ASX: AKA

Disclaimer

Certain statements made during or in connection with this communication, including, without limitation, those concerning the economic outlook for the exploration industry, expectations regarding commodity prices, production, cash costs and other operating results, growth prospects and the outlook of Australia Minerals and Mining Group Limited's (AMMG) operations; contain or comprise certain forward-looking statements regarding AMMG's exploration operations, economic performance and financial condition.

Although AMMG believes that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to have been correct. Accordingly, results could differ materially from those set out in the forward-looking statements as a result of, among other factors, changes in economic and market conditions, success of business and operating initiatives, changes in the regulatory environment and other government actions, fluctuations in commodity prices and exchange rates and business and operational risk management. AMMG undertakes no obligation to update publicly or release any revisions to these forward-looking statements to reflect events or circumstances after today's date or to reflect the occurrence of unanticipated events.

The Chinese version of this document translated by AMMG has been prepared with the utmost care. However, AMMG does not accept any liability for the correctness and completeness of the content of the translation and the direct or indirect consequences of acting or failing to act based on this translation. In all cases, the English document shall take precedence.

Competent Person Statement

Technical information in this report is based on information compiled by Mr Michael O'Mara, B. App. Sc. (Geol.), AMMG Chief Geologist and a member of the Australian Institute of Geoscientists (AIG). Mr O'Mara has sufficient exploration experience which is relevant to the styles of mineralisation and types of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' ("JORC 2004"). Mr O'Mara consents to the inclusion in this release of the matters based on his information in the form and context in which it appears.

**First phase RC drilling at
Pingaring Nickel Project,
Western Australia**

Corporate Snapshot

BOARD OF DIRECTORS

Luke Atkins	Non-executive Chairman
Ric Dawson	Managing Director
Dan Tenardi	Non-executive Director
Peter Bailey	Non-executive Director
Piers Lewis	Company Secretary/Chief Financial Officer

INFORMATION

As at 31 May 2013

Share Price (A\$)	0.11
Ordinary shares (AKA)	107.62m
Unlisted options (various)	11.5m
Listed Options (AKAOB)	21.46m
Performance Shares*	8m
Market Cap	11.8m
Cash (as at 31 March 2013)	3.2m
Debt	Nil

Major Shareholders as at 31 May 2013

**Subject to performance criteria*

Investment Case

Stage 1 diamond drilling program
Southdown Extension Iron Ore Project

Stage 1 RC drilling program
Constance Range Iron Ore Project

ASX publicly listed
exploration company

Strong financial position
~\$3.2m cash

Potential to spin-out or
joint venture
individual projects

Experienced board &
management team

Increasing demand from
China, India, SE Asia
Close shipping distance to
China

Diverse range of Australian
mineral projects
Minerals in increasing demand
Coal, Mineral Sands, High
Purity Alumina, Iron Ore,
Gypsum, Salt, Glauconite,
Gold

Exploration site visit at
Meckering High Purity Alumina Project

Exploration site visit at
Green Range Coal Project

Corporate Strategy

OUR VISION

Identify sufficient resources with potential to develop **bulk mineral** projects

Develop projects internally or with **JV partners**

Add **value** to our projects to create **shareholder wealth** by JV, spin-out or divesting projects

Stage 1 diamond drilling at Southdown Extension Iron Ore Project, Western Australia

Advance
Constance
Range Iron
Ore Project,
QLD

Advance
Yilgarn Iron
Ore
Projects,
WA

Develop
HPA (high
purity
alumina)
project

Increase
297Mt
combined
aluminous
clay
resource

Advance
Green
Range Coal
Project

Advance
Glenarty
Creek
Mineral
Sands
Project

Advance
South West
Salt Project

Project Locations

Total
tenements =
11,830km²

SHIPPING
DISTANCE
TO
CHINA:
~ 5,500-
6,000km

VS

WEST
AFRICA
~ 20,000km

SOUTH
AMERICA
~ 23,000km

Glenarty Creek Mineral Sands Project

JORC inferred resource of
701Mt @ 3.8% HM
containing 2.6% ilmenite
at Rover Range Deposit

