**CORPORATE GOVERNANCE STATEMENT
FOR THE YEAR ENDED 30 JUNE 2017
(ASX: BIT)**

This Corporate Governance Statement is current as at 4 August 2017 and has been approved by the Board of Biotron Ltd ('the Company'), on that date. A copy can be found on the Company's website at www.biotron.com.au/corporate-governance.

This statement outlines the main Corporate Governance practices that were in place throughout the financial year, which comply with the Australian Stock Exchange ('ASX') Corporate Governance Principles and Recommendations ('Recommendations'), unless otherwise stated.

CORPORATE GOVERNANCE STATEMENT

The Board of Directors of the Company ('the Board') is committed to maintaining the highest standards of Corporate Governance. Corporate Governance is about having a set of core values and behaviours that underpin the Company's activities and ensure transparency, fair dealing and protection of the interests of stakeholders.

The Board of Directors supports the Recommendations developed by the ASX Corporate Governance Council ('Council'). Whilst the Company's practices are largely consistent with the Council's guidelines, the Board considers that the implementation of some Recommendations are not appropriate having regard to the nature and scale of the Company's activities and size of the Board. The Board uses its best endeavours to ensure exceptions to the Council's guidelines do not have a negative impact on the Company and the best interests of shareholders as a whole. When the Company is not able to implement one of the Council's Recommendations the Company applies the 'if not, why not' explanation approach by applying practices in accordance with the spirit of the relevant principle.

The following discussion outlines the ASX Corporate Governance Council's eight principles and associated recommendations and the extent to which the Company complies with those recommendations.

Details of all of the Council's Recommendations can be found on the ASX website at www.asx.com.au.

Principle 1 – Lay solid foundations for management and oversight

Board role and responsibilities

The Board is responsible for, and has the authority to determine, all matters relating to the policies, practices, management and operations of the Company. The Board is also responsible for the overall corporate governance and management oversight of the Company and recognises the need for the highest standards of behaviour and accountability in acting in the best interests of the Company.

The Board also ensures that the Company complies with all of its contractual, statutory and any other legal or regulatory obligations. The Board has the final responsibility for the successful operations of the Company.

Where the Board considers that particular expertise or information is required, which is not available from within their members, appropriate external advice may be taken and reviewed prior to a final decision being made by the Board.

Without intending to limit the role of the Board, the principal functions and responsibilities of the Board include the following:

- formulation and approval of the strategic direction, objectives and goals of the Company;
- the prudential control of the Company's finances and operations, monitoring the financial performance and approving budgets and major expenditures of the Company;
- the resourcing, review and monitoring of performance of senior management;
- ensuring that adequate internal control systems and procedures exist and that compliance with these systems and procedures is maintained;
- the identification of significant business risks and ensuring that such risks are adequately managed;
- the timeliness, accuracy and effectiveness of communications and reporting to shareholders and the market;
- the establishment and maintenance of appropriate ethical standards;
- overseeing the integrity of the accounting and corporate reporting systems and the external audit process;
- approving the Company's remuneration framework; and
- monitoring the effectiveness of corporate governance practices.

Having regard to the current size of the Company and the nature of its activities and the composition and structure of the Board, those functions usually reserved to management for implementing the strategic objectives of the Company are the responsibility of the Managing Director.

The Company has followed Recommendation 1.1 by establishing the functions reserved to the Board and those delegated to senior executives as disclosed above.

Appointment as a Director

The Company has followed Recommendation 1.2 by ensuring that the appointment of directors who will come before shareholders for re-election at the Company's Annual General Meeting are suitable for the Company and equipped with the knowledge and information to discharge their roles adequately. In addition, the Company ensures that all relevant information that it possess is disclosed in the notice of meeting to enable shareholders to make a decision on whether or not to elect or re-elect a director.

The Company has followed Recommendation 1.3 by having a written agreement with each director and senior executive setting out the terms of their appointment.

Company Secretary

The Company has followed Recommendation 1.4 by ensuring that the Company Secretary is accountable directly to the Board, through the Chairman, on all matters to do with the proper functioning of the Board.

