Ltd
 - Sportzwhistle Pty Ltd
 - SW2 Pty Ltd

Dividends Paid or Recommended

No dividends of the Company or any entity of the Group have been paid or declared or recommended since the end of the preceding year. The Directors do not recommend the payment of any dividend for the year ended 30th June 2012.

Events after the Reporting Period

No matters or circumstances have risen since the end of the financial year which significantly affected, or could significantly affect, the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

DIRECTORS' REPORT

Future Developments, Prospects and Business Strategies

Future developments in the operations of the Group in future years and the expected results of those operations are discussed where appropriate in the Annual Report under Review of Operations.

The Group will remain focused on its current business strategies which are:

- evaluating and exploring its coal exploration tenements held in the Bowen, Galilee, Surat and Clarence-Moreton basins;
- seeking opportunities for divestment or joint venture operation of industrial minerals projects; and
- reviewing of other resource investment opportunities.

There are no further developments of which the Directors are aware which could be expected to affect the results of the Group's operations in subsequent financial years other than information which the Directors believe comment on, or disclosure of, would prejudice the interests of the Group.

Environmental Issues

The Group's operations are subject to significant environmental regulation in respect of its Australian exploration activities. The Company is committed to undertaking all its operations in an environmentally responsible manner. The Group's projects in Queensland operate under granted Environmental Authorities issued under the Environmental Protection Act 1994 (Qld). The Group is not aware of any non-compliance matters in relation to environmental issues up to the date of this report.

Clean Energy Legislative Package

The Clean Energy Legislative Package, which included the Clean Energy Act 2011, was passed by the Australian Government in November 2011. It sets out the way that the government will introduce a carbon price to reduce Australia's carbon pollution and move to a clean energy future.

There is presently uncertainty in relation to the impacts of this carbon pricing mechanism, which could potentially affect the assumptions underlying value-in-use calculations used for asset impairment testing purposes. The company has not incorporated the effect of any carbon price implementation in its impairment testing at 30 June 2012.

Information on Directors

The names and details of the directors of the Company during the year and until the date of this report are:

Mr. John Bovard FAICD, FAusIMM BE (Civil) (Chairman, Non-executive Director) – Appointed 30 October 2009

Experience and expertise

Mr. Bovard has more than forty years of experience in the mining industry. He has been involved in several major projects and has held prominent positions with many Australian and international companies including Western Mining Inc, OK Tedi and Placer Pacific.

Mr. Bovard is Non-executive Chairman of Mt Isa Metals Limited and Non-executive Director of Australian Solomons Gold Limited

Special responsibilities

Chairman of the Board and member of the Audit and Remuneration Committees

Interests in shares and options

5,00,000 ordinary shares in Australian Pacific Coal Limited

DIRECTORS' REPORT

Directorships held in other listed entities in the three years prior to the current year

Mt Isa Metals Limited since 2008

Mr. Peter Ziegler B. Com (Hons), LL.B (Hons); MFM, FCPA, FTIA, ACA (Deputy Chairman, Non-executive Director)

Experience and expertise

Mr. Ziegler is an experienced company director. He was a partner of one of the major international accounting firms, specialising in taxation and corporate structuring. He is also a solicitor of the Supreme Court of Victoria. Mr Ziegler is currently the principal of Ziegler Asset Partners, an asset management firm specialising in investments in listed and unlisted equities and special opportunities. Director since 29 November 2005.

Special responsibilities

Chairman of the Audit and Remuneration Committees

Interests in shares and options

10,233,333 ordinary shares in Australian Pacific Coal Limited

Directorships held in other listed entities in the three years prior to the current year

Nil

Mr. Paul Byrne (Executive Director)

Experience and expertise

Mr. Byrne joined the Company as Executive Director, following the acquisition of the Ipoh group of companies. Mr. Byrne was a founder of the Ipoh group and has initiated environmental remediation projects in conjunction with CSIRO, University of South Australia and the Queensland Department of Primary industries. He has also been involved in the resources sector since 1985 in exploration and mining and has been a director of several Australian public listed companies. Director since 29 November 2005.

Special responsibilities

Managing Director

Interests in shares and options

61,148,548 ordinary shares in Australian Pacific Coal Limited

Directorships held in other listed entities in the three years prior to the current year

Nil

Mr. Paul Ingram B.AppSc.(Geology), AusIMM (Non-executive Director) Appointed 17 March 2011

Experience and expertise

Mr Ingram is a geologist with over thirty five years of experience in mineral exploration and mine development. Mr Ingram has been involved in several start-up public companies, mostly focussed in the Asian region. He has extensive experience in corporate M&A, and has been focussed on coal projects in Asia and Australia for the past eight years. Mr Ingram brings to the Board of AQC an extensive network of professional contacts, which, combined with close ties to the Chinese resource industry, will be of significant benefit to AQC as an emerging coal company in Queensland.

DIRECTORS' REPORT

Special responsibilities

Nil

Interests in shares and options

5,750,000 ordinary shares in Australian Pacific Coal Limited

Directorships held in other listed entities in the three years prior to the current year

Consolidated Global Investments Limited since September 2006

A-Cap Resources Limited since June 2009

Impact Minerals Limited since July 2009

Caledon Resources PLC from February 2003 to March 2008

West Australian Metals Limited from July 2009 to November 2009

All directors were in office for the entire year and up to the date of this report unless otherwise noted.

Company Secretary

Mr. Kevin Mischewski B Bus (Acc), CA

(Company Secretary since 30 June 2008, Joint Company Secretary 29 February 2008 to 30 June 2008.)

Chartered Accountant and Registered Tax Agent with extensive commercial experience in senior financial and management accounting roles. Previous positions include Chief Financial Officer, Company Secretary and Finance Director for large private manufacturing companies. Extensive experience with listed public company reporting and compliance requirements.

Meetings of Directors

The number of meetings of directors and meetings of committees of directors held during the year, and the number of meetings including circulating resolutions attended by each director was as follows:

	Directors' Meetings		Audit Committee		Remuneration Committee	
	Number eligible to attend	Number attended	Number eligible to attend	Number attended	Number eligible to attend	Number attended
Mr. John Bovard	11	11	2	2	1	1
Mr. Peter Ziegler	11	11	2	2	1	1
Mr. Paul Byrne	11	11	**	**	**	**
Mr. Paul Ingram	11	11	**	**	**	**

** = Not a member of the relevant committee.

Indemnifying Officers or Auditor

During the financial year, the Company paid a premium in respect of a contract of insurance indemnifying any past, present, or future director, secretary, officer or employee of the Company against liability, which payment or agreement to pay does not contravene the Corporations Act (Cth) 2001. The contract of insurance prohibits disclosure of the terms of the policy and the amount of the premium.

The Company has not otherwise, during or since the financial year, except to the extent permitted by law, indemnified or agreed to indemnify an officer of the Company or any related body corporate against the liability incurred by such an officer.

DIRECTORS' REPORT

Options

At the date of this report, there were no unissued ordinary shares of the Company under option

There have been no unissued shares or interests under any option of any controlled entity within the Group during or since the end of the reporting period.

No options were issued to directors, officers or employees during the year as part of their remuneration.

No shares have been issued on the exercise of options granted during or since the end of the reporting period.

No person entitled to exercise any option had or has any right by virtue of the option to participate in any share issue of any other body corporate.

Proceedings on Behalf of Company

No person has applied for leave of Court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the company for all or any part of those proceedings.

The Company was not a party to any such proceedings during the year.

Non-audit Services

The Board of Directors, in accordance with advice from the Audit Committee, is satisfied that the provision of non-audit services during the year is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The directors are satisfied that the services disclosed below did not compromise the external auditor's independence for the following reasons:

- all non-audit services are reviewed and approved by the audit committee prior to commencement to ensure they do not adversely affect the integrity and objectivity of the auditor; and
- the nature of the services provided does not compromise the general principles relating to auditor independence in accordance with APES 110: Code of Ethics for Professional Accountants set by the Accounting Professional and Ethical Standards Board.

The following fees were paid or payable to Sothertons Chartered Accountants for non-audit services provided during the year ended 30 June 2012:

Taxation services	\$10,145
-------------------	----------

Auditor's Independence Declaration

The lead auditor's independence declaration for the year ended 30 June 2012 has been received and can be found on page 11 of the Annual Financial Report.

