INTIGER ENTERS NEXT PHASE OF SERVICE DELIVERY

Following the successful conclusion of the pilot program agreements with Financial Wisdom Limited and Count Financial Limited, Intiger Group Limited (**'Intiger'** or the **'Company'**) will now commence service delivery directly to both networks of advisers.

Intiger will now commence marketing campaigns targeted to their entire networks. Services to be directly provided include the provision of Intiger's Boom software, administration services, and paraplanning.

Due to Financial Wisdom Limited and Count Financial Limited practices being individually owned firms, Intiger will approach subsequent agreements on an individual practice level rather than with the licensee.

The Company is also pleased to confirm that the current pilot program agreement with Commonwealth Financial Planning will continue until 31 May 2019.

Background

- Intiger entered a pilot program with Commonwealth Financial Planning commencing February 2018
- The pilot program also included separate Deeds of Agreement ('DoA') with Financial Wisdom & Count Financial
- The pilot program focused on building the necessary infrastructure and team to support the financial planning network of advisers
- Commonwealth Financial Planning Limited provides financial services throughout Commonwealth Bank branches

Commenting on the announcement, Intiger CEO George Jaja said;

"This is a major step forward in the development of Intiger as a leading Australian financial services support provider and it is the result of years of hard work."

"We look forward to continuing and extending our relationship with the Financial Wisdom Limited and Count Financial Limited network of advisers."

"Intiger is also thrilled with the progress made under the Commonwealth Financial Planning pilot program and is excited to continue this partnership into the future."

About Intiger Group Limited

The business of **Intiger Group Limited (ASX: IAM)**, was founded by experienced investment banking and financial services executive Mark Fisher and operates an Australian software development house dedicated to supporting professional Financial Planners to meet the needs of their clients. Intiger does this by reducing the back office and operational costs within the Australian financial planning industry. Working with Australian Financial Services Licensees and their advisers, the Intiger Group has developed and launched proprietary software platform BOOM, which has been designed to digitise and automate core components of the financial planning process including the production of automated statements of advice. BOOM also tracks key performance indicators of a financial planning practice and delivers oversight and control to both licensees and financial planning practices nationally.
