DIRECTORS' REPORT

The directors of Fe Limited ("FEL" or the "Company") present their report and the financial statements comprising FEL and its controlled entities (together the "Consolidated Entity") for the year ended 30 September 2012.

Directors

The names and details of the Company's directors in office during the year and until the date of this report are as follows. All directors were in office for the entire year unless stated otherwise.

Antony Sage, (B com, FCPA, CA, FTIA) *Non-Executive Chairman*

Mr Sage has in excess of 26 years' experience in the fields of corporate advisory services, funds management and capital raising. For the last 14 years Mr Sage has been involved in the management and financing of listed exploration mining companies all over the world. Mr Sage currently is, or has been a director of the following listed entities in the three years immediately before the end of the current financial year:

- International Petroleum Limited* (January 2006 to Present);
- African Petroleum Corporation Limited* (October 2007 to Present);
- International Goldfields Limited (February 2009 to Present);
- Cauldron Energy Limited (June 2009 to Present);
- Cape Lambert Resources Limited (December 2000 to Present);
- Kupang Resources Limited (formerly Chameleon Mining NL) (September 2010 to Present);
- Matrix Metals Limited (December 2010 to Present);
- Global Strategic Metals NL (June 2012 to Present); and
- African Iron Limited (January 2011 to March 2012).

* Listed on National Stock Exchange of Australia

Mark Gwynne, *Executive Director*

Mr Gwynne has been involved in gold exploration and mining for over 17 years, predominantly in Western Australia. Mr Gwynne has held management positions on mine sites and in the private sector of the mining industry, including general manager of an exploration consultancy company. Mr Gwynne is currently a director or has been a director of the following listed companies in the three years immediately before the end of the current financial year:

- International Petroleum Limited* (April 2009 to Present);
- Orca Energy Limited (previously Monitor Energy Limited) (April 2006 to August 2011); and
- African Petroleum Corporation Limited* (May 2010 to June 2010).

* Listed on National Stock Exchange of Australia

Paul Kelly, *Non-Executive Director*

Mr Kelly has more than 20 years of experience in the fields of finance, investment and banking. Mr Kelly was previously National Manager of Advertising and Sponsorship for Members Equity Bank and has held a number of senior roles with the bank over a 15 year period. Mr Kelly is a director of the following listed entities.

- Kupang Resources Limited (formerly Chameleon Mining NL) (May 2010 to Present);
- Eclipse Metals Limited (formerly Eclipse Uranium Limited) (March 2011 to November 2011);
- Orca Energy Limited (previously Monitor Energy Limited) (February 2011 to August 2011);
- International Goldfields Limited (November 2009 to February 2010); and
- DMC Mining Limited (June 2010 to September 2010).

Kim Bischoff, (BSc Geol. Hons), MAusIMM, MAICD) *Managing Director (resigned 28 November 2011)*

Mr Bischoff is a highly experienced geologist and executive and has more than 28 years' experience in the mineral industry. Mr Bischoff has an Honours degree in Geology and is a member of the Australian Institute of Mining and Metallurgy, and the Australian Institute of Company Directors. Mr Bischoff has worked as a professional geologist and company director in technical, general management and corporate roles covering mineral exploration, development and production for several listed companies covering gold, copper and iron ore projects throughout Australia, Africa and Southeast Asia. Mr Bischoff has been a director of the following listed entities in the three years immediately before the end of the current financial year:

- DMC Mining Limited (December 2008 to September 2010)

Company Secretary

Eloise von Puttkammer

Ms von Puttkammer has many years of experience in the finance and investment industry. Over the past ten years she has held administration, compliance, and company secretarial roles within both private and public companies. She has also had experience in the provision of governance and secretarial advice to ASX and AIM listed companies.

Interests in the Shares and Options of the Company

As at the date of this Report, the interests of the directors in the Company's Shares and Options are as follows:

Directors	Interest	Ordinary Shares	Options
Antony Sage	Indirect	2,071,699	2,500,000
Mark Gwynne	Indirect	-	1,500,000
Paul Kelly	-	-	-

Dividends and Distributions

No dividends or distributions were paid to members during the year and none were recommended or declared for payment.

