About Force

Force is a base metals exploration and development focused company headquartered in Perth, Western Australia and is listed on the Australian Securities Exchange (ASX:4CE). Force is currently in voluntary suspension pending the reinstatement of its securities to trading on the official list of the ASX. Force went into voluntary suspension in January 2020, upon a decision of the Board, to restructure and refinance the Company and to change the senior management of the company following the failure of several business opportunities and the inability to raise further capital. Over the past 6 months Force has been undergoing a structured process to reinstatement the Company's securities to trading on the ASX, which process, has included changes in the senior management of the Company and the identification of new sources of capital. Force has steadily gained momentum during the restructure through the identification of a high-quality project for acquisition and appointments of high calibre senior professionals to its Board and Executive.
