BONDI MMI PROGRAM

The Board of Leopard Resources N.L (ASX: LRR, "the Company") is pleased to advise further to its ASX release of the 18th October 2013, that Mobile Metal Ion ("MMI") sampling has been completed at the Bondi prospect within the Mission and Cables Gold project (Exploration Licence E37/747).

The company's geological team has been on site at Bondi undertaking a grid-based program of soil geochemistry over targets defined by geophysical and structural interpretation. Analysis will be by the Mobile Metal Ion ("MMI") method. This patented method of analysis generally produces higher resolution targets than conventional assay methods.

The MMI program could provide additional targets for the forthcoming Stage 2 drill program which is aiming to upgrade the categorisation of the resource and extend it.

The company also wishes to advise that is currently completing a Notice of Meeting, to be lodged as soon as practical seeking shareholder approval for the recently announced Converting Loans which have provided the necessary additional funding to complete the next stage of drilling and development at the Mission and Cables gold project.

Yours faithfully

**C Willis
Director**

The information in this release which relates to Exploration Targets, Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Mr Allen Maynard, who is a Member of the Australian Institute of Geosciences ("AIG"), a Member of the Australasian Institute of Mining & Metallurgy ("AusIMM") and independent consultant to the Company. Mr Maynard is the principal of Al Maynard & Associates Pty Ltd and has over 35 years of exploration and mining experience in a variety of mineral deposit styles. Mr Maynard has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the "Australasian Code for reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Maynard consents to inclusion in the report of the matters based on his information in the form and context in which it appears.
