FY23 HIGHLIGHTS

Revenue

\$456.5m

-10% vs. FY22

EBITDA

\$116.8m

-28% vs. FY22

Underlying NPAT

\$65.5m

-35% vs. FY22

Underlying EPS

36.3 cents

-35% vs. FY22

- Strong results amidst unprecedented challenges and uncertain geopolitical and macroeconomic factors
- Group revenue of \$456.5 million, delivering statutory net profit after tax of \$67.7 million and underlying net profit after tax of \$65.5 million
- Reduction versus FY22 reflects ongoing disruption in Minelab's African market
- Partially offset by:
 - Strong organic growth within Communications, revenues +14% versus FY22, towards upper end of target range
 - Minelab Rest of World (RoW)¹ recreational detector sales remarkably resilient, supported by innovative new products

COMMUNICATIONS

- FY23 Communications revenue of \$274.5 million (FY22: \$241.7 million), +14% versus pcp (vs 10-15% targeted range)
- Both Tactical Communications and Zetron achieved double-digit growth:
 - Tactical driven by unmanned systems, broadcast and law enforcement, as well as single large military project
 - Zetron benefiting from continued expansion in U.S. public safety market
- Strong segment profit margin of 25%, in line with FY23 target (FY22: 21%)
- 9% growth in orderbook to \$163 million (vs \$149 million as at 30 June 2022)
- Continued investment in technology platforms, further enhancing value proposition to new and existing customers
- Considerable effort and investment directed towards strengthening sales teams, ensuring resources and expertise in place to pursue opportunities in key growth markets

METAL DETECTION

- FY23 Minelab revenue of \$176.1 million (FY22: \$262.3 million), decline due to post-Covid reduction and continued disruption of Northeast African market
- All key markets – Rest of World (RoW)¹ recreation, African market and Countermine – delivered stronger H2
 - H2 Minelab revenues +38% versus H1
- RoW recreational detectors remained resilient, growing 9% versus FY22²
 - Continues to expand, exceeding record FY22 levels, which were driven by government stimulus and unprecedented COVID-related demand
 - Newly released Manticore, X-Terra Pro, Equinox 700 and 900 detectors well received, delivering exceptional results³
- Countermine delivered a strong result, supporting humanitarian efforts to de-mine in countries such as Ukraine
- FY23 segment profit margin remained stable versus H1 at 32%
- Ben Harvey promoted to succeed as Minelab Executive General Manager, effective October 2023

NEAR TERM STRATEGY

Successful execution will see a more-balanced, integrated and sustainable Codan

Enhanced offering as full solutions provider

- Increasing awareness and capabilities of DTC across several growth markets (military, law enforcement, unmanned, broadcast)
- Expand presence via improved products and solutions, targeting significant long-term soldier system military programs:
 - Industry first multi-waveform radio solution (Trellisware partnership)
 - Sentry 6161 Mesh radio
- Leverage new technology in broadcast market to maintain dominance in Europe

Expansion and growth of systems and support contracts

- Increase relevance in the public safety market
- Expand systems support contracts and predictability of recurring services revenue
- Launch next-gen MT5 LMR radio platform targeting communications in the harshest environments
- Integrate and leverage GeoConex and Eagle into command and control suite of applications and services

Promote new products & expand channels to market

- Invest into pioneering next generation of detectors
- Promote newly-launched Manticore, Equinox 700|900 and X-Terra products
- Geographical expansion, including development of sub-scale markets
- Grow recreational market share via expansion of retail distribution footprint, leveraging eCommerce channel

GROUP OUTLOOK

There are a number of key considerations regarding the Company's outlook for the first half of FY24:

- **Communications** revenue growth (excl. Eagle) targeting 10-15% range, after normalising for the large Communications project delivered in FY23 (approx. \$20 million), noting:
 - Continued strength of **Zetron** performance during first half to-date; and
 - **Tactical Communications** impacted by geopolitical challenges in Africa – specifically within traditional HF market.
- **Eagle** integration progressing well with performance in line with expectations; and
- **Minelab** has exceeded our expectations, with first half FY24 revenues currently expected to be in line with H2 FY23, approximately 40% uplift on H1 FY23.

BUILDING A STRONGER CODAN
