NEW PRODUCT RELEASE – AUTOMATION INDUSTRY NEWS.NET

The Directors are pleased to announce the launch of the company's latest internet news service **Automation Industry News "AIN"**.

AIN is a unique daily news portal delivering high-quality, specialised news and information on:

- The development and application of high-tech automation and robotic systems.
- Key developments and trends in the factory automation field.
- Key developments and trends in process automation.
- Development, production and use of automated machines and equipment.
- Advances in the field of motion control.
- Automated system and robotic instrumentation, software, and monitoring/control devices.
- The use of automated systems in the aerospace, defence, mining, construction, manufacturing, transport, logistics, petroleum and other industries.
- Regulations and guidelines covering the use of automated/robotic machines and systems.

Automation Industry News is primarily a B2B industry site designed to connect providers of automation technology, products and services, to users of these services and technologies

Aspermont is a leading publisher of online business to business industry news and the addition of **www.automation.industry-news.net** builds on Aspermont's existing publications covering the mining, energy, transport and construction/civil engineering industries.
