This policy outlines the Company's diversity objectives in relation to gender, age, cultural background and ethnicity. It includes requirements for the Board to establish measurable objectives for achieving diversity, and for the Board to assess annually both the objectives and the Company's progress in achieving them.

The Board will abide by the following principles:

At the end of each reporting period the Company will disclose the measurable objectives for achieving gender diversity as set by the Board, or relevant committee, within the Company's Diversity Policy as well as its progress towards achieving them.

The Board has developed an informal annual self-assessment process for its collective performance, the performance of the Chairman and its committees. Succession planning is also built into the appraisal process.

The results and any action plans are to be recorded in the board minutes together with specific performance goals which are to be agreed for the coming year.

The Board (pending the establishment of a Nomination Committee) conducts an annual appraisal of Senior Executives, including contribution to the overall success of the business. Succession planning is also built into the appraisal process to encourage development of future leaders within the Company.

The results and any action plans are to be recorded in the board minutes together with specific performance goals which are to be agreed for the coming year.

(9) Recommendation 2.1 -Nomination Committee

Due to the small size of the board a separate Nomination Committee has not been established. Matters normally assigned to the Nomination Committee will be dealt with by the Board as a whole pending the establishment of a Nomination Committee.

(10) Recommendation 2.2 – Board skills matrix

The Board considers that a diverse range of skills, background, knowledge and experience is required in order to effectively govern the Company. The Board has developed a skills matrix to help identify any gaps in its current collective skills as well as those skills it is looking to achieve in its membership. Any identified 'gaps' may result in the provision of professional development for existing directors or by taking on new directors. The Board regularly evaluates the mix of skills, experience and diversity of background to bolster good corporate governance and provide value for Shareholders.

When the need for a new Director is identified, the required experience and competencies of the new Director are defined in the context of this matrix. The matrix is reviewed annually by the Board.

The Directors believe that the Board is of an appropriate size and has the requisite commitment, diversity and mix of skills to enable it to discharge its duties effectively and to add value. The table below sets out the skills and experience of the Board in those areas relevant to Directors' duties and the Company's operations.

Skills/Experience of the current Board	No. of Directors
Investing in global equity, bond, currency and commodity markets	3
Funds management and financial markets including risk management	3
Law	3
Corporate finance, debt capital markets, structuring and joint ventures, trade finance and project finance	3
National and international business experience, accountancy, compliance and risk management	3

(11) Recommendation 2.3 – Director's independence

The Board has adopted specific principles in relation to Directors' independence. These state that to be independent, a Director must be a non-executive Director and:

- not be a substantial Shareholder of the Company or an officer of, or otherwise associated directly with, a substantial Shareholder of the Company;
- within the last three years, not have been employed in an executive capacity by the Company or any other Group member, or been a Director after ceasing to hold any such employment;
- not receive performance-based remuneration including options or performance right or participate in an employee incentive scheme of the Company;
- within the last three years not have been a principal of a material professional adviser or a material consultant to the Company or any other Group member, or an employee materially associated with the service provided;
- not be a material supplier or customer of the Company or any other Group member or an officer of, or otherwise associated directly or indirectly with, a material supplier or customer;
- must have no material contractual relationship with the Company or a controlled entity other than as a Director of the Group;
- be free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the Director's ability to act in the best interests of the Company; and

- must not have any close family ties or close personal tie with any person who falls within any of the categories described above.

Materiality for these purposes is determined on both quantitative and qualitative bases. An amount of over 5% of annual turnover of the Company or Group, or 5% of the individual Director's net worth is considered material for these purposes.

In addition, a transaction of any amount or a specific relationship, is deemed material if knowledge of it may impact the Shareholders' understanding of the Director's independence.

Recent thinking on corporate governance has introduced the view that a Director's independence may be perceived to be impacted by lengthy service on the Board. To avoid any potential concerns, the Board has determined that a Director will not be deemed independent if he or she has served on the Board of the Company for more than ten years.

Having regard to the factors listed above, Gary Miller is considered by the Board to be an independent

(12) Recommendation 2.4 – Majority of the Board are independent Directors

One third of the directors are independent. In the current year Mr Miller is independent. The Board believes that an additional independent director is not required at this stage of the Company's development. The board membership is reviewed annually, and an independent non-executive director could be recruited if the Board feels circumstances have changed and an additional independent director is required.

(13) Recommendation 2.5 – Independence of Chairman

Best practice recommends that the Chair of the Board is independent and not the same person as the Managing Director. The Board believes that the current Chair is effective despite Mr Glennon not being independent due to his shareholding. The board membership is reviewed annually, and an independent non-executive chair could be recruited if the Board feels circumstances have changed and an independent chair is required.

(14) Recommendation 2.6 – Induction program for new Directors

The Company has a program for inducting new Directors and provides appropriate professional development opportunities for Directors to develop and maintain the skills and knowledge needed to perform their role as Directors effectively. All new Directors are provided with an induction including comprehensive meetings with the Board, Senior Executives and management and the provision of information on the Company including Company and Board policies and other material documents. Additional induction is offered to new Directors if the following are required:

- Company knowledge;
- industry knowledge;
- familiarity with legal framework; or
- key accounting knowledge.

All Directors are expected to maintain the skills required to effectively discharge their duties and obligations to the Company. Directors are strongly encouraged to undertake continuing professional development education.

- ✓ Transparency
- ✓ Integrity
- ✓ Resilience
- ✓ Ecological awareness and
- ✓ Accountability