Principal Activities

The principal activity of the Consolidated Entity during the year was exploration for iron ore and precious base metals in Western Australia.

Operating Results

The consolidated loss after providing for income tax amounted to \$1,838,118 (2011: \$4,604,870).

Review of Corporate Activities

Divestment of Gympie Eldorado Gold Operations

In April 2011, FEL entered into a conditional agreement to sell Gympie Eldorado Mining Pty Ltd ("GEM"), a wholly owned subsidiary of FEL, to BRI Microfine Pty Ltd ("BRI"). In September 2012, FEL received the initial \$50,000 cash payment from BRI. Consideration for the sale also includes a net smelter return of 6.5% on gold recovered from tailings treatment and 25% of any profits on sale of freehold land. In addition, FEL will be reimbursed \$2,264,984 in respect of environmental performance bonds on completion of the sale to BRI. The Company is continuing to work with BRI to satisfy the conditions precedent set out in the sale agreement. BRI has advised the Company that the capital raising, for the acquisition of all the shares in GEM, is close to completion.

Funding

In June 2011, FEL secured a \$2,000,000 standby loan facility ("Facility") to ensure that the Company has sufficient funds to progress the Mt Ida exploration program, and to perform the necessary works to satisfy the conditions precedent under the agreement to sell its 100% interest in GEM to BRI. The facility was entered into with cornerstone shareholder Cape Lambert Resources Ltd (ASX: CFE) ("Cape Lambert"), which currently holds a 19.9% interest in FEL. At 30 September 2012, \$1,825,000 has been drawn down under the facility (refer to note 2(c) for further details).

Changes to board of directors

Kim Bischoff resigned as Managing Director of FEL on 28 November 2011.

Review of Operations

The Company holds, or has rights or interests in approximately 320 tenements prospective for iron ore, nickel, copper and gold located mostly in Western Australia (refer Figure 1). This total includes 77 interests and rights in the 3 iron ore-focused projects at Mt Ida, Mt Elvire and Robinson Range, which are the Company's core projects. The necessary commercial and technical information required to seek expressions of interest for the divestment of the non-core projects is in the process of being completed.

Mt Ida Iron Ore Project ("Mt Ida") (85-100% Fe rights)

Mt Ida is an iron ore exploration project which comprises the rights to explore for and mine iron ore on a group of 71 licences covering ~400km² located 180km northwest of Kalgoorlie in the Yilgarn Iron Province of Western Australia. Mt Ida is located approximately 80km northwest of the operational railway at Menzies, which provides access to the existing deep water port facilities at Esperance (refer Figure 2).

During 2011, FEL entered into an agreement to acquire Mt Ida from Dempsey Resources Pty Ltd, a wholly owned subsidiary of Cape Lambert Resources Ltd. Completion of the acquisition is subject to the execution of split commodity agreements for exploration licences E29/561 and E29/644 ("Core Tenements") with the license holders. These agreements are presently being negotiated. The principal iron ore targets are located on the Core Tenements, where, subject to the terms of the agreement, FEL will hold 100% (E29/561) and 85% (E29/644) respectively of the iron rights.

The Company has previously announced an target size for the Mt Ida Project, based on the geological data and geophysical modelling, a total exploration target size was estimated for the east and west units at Mt Ida of 1.0 to 1.3 billion tonnes of banded iron formation with a grade of 30 to 36% Fe¹. This estimate comprises 0.1 to 0.13 billion tonnes of oxide BIF at 35 to 45% Fe, and 0.9 to 1.2 billion tonnes of magnetite BIF at 30 to 35% Fe.

During the year, the Company has progressed legal documentation preserving its rights to explore for and mine for iron ore on the core tenements with third party participants (JV and Non Iron Ore Rights) at the Mt Ida Project. Once completed, exploration, including drilling programs will commence at the Mt Ida Project. Exploration approvals, including drilling, have been approved by the Department of Mines and Petroleum.

Initial drilling will target potential hematite mineralization as well as defining a maiden magnetite resource.

