8th March 2006

UNMARKETABLE PARCEL SALE FACILITY

The Directors wish to advise that after the close of the unmarketable share sale facility, the company will arrange for the sale of 222,853 ordinary shares at the authorised price of 11.35c.

The cost of administering shareholdings of less than a marketable parcel is considerable and in many cases these expenses are often greater than the value of the underlying shares. The off-market sale of these shares is anticipated to be completed by the 22nd March 2006 and the proceeds forwarded to the shareholders participating in the facility.

About Aspermont

Aspermont publishes five Print Magazines and eight Online Daily News Services including mining, energy, environment, construction, transport and biotechnology. Its flagship print product, Australia's Mining Monthly is a highly regarded market leader. Aspermont's products have both a domestic and international reach and are complimented with other services including conferencing, editorial, graphic design and media management.
