DialTime (D-I-Y) ServiceATM® Makes Payment Easy - Document No 82

Dial Time introduces a multifunction stand alone ("ServiceATM®") incorporating both Dial Time prepaid telephony and *Bill EXPRESS™* electronic bill pay services.

Consumers can pay their bills without having to queue for service.

The do-it-yourself enhanced ServiceATM® permits consumers to purchase prepaid products including prepaid telephony vouchers, and/or electronically scan bills and use the *Bill EXPRESS™* bill pay service.

Consumers scan the bill to capture the bill details and then make payment using a debit, credit or charge card. The ServiceATM® prints a receipt for the customer.

The new generation ServiceATMs® have been under trial in selected Coles Supermarkets for several months.

They feature a (PoPs™) high quality full colour flat screen monitor for promotional advertising and brand messages to increase consumer awareness of how to use the *Bill EXPRESS™* machine. Also included are an informative touch screen, EFTPOS pinpad and barcode reader.

Yours faithfully

Ian Christiansen
Company Secretary