Mt Elvire Iron Ore Project ("Mt Elvire") (100%)

Mt Elvire comprises a granted exploration license (60km²) and 1 application located 230km northwest of Kalgoorlie in the Yilgarn Iron Province of Western Australia. The project is located 150km west of the railway at Menzies and 140km north of the railway at Koolyanobbing.

The Mt Elvire license is prospective for magnetite BIF and small overlying Direct Shipping Iron Ore ("DSO") deposits.

The Mt Elvire Iron Ore Project is located 50kms north of Cliff Natural resources' Mt Jackson/Windarling DSO iron ore mines and 30kms WNW of Macarthur Minerals' Lake Giles Project. The company has previously announced an exploration target of 180Mt – 200Mt¹ for the Mt Elvire Project based on interpretation of geophysical data, geological mapping and drilling data.

Robinson Range Iron Ore Project (20%)

This project comprises 4 exploration licenses (380km²) located in the Midwest Iron Province of Western Australia.

The licenses are subject to the Jackson Iron Ore Joint Venture Agreement ("JIOJVA") which was entered into during 2011, between PepinNini Minerals Limited (40% and Manager) ("PepinNini"), Jackson Minerals Pty Ltd (20%), a fully owned subsidiary of FEL ("Jackson") and Grosvenor Gold Pty Ltd (40%). The tenements are prospective for DSO hematite deposits covering the Robinson Range Formation.

In June 2012, PepinNini advised the ASX of a revised JORC Inferred Mineral Resource for Area C of 4.3Mt @55.2% Fe and 17.7Mt @ 49.7% Fe.

¹ The estimates of exploration target sizes mentioned in this release should not be misunderstood or misconstrued as estimates of Mineral Resources. The estimates of exploration target sizes are conceptual in nature and there has been insufficient results received from drilling completed to date to estimate a Mineral Resource compliant with the JORC Code (2004) guidelines. Furthermore, it is uncertain if further exploration will result in the determination of a Mineral Resource.

Kalgoorlie Regional Gold Project ("KRGP") (80-100%)

The KRGP comprises 47 tenements covering ~120km² located 5-20km north of Kalgoorlie along and adjacent to the prospective Kanowna Fault Zone. These tenements are subject to a joint venture between Barrick (PD) Australia Limited ("Barrick") and Jackson. Under the terms of the joint venture agreement, Barrick, upon discovery of a mineral resource made by Barrick of more than 15,000 ounces of gold, may earn an 80% interest in the project. Barrick also has a conditional right to acquire 51% of any discovery made by Jackson. Barrick are currently actively exploring in this district.

Kalgoorlie Regional Nickel Project

Jackson currently holds nickel interests in a package of 128 tenements covering ~300km² straddling the Scotia-Kanowna Anticline located 15-25km north of Kalgoorlie. The interests comprise 20 granted tenements where Jackson is the holder, nickel rights to 84 granted licenses and nickel rights to 24 applications. The nickel rights to the granted licenses and applications are held through agreements with Barrick, Norton Gold Fields Limited and Kesli Chemicals Pty Ltd.

The tenements are prospective for high grade and disseminated nickel sulphide deposits in komatiite units of the Highway Ultramafics.

Kalgoorlie Gold Projects

The Company holds interests in 4 packages of tenements located north of Kalgoorlie that are prospective for gold.

Grafters (100%)

This project comprises 2 granted licenses covering 240Ha located 70km northwest of Kalgoorlie. Historic shallow drilling intersected anomalous gold over a strike length of 1km.

Vettersburg (65%)

This project comprises 5 granted licenses covering 691Ha located 60km northwest of Kalgoorlie. Previous drilling has intersected anomalous gold in 3 prospects at Vettersburg, Vettersburg South and Stockade.

Bardoc (65-100%)

This project comprises 12 granted licenses covering 1,329Ha located 40km northwest of Kalgoorlie.

Gordons and Gordons North (100%)

This project comprises 3 granted licenses and 1 application covering ~25km² located 40-50km north-northeast of Kalgoorlie.