ASIC Class Order 98/100 Rounding of Amounts

The company is an entity to which ASIC Class Order 98/100 applies and, accordingly, amounts in the financial statements and directors' report have been rounded to the nearest dollar.

DIRECTORS' REPORT

Remuneration report

Remuneration Policy

The remuneration policy ensures that contracts for services are reviewed on a regular basis and properly reflect the duties and responsibilities of the individuals concerned. The executive remuneration structure is based on a number of factors including length of service, relevant market conditions, knowledge and experience with the industry, organisational experience, performance of the Company and that the remuneration is competitive in retaining and attracting motivated people. There are no guaranteed pay increases included in the senior executives' contracts.

The Board's policy for determining the nature and amount of remuneration for key management personnel of the consolidated group is as follows:

- The Remuneration Committee is responsible for determining and reviewing compensation arrangements for the directors and the senior executives. The Board also reviews and ratifies the Remuneration Committee's recommendations on the remuneration of key management and staff.
- All key management personnel receive a base salary (which is based on factors such as length of service and experience), superannuation, fringe benefits, options and performance incentives.
- Performance incentives are generally only paid once predetermined key performance indicators have been met.
- The Remuneration Committee reviews key management personnel packages annually by reference to the consolidated group's performance, executive performance and comparable information from industry sectors.

Key management personnel receive a superannuation guarantee contribution required by the government, which is currently 9%, and do not receive any other retirement benefits. Individuals, however, may choose to sacrifice part of their salary to increase payments towards superannuation.

Upon retirement, key management personnel are paid employee benefit entitlements accrued to the date of retirement. Key management personnel are paid the mandated statutory amount of their salary in the event of redundancy.

All remuneration paid to key management personnel is valued at the cost to the company and expensed.

The Board's policy is to remunerate non-executive directors at no greater than market rates for time, commitment and responsibilities. The Remuneration Committee determines payments to the non-executive directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required. The maximum aggregate amount of fees that can be paid to non-executive directors is subject to approval by shareholders at the Annual General Meeting and is currently set at \$250,000 per annum.

Performance-based Remuneration

Key management personnel remuneration comprises of a total fixed remuneration and does not comprise of any short-term incentive schemes or equity based remuneration.

Relationship between Remuneration Policy and Company Performance

The Board do not consider that there is a direct relationship between the remuneration policy of the company and company performance. The Managing Director of the company is also a substantial shareholder and as such is sufficiently motivated to improve company performance.

DIRECTORS' REPORT

Employment Details of Members of Key Management Personnel and Other Executives

The following table provides employment details of persons who were, during the financial year, members of key management personnel of the consolidated group, and to the extent different, among the five Group executives or company executives receiving the highest remuneration. The table also illustrates the proportion of remuneration that was performance and non-performance based.

Name	Position	Proportions of elements of remuneration related to performance	Proportions of elements of remuneration not related to performance
<i>Directors</i>			
Mr John Bovard	Chairman, Non-executive	-	100%
Mr Peter Ziegler	Deputy chairman, Non-executive	-	100%
Mr Paul Byrne	Managing Director, Executive	-	100%
Mr Paul Ingram	Non-executive	-	100%
<i>Other executives</i>			
Mr Kevin Mischewski	Company Secretary, Financial Accountant	-	100%

The employment terms and conditions of key management personnel and Group executives are formalised in contracts of employment.

Terms of employment require that the relevant group entity does not provide an executive contracted person with a minimum notice period prior to termination of contract. A contracted person deemed employed on a permanent basis may terminate without notice. Statutory termination provisions apply. Termination payments are not payable on resignation or under the circumstances of unsatisfactory performance.

Non-executive directors are subject to similar contracts requiring no notice to be given on termination. Statutory termination provisions apply. Termination payments are at the discretion of the Remuneration Committee.

Changes in Directors and Executives Subsequent to Year-end

Up to the date of signing of this report there have been no changes to directors and executives subsequent to year end.

DIRECTORS' REPORT

Remuneration Details for the Year Ended 30 June 2012

Interest received		55,747	34,802
Finance costs		(2,615)	(17,395)
Income tax paid		-	-
Net cash (used in)/provided by operating activities	28a	(70,946)	(1,608,921)
CASH FLOWS FROM INVESTING ACTIVITIES			
Payments for investments		-	(111,999)
Proceeds from sale of non-current assets		-	-
Purchase of non-current assets		45,465	(21,556)
Loans to subsidiaries		-	-
Repayment of loans to subsidiaries		-	38,600
Net cash used in investing activities		45,465	(94,955)
CASH FLOWS FROM FINANCING ACTIVITIES			
Proceeds from issue of shares		700,000	1,529,999
Proceeds from borrowings		-	46,378
Repayment of borrowings		(126,272)	(115,839)
Net cash used in/(provided by) financing activities		573,728	1,460,538
Net increase/(decrease) in cash held		457,317	(243,338)
Cash and cash equivalents at beginning of period		585,444	828,782
Cash and cash equivalents at end of period	10	1,042,761	585,444

The above cash flow statements should be read in conjunction with the accompanying notes

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended 30 June 2012

These consolidated financial statements and notes represent those of Australian Pacific Coal Limited and Controlled Entities (the “consolidated group” or “Group”)

The separate financial statements of the parent entity, Australian Pacific Coal Limited have not been presented within this financial report as permitted by the Corporations Act 2001.

The financial statements were authorised for issue on 28 September 2012 by the directors of the company.

1 BASIS OF PREPARATION

The financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001. The Group is a for-profit entity for financial reporting purposes under the Australian Accounting Standards.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards as issued by the IASB. Material accounting policies adopted in the preparation of this financial report are presented below and have been consistently applied unless stated otherwise.

Except for cash flow information, the financial statements have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

Going Concern

This financial report has been prepared on a going concern basis as the Directors believe that the company and the consolidated entity will be able to realise its assets and settle its liabilities in the normal course of business and at the amounts stated in the financial report. The continuation of the company and the consolidated entity as a going concern is dependent upon their ability to achieve the following objectives:

- Development and exploitation of the coal tenements
- Realisation of surplus assets
- Capital raising

However, should the anticipated activities and capital raisings not generate sufficient revenues and cash flows as expected, the company and consolidated entity may not be able to pay their debts as and when they become due and payable and they may be required to realise assets and extinguish liabilities other than in the ordinary course of business and at amounts different from those stated in the financial statements. This report does not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the company and the consolidated entity not continue as going concerns.

(a) Principles of Consolidation

The consolidated financial statements incorporate the assets, liabilities and results of entities controlled by Australian Pacific Coal Limited at the end of the reporting period. A controlled entity is any entity over which Australian Pacific Coal Limited has the power to govern the financial and operating policies so as to obtain benefits from the entity's activities.

Where controlled entities have entered or left the Group during the year, the financial performance of those entities are included only for the period of the year that they were controlled. A list of controlled entities is contained in Note 16 to the financial statements.

In preparing the consolidated financial statements, all inter-group balances and transactions between entities in the consolidated group have been eliminated on consolidation.

Non-controlling interests, being the equity in a subsidiary not attributable, directly or indirectly, to a parent, are shown separately within the Equity section of the consolidated Statement of Financial Position and Statement of Comprehensive Income. The non-controlling interests in the net assets comprise their interests at the date of the original business combination and their share of changes in equity since that date.

Business Combinations

Business combinations occur where an acquirer obtains control over one or more businesses.

A business combination is accounted for by applying the acquisition method, unless it is a combination involving entities or businesses under common control. The business combination will be accounted for from the date that control is obtained, whereby the fair value of the identified assets acquired and liabilities (including contingent liabilities) assumed is recognised (subject to certain limited exemptions).

When measuring the consideration transferred in the business combination, any asset or liability resulting from a contingent consideration arrangement is also included. Subsequent to initial recognition, contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. Contingent consideration classified as an asset or liability is remeasured each reporting period to fair value, recognising any change to fair value in profit or loss, unless the change in value can be identified as existing at acquisition date.

All transaction costs incurred in relation to the business combination are expensed to the statement of comprehensive income.

The acquisition of a business may result in the recognition of goodwill or a gain from a bargain purchase.

