

CLEANSPACE PROVIDES SALES UPDATE FY24 (UNAUDITED)

CleanSpace Holdings Limited (ASX: CSX; CleanSpace), an Australian company that designs, manufactures, and sells premium respiratory protection equipment for industrial and healthcare markets, announces a (unaudited) sales update as at 30 June 2024.

CleanSpace announces preliminary revenue results for the year ended 30 June 2024 (FY24). Sales of \$15.7M grew 30% versus PCP and in H2 grew 33% (unaudited results). This continues the strong sales momentum established over the last 18 months and meets the Company's core objective of ongoing 30% annual revenue growth. Revenue has now grown every half year sequentially over the last 4 half year periods.

The Company continues to perform exceptionally well in Europe, and also experienced very positive revenue growth in both the Asia Pacific and North America regions in H2. Around 97% of the Company's revenue was derived from Industrial sectors in FY24, signalling a significant change in focus from healthcare markets since FY22.

A key factor in the Company's successful growth rate in FY24 has been the ongoing program to launch innovative new technology. In April 2024 CleanSpace successfully launched CleanSpace WORK in Europe and Australia. CleanSpace WORK is our lightest powered respirator with a target price range that appeals to small businesses, tradespeople and workers who face respiratory risks, and without compromising the highest level of respiratory protection (99.97%) that CleanSpace is well known for.

The Company expects to announce detailed, audited full year FY24 results on 27 August 2024.
