8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: Operating cash flows are expected to remain broadly consistent with current levels and may deteriorate modestly due to continued expenditure on corporate overheads and project-related activities. However, following the funding milestones outlined below, cash and available debt now represent ~10 times current quarterly operating outflows.

8.8.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?
Answer:	Yes. After quarter-end, Beetaloo Energy strengthened its financial position with two key milestones: a $66.3 million placement backed by institutional and sophisticated investors, and an increase in the Macquarie Bank Midstream Infrastructure Facility to $45 million.
8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?
Answer:	Yes. The entity expects to continue its operations and meet its business objectives. This expectation is supported by the strengthened financial position achieved after quarter-end, as mentioned above.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
