Company Announcement Officer
Australian Securities Exchange

Appointment of Non-Executive Director

IEC is pleased to announce the appointment of Mr David Nolan to its Board as Non-Executive Director.

David's career has spanned 21 years as a commercial lawyer and company director. David holds a Bachelor of Laws (Hons) and Bachelor of Arts from Bond University, Queensland.

David has been a partner at a number of leading Sydney law firms advising Australian and international clients on all aspects of corporate law and was previously a senior adviser at the London Stock Exchange. David's legal expertise includes mergers and acquisitions, IPOs and capital raisings, venture capital and private equity, restructurings and takeovers, corporate finance, joint ventures, commercial agreements and regulatory and corporate governance advice.

David has extensive experience advising on acquisitions and divestments, capital raisings and financings for mining companies and has been a director of a number of ASX listed companies in the resources sector. David has valuable relationships in the advisory and regulatory community and brings a depth of corporate governance expertise.

The Directors warmly welcome David to the Board.

About Intra Energy

Intra Energy is an environmentally responsible, diversified mining and energy group, focused on Eastern Africa, and is listed on the Australian Stock Exchange (ASX:IEC). IEC is a developer and producer of thermal coal in Eastern Africa operating under the motto of "African coal for African growth" and is the only operating thermal coal miner in Eastern Africa. Its flagship coal project is the Tancoal mine in the Ngaka coalfield of Tanzania, operated by Tancoal Energy Limited, a joint venture with the National Development Corporation of Tanzania.

Intra Energy has made significant progress with its Eastern African regional expansion strategy into new mining and renewable energy projects and battery storage materials, and maintains cost effective and efficient operations to remain a low cost producer in this dynamically growing region where it occupies the prime supply position.