Diversity

The Company's Board does take into account the gender, age, ethnicity, and cultural background of potential Board members, Company executives and employees and understands that promotion of gender diversity can broaden the pool for recruitment of high quality employees, enhance employee retention and improve corporate image and reputation. Hence, approximately 60% of the Company's employees and two of the five directors, including the Managing Director, are female. However, given the small size of the Company, a formal diversity policy has not been established and therefore Recommendation 1.5 has not been followed.

Board performance review and evaluation

The Board has the policy to ensure that the directors are equipped with the knowledge and information they need to effectively discharge their responsibilities. The Chairman monitors the performance of the Board, individual directors and committees on an on-going basis and speaks to directors individually regarding their role as a director. In doing so, the Company has followed Recommendation 1.6.

Senior executives' performance review and evaluation

Having regard to the size of the Company and the small number of employees, other than the directors, the Company does not have any senior executives and therefore, Recommendation 1.7 is not applicable.

Principle 2 – Structure the Board to add value

Board of Directors – composition and structure

Having regard to the size of the Company and the nature of its activities, the composition and structure of the Board is adequate to discharge its responsibilities and duties.

Nomination Committee

The objective of a Nomination Committee is to make recommendations to the Board regarding various matters including board succession, recruitment, induction, professional development, performance evaluation, recommending an appropriate balance of skills, knowledge, experience, independence and diversity as required. A Nomination Committee has not been established, however in accordance to Recommendation 2.1, the full Board has the responsibility for and performs the functions of a Nomination Committee.

Skills of the Board

The Board consists of a blend of personal experience at director-level and relevant corporate experience required by the Group for effective decision-making. Directors are appointed based on the specific operational, corporate and governance skills required by the Group and the Company follows Recommendation 2.2 by disclosing the directors' qualifications and experience, which satisfy the Board skill matrix below, in the Directors' Report section of the Annual Report.

Board skill matrix

Area	Competence

Investment	Corporate mergers and acquisitions, corporate financing, portfolio management
Technical	Development of research based pharmaceuticals, managing commercial bioscience research and clinical trials.
Leadership	Experience in public listed companies having the ability but not limited to setting Board directives and representing the Company appropriately

Additionally the Company follows Recommendation 2.3 by disclosing those directors considered by the Board to be independent directors and the length of service of each director.

Board composition and independence

Having regard to the size of the Company and the nature of its activities, the Board has five directors all of whom have been, or are, involved in the management of the Company or are substantial shareholders in the Company. The names of the directors of the Company in office at the date of this report and their length of service are as follows:

Mr. Michael J. Hoy, independent, non-executive Chairman – appointed 7 February 2000

Dr. Michelle Miller, Managing Director – appointed 21 June 2002

Dr. Susan Pond – independent and non-executive director, appointed 7 March 2012

Mr. Robert B. Thomas – independent and non-executive director, appointed 7 March 2012.

Dr. Denis Wade – independent and non-executive director, appointed 30 April 2010

The Company follows Recommendation 2.4, with all the directors being independent and non-executive except for the Managing Director and it is the Board's opinion that all directors bring to the Board their independent judgement.

Chairman and CEO

Mr. Michael Hoy, an independent non-executive director, holds the office of Chairman. The Company follows Recommendation 2.5 as the Chairman does not hold the position of Chief Executive Officer.

Directors' induction and education

In accordance with Recommendation 2.6 the Company encourages directors to continue their professional development to assist them in performing their role effectively and has a policy to provide each new director or officer with a copy of the following documents:

- Code of Conduct;
- Continuous Disclosure Policy;
- Share Trading Policy; and
- Shareholders Communication Policy.

Principle 3 – Act ethically and responsibly

Code of Conduct Policy and ethical standards

All directors, executives and employees are expected to act with the utmost integrity and objectivity in carrying out their duties and responsibilities, endeavouring at all times to enhance the reputation and performance of the Company. Every employee has direct access to a director to whom they may refer any ethical issues that may arise from their employment. The Company has followed Recommendation 3.1 and has adopted a formal Code of Conduct policy which is available on the Company's website at www.biotron.com.au.

Access to Company information and confidentiality

All directors have the right of access to all relevant Company books and to the Company's executive management.