Goodwill

Goodwill is carried at cost less accumulated impairment losses. Goodwill is calculated as the excess of the sum of:

- (i) the consideration transferred;
- (ii) any non-controlling interest; and
- (iii) the acquisition date fair value of any previously held equity interest;

over the acquisition date fair value of net identifiable assets acquired.

The acquisition date fair value of the consideration transferred for a business combination plus the acquisition date fair value of any previously held equity interest shall form the cost of the investment in the separate financial statements.

Fair value uplifts in the value of pre-existing equity holdings are taken to the statement of comprehensive income. Where changes in the value of such equity holdings had previously been recognised in other comprehensive income, such amounts are recycled to profit or loss.

The amount of goodwill recognised on acquisition of each subsidiary in which the Group holds less than a 100% interest will depend on the method adopted in measuring the non-controlling interest. The Group can elect in most circumstances to measure the non-controlling interest in the acquiree either at fair value (full goodwill method) or at the non-controlling interest's proportionate share of the subsidiary's identifiable net assets (proportionate interest method). In such circumstances, the Group determines which method to adopt for each acquisition and this is stated in the respective notes to these financial statements disclosing the business combination.

Under the full goodwill method, the fair value of the non-controlling interest is determined using valuation techniques which make the maximum use of market information where available. Under this method, goodwill attributable to the non-controlling interests is recognised in the consolidated financial statements.

Refer to Note 16 for information on the goodwill policy adopted by the Group for acquisitions.

Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill on acquisition of associates is included in investments in associates.

Goodwill is tested for impairment annually and is allocated to the Group's cash-generating units or groups of cash-generating units, representing the lowest level at which goodwill is monitored not larger than an operating segment. Gains and losses on the disposal of an entity include the carrying amount of goodwill related to the entity disposed of. Changes in the ownership interests in a subsidiary are accounted for as equity transactions and do not affect the carrying values of goodwill.

(b) Income Tax

The income tax expense (revenue) for the year comprises current income tax expense (income) and deferred tax expense (income).

Current income tax expense charged to profit or loss is the tax payable on taxable income. Current tax liabilities (assets) are measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred income tax expense (income) is charged or credited outside profit or loss when the tax relates to items that are recognised outside profit or loss.

Except for business combinations, no deferred income tax is recognised from the initial recognition of an asset or liability where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled and their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where: (a) a legally enforceable right of set-off exists; and (b) the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

Tax consolidation

The company and its wholly owned Australian subsidiaries have formed a tax consolidated group with effect from 30 July 2004. The head entity within the group is Australian Pacific Coal Limited.

Current income tax expenses/income and deferred tax liabilities and assets are recognised in the separate financial statements of members of the tax consolidated group using the separate taxpayer within the group approach. This approach determines the tax obligations of entities within the tax consolidated group after accounting for any consolidation adjustments.

Any current tax liabilities/(assets) and deferred tax assets arising from unused tax losses of the subsidiaries are assumed by the head entity in the tax consolidated group and are recognised as amounts payable/(receivable) to/(from) other entities in the tax consolidated group in conjunction with the tax funding arrangement referred to below. The difference between these amounts is recognised by the head entity as an equity injection or distribution.

Tax funding arrangement

Australian Pacific Coal Limited in conjunction with its wholly owned subsidiaries has entered into a tax funding arrangement from 30 July 2004. The tax funding arrangement requires subsidiaries within the tax consolidated group to make payments/(receipts) based on the assumption of tax obligations/(deferred tax assets) by the head entity.

Contributions to fund the current tax liabilities are payable as per the terms of the tax funding arrangement and reflect the timing of the head entity's obligation to make tax payments to the relevant tax authorities.

(c) Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of manufactured products includes direct materials, direct labour and an appropriate portion of variable and fixed overheads. Overheads are applied on the basis of normal operating capacity. Costs are assigned on the basis of weighted average costs.

The cost of mining stocks includes direct materials, direct labour, transportation costs and variable and fixed overhead costs relating to mining activities.

(d) Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Property

Freehold land and buildings are recorded at their fair value (being the amount for which an asset could be exchanged between knowledgeable willing parties in an arm's length transaction), based on periodic, but at least triennial, valuations by external independent valuers, less accumulated depreciation for buildings.

Increases in the carrying amount arising on revaluation of land and buildings are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised against fair value reserves directly in equity; all other decreases are recognised in profit or loss. Each year the difference between depreciation based on the revalued carrying amount of the asset charged to the statement of comprehensive income and depreciation based on the asset's original cost is transferred from the revaluation surplus to retained earnings.

Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

Plant and equipment

Plant and equipment are measured on the cost basis and therefore carried at cost less accumulated depreciation and any accumulated impairment. In the event the carrying amount of plant and equipment is greater than the estimated recoverable amount, the carrying amount is written down immediately to the estimated recoverable amount and impairment losses are recognised either in profit or loss or as a revaluation decrease if the impairment losses relate to a revalued asset. A formal assessment of recoverable amount is made when impairment indicators are present (refer to Note 1(h) for details of impairment).

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

The cost of fixed assets constructed within the consolidated group includes the cost of materials, direct labour, borrowing costs and an appropriate proportion of fixed and variable overheads.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of comprehensive income during the financial period in which they are incurred.

Depreciation

The depreciable amount of all fixed assets including buildings and capitalised lease assets, but excluding freehold land, is depreciated on a straight-line basis over the asset's useful life to the consolidated group commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The depreciation rates used for each class of depreciable assets are:

Class of Fixed Asset	Depreciation Rate
Buildings	4%
Leasehold improvements	20%
Plant and equipment	10–40%
Leased plant and equipment	12.5–20%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of comprehensive income. When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained earnings.

(e) Exploration and Development Expenditure

Exploration, evaluation and development expenditures incurred are capitalised in respect of each identifiable area of interest. These costs are only capitalised to the extent that they are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves.

Accumulated costs in relation to an abandoned area are written off in full against profit in the year in which the decision to abandon the area is made.

When production commences, the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to capitalise costs in relation to that area of interest.

Costs of site restoration are provided over the life of the facility from when exploration commences and are included in the costs of that stage. Site restoration costs include the dismantling and removal of mining plant, equipment and building structures, waste removal, and rehabilitation of the site in accordance with local laws and regulations and clauses of the mining permits. Such costs have been determined using estimates of future costs, current legal requirements and technology on an undiscounted basis.

Any changes in the estimates for the costs are accounted on a prospective basis. In determining the costs of site restoration, there is uncertainty regarding the nature and extent of the restoration due to community expectations and future legislation. Accordingly the costs have been determined on the basis that the restoration will be completed within one year of abandoning the site.

(f) Leases

Leases of fixed assets where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership that is transferred to entities in the consolidated group, are classified as finance leases.

Finance leases are capitalised by recording an asset and a liability at the lower of the amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Leased assets are depreciated on a straight-line basis over the shorter of their estimated useful lives or the lease term.

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are recognised as expenses in the periods in which they are incurred.

Lease incentives under operating leases are recognised as a liability and amortised on a straight-line basis over the lease term.

(g) Financial Instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the entity becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the company commits itself to either the purchase or sale of the asset (ie trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately.

Classification and subsequent measurement

Finance instruments are subsequently measured at fair value, amortised cost using the effective interest rate method, or cost.

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

Amortised cost is the amount at which the financial asset or financial liability is measured at initial recognition less principal repayments and any reduction for impairment, and adjusted for any cumulative amortisation of the difference between that initial amount and the maturity amount calculated using the effective interest method.

The *effective interest method* is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense item in profit or loss.

The Group does not designate any interests in subsidiaries, associates or joint venture entities as being subject to the requirements of accounting standards specifically applicable to financial instruments.

(i) *Financial assets at fair value through profit or loss*

Financial assets are classified at 'fair value through profit or loss' when they are held for trading for the purpose of short-term profit taking, derivatives not held for hedging purposes, or when they are designated as such to avoid an accounting mismatch or to enable performance evaluation where a group of financial assets is managed by key management personnel on a fair value basis in accordance with a documented risk management or investment strategy. Such assets are subsequently measured at fair value with changes in carrying value being included in profit or loss.

