

Quarterly Report June 2024 Quarter

Burley Minerals Ltd (ASX: BUR, 'Burley' or 'the Company') is pleased to provide the following update on its business activities during the June quarter. Burley is an ASX-listed minerals explorer with iron ore and lithium projects, located within the Tier-1 provinces of Western Australia and Canada.

HIGHLIGHTS

Broad Flat Well Iron Project, WA – 100% Interest

- Heritage survey completed with the Yinjibarndi Nation in June'24.
- Access tracks and drill pad earthworks largely completed by Yurra.
- Maiden drilling programme underway comprising 50 drillholes across >6 km of outcropping Channel Iron Deposits (CID).

Cane Bore Iron Project, WA – 100% Interest in ELA

- No recommended amendments to Conservation Management Plan (CMP) by either DBCA or the Conservation and Parks Commission (CPC).
- CMP expected to be referred to Environment Minister during Aug'24.

Corporate

- Cash balance of \$2.40M at 30 Jun'24. (\$0.85M at 31 Mar'24)
- Successful capital raise including a SPP in April and May, raising \$2.3M (before costs).
- Tight capital structure (150.4 M shares) and market capitalisation of \$18.8M.

Broad Flat Well Iron Project, WA – 100% Interest

Location and Setting

The Broad Flat Well exploration license, E47/4580, is located approximately 115 km from Karratha and is accessible by the sealed Roebourne - Wittenoom Road, as illustrated in Figure 1. Broad Flat Well is also only 260kms from Port Headland.

Figure 1: Broad Flat Well Location Plan showing only 115km by sealed highway from Dampier and near existing infrastructure.

Rock Chip Sampling and Geology

A mapping and rock chip sampling programme was completed in 2023¹. Thirty-six (36) rock chip samples were collected from the tops of mesa-form hills which are interpreted as remnant mid-Miocene Channel Iron Deposits (CID) related to the Fortescue River palaeo-drainage system. An earlier sampling programme was completed by API Management between 2006 and 2008.

Assay results of Channel Iron Deposit (CID) samples recorded an average value of 56.3% Fe and a maximum value of 59.4% Fe. A summary of the assay results is presented in Table 1.

Table 1: Broad Flat Well Project – Summary of rock chip samples assay results

	Fe%	SiO ₂ %	Al ₂ O ₃ %	S %	P %	LOI %	Calcined Fe%
Average	56.3	4.96	4.20	0.055	0.025	9.44	62.2

Notes: All elements and compounds analysed by multi-element XRF techniques for a standard Iron Ore suite of elements and compounds (ALS Code ME-XRF21n). Loss on Ignition (LOI) analysed by Thermogravimetric Analyser (ALS Code ME-GRA05). Calcined calculated as %Fe / (1-%LOI).

Heritage Survey, Earthworks and Maiden Drilling Programme

Following the execution of the Heritage Protection Agreement with the Yindjibarndi Nation, the heritage survey was completed in late June'24. The heritage survey team from the Yindjibarndi Nation was accompanied by a consulting archaeologist from Echoes Cultural Heritage Management and Burley MD/CEO Stewart McCallion.

Photo 1: Broad Flat Well heritage survey team from the Yindjibarndi Nation, with consulting archaeologist and Burley MD/CEO Stewart McCallion.

¹ Refer to BUR ASX announcement "High-grade iron assay results from the Broad Flat Well Iron Ore Project" dated 12 February 2024.

Yurra Pty Ltd, a construction company majority owned by the Yindjibarndi Nation, was engaged to complete earthworks for drilling access tracks and drilling pads. Earthworks followed the heritage survey once data was compiled and assessed.

The maiden RC drilling programme, approved by DEMIRS, includes 50 holes over more than 6 km of CID mesa-forms, as illustrated in Figure 2. Reflecting a competitive market, numerous drilling contractors expressed interest in the maiden drilling programme at Broad Flat Well; the selected contractor mobilised to site on July 23rd. At the time of reporting, the maiden drilling programme is in progress. RC drilling samples will be despatched to the laboratory in Perth at the completion of the drilling; assay results from the maiden drilling programme are expected in late August/early-September. Furthermore, additional rock-chip samples will be collected in other areas prospective for CID mineralisation. These rock-chip samples will be analysed along with the drilling samples.

Figure 2: Broad Flat Well CID Mineralisation Area

Next Steps

Subject to the assay results of the maiden drilling program expected to be completed in early Aug'24, an in-fill drilling program will be applied for through DEMIRS, and additional heritage surveys with the Yindjibarndi Nation will be arranged in the September '24 quarter. Furthermore,

the Company intends to develop a preliminary, Inferred Resource Model, and compile a Scoping Study against the inferred resource, to evaluate options of potential operations.

