Review of operations and results

The Company is a national transport and logistics provider. Transport operations cover couriers and taxi trucks, business-to-business (B2B) and business-to-customer (B2C) parcel distribution, container handling, fleet management, WA regional road freight and interstate road and rail freight. Logistics includes third party logistics (3PL), offsite fourth party logistics (4PL), supply chain and distribution centre (DC) warehousing, flooring products logistics, e-commerce fulfilment, temperature-controlled warehousing, minerals and energy supply base services, quarantine and preservation wrapping and fumigation, document storage, media destruction and recycling. The Company also has a security business providing installation, maintenance and monitoring of alarms, CCTV visual verification and lone worker protection.

The current half year reporting period has seen an increase in customer demand for lower margin general freight services over that of premium freight services experienced in the previous corresponding period, offset by increased minerals and energy related work in the logistics segment which has remained strong through the period.

Revenue from operations for the half year ended 31 December 2024 was up 2.5% to \$165.9m from the previous corresponding period. The results from operating activities excluding depreciation and amortisation expense (EBITDA) of \$28.4m was up 6.2% on the previous corresponding period.

The profit before tax of \$9.3m was down 18.2% on the previous corresponding period, driven by strategic investments made to achieve longer-term growth, which include the further development of owned sites, vehicle and equipment acquisitions, and pallet racking for new leased locations which have significantly expanded our property footprint in Queensland, New South Wales and Victoria. As a result, depreciation and interest charges increased by \$2.6m and \$1.1m respectively compared to the prior corresponding period. While impacting short-term profitability, these investments lay the groundwork for sustainable and increased future earnings.

The Company generated strong cash flows during the period while maintaining significant cash liquidity. The Company invested \$10.0m towards the completion of the remaining development of the 10,000sqm facility in Hazelmere WA, which is expected to be complete in May 2025, and \$9.5m on vehicle and equipment upgrades to reduce running costs and emissions.

The Group's net assets have increased by 2.8% compared with 30 June 2024, up from \$121.4m to \$124.9m, which is largely attributable to the half year profit after income tax, net of dividend distributions.

The Company has historically invested in owner-occupied WA property for its operations, which has generated significant returns through capital appreciation and operational efficiencies. Property assets are recognised on the balance sheet at historical cost less accumulated depreciation. The Company also obtains independent external valuations for bank mortgage purposes on a rolling 3-year basis for material owned properties. In light of ongoing increase in property values further valuations on a sale and lease back basis for only the Hazelmere properties have been obtained, with the value of the property assets increasing to \$168.7m, representing a significant value premium of \$65.4m or 63% above the reported carrying value as at 31 December 2024. The property assets support a strong balance sheet to pursue further growth and comfortably underpin the current share price.

Considering the strong operating results, the directors have decided to declare an interim dividend of 5.0 cents per share fully franked, payable on 4 April 2025.

Forecasting the operating environment and outlook remains difficult, however we remain positive on the freight industry as Australia's population, regional development and online spending continue to grow. We expect continued consolidation within the transport industry as operators pursue growth and scale. The Company continues to evaluate synergistic acquisition prospects and is well positioned to capture growth opportunities following recent national capacity expansions and substantial investments in property, vehicles and equipment.

Changes in the state of affairs

No other significant changes in the state of affairs of the Group have occurred.

Subsequent events

The directors are not aware of any other matters or circumstances not otherwise dealt with in this half year report that have significantly or may significantly affect the operations of the Group, the results of those operations, or the affairs of the Group in subsequent financial years.

Likely developments

The major objectives encompassed in the Business Plan of the Group are:

- expansion of existing operations by targeted marketing and by acquisition;
- establishment or acquisition of businesses in fields related to or compatible with the Group's existing core operations; and
- to maximise the profits and returns to shareholders by constant review of existing operations.

Lead auditor's independence declaration

The lead auditor's independence declaration is set out on page 4 and forms part of the directors' report for the half year ended 31 December 2024.

This report is made in accordance with a resolution of the directors.

1. BASIS OF PREPARATION OF HALF YEAR FINANCIAL REPORT

This general purpose financial report for the half year reporting period ended 31 December 2024 has been prepared in accordance with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*. CTI Logistics Limited and its subsidiaries (together referred to as the “Group”) is a for-profit entity.

This condensed interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2024 and any public announcements made by CTI Logistics Limited during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

Estimates

The preparation of interim financial reports requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this consolidated interim financial report, the significant judgements made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 30 June 2024.

2. SEGMENT INFORMATION

(a) Description of segments

Management has determined the operating segments based on the reports reviewed by the Group’s Executive Chairman.

The Group’s Executive Chairman considers the business from a product and services perspective and has identified three reportable segments: transport, logistics and property.

The reportable segments include the following operations:

- Transport services - includes the provision of courier, taxi truck, parcel distribution, fleet management and line haul freight.
- Logistics - includes the provision of warehousing and distribution, specialised flooring logistics, supply based management services and document storage services.
- Property - rental of owner-occupied and investment property.

Other segments include the provision of security services. These segments do not meet any of the quantitative thresholds for determining reportable segments.

The Group’s Executive Chairman assesses the performance of the operating segments based on segment profit before income tax.

2. SEGMENT INFORMATION (continued)

(b) Information about reportable segments

The segment information provided to the Group's Executive Chairman for the reportable segments for the half year ended 31 December 2024 is as follows:

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report.

We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. - Such internal control as the Directors determine is necessary to enable the preparation of the Half-year Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the review of the Half-year Financial Report

Our responsibility is to express a conclusion on the Half-year Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Half-year Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a Half-year Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
