UPDATE - KANUKA LITHIUM PRODUCTION PROJECT

Figure 1: RC Drilling at the Kanuka Lithium Production Project in the DRC

- ***Phase 1 RC drilling program at the Kanuka Lithium Production Project completed***
- ***45 RC holes completed at the Kania Main Pegmatite and Kalombo Mushwima Prospect for approx. 2,700m of RC drilling***
- ***All drillholes intersected multiple and parallel pegmatitic rock-types***
- ***A total of 2,621 RC samples collected and dispatched to ALS-Lubumbashi for sample preparation and to ALS-Johannesburg for routine (ME-MS61 48 element four acid digest) sample analysis***
- ***Assay results for the sample analyses being undertaken by ALS-Johannesburg are pending and GeoLabs Global, in Johannesburg, have been engaged to perform additional mineralogy analyses with the work to commence on receipt of the assay results from ALS***

Force Commodities Ltd (**Force** or the **Company**) (ASX Code: 4CE) is pleased to provide an update on the analyses of samples taken from the Company’s RC drilling activities at its at its Kanuka Lithium Production Project located in Tanganyika Province in the south east of the Democratic Republic of Congo (**DRC**).

The Kanuka Lithium Production Project is a Joint Venture between Force (51%) and established Congolese tin and tantalum mining company, MMR (49%).

The Joint Venture includes granted Mining License PE13082 and Exploration License PR4100, which together extend over an area of 194km².

The Kanuka Lithium Project Joint Venture is located just 5km immediately south of AVZ Mineral’s ‘world-class’ Manono-Kitotolo Lithium Project licenses and 20km east of the Company’s Kitotolo Lithium Project.

Under the Company’s Phase 1 RC drilling program, a total 45-holes for approx. 2,700m of RC drilling has been completed at the Kanuka Lithium Production Project. Drill fences 1, 2 and 3 were completed on the Kania Main Pegmatite and drill fences 4 and 5 were completed on the parallel pegmatites identified at the Kalombo Mushwima Prospect, refer Figure 2 below.

The Company has again engaged Geolabs Global (Pty) Ltd (South Africa) in Johannesburg to complete XRD analyses of selected samples to provide further information on the lithium mineralogy.

With the Phase 1 RC Drilling Program now completed at the Kanuka Lithium Production Project, Equity Drilling has mobilised the RC drill rig and equipment to the Company's Kitotolo-Katamba Lithium Project, located 20km to the west of Kanuka and commenced the Phase 1, 15,000m AC/RC drilling program.

END

Competent Person Statement

The information in this release that relates to sampling techniques and data, exploration results, geological interpretation and Exploration Targets, Mineral Resources or Ore Reserves has been compiled by Mr James Sullivan is a member of the Australian Institute of Geoscientists. Mr Sullivan is engaged by Force Commodities as a consultant geologist.

Mr Sullivan has sufficient experience of relevance to the styles of mineralisation and the types of deposits under consideration, and to the activities undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Sullivan consents to the inclusion in this report of the matters based on information in the form and context in which it appears.

Forward looking statements

Information included in this release constitutes forward-looking statements. Often, but not always, forward looking statements can generally be identified by the use of forward looking words such as "may", "will", "expect", "intend", "plan", "estimate", "anticipate", "continue", and "guidance", or other similar words and may include, without limitation, statements regarding plans, strategies and objectives of management, anticipated production or construction commencement dates and expected costs or production outputs.

Forward looking statements inherently involve known and unknown risks, uncertainties and other factors that may cause the Company's actual results, performance and achievements to differ materially from any future results, performance or achievements. Relevant factors may include, but are not limited to, changes in commodity prices, foreign exchange fluctuations and general economic conditions, increased costs and demand for production inputs, the speculative nature of exploration and project development, including the risks of obtaining necessary licences and permits and diminishing quantities or grades of reserves, political and social risks, changes to the regulatory framework within which the company operates or may in the future operate, environmental conditions including extreme weather conditions, recruitment and retention of personnel, industrial relations issues and litigation.

Forward looking statements are based on the Company and its management's good faith assumptions relating to the financial, market, regulatory and other relevant environments that will exist and affect the Company's business and operations in the future. The Company does not give any assurance that the assumptions on which forward looking statements are based will prove to be correct, or that the Company's business or operations will not be affected in any material manner by these or other factors not foreseen or foreseeable by the Company or management or beyond the Company's control.

Although the Company attempts and has attempted to identify factors that would cause actual actions, events or results to differ materially from those disclosed in forward looking statements, there may be other factors that could cause actual results, performance, achievements or events not to be as anticipated, estimated or intended, and many events are beyond the reasonable control of the Company. Accordingly, readers are cautioned not to place undue reliance on forward looking statements. Forward looking statements in these materials speak only at the date of issue. Subject to any continuing obligations under applicable law or any relevant stock exchange listing rules, in providing this information the company does not undertake any obligation to publicly update or revise any of the forward-looking statements or to advise of any change in events, conditions or circumstances on which such statement is based.