Cane Bore Iron Project, WA – 100% Interest in ELA

Location and Setting

The Cane Bore Exploration License (application) area, E08/3424, is approximately 90 km from Onslow and the Ashburton Port and is accessible via the Northwest Coastal Highway and the Mount Stuart Road. Adjacent to tenure held by Minerals Resources Limited and the API Joint Venture, the Cane Bore exploration area is approximately 222 km². A location plan is included as Figure 3.

Figure 3: Cane Bore Location, within 100 km of Onslow and the Port of Ashburton

Cane Bore - Historic Rock Chip Sampling

Records of historic rock chip sampling by United States Steel International (New York) Incorporated (US Steel) from two field reconnaissance trips conducted in 1968 and 1969 at the Cane Bore area have revealed grades in upwards of 55% Fe; some 18 rock chip samples were collected over the extent of the exploration license application area, returning assay results between 45% and 54.3% Fe. The historical rock chip sample locations are illustrated in Figure 4.

Figure 4: Cane Bore CID outlines detailing 32kms of strike and Rock Chip Sample Locations

Next Steps

The exploration licence application is going through the process towards grant of an Exploration Licence. The DBCA and Conservation and Parks Commission (CPC) have no recommended amendments to the Conservation Management Plan (CMP). The CMP is expected to be referred to Environment Minister in August '24.

Once the Exploration License is granted, the Company intends to complete further detailed on-ground mapping, sampling and drilling. Detailed mapping and outcrop sampling of the CID is considered an important step in evaluating the grade and tonnage potential of the CID. Heritage survey planning is expected to be progressed during the September '24 quarter.

Chubb Lithium Project, Quebec, Canada – 100% Interest

Location and Setting

The Chubb Lithium Project is located 25 km north of the mining community of Val d'Or in the heart of the world-class lithium province of Québec, Canada. The Project comprises a total area of 1,509 hectares. The Project is centred within the Manneville Deformation Corridor, which hosts Canada's only operating lithium mine, the North America Lithium Operation (NAL). The NAL is owned by Sayona Mining Ltd (ASX: SYA) and Piedmont Lithium Inc with a Mineral Resources of 58Mt at 1.23% Li₂O² reported, plus other emerging projects including the Authier Lithium Project, with resources of 17Mt at 1.01 % Li₂O reported.³ The recommissioned NAL plant is located 10km north-east of the Chubb Lithium Project, with production having commenced in the March '23 quarter⁴.

Figure 5: Location map of the Chubb Lithium and Caesium Project near Val d'Or, southern Québec and the NAL Operation, other deposits and surrounding infrastructure.

The Chubb Lithium Project is 3km from the fully sealed Route 111 highway - linking the project to Ottawa and Montreal. Val d'Or has an airport and railway system that connects directly with the

rail networks of southern North America, and directly to St Lawrence Seaway ports at Montreal, Trois-Rivieres, and Quebec City.

Major development Projects for current and future Critical and Strategic Metals (CSM) Projects persist within the immediate district and further north in the James Bay District. The tenement is also near hydroelectric-generated power grids and distribution systems. Localised work forces can be secured for drilling programmes and future logistical work scopes.

Mapping and Reconnaissance

During the quarter, Burley's Quebec-based geologist completed additional pegmatite mapping and XRF analyses on outcrops for geochemical vectors to identify new spodumene-bearing pegmatite targets.

Next Steps

A ground disturbance permit application was submitted to the Quebec Ministry of Natural Resources to reveal bedrock outcrops and create drilling pads. Permitting and market conditions will dictate whether these activities eventuate in the September quarter.

Yerecoin Iron Project, Resource 247Mt at 29.9% Fe – 70% owned

In Western Australia, Burley also owns a 70% interest in the Yerecoin Iron Project, located approximately 120km northeast of Perth, and which has a JORC 2012 compliant Inferred and Indicated Mineral Resource of 246.7Mt capable of producing a concentrate at >68% Fe⁵.

The Company has previously disclosed that it is subject to warden's court proceedings to obtain access to the Yerecoin Iron Project. Novarange Pty Ltd (Novarange) (an entity of which the Company holds a 70% interest) holds two exploration licences, being E70/2733 and E70/2784 (together, the Novarange Tenements), for which the Western Australian DMIRS has granted exploration drilling Programmes of Works.

Novarange has successfully negotiated and entered into a compensation and access agreement with one landowner, however, two other landowners have not agreed access arrangements, requiring Novarange to pursue compensation around access via the Warden. In those proceedings the two landowners have challenged Novarange's rights to access the land, primarily on the basis that "surface rights" (right to exploit the surface land) were never properly granted by the Western Australia Minister of Mines when those rights were applied for, more than 10 years prior, by previous holders of the Tenements.⁶

Manitoba Lithium Projects

Burley signed a binding head of agreement with Aurora Lithium in December 2023 to acquire two lithium projects and make applications for a further three projects in Manitoba, Canada. The two acquired projects include Cormorant and White Rabbit, together providing more than 255 km² of accessible, lithium-pegmatite prospective ground. In January 2024, Burley was granted three (3) additional Mineral Exploration Licenses for Paull Lake North, Patridge East and Partridge West Projects. The total land area of the three projects is approximately 425 km², adding to the 255 km² already granted. The granted land area is now approximately 680 km² or 61% of the total acquired

⁵ Refer to Burley Minerals Ltd Prospectus dated 27 May 2021 Section 10 for the Independent Technical Assessment Report.