Peak Hill Projects ("Peak Hill") (20% rights, free carried to decision to mine)

Via its wholly owned subsidiary, Jackson Minerals Pty Ltd, FEL has a 20% free carried interest in 21 tenements in the Peak Hill Gold Field, including tenements proximal to Sandfire Resources NL Doolgunna Project and DeGrussa copper gold mine (14.33Mt @ 4.6%Cu and 1.6g/t Au) and several gold and copper prospects. The region remains underexplored for copper and gold potential. The Peak Hill Project tenements have been the subject to sales to Alchemy Resources Ltd (ASX: ALY), Resource and Investment NL (ASX: RNI) and PepinNini Minerals Ltd (ASX: PNN).

Grosvenor Gold Project (RNI 80%, FEL20% free carried to Decision to Mine)

RNI reports that exploration of the Project will continue, with drilling anticipated in the near term following soil sampling programs at the Jacques Prospect. (see RNI Qltly Activities Report 31 October, 2012). The Jacques Prospect lies adjacent to Sandfire's Doolgunna Project.

FEL, via its subsidiary, Jackson Minerals Pty Ltd, holds a 20% free carried interest to Decision to Mine in eight exploration licenses (E51/1033, E51/1060, E52/1613, E52/1655, E52/1659, E52/1670, E52/1671, E52/1672) and five prospecting licenses (P52/1169, P52/1170, P52/1171, P52/1172, P52/1194) (refer Figure 3: Grosvenor Gold / Bryah Basin Map).

The tenements hold favourable geological setting hosting the DeGrussa VMS discovery.

Bryah Basin Copper Project (ALY 80%, FEL 2% free carried to Decision to Mine)

FEL, via its wholly owned subsidiary Jackson Minerals Pty Ltd holds a 20% free carried interest to Decision to Mine in four exploration licenses (E52/1668, E52/1678, E52/1722, E52/1730) and four prospecting licenses (P52/1167, P52/1168, P52/1196) (refer Figure 3: Grosvenor Gold / Bryah Basin Map).

Competent Person Statement

The information in this report that relates to Exploration Results, Mineral Resources and Ore Reserves is based on information compiled and reviewed by Mr Dennis Kruger who is a Member of the Australasian Institute of Mining & Metallurgy. Mr Kruger is an Independent Technical Advisor to Fe Ltd, and has sufficient experience which is relevant to the styles of mineralisation and types of deposit under consideration to qualify as a Competent Person as defined in the 2004 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Kruger consents to the inclusion in this report of the matters based on the information in the form and context in which it appears.

Significant Changes in the State Of Affairs

There have been no changes in the state of affairs of the Consolidated Entity other than those disclosed in the review of operations.

Significant Events Subsequent to Reporting Date

There are no events subsequent to 30 September 2012 and up to the date of this report that would materially affect the operations of the consolidated entity or its state of affairs which have not otherwise been disclosed in this financial report.

Environment Regulation and Performance

The Consolidated Entity continues to meet all environmental obligations across its tenements. No reportable incidents occurred during the year. Environmental regulations applicable to the Consolidated Entity include the Environmental Protection Act 1994.

Options

During the year and to the date of this Directors' Report, the Company has not issued any options.

As at the date of this Report, the Company has on issue:

- 18,500,000 unlisted options exercisable at \$0.12 each and expiring on 31 December 2012; and
- 375,000 unlisted options exercisable at \$0.15 each and expiring on 23 March 2014.

There were no ordinary shares issued during the year on conversion of options.

Option holders do not have any right, by virtue of the option, to participate in new issues of Shares offered to Shareholders.

Indemnification and Insurance of Directors and Officers

The Company has entered into a Deed of Access, Insurance and Indemnity with each of the directors. Under the terms of these Deeds, the Company has undertaken, subject to restrictions in the Corporations Act, to:

- indemnify each director in certain circumstances;
- advance money to a director for the payment of any legal costs incurred by a director in defending legal proceedings before the outcome of those proceedings is known (subject to an obligation by the director to repay any money advanced if a court determines that the director was not entitled to it);
- maintain directors' and officers' insurance cover in favour of each director whilst they remain a director of Fe Limited and for a run out year after ceasing to be such a director; and
- provide each director with access to Board papers and other documents provided or available to the director as an officer of Fe Limited.

