

ALTIUS MINING LIMITED **(ASX: AYM)**

11 March 2014

Geological Survey for Forsayth

Altius Mining Limited (**Altius** or the **Company**) is pleased to announce it has contracted a geology team from the Shandong Province Geology and Mineral Exploration and Development Bureau to undertake a geological survey of the Company's Forsayth tenement (EPM 14498) in Queensland (**Tenement**).

The team of geologists, which has recently commenced work, will be conducting geological mapping and terrain survey over the entirety of the Tenement in order to define the most prospective areas for more detailed work. Once defined, these prospective areas will be subject to detailed geological mapping, point sampling, trenching and ultimately diamond and reverse circulation drilling.

The surveys will be conducted in accordance with agreed upon technical requirements, and the resultant geological report (**Report**), which will be signed by a geologist who is a Competent Person as defined by the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (**JORC Code**), will be prepared in accordance with all applicable industry regulations and standards, including the JORC Code.

The team of geologists must complete its field work within four to six months of commencement, and the Report must be completed within 60 days of completion of the field work.

-Ends-

ABOUT ALTIUS

Altius Mining Limited (ASX code: AYM) is an emerging base and precious metal production and exploration company focused on the discovery, development and mining of its primary assets in far north Queensland (FNQ) and New South Wales (NSW).

Whilst Altius is predominantly focused on the development and mining of its primary gold assets at Forsayth FNQ, the Company has also amassed substantial tenement holdings in highly prospective regions across a broad spread of commodities. Altius holds 100% interest in 8 exploration licenses in NSW, and one exploration licence and two mining licenses in FNQ respectively. Forsayth, in FNQ, is the Company's flagship project, with mining licenses and an almost complete milling, gravity and flotation circuit in place. Whilst focusing on Forsayth the Company also intends to undertake extensive exploration programmes and environmental studies to develop possible mining operations at Sofala, Karangi and the other NSW tenements.