(ii) *Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost. Gains or losses are recognised in profit and loss through the amortisation process and when the financial asset is derecognised.

(iii) *Held-to-maturity investments*

Held-to-maturity investments are non-derivative financial assets that have fixed maturities and fixed or determinable payments, and it is the Group's intention to hold these investments to maturity. They are subsequently measured at amortised cost. Gains or losses are recognised in profit and loss through the amortisation process and when the financial asset is derecognised.

(iv) *Available-for-sale investments*

Available-for-sale investments are non-derivative financial assets that are either not capable of being classified into other categories of financial assets due to their nature or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

They are subsequently measured at fair value with any remeasurements other than impairment losses and foreign exchange gains and losses recognised in other comprehensive income. When the financial asset is derecognised, the cumulative gain or loss pertaining to that asset previously recognised in other comprehensive income is reclassified into profit or loss.

Available-for-sale financial assets are classified as non-current assets when they are expected to be sold after 12 months from the end of the reporting period. All other financial assets are classified as current assets.

(v) *Financial liabilities*

Non-derivative financial liabilities other than financial guarantees are subsequently measured at amortised cost. Gains or losses are recognised in profit and loss through the amortisation process and when the financial asset is derecognised.

Impairment

At the end of each reporting period, the Group assesses whether there is objective evidence that a financial asset has been impaired. A financial asset or a group of financial assets is determined to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events (a loss event) having occurred, which has an impact on the estimated future cash flows of the financial asset(s).

In the case of available-for-sale financial assets, a significant or prolonged decline in the market value of the instrument is considered to constitute a loss event. Impairment losses are recognised in profit or loss immediately. Also any cumulative decline in fair value previously recognised in other comprehensive income is reclassified to profit or loss at this point.

In the case of financial assets carried at amortised cost, Loss events may include: indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments; indications that they will enter bankruptcy or other financial reorganisation; and changes in arrears or economic conditions that correlate with defaults.

For financial assets carried at amortised cost (including loans and receivables), a separate allowance account is used to reduce the carrying amount of financial assets impaired by credit losses. After having taken all possible measures of recovery, if management establishes that the carrying amount cannot be recovered by any means, at that point the written-off amounts are charged to the allowance account or the carrying amount of impaired financial assets is reduced directly if no impairment amount was previously recognised in the allowance account.

When the terms of financial assets that would otherwise have been past due or impaired have been recognised, the Group recognises the impairment for such financial assets by taking into account the original terms as if the terms have not been renegotiated so that the loss events that have occurred are duly considered.

Financial guarantees

Where material, financial guarantees issued that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due, are recognised as a financial liability at fair value on initial recognition.

The fair value of financial guarantee contracts has been assessed using a probability weighted discounted cash flow approach. The probability has been based on:

- the likelihood of the guaranteed party defaulting in the next reporting period;
- the proportion of the exposure that is not expected to be recovered due to the guaranteed party defaulting; and
- the maximum loss exposed if the guaranteed party were to default.

Financial guarantees are subsequently measured at the higher of the best estimate of the obligation in accordance with AASB 137: Provisions, Contingent Liabilities and Contingent Assets and the amount initially recognised less, when appropriate, cumulative amortisation in accordance with AASB 118: Revenue. Where the entity gives guarantees in exchange for a fee, revenue is recognised under AASB 118.

De-recognition

Financial assets are derecognised when the contractual rights to receipt of cash flows expires or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised when the related obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

(h) Impairment of Assets

At each the end of each reporting period, the Group assesses whether there is any indication that an asset may be impaired. The assessment will include the consideration of external and internal sources of information including dividends received from subsidiaries, associates or jointly controlled entities deemed to be out of pre-acquisition profits. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (eg in accordance with the revaluation model in AASB 116). Any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other Standard

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Impairment testing is performed annually for goodwill and intangible assets with indefinite lives.

(i) Investments in Associates

Associates are companies in which the Group has significant influence through holding, directly or indirectly, 20% or more of the voting power of the associate company. Investments in associates are accounted for in the financial statements by applying the equity method of accounting whereby the investment is initially recognised at cost and adjusted thereafter for the post-acquisition change in the Group's share of net assets of the associate company. In addition the Group's share of the profit or loss of the associate company is included in the Group's profit or loss.

The carrying amount of the investment includes goodwill relating to the associate. Any discount on acquisition whereby the Group's share of the net fair value of the associate exceeds the cost of investment is recognised in profit or loss in the period in which the investment is acquired.

Profits and losses resulting from transactions between the Group and the associate are eliminated to the extent of the Group's interest in the associate.

When the Group's share of losses in an associate equals or exceeds its interest in the associate, the Group discontinues recognising its share of further losses unless it has incurred legal or constructive obligations or made payments on behalf of the associate. When the associate subsequently makes profits, the Group will resume the recognition of its share of those profits once its share of the profits equals the share of the losses not recognised.

Details of the Group's investments in associates are provided in Note 14

(j) Interests in Joint Ventures

The Group's share of the assets, liabilities, revenue and expenses of jointly controlled operations have been included in the appropriate line items of the consolidated financial statements.

The Group's interests in joint venture entities are recorded using the equity method of accounting (refer to Note 1(i) for details) in the consolidated financial statements.

Where the Group contributes assets to the joint venture or if the Group purchases assets from the joint venture, only the portion of the gain or loss that is not attributable to the Group's share of the joint venture shall be recognised. The Group recognises the full amount of any loss when the contribution results in a reduction in the net realisable value of current assets or an impairment loss.

(k) Intangibles Other than Goodwill

Patents and trademarks

Patents and trademarks are recognised at cost of acquisition. Patents and trademarks have an indefinite life and are carried at cost less any impairment losses.

Research and development

Expenditure during the research phase of a project is recognised as an expense when incurred. Development costs are capitalised only when technical feasibility studies identify that the project will deliver future economic benefits and these benefits can be measured reliably.

Development costs have a finite life and are amortised on a systematic basis matched to the future economic benefits over the useful life of the project.

(l) Foreign Currency Transactions and Balances

Functional and presentation currency

The functional currency of each of the Group's entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars which is the parent entity's functional currency.

Transactions and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in profit or loss, except where deferred in equity as a qualifying cash flow or net investment hedge.

Exchange differences arising on the translation of non-monetary items are recognised directly in other comprehensive income to the extent that the gain or loss is recognised in other comprehensive income, otherwise the exchange difference is recognised in profit or loss.

Group companies

The financial results and position of foreign operations whose functional currency is different from the Group's presentation currency are translated as follows:

- assets and liabilities are translated at exchange rates prevailing at the end of the reporting period;
- income and expenses are translated at average exchange rates for the period; and
- retained earnings are translated at the exchange rates prevailing at the date of the transaction.

Exchange differences arising on translation of foreign operations with functional currencies other than Australian dollars are recognised in other comprehensive income and included in the foreign currency translation reserve in the statement of financial position. These differences are recognised in profit or loss in the period in which the operation is disposed of.

(m) Employee Benefits

Provision is made for the Group's liability for employee benefits arising from services rendered by employees to balance date. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled. Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits. In determining the liability, consideration is given to employee wages increases and the probability that the employee may satisfy vesting requirements. Those cash outflows are discounted using market yields on national government bonds with terms to maturity that match the expected timing of cash flows.

(n) Provisions

Provisions are recognised when the Group has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

(o) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the statement of financial position.

(p) Revenue and Other Income

Revenue is measured at the fair value of the consideration received or receivable after taking into account any trade discounts and volume rebates allowed. Any consideration deferred is treated as the provision of finance and is discounted at a rate of interest that is generally accepted in the market for similar arrangements. The difference between the amount initially recognised and the amount ultimately received is interest revenue.

Revenue from the sale of goods is recognised at the point of delivery as this corresponds to the transfer of significant risks and rewards of ownership of the goods and the cessation of all involvement in those goods.

Interest revenue is recognised using the effective interest rate method, which, for floating rate financial assets, is the rate inherent in the instrument.

All dividends received shall be recognised as revenue when the right to receive the dividend has been established.

Revenue recognition relating to the provision of services is determined with reference to the stage of completion of the transaction at the end of the reporting period and where outcome of the contract can be estimated reliably. Stage of completion is determined with reference to the services performed to date as a percentage of total anticipated services to be performed. Where the outcome cannot be estimated reliably, revenue is recognised only to the extent that related expenditure is recoverable.

