Dear Sir,

**ANZON AUSTRALIA LIMITED (ASX CODE: AZA)
MANTA SWIVEL CORRECTED / WEATHER DISRUPTS PRODUCTION**

The Basker Manta Gummy Joint Venture advises that the Manta swivel changes have been completed and production resumed last weekend, despite severe weather conditions during the shutdown. It also advises that weather conditions deteriorated further yesterday with sea states of 7m. It was therefore necessary to disconnect the two production vessels, the *Crystal Ocean* and *Basker Spirit*, from their moorings.

The vessels will return to site and reconnect as soon as the weather allows. Based on current forecasts the vessels are expected to reconnect this Sunday.

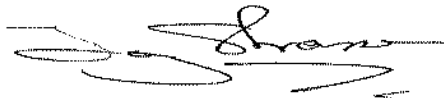

This is the first time in more than 12 months of operation that it has been necessary for the vessels to disconnect due to severe weather conditions.

The *Basker Spirit* is moving to Melbourne to take the opportunity to refuel, while the *Crystal Ocean* will shelter in Westernport Bay and carry out maintenance activities.

The participants in the Basker Manta Joint Venture are:

Anzon Australia Limited	50%	(Operator)
Beach Petroleum Limited	50%	

Yours sincerely,

Tony J Strasser
Company Secretary
