#### **About BlueScope Steel Limited (ASX: *BSL*)**

BlueScope Steel is an international flat steel solutions company, with a manufacturing and marketing footprint spanning Australia, New Zealand, Asia and North America. The Company is the global leader in the provision of high quality metallic coated and painted steel products for the building and construction sector, and also supplies customers in the general manufacturing and automotive sectors.

BlueScope Steel's strategy is to grow the proportion of its revenue and earnings generated from downstream value-added steel products, by capitalising on high growth markets in Asia, providing leading product and service offers, and through successful inter-material competition based on the superior properties of steel products.

BlueScope Steel's strengths include its unrivalled network of manufacturing facilities in Asia, proprietary coating and painting technologies and strong brands, including COLORBOND® steel, ZINCALUME® steel, the LYSAGHT® range of steel building products and the BUTLER® brand of pre-engineered steel buildings (PEBs).

BlueScope Steel operates a 5.1 million tonnes per annum integrated steelworks at Port Kembla, Australia, a 650,000 tonnes per annum integrated steelworks in New Zealand, and has a 50 per cent interest in a 1.8 million tonne steel mini-mill in Delta, Ohio. Coating and painting plants are located in Australia, New Zealand, China, Thailand, Malaysia, Indonesia and Vietnam and under construction in India. Design Centres of excellence for building solutions and PEBs are located in China, Thailand and India. BlueScope Steel has a network of more than 50 rollforming facilities in 13 countries that is unmatched by any other steel company, and is the market leader in steel PEBs in China and North America.