All revenue is stated net of the amount of goods and services tax (GST)

(q) Trade and Other Payables

Trade and other payables represent the liability outstanding at the end of the reporting period for goods and services received by the Group during the reporting period which remains unpaid. The balance is recognised as a current liability with the amount being normally paid within 30 days of recognition of the liability.

(r) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of assets that necessarily take a substantial period of time to prepare for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in income in the period in which they are incurred.

(s) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Tax Office.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows included in receipts from customers or payments to suppliers.

(t) Government Grants

Government grants are recognised at fair value where there is reasonable assurance that the grant will be received and all grant conditions will be met. Grants relating to expense items are recognised as income over the periods necessary to match the grant to the costs they are compensating. Grants relating to assets are credited to deferred income at fair value and are credited to income over the expected useful life of the asset on a straight-line basis.

(u) Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

Where the Group has retrospectively applied an accounting policy, made a retrospective restatement of items in the financial statements or reclassified items in its financial statements, an additional statement of financial position as at the beginning of the earliest comparative period will be disclosed.

(v) Rounding of Amounts

The parent entity has applied the relief available to it under ASIC Class Order 98/100 and accordingly, amounts in the financial report and directors' report have been rounded off to the nearest \$1.

(w) Critical Accounting Estimates and Judgments

The directors evaluate estimates and judgments incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

Key estimates***Impairment - general***

The Group assesses impairment at the end of each reporting period by evaluating conditions and events specific to the Group that may be indicative of impairment triggers. Recoverable amounts of relevant assets are reassessed using value-in-use calculations which incorporate various key assumptions.

Impairment – carbon price

There is presently uncertainty in relation to the impacts of the carbon pricing mechanism recently introduced by the Australian Government. This carbon pricing system could potentially affect the assumptions underlying value-in-use calculations used for asset impairment testing purposes. The consolidated entity has not incorporated the effect of any carbon price implementation in its impairment testing at 30 June 2012.

Key judgments

Exploration and Evaluation Expenditure

The Group capitalises expenditure relating to exploration and evaluation where it is considered likely to be recoverable or where the activities have not reached a stage which permits a reasonable assessment of the existence of reserves. While there are certain areas of interest from which no reserves have been extracted, the directors are of the continued belief that such expenditure should not be written off since feasibility studies in such areas have not yet concluded. Such capitalised expenditure is carried at the end of the reporting period at \$1,220,354.

Intangible assets

The Group capitalises expenditure relating to a class of intangible assets where it is considered likely to be recoverable. The useful lives of these intangible assets are assessed to be either finite or indefinite. Such capitalised expenditure is carried at the end of the reporting period at \$Nil.

(x) New Accounting Standards for Application in Future Periods

The AASB has issued a number of new and amended Accounting Standards and Interpretations that have mandatory application dates for future reporting periods, some of which are relevant to the Group. The Group has decided not to early adopt any of the new and amended pronouncements. The Group's assessment of the new and amended pronouncements that are relevant to the Group but applicable in future reporting periods is set out below:

- AASB 9: Financial Instruments (December 2010) and AASB 2010–7: Amendments to Australian Accounting Standards arising from AASB 9 (December 2010) [AASB 1, 3, 4, 5, 7, 101, 102, 108, 112, 118, 120, 121, 127, 128, 131, 132, 136, 137, 139, 1023 & 1038 and Interpretations 2, 5, 10, 12, 19 & 127] (applicable for annual reporting periods commencing on or after 1 January 2013).

These Standards are applicable retrospectively and include revised requirements for the classification and measurement of financial instruments, as well as recognition and derecognition requirements for financial instruments.

The key changes made to accounting requirements include:

- simplifying the classifications of financial assets into those carried at amortised cost and those carried at fair value;
- simplifying the requirements for embedded derivatives;
- removing the tainting rules associated with held-to-maturity assets;
- removing the requirements to separate and fair value embedded derivatives for financial assets carried at amortised cost;
- allowing an irrevocable election on initial recognition to present gains and losses on investments in equity instruments that are not held for trading in other comprehensive income. Dividends in respect of these investments that are a return on investment can be recognised in profit or loss and there is no impairment or recycling on disposal of the instrument;
- requiring financial assets to be reclassified where there is a change in an entity's business model as they are initially classified based on: (a) the objective of the entity's business model for managing the financial assets; and (b) the characteristics of the contractual cash flows; and
- requiring an entity that chooses to measure a financial liability at fair value to present the portion of the change in its fair value due to changes in the entity's own credit risk in other comprehensive income, except when that would create an accounting mismatch. If such a mismatch would be created or enlarged, the entity is required to present all changes in fair value (including the effects of changes in the credit risk of the liability) in profit or loss.

The Group has not yet been able to reasonably estimate the impact of these pronouncements on its financial statements.

- AASB 2010–8: Amendments to Australian Accounting Standards – Deferred Tax: Recovery of Underlying Assets [AASB 112] (applies to periods beginning on or after 1 January 2012).

This Standard makes amendments to AASB 112: Income Taxes and incorporates Interpretation 121: Income Taxes – Recovery of Revalued Non-Depreciable Assets into AASB 112.

Under the current AASB 112, the measurement of deferred tax liabilities and deferred tax assets depends on whether an entity expects to recover an asset by using it or by selling it. The amendments introduce a presumption that an investment property is recovered entirely through sale. This presumption is rebutted if the investment property is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

The amendments are not expected to significantly impact the Group.

- AASB 10: Consolidated Financial Statements, AASB 11: Joint Arrangements, AASB 12: Disclosure of Interests in Other Entities, AASB 127: Separate Financial Statements (August 2011), AASB 128: Investments in Associates and Joint Ventures (August 2011) and AASB 2011–7: Amendments to Australian Accounting Standards arising from the Consolidation and Joint Arrangements Standards [AASB 1, 2, 3, 5, 7, 9, 2009–11, 101, 107, 112, 118, 121, 124, 132, 133, 136, 138, 139, 1023 & 1038 and Interpretations 5, 9, 16 & 17] (applicable for annual reporting periods commencing on or after 1 January 2013).

AASB 10 replaces parts of AASB 127: Consolidated and Separate Financial Statements (March 2008, as amended) and Interpretation 112: Consolidation – Special Purpose Entities. AASB 10 provides a revised definition of control and additional application guidance so that a single control model will apply to all investees. The Group has not yet been able to reasonably estimate the impact of this Standard on its financial statements.

AASB 11 replaces AASB 131: Interests in Joint Ventures (July 2004, as amended). AASB 11 requires joint arrangements to be classified as either “joint operations” (where the parties that have joint control of the arrangement have rights to the assets and obligations for the liabilities) or “joint ventures” (where the parties that have joint control of the arrangement have rights to the net assets of the arrangement). Joint ventures are required to adopt the equity method of accounting (proportionate consolidation is no longer allowed).

AASB 12 contains the disclosure requirements applicable to entities that hold an interest in a subsidiary, joint venture, joint operation or associate. AASB 12 also introduces the concept of a “structured entity”, replacing the “special purpose entity” concept currently used in Interpretation 112, and requires specific disclosures in respect of any investments in unconsolidated structured entities. This Standard will affect disclosures only and is not expected to significantly impact the Group.

To facilitate the application of AASBs 10, 11 and 12, revised versions of AASB 127 and AASB 128 have also been issued. These Standards are not expected to significantly impact the Group.

- AASB 13: Fair Value Measurement and AASB 2011–8: Amendments to Australian Accounting Standards arising from AASB 13 [AASB 1, 2, 3, 4, 5, 7, 9, 2009–11, 2010–7, 101, 102, 108, 110, 116, 117, 118, 119, 120, 121, 128, 131, 132, 133, 134, 136, 138, 139, 140, 141, 1004, 1023 & 1038 and Interpretations 2, 4, 12, 13, 14, 17, 19, 131 & 132] (applicable for annual reporting periods commencing on or after 1 January 2013).

AASB 13 defines fair value, sets out in a single Standard a framework for measuring fair value, and requires disclosures about fair value measurement.

