NOTES TO THE FINANCIAL STATEMENTS
FOR THE HALF YEAR ENDED 31 DECEMBER 2010

NOTE 1 – BASIS OF PREPARATION

These general purpose financial statements for the interim half-year reporting period ended 31 December 2010 have been prepared in accordance with requirements of the *Corporations Act 2001* and Australian Accounting Standard *AASB 134: Interim Financial Reporting*. Compliance with Australian Accounting Standard *AASB 134: Interim Financial Reporting* ensures that the financial statements and notes comply with International Financial Reporting Standard *IAS: Interim Financial Reporting*.

This interim financial report is intended to provide users with an update on the latest annual financial statements of Malagasy Minerals Limited and its controlled entities (the Group). As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2010, together with any public announcements made during the half-year.

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements except for the adoption of the following new and revised Accounting Standards.

New or Revised Accounting Standards

AASB 2009-5 Introduces amendments into Accounting Standards that are equivalent to those made by the IASB under its program of annual improvements to its standards. A number of the amendments are largely technical, clarifying particular terms, or eliminating unintended consequences. Other changes are more substantial, such as the current/non-current classification of convertible instruments, the classification of expenditures on unrecognised assets in the statement of cash flows and the classification of leases of land and buildings. The adoption of these amendments has not resulted in any changes to the Group's accounting policies and have no affect on the amounts reported for the current or prior periods.

New or revised requirement	When effective	Applicability to 31 December 2010 half years
AASB 2010-3 Amendments to Australian Accounting Standards arising from the Annual Improvements Project Amends a number of pronouncements as a result of the IASB's 2008-2010 cycle of annual improvements to provide clarification of certain matters. The key clarifications include: • The measurement of non-controlling interests in a business combination • Transition requirements for contingent consideration from a business combination that occurred before the effective date of the revised AASB 3 Business Combinations (2008) • Transition requirements for amendments arising as a result of AASB 127 Consolidated and Separate Financial Statements.	Applies to annual reporting periods beginning on or after 1 July 2010	Mandatory

As the auditor of Malagasy Minerals Limited and its Controlled Entities, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we complied with the independence requirements of the Corporations Act 2001.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the consolidated entity is not in accordance with the Corporations Act 2001, including:

- a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2010 and of its performance for the half-year ended on that date; and
- b) complying with Accounting Standard AASB 134: Interim Financial Reporting and Corporations Regulations 2001.
