ASX / MEDIA RELEASE
9 September 2024

Filter press manufacturer re-visits project for permanent fix

Alara Resources Limited (ASX: AUQ) (**Alara** or the **Company**) is pleased to provide an update on its joint venture company, Al Hadeetha Resources LLC's Al Wash-hi Majaza copper-gold mining project in Oman. Alara holds a 51% interest in the JV.

Key Highlights

- Filter press manufacturer's engineers visiting Al Wash-hi plant in September to endeavour to rectify recurring issues with the press.
- Fifth consignment of copper concentrate form the plant postponed to September end as a result.

The Al Wash-hi copper concentrate production plant has seen an increase in capacity following filter press modifications made in June. As production tonnage and grade continue to remain below expectations, however, engineers from the filter press manufacturer are visiting the plant in September to endeavour to permanently resolve ongoing issues with the press.

To facilitate this exercise the manufacturer has requested a plant shutdown of approximately five to seven days, followed by a four-day monitoring period to observe improvements in operations.

Given the planned shutdown and monitoring period, the next shipment of copper concentrate from the plant has been postponed until the end of September.