AASB 13 requires:

- inputs to all fair value measurements to be categorised in accordance with a fair value hierarchy; and
- enhanced disclosures regarding all assets and liabilities (including, but not limited to, financial assets and financial liabilities) to be measured at fair value.

These Standards are not expected to significantly impact the Group.

- AASB 2011–9: Amendments to Australian Accounting Standards – Presentation of Items of Other Comprehensive Income [AASB 1, 5, 7, 101, 112, 120, 121, 132, 133, 134, 1039 & 1049] (applicable for annual reporting periods commencing on or after 1 July 2012).

The main change arising from this Standard is the requirement for entities to group items presented in other comprehensive income (OCI) on the basis of whether they are potentially reclassifiable to profit or loss subsequently.

This Standard affects presentation only and is therefore not expected to significantly impact the Group.

- AASB 119: Employee Benefits (September 2011) and AASB 2011–10: Amendments to Australian Accounting Standards arising from AASB 119 (September 2011) [AASB 1, AASB 8, AASB 101, AASB 124, AASB 134, AASB 1049 & AASB 2011–8 and Interpretation 14] (applicable for annual reporting periods commencing on or after 1 January 2013).

These Standards introduce a number of changes to accounting and presentation of defined benefit plans. The Group does not have any defined benefit plans and so is not impacted by the amendment.

AASB 119 (September 2011) also includes changes to the accounting for termination benefits that require an entity to recognise an obligation for such benefits at the earlier of:

- (i) for an offer that may be withdrawn – when the employee accepts;
- (ii) for an offer that cannot be withdrawn – when the offer is communicated to affected employees; and
- (iii) where the termination is associated with a restructuring of activities under AASB 137: Provisions, Contingent Liabilities and Contingent Assets, and if earlier than the first two conditions – when the related restructuring costs are recognised.

The Group has not yet been able to reasonably estimate the impact of these changes to AASB 119.

NOTE 2: PARENT INFORMATION

The following information has been extracted from the books and records of the parent and has been prepared in accordance with Australian Accounting Standards.

	2012 \$	2011 \$
STATEMENT OF FINANCIAL POSITION		
Assets		
Current assets	1,116,362	598,493

NOTE 10: CASH AND CASH EQUIVALENTS

	Note	Consolidated Group	
		2012	2011
		\$	\$
Cash at bank and in hand		1,028,886	558,576
Short-term bank deposits		13,875	26,868
		1,042,761	585,444

The effective interest rate on short-term bank deposits was 5.5% (2011: 5.5%); these deposits have an average maturity of 90 days.

Reconciliation of cash

Cash at the end of the financial year as shown in the statement of cash flows is reconciled to items in the statement of financial position as follows:

Cash and cash equivalents	1,042,761	585,444
Bank overdrafts	-	-
	1,042,761	585,444

NOTE 11: TRADE AND OTHER RECEIVABLES

	Note	Consolidated Group	
		2012	2011
		\$	\$
Current			
Trade receivables		1,980	2,842
Provision for impairment	11a(i)	-	(2,842)
Amounts receivable from related parties:			
— loans to director related entities		-	-
Other receivables		62,183	54,216
Total current trade and other receivables		64,163	54,216
Non-current			
Amounts receivable from related parties:			
— loans to directors		712,598	420,998
— loans to key management personnel		28,950	28,950
— loans to controlled entities		-	-
— provision for impairment	11a(ii)	(210,623)	-
Other receivables		273,333	132,183
Other receivables - provision for impairment	11a(iii)	(7,150)	-
Total non-current trade and other receivables		797,108	582,131

a. **Provision For Impairment of Receivables**

Current trade and term receivables are non-interest bearing loans and generally on 30-day terms. Non-current trade and term receivables are assessed for recoverability based on the underlying terms of the contract. A provision for impairment is recognised when there is objective evidence that an individual trade or term receivable is impaired. These amounts have been included in the income statements.

Movement in the provision for impairment of receivables is as follows:

	Opening Balance	Charge for the Year	Amounts recovered	Closing Balance
	1.7.2011			30.6.2012
	\$	\$	\$	\$
Consolidated Group				
(i) Current trade receivables	2,842	-	(2,842)	-
(ii) Non-current related parties	-	210,623	-	210,623
(ii) Non-current other receivables	-	7,150	-	7,150

	Opening Balance	Charge for the Year	Amounts Written Off	Closing Balance
	1.7.2010			30.6.2011
	\$	\$	\$	\$
Consolidated Group				
(i) Current trade receivables	6,101	2,342	(5,601)	2,842

b. **Credit Risk — Trade and Other Receivables**

The Group has no significant concentration of credit risk with respect to any single counterparty or group of counterparties other than those receivables specifically provided for and mentioned within Note 11. The class of assets described as “trade and other receivables” is considered to be the main source of credit risk related to the Group.

The following table details the Group's trade and other receivables exposed to credit risk (prior to collateral and other credit enhancements) with ageing analysis and impairment provided for thereon. Amounts are considered as ‘past due’ when the debt has not been settled, with the terms and conditions agreed between the Group and the customer or counterparty to the transaction. Receivables that are past due are assessed for impairment by ascertaining solvency of the debtors and are provided for where there are specific circumstances indicating that the debt may not be fully repaid to the Group.

The balances of receivables that remain within initial trade terms (as detailed in the table) are considered to be of high credit quality.

Consolidated Group	Gross amount \$	Past due and impaired \$	Past due but not impaired (days overdue)				Within initial trade terms and impaired \$	Within initial trade terms \$
			< 30 \$	31–60 \$	61–90 \$	> 90 \$		
2012								
Trade and term receivables	1,980	-	-	-	-	-	-	1,980
Amounts receivable from related parties	741,548	-	-	-	-	-	(210,623)	530,925
Other receivables	335,516	-	-	-	-	-	(7,150)	328,366
Total	1,079,044	-	-	-	-	-	(217,773)	861,271
2011								
Trade and term receivables	2,842	(2,842)	-	-	-	-	-	-
Amounts receivable from related parties	449,948	-	-	-	-	-	-	449,948
Other receivables	186,399	-	-	-	-	-	-	186,399
Total	639,189	(2,842)	-	-	-	-	-	636,347

c. **Collateral Held as Security**

Included in amounts receivable from related parties is an amount owing to the parent company of \$741,548 at the end of the reporting period (2011: \$449,948). Included in other receivables is an amount owing to the parent company of \$28,950 at the end of the reporting period (2011: \$28,950). The company has funded the purchase of shares issued in accordance with the terms of the Company's Officers, Executives, Consultants and Employee Share Plan by way of limited-recourse loans repayable from future dividends or out of proceeds when the allotted shares are sold. Impairment adjustments have been recorded where the market value of the shares held at 30 June 2012 was less than the gross amount of the associated limited-recourse loan. Collateral is held by way of security over the shares issued. The shares are subject to a trading lock preventing disposal of the shares prior to the respective holders making suitable arrangements for repayment of any outstanding amounts payable on the associated loans.

— 21/5/2012	5,000,000	
At the end of the reporting period	564,993,926	533,118,926

Ordinary shares participate in dividends and the proceeds on winding up of the parent entity in proportion to the number of shares held.

At the shareholders' meetings each ordinary share is entitled to one vote when a poll is called, otherwise each shareholder has one vote on a show of hands.

b. Capital Management

Management controls the capital of the Group in order to maintain a good debt to equity ratio, provide the shareholders with adequate returns and ensure that the Group can fund its operations and continue as a going concern.

The Group's debt and capital includes ordinary share capital and financial liabilities, supported by financial assets.

There are no externally imposed capital requirements.

Management effectively manages the Group's capital by assessing the Group's financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of debt levels, distributions to shareholders and share issues.