⁶ Refer to Quarterly Report for 30 June 2023 announced on 31 July 2023 for more information.

land package of approximately 1,100 km². Drill core from historic exploration on these projects are stored at various core 'libraries' around the province.

Corporate

Burley had a cash balance \$2.40M at 30 June 2024. (\$847K at 31 March 2023). In April, Burley completed a placement through the issue of 26M shares and raised \$1.3 M (before costs).

In May, the Company completed a Share Purchase Plan (SPP) to its existing, eligible shareholders and raised a total of \$1,000,000 (before costs). The SPP closed on 6 May 2024.

On 24 June '24, the Company announced Mr Daniel Bahen will join the Board as Non-Executive Chairman. Mr Bahen is a highly experienced in investment and financing exploration and mining companies with extensive global experience across multiple commodities including iron ore and lithium. This includes more than 22 years of with Paterson Securities and then Canaccord Genuity in various roles. Mr Dixon will remain as a Non-Executive Director and consultant to the Company.

Additional ASX Information

As at 30 June 2024 or for the quarter ending 30 June 2024 where applicable.

ASX Listing Rule 5.3.1

Exploration and Evaluation expense during the quarter was \$335,204 including \$99,284 on field exploration in Canada and \$235,920 on field exploration in Western Australia.

ASX Listing Rule 5.3.2

There was no substantial mining production and development activities during the quarter.

ASX Listing Rule 5.3.4 and 5.3.5

In accordance with Listing Rule 5.3.5, Burley advises that payments made to related parties as advised in the Appendix 5B for the quarter ended 30 June 2024 were as follows.

- \$102,500 for Director fees; and
- \$48,632 for business development and consulting services.

This announcement has been authorised for release by the Board of Directors.

Competent Person's Statement

The information in this announcement that relates to Lithium Exploration Results is based on and fairly represents information and supporting documentation supplied to Mr David Crook, a Competent Person who is a member of The Australasian Institute of Mining and Metallurgy (AusIMM) and the Australian Institute of Geoscientists (AIG). Mr Crook is a Non-executive Director of Burley Minerals. Mr Crook has sufficient experience relevant to the style of mineralisation under consideration and to the activity which he is undertaking to qualify as a Competent Person and defined in the 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Crook consents to the inclusion in this announcement of the matters based on this information in the form and context in which it appears.

The information that relates to iron ore exploration results is based on, and fairly represents information and supporting documentation compiled by Mr. Gary Powell, a Competent Person, who is a member of the Australian Institute of Geoscientists. Mr. Powell is a Technical Advisor and a shareholder of Burley Minerals Limited and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken

to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resource and Ore Reserves". Mr. Powell consents to the inclusion in this document of the matters based on his information in the form and context in which it appears.

The Yerecoin Main and South Mineral Resource Estimate was reported in 2014 under the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". The Mineral Resource Estimate was detailed in refer to Prospectus dated 27 May 2021 Section 10 for the Independent Technical Assessment Report. Burley confirms that it is not aware of any new information or data that materially affects the information included in this announcement regarding the mineral resources and that all material assumptions and technical parameters underpinning the estimates continue to apply and have not materially changed.

Caution Regarding Forward-Looking Information

This announcement may include forward-looking statements regarding Burley Mineral Limited. Forward-looking statements are only predictions and are subject to risks, uncertainties and assumptions which are outside the control of Burley. Actual values, results or events may be materially different to those expressed or implied in this document. Given these uncertainties, recipients are cautioned not to place reliance on forward looking statements. Any forward-looking statements in this document speak only at the date of issue of this ASX Release. Subject to any continuing obligations under applicable law, Burley does not undertake any obligation to update or revise any information or any of the forward-looking statements in this announcement or any changes in events, conditions, or circumstances on which any such forward looking statement is based.

6.2	Aggregate amount of payments to related parties and their associates included in item 2	-

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

7.	Financing facilities <i>Note: the term "facility" includes all forms of financing arrangements available to the entity.</i> <i>Add notes as necessary for an understanding of the sources of finance available to the entity.</i>	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
7.1	Loan facilities		
7.2	Credit standby arrangements		
7.3	Other (please specify)		
7.4	Total financing facilities		
7.5	Unused financing facilities available at quarter end		
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

8.	Estimated cash available for future operating activities	\$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(716)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	-
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(716)
8.4	Cash and cash equivalents at quarter end (item 4.6)	2,399
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	2,399
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3) <i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	3.35
8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
	8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
	Answer:	
	8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
	Answer:	
	8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
	Answer:	
	<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>	

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 31 July 2024

Authorised by the Board

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
