FFT secures new utilities order valued at A\$369K

- **Order for FFT Secure Fence valued at \$369K**
- **Security site upgrade for LNG facilities in Northern Australia**
- **Existing FFT customer upgrading to latest generation technology**

Future Fibre Technologies Limited (FFT) (ASX: FFT), a global leader in fibre optic perimeter intrusion detection systems, has secured a new order valued at A\$369K.

FFT Secure Fence controllers will be used to protect the perimeter of LNG facilities located in Northern Australia.

Commenting on the announcement, FFT Chief Executive Rob Broomfield said, *“With a large and well established install base, we are receiving a growing number of enquiries regarding security upgrade programs. FFT Secure Fence has been successfully protected this site for more than 10 years and this long-term FFT customer is now looking to take gain the benefits of our latest generation software and hardware.”*

About FFT

FFT is a leading developer and manufacturer of fibre optic intrusion detection security systems. Deployed by some of the most security conscious industrial, military and government organisations in the world, FFT’s advanced security systems:

- detect and locate **perimeter** intrusions;
- identify third-party interference on oil and gas **pipelines**; and
- protect sensitive **data network** communications cables.

With hundreds of installations in more than 60 countries, FFT has established a solid reputation for delivering highly intelligent, reliable, and award winning intrusion detection solutions. www.fftsecurity.com