There have been no changes in the strategy adopted by management to control the capital of the Group since the prior year. The gearing ratio's for the year ended 30 June 2012 and 30 June 2011 are as follows:

	Note	Consolidated Group	
		2012	2011
		\$	\$
Total borrowings	21,22	267,627	557,859
Less cash and cash equivalents	10	1,042,761	585,444
Net debt		(775,134)	(27,585)
Total equity		3,333,916	1,600,979

Gearing ratio		(30%)	(2%)

NOTE 25: CAPITAL AND LEASING COMMITMENTS

	Note	Consolidated Group	
		2012	2011
		\$	\$
a. Finance Lease Commitments			
Payable — minimum lease payments:			
— not later than 12 months		-	119,018
— between 12 months and 5 years		-	-
— greater than 5 years		-	-
Minimum lease payments		-	119,018
Less future finance charges		-	2,339
Present value of minimum lease payments		-	116,679
b. Operating Lease Commitments			
Non-cancellable operating leases contracted for but not capitalised in the financial statements.			
Payable — minimum lease payments:			
— not later than 12 months		20,236	121,956
— between 12 months and 5 years		-	20,326
— greater than 5 years		-	-
Total		20,236	142,282

The property leases are non-cancellable, with rent payable monthly in advance. Contingent rental provisions within the lease agreements require the minimum lease payments shall be increased annually by the greater of the consumer price index (CPI) or a specified percentage. The leases allow for subletting of all lease areas.

Lease A: - expires on 31/08/2012
- specified percentage 4.5%

Lease B: - expires on 30/08/2012
- specified percentage 5.0%

c. Exploration and Evaluation Expenditure Commitments

The consolidated Group has certain obligations to perform exploration work and outlay minimum amounts of money in order to maintain the current rights of tenure over its exploration tenements. These outlays are subject to renegotiation on expiry of the leases or when application for a mining lease is made and have not been provided for in the financial statements.

Total expenditure commitments at balance date and not provided for in the financial statements are approximately:

	Note	Consolidated Group	
		2012	2011
		\$	\$
Payable:			
— not later than 12 months		944,023	511,462
— between 12 months and 5 years		2,011,383	1,711,607
— greater than 5 years		260,197	281,303
Total		3,215,604	2,504,371

NOTE 26: CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Rio Tinto Exploration Pty Ltd – Exploration, Option and Joint Venture Agreement

On 22nd August 2011 the Company announced that its 100% owned subsidiary Area Coal Pty Ltd (Area Coal) had executed an Exploration, Option and Joint Venture Agreement (“the agreement”) with Rio Tinto Exploration Pty Ltd (RTX) covering four of its Mt Hillalong tenements. The Group has received an initial cash payment of \$2,300,000 in accordance with the agreement. In addition to the cash payment the agreement terms include that:

- title to EPC 1773 and EPCs 1867 and 1645 will be transferred to RTX;
- RTX will sole fund and manage an exploration program for EPC 1824 with a minimum expenditure of \$700,000 within the first 24 months of gaining access to the tenement;
- RTX has an option to acquire a 75% interest in EPC 1824 by making a defined payment to Area Coal at any time within the first 24 months of the exploration program. In the event of RTX’s exercise of this option, the parties will form an unincorporated joint venture in which Area Coal would retain a 25% free carry interest;
- if RTX exercises the option to acquire an interest in EPC 1824, Area Coal would then hold a put option (exercisable on the date that is 12 months after the formation of the joint venture) enabling it to sell its 25% interest in the joint venture to RTX for an additional defined payment to Area Coal;
- if Area Coal does not exercise the above put option, it will have a further put option, exercisable within 180 days of the joint venture management committee commissioning a feasibility study, to sell its 25% interest in EPC1824 to RTX for consideration calculated on the basis of resource tonnage;
- if Area Coal does not exercise its second put option it will become liable for 25% of all future development and operational costs of the joint venture; and
- should RTX not exercise its option to acquire the 75% interest in the project, Area Coal will retain its existing 100% ownership of EPC 1824 and can reacquire the other three Mt Hillalong tenements originally transferred to RTX under the agreement.

NOTE 27: OPERATING SEGMENTS

Segment Information

Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

The Group is managed primarily on the basis of resource category and technology investments. Operating segments are therefore determined on the same basis.

Reportable segments disclosed are based on aggregating operating segments where the segments are considered to have similar economic characteristics.

Types of products and services by segment

i. *Mining exploration and evaluation*

The mining exploration and evaluation segment seeks to identify prospective resource areas, secure tenure over the relevant tenements and manage the exploration and evaluation process.

ii. *Technology investments*

Technology investment operations are largely dormant with focus being maintained on retaining the rights to secured technologies.

iii. *Bentonite Mining*

The bentonite mining segment mines for bentonite.

Basis of accounting for purposes of reporting by operating segments

a. **Accounting policies adopted**

Unless stated otherwise, all amounts reported to the Board of Directors, being the chief decision maker with respect to operating segments, are determined in accordance with accounting policies that are consistent to those adopted in the annual financial statements of the Group.

b. **Inter-segment transactions**

An internally determined transfer price is set for all inter-segment sales. This price is based on what would be realised in the event the sale was made to an external party at arm's length. All such transactions are eliminated on consolidation of the Group's financial statements.

Corporate charges are allocated to reporting segments based on the segments' overall proportion of direct operating costs within the Group. The Board of Directors believes this is representative of likely consumption of head office expenditure that should be used in assessing segment performance and cost recoveries.

Inter-segment loans payable and receivable are initially recognised at the consideration received/to be received net of transaction costs. If inter-segment loans receivable and payable are not on commercial terms, these are not adjusted to fair value based on market interest rates. This policy represents a departure from that applied to the statutory financial statements.

c. **Segment assets**

Where an asset is used across multiple segments, the asset is allocated to that segment that receives majority economic value from that asset. In the majority of instances, segment assets are clearly identifiable on the basis of their nature and physical location.

d. **Segment liabilities**

Liabilities are allocated to segments where there is a direct nexus between the incurrence of the liability and the operations of the segment. Borrowings and tax liabilities are generally considered to relate to the Group as a whole and are not allocated. Segment liabilities include trade and other payables and certain direct borrowings.

e. **Unallocated items**

The following items of revenue, expenses, assets and liabilities are not allocated to operating segments as they are not considered part of the core operations of any segment:

- Net gains on disposal of available-for-sale investments
- Impairment of assets and other non-recurring items of revenue or expense
- Income tax expense
- Deferred tax assets and liabilities
- Current tax liabilities
- Other financial liabilities
- Intangible assets
- Discontinuing operations
- Retirement benefit obligations

b. Non-cash Financing and Investing Activities**i. Share issue:**

10,000,000 ordinary shares were issued for a total consideration of \$425,250. The company has funded the purchase of shares issued in accordance with the terms of the Company's Officers, Executives, Consultants and Employee Share Plan by way of limited-recourse loans repayable from future dividends or out of proceeds when the allotted shares are sold.

NOTE 29: EVENTS AFTER THE REPORTING PERIOD

No other matters or circumstances have arisen since the end of the financial year which significantly affected, or could significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

No matters or circumstances that have significantly affected, or may affect, the company's operations in future financial years, or the company's state of affairs during future financial years occurred after balance date.

NOTE 30: RELATED PARTY TRANSACTIONS

a. The Group's main related parties are as follows:

i. *Entities exercising control over the group:*

The ultimate parent entity, which exercises control over the Group, is Australian Pacific Coal Limited.

ii. *Key management personnel:*

Any person(s) having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of that entity, are considered Key Management Personnel (KMP).

iii. *Entities subject to significant influence by the Group:*

An entity which has the power to participate in the financial and operating policy decisions of an entity, but does not have control over those policies, is an entity which holds significant influence. Significant influence may be gained by share ownership, statute or agreement.

For details of interests held in associated companies, refer to Note 14: Associated Companies.

iv. *Other related parties:*

Other related parties include entities controlled by the ultimate parent entity and entities over which key management personnel exercise significant influence.

b. Transactions with related parties:

Transactions between related parties are on normal commercial terms and conditions no more favourable than those available to other parties unless otherwise stated.

The following transactions occurred with related parties:

ii. Key management personnel:

The office premises occupied by Australian Pacific Coal Limited are sub-let from Felix Street Pty Ltd a company previously owned by Mr Paul Byrne. On 21 April 2011 Australian Pacific Coal Limited acquired 100% of the equity in Felix Street Pty Ltd from Paul Byrne for \$Nil consideration. Prior to the acquisition Australian Pacific Coal Limited provided loan funds to enable the company to meet its short term working capital requirements. These loan funds are offset against rent amounts payable. Interest is not payable.

