& CEO

# Disclaimer

## No Warranties Disclaimer

The material in this presentation has been prepared by archTIS Limited (“**Company**”).

This presentation may not be reproduced, redistributed or passed on, directly or indirectly, to any other person, or published, in whole or in part, for any purpose without prior written approval of the Company. The material contained in this presentation is for information purposes only. This presentation is not an offer or invitation for subscription or purchase of, or a recommendation in relation to, securities in the Company and neither this presentation nor anything contained in it shall form the basis of any contract or commitment. Any offering of any of the Company's securities to Australian persons will be subject to Australian securities laws. The distribution of this document in jurisdictions outside of Australia may be restricted by law, and persons into whose possession this document comes should inform themselves about, and observe, all such restrictions.

This presentation is not financial product or investment advice. It does not take into account the investment objectives, financial situation and particular needs of any investor. Before making an investment in the Company, an investor or prospective investor should consider whether such an investment is appropriate to their particular investment needs, objectives and financial circumstances, seek legal and taxation advice as appropriate and consult a financial adviser if necessary.

This presentation may contain forward-looking statements that are subject to risk factors associated with data-centric cyber security business. Forward looking statements include those containing such words as "anticipate", "estimates", "forecasts", "should", "could", "may", "intends", "will", "expects", "plans" or similar expressions. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company. It is believed that the expectations reflected in these statements are reasonable, but they may be affected by a range of variables and changes in underlying assumptions which could cause actual results or trends to differ materially. The Company does not make any representation or warranty as to the accuracy of such statements or assumptions.

This presentation has been prepared by the Company based on information currently available to it. No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this presentation. To the maximum extent permitted by law, none of the Company or its subsidiaries or affiliates or the directors, employees, agents, representatives or advisers of any such party, nor any other person accepts any liability for any loss arising from the use of this presentation or its contents or otherwise arising in connection with it, including without limitation, any liability arising from fault or negligence on the part of the Company or its subsidiaries or affiliates or the directors, employees, agents, representatives or advisers of any such party.

# AR9 - Journey to date

Founded in 2006, archTIS has evolved to create best-in-class data-centric security products servicing defence agencies and companies around the world

Founded in 2006 as a consulting company, archTIS has evolved to create best-in-class data-centric security products:

- 18+ years operating experience; 6+ years as a listed company
- Broad use case; provides solutions to enterprise IP, government, defence, multinationals and university research
- Successful operational focus in last two years:
  - Strong revenue growth: 37% in FY23 and 54% in FY24
  - Disciplined management has reduced cost base to \$5.8m in FY24 (FY22: \$9.0m)
- Products implemented across government, military departments, and private industry (including Thales, SAP, Hanwha, Babcock, NIOA, Aust DOD)
- Multi award-winning platform, including 2022 and 2023 Australian Defense Industry Cyber Business of the Year Award

A Data Centric Security solution for  
every data sharing problem

#### SECURE SHARING AND COLLABORATION PLATFORM FOR CLASSIFIED DATA

- Compartmentalized military-grade classified information collaboration and file sharing
- IRAP assessed and accredited up to PROTECTED
- Control access and sharing with data-centric ABAC policies, including security classification, country, organization and releasability
- Audit all user interaction and changes made to files, workspaces and other administrative tasks

#### DYNAMIC ACCESS & PROTECTION FOR MICROSOFT 365, SHAREPOINT & FILE SHARES

- Discover, classify and secure sensitive information
- Prevent data loss, misuse and human error
- Enforce zero trust with Attribute Based Access Control (ABAC) and data protection policies
- Audit user file access and interactions for security and compliance reporting
- Maintain control of encryption keys in M365 with Bring Your Own Key (BYOK) Support

#### POLICY-BASED ACCESS ORCHESTRATION & CONTROL FOR SENSITIVE & CLASSIFIED DATA

- Adds Zero Trust Data Centric Security capabilities to structured data access
- Source and integrate data from multiple authoritative data sources based on access context
- Centrally author and apply access control policies for security and compliance across data transactions with minimal user impact
- Enable seamless information and data collaboration with multiple third parties
- Enables speed of relevance for decision-making

# Organic Growth Strategy – Revenue Verticals

## Australian Defence Market

- Become the default Data Centric Security products for Defence
- Drive an enterprise agreement to go deeper into Australian Defence
- Existing Proof of Concepts
- Quoted opportunities

## Replicate Success Across Coalition Forces

- Referenceable into Coalition Forces (US / Five-Eyes / AUKUS, etc.)
- Existing Proof of Concepts
- Microsoft relationship
- AUKUS
- Mandated compliance requirements

## Global Defence Industrial Base (DIB)

- Sell-to / Sell through
- Advanced features to meet Defence Industry compliance requirements including Export Controls and security
- Referenceable into DIB internationally
- Existing POCs

## Enter New Vertical Markets

- Continue to organically grow use case in other verticals
- Migrate customers from On-premises to Cloud
- Leverage archTIS unique products to support critical Infrastructure industries
- Support global business partners