JORC inferred resource of
106Mt @ 3.6% HM
containing 2.8% ilmenite
at the Miller's Mill Deposit

Tenement bisected by
Brockman Hwy with direct
route to Bunbury via BHP
constructed Sues Rd

AMMG's 100% owned
project located ~120kms
from Bunbury port

Albany Hub & Port

Multi-mineral projects

Located in Western
Australia's premier
mining state

Same time zone
as China

Shipping distance to
China approx.
6,500kms

Existing port –
planning to upgrade
capacity

Regional city of
Albany

Moderate
Mediterranean
climate

Aerial view of Albany

Albany Port

Albany Hub Multi-mineral projects

GREEN RANGE COAL PROJECT

Exploration target*
400-500Mt thermal grade coal based on historical drilling

Thermal coal grade up to 24Mj/kg or 5,732 kcal/kg

GLAUCONITE (POTASH) PROJECT

800Mt – 1.2Bt exploration target*

High purity silica sands deposit

Currently 250k tonne per annum DSO operation to Japan on adjacent ground

Albany Hub Multi-mineral projects

SOUTHDOWN EXTENSION IRON ORE PROJECT

Exploration target*
300-500Mt Fe grades
~34% in the magnetite

Adjacent to Grange
Resources' Southdown
magnetite project –
1.22Bt @ 34%
DTR wt% rec.
62.9% DTC Fe

AMMG metallurgical test
work showed average
iron concentrate of 68%;
average mass recovery
35%

Grind size was ~75
microns (coarser than
previously reported at
other WA magnetite
projects)

Southdown Extension
Stage 1 diamond drilling
program

Bencubbin Yilgarn Iron Ore Projects

AMMG's exploration target*
is 50Mt-100Mt

Metallurgical results indicate very 'coarse' liberation of magnetite at a grind size of 150 microns

Average iron conc. was above 70%, average mass recovery 38.6%, 'coarser' grind size of 150 microns.

Stage 1 RC drilling at Bencubbin

High Purity Alumina South West Project

5 projects
(100% owned)
covering 3,500km²

297Mt JORC
combined resource

Exploration target*
2.5Bt – 3.9Bt

Close to existing port
and rail networks

*The term target should not be misunderstood nor misconstrued as an estimate of Mineral Resources and Reserves as defined by the JORC Code (2004), and therefore the term has not been used in this context. It is uncertain if further exploration or feasibility study will result in the determination of a Mineral Resource or Mining Reserve.

Constance Range Iron Ore/DSO Project

Aerial view of outcropping
Train Range Ironstone member

CHINA
~5,500
kms

Constance Range Iron Ore/DSO Project

BHP Historical Deposit A (100% Viento Group Ltd)

- Inferred resource 236Mt at 53.2% Fe
- DSO inferred resource 15Mt at 56.5% Fe
- Part of Constance Range Iron Ore Alliance

Deposit D

- JORC resource of 6.1Mt at 39.9% Fe
- Exploration target* 5-10Mt with ~55% ca Fe
- BHP historical drilling

BHP Historical Deposit I

- Exploration target* 20-50Mt with ~58% ca Fe
- Subject to due diligence

AMMG's tenement holdings in the Constance Range

AMMG's resource drilling at BHP historical deposit 'D'

*The term target should not be misunderstood nor misconstrued as an estimate of Mineral Resources and Reserves as defined by the JORC Code (2004), and therefore the term has not been used in this context. It is uncertain if further exploration or feasibility study will result in the determination of a Mineral Resource or Mining Reserve.

Overseas Interest

South West Regional Projects

AMMG hosted a leading Chinese delegation on a tour of its south west regional projects and to view the infrastructure at Albany port.

AMMG participated at the China Mining conference in Tianjin in both 2011 and 2012, and plans to attend this year.

Chairlady of Hanking Group Yang Min and her delegation visited the Chairman of AMMG to discuss potential involvement and investment opportunities in AMMG.

AMMG participated in the Bauxite & Alumina conference in Singapore and Miami.