Balance at beginning of year	-	12,186
Loans advanced	-	56,250
Loan repayment received	-	(68,436)
Balance at end of year	-	-
Interest not charged (on an arms-length basis)	-	-

The company issued 10,000,000 (2011: 20,325,000) ordinary shares to KMP in accordance with the Company's Officers, Executives, Consultants and Employee Share Plan. The terms of the plan enabled the company to fund the purchase by way of limited-recourse loans totalling \$425,250 (2011: \$478,898) repayable from future dividends or out of proceeds when the allotted shares are sold. Collateral is held by way of security over the shares issued. The shares are subject to a trading lock preventing disposal of the shares prior to the respective holders making suitable arrangements for repayment of any outstanding amounts payable on the associated loans. Interest is not payable.

NOTE 31: FINANCIAL RISK MANAGEMENT

The Group's financial instruments consist mainly of deposits with banks, short-term investments, accounts receivable and payable, loans to and from subsidiaries and leases.

Financial Risk Management Policies

The Board of Directors, amongst other issues, monitor and manage financial risk exposures of the Group. The Board monitors the Group's financial risk management policies and exposures and approves financial transactions within the scope of its authority. It also reviews the effectiveness of internal controls relating to identified areas of risk.

The Board's overall risk management strategy seeks to assist the consolidated group in meeting its financial targets, while minimising potential adverse effects on financial performance. Its functions include the review of credit risk policies and future cash flow requirements.

Specific Financial Risk Exposures and Management

The main risks the Group is exposed to through its financial instruments are credit risk, liquidity risk and market risk consisting of interest rate risk, and equity price risk

a. Credit risk

Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss to the Group.

Credit risk is managed through the maintenance of procedures (such procedures include the utilisation of systems for the approval, granting and renewal of credit limits, regular monitoring of exposures against such limits and monitoring of the financial stability of significant customers and counterparties), ensuring to the extent possible, that customers and counterparties to transactions are of sound credit worthiness. Such monitoring is used in assessing receivables for impairment. Depending on the division within the Group, credit terms are generally 14 to 30 days from the invoice date.

Risk is also minimised through investing surplus funds in financial institutions that maintain a high credit rating, or in entities that the Board has otherwise cleared as being financially sound.

Credit Risk Exposures

The maximum exposure to credit risk by class of recognised financial assets at balance date, excluding the value of any collateral or other security held, is equivalent to the carrying value and classification of those financial assets (net of any provisions) as presented in the statement of financial position. Credit risk also arises through the provision of financial guarantees, as approved at Board level, given to parties securing the liabilities.

The Group has no significant concentration of credit risk with any single counterparty or group of counterparties.

Trade and other receivables that are neither past due or impaired are considered to be of high credit quality. Aggregates of such amounts are as detailed in Note 12.b.

Credit risk related to balances with banks and other financial institutions is managed by management in accordance with approved Board policy. The counterparty to these financial assets are large financial institutions with strong credit ratings. The credit quality of these financial assets that are neither past due nor impaired is considered strong.

b. Liquidity risk

Liquidity risk arises from the possibility that the Group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. The Group manages this risk through the following mechanisms:

- preparing forward looking cash flow analysis in relation to its operational, investing and financing activities;
- obtaining funding from a variety of sources;
- maintaining a reputable credit profile;
- managing credit risk related to financial assets;
- only investing surplus cash with major financial institutions; and
- comparing the maturity profile of financial liabilities with the realisation profile of financial assets.

The contractual maturity of financial liabilities is set out in detail in Note 21.

c. Market Risk

Market risk arises from the use of interest bearing financial, tradeable and foreign currency instruments. It is the risk that the fair value of future cash flows of financial instruments will fluctuate because of changes in interest rates (interest rate risk), foreign exchange rates (currency risk) or other market factors (other price risk).

i. Interest rate risk

Exposure to interest rate risk arises on financial assets and financial liabilities recognised at the end of the reporting period whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments. The Group is exposed to earnings volatility on floating rate instruments and is limited to its cash and cash equivalent assets.

As at 30 June 2012, if interest rates had moved, as illustrated in the table below, with all other variables held constant, post tax profit and equity would have been affected as follows:

Post Tax Profit	Consolidated Group Higher/(Lower)	
	2012	2011
+1.00% (100 basis points)	13,936	8,701
-1.00% (100 basis points)	(13,936)	(8,701)

Equity	Consolidated Group Higher/(Lower)	
	2012	2011
+1.00% (100 basis points)	13,936	8,701
-1.00% (100 basis points)	(13,936)	(8,701)

d. Fair Value Estimation

The fair values of financial assets and financial liabilities are determined as follows:

- the fair value of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices; and
- the fair value of other financial assets and financial liabilities (excluding derivative instruments) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

The net fair value of financial assets and liabilities of the Group approximate their carrying amounts.

The Group has no financial assets and liabilities where the carrying amount exceeds the net fair value at balance date.

The aggregate net fair values and carrying amounts of financial assets and financial liabilities are disclosed in the statement of financial position and notes to the financial statements.

NOTE 32: REGISTERED OFFICE AND PRINCIPAL OFFICE

The registered and principal office of the Australian Pacific Coal Limited (ABN 49 089 206 986) and its controlled entities is;

Level 7, 10 Felix Street, Brisbane Qld 4000

DIRECTORS' DECLARATION

The directors of the company declare that:

1. the financial statements and notes, as set out on pages 45 to 96, are in accordance with the *Corporations Act 2001* and:
 - a. comply with Accounting Standards; which, as stated in accounting policy Note 1 to the financial statements, constitutes compliance with International Financial Reporting Standards (IFRS); and
 - b. give a true and fair view of the financial position as at 30 June 2012 and of the performance for the year ended on that date of the company and consolidated group;
2. the Chief Executive Officer and Chief Finance Officer have each declared that:
 - a. the financial records of the company for the financial year have been properly maintained in accordance with s 286 of the *Corporations Act 2001*;
 - b. the financial statements and notes for the financial year comply with the Accounting Standards; and
 - c. the financial statements and notes for the financial year give a true and fair view;
3. in the directors' opinion there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

John Bovard
Chairman

AUSTRALIAN PACIFIC COAL LIMITED

**INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF
AUSTRALIAN PACIFIC COAL LIMITED**

Report on the Financial Report

We have audited the accompanying financial report of Australian Pacific Coal Limited and Controlled Entities (the consolidated entity) which comprises the statement of financial position as at 30 June 2012, the income statement, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' responsibility for the Financial Report

The directors of the company are responsible for the preparation and fair presentation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001. And for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1, the Directors also state, in accordance with Accounting Standard AASB 101: Presentation of Financial Statements that the financial statements comply with International Financial Reporting Standards (IFRS).

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion of the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001.

D. A. Lissauer B.Com., FCPA, Affiliate ICAA
R. P. Lissauer B.Ec., M.Tax, CA, FTIA
M. R. Lipson B.Bus., B.Ed., A.I.Arb.A, CA

Auditor's Opinion

In our opinion:

- a) the financial report of Australian Pacific Coal Limited and Australian Pacific Coal Limited and Controlled Entities is in accordance with the Corporations Act 2001, including:
 - i. giving a true and fair view of the company and consolidated entity's financial position as at 30 June 2012 and of their performance for the year ended on that date; and
 - ii. complying with Australian Accounting Standards and the Corporations Regulations 2001; and
- b) the financial report also complies with International Financial Reporting Standards as disclosed in Note 1.

Inherent Uncertainty

Without qualification to the statement above, attention is drawn to the following matters:

Continuation as a Going Concern.

As described in Note 1 "Going Concern" there is uncertainty whether the consolidated group will be able to continue as a going concern and therefore whether it will be able to pay its debts as and when they fall due and realise its assets and extinguish its liabilities in the normal course of business at the amounts stated in the financial report. The financial report of the consolidated entity does not include any adjustments relating to the recoverability and classification of recorded asset amounts or to the amounts and classification of liabilities that might be necessary should the company and the consolidated entity not continue as a going concern.

Report on the Remuneration Report

We have audited the Remuneration Report included in pages 7 to 9 of the directors' report for the year ended 30 June 2012. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with s300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's Opinion

In our opinion the Remuneration Report of Australian Pacific Coal Limited for the year ended 30 June 2012, complies with s300A of the Corporations Act 2001.
