About Cell Aquaculture

Cell Aquaculture supplies a full range of environmentally sustainable, vertically integrated seafood production services – encompassing everything from 'Hatch to Dispatch'.

The company has established hatchery operations for Australian Barramundi and is developing a range of further premium species for aquaculture production. The company has also developed significant manufacturing capability to fabricate its proprietary Cell™ aquaculture production equipment.

Further to established Barramundi production at Cell's Fremantle based headquarters, the company has successfully built European production facilities in the Netherlands and Bulgaria, is completing a production facility in the United States and has now commenced establishment of large-scale production in Malaysia.

Cell Aquaculture is a global company involved in all aspects of the production and sale of quality high-end priced seafood - produced economically on the market's doorstep – as well as purpose-built, modular seafood production technology.