During the year, the Company had in place and paid premiums for insurance policies indemnifying directors and officers of the Company against certain liabilities incurred in the conduct of business or in the discharge of their duties as directors or officers. The contracts of insurance contain confidentiality provisions that preclude disclosure of the premium paid, the nature of the liability covered by the policies, the limit of liability and the name of the insurer.

Likely Developments and Future results

The Consolidated Entity intends to continue its focus on the exploration for iron ore and precious and base metals at its core projects. Following a strategic review of the Company's non-core projects, the directors will continue to compile the necessary commercial and technical information and seek expressions of interest in the non-core projects.

Directors' attendance at Meetings

There was no director meetings held during the year, all board matters were dealt with via circular resolutions.

REMUNERATION REPORT (AUDITED)

This Report outlines the remuneration arrangements in place for key management personnel (KMP) who are defined as those persons having authority and responsibility for planning and directing the major activities of the Company and the Consolidated Entity, directly or indirectly, including any director (whether executive or otherwise) of the parent company, and includes the executives in the parent and the subsidiary companies receiving the highest remuneration.

Details of Key Management Personnel

Directors

A Sage	Director (Non-Executive chairman)
M Gwynne	Director (Executive)
P Kelly	Director (Non-Executive)
K Bischoff	Director (Managing Director) (Resigned 28 November 2011)

Executives

E von Puttkammer	Company Secretary
------------------	-------------------

Remuneration Philosophy

The performance of the Consolidated Entity depends on the quality of its directors, executives and employees. Consequently, the Consolidated Entity must attract, motivate and retain appropriately qualified industry personnel.

The following principles are embodied in the remuneration framework:

- provide competitive rewards to attract and retain high calibre executives, directors and employees; and
- link executive rewards to shareholder value.

Remuneration Policy

During the year, the Company did not have a separately established remuneration committee. The Board is responsible for determining and reviewing remuneration arrangements for the executive and non-executive directors and the Chairman. The Board assesses the appropriateness of the nature and amount of remuneration of such officers on a yearly basis by reference to relevant employment market conditions with the overall objective of ensuring maximum stakeholder benefit from retention of a high quality board. The directors are given the opportunity to receive their base emolument in a variety of forms including cash and fringe benefits. It is intended that the manner of payment chosen will be optimal for the recipient without creating undue cost for the Company.

The remuneration of executive and non-executive directors is not dependent on the satisfaction of performance conditions. Remuneration and share based payments are issued to align directors' interests with that of shareholders.

The Consolidated Entity has a policy which restricts executives and directors entering into contracts to hedge their exposure to options granted as part of their remuneration package.

Performance and shareholder wealth

Below is a table summarising key performance and shareholder wealth statistics for the Consolidated Entity over the last five financial years.

Financial year	Profit / (Loss) after tax '000s	Loss per share (Cents)	Share Price (Cents)
30 September 2008	(7,459)	(12.49)	7.00
30 September 2009	(1,766)	(2.47)	7.00
30 September 2010	(1,064)	(1.17)	14.50
30 September 2011	(4,605)	(3.99)	8.50
30 September 2012	(1,838)	(1.59)	3.10

Executive Directors' Remuneration

The Board seeks to set remuneration of the executive directors at a level which provides the Company with the ability to attract and retain directors of the highest calibre, whilst incurring a cost which is acceptable to shareholders.

Executive Director Mr Gwynne is entitled to receive \$175,000 per annum. In addition he is entitled to reimbursement of reasonable expenses for attendance at meetings. There is no employment contract between the Company and Mr Gwynne.

The engagement conditions of Mr Bischoff, managing director, were approved by the Board on commencement of appointment in March 2011 with a fee of \$1,200 per day plus GST. Mr Bischoff resigned 28 November 2011.

Details of remuneration paid to executive directors are provided in the table below.

Non-Executive Director Remuneration

The Board seeks to set remuneration of non-executive directors at a level which provides the Company with the ability to attract and retain directors of the highest calibre, whilst incurring a cost which is acceptable to shareholders.

Mr Kelly is entitled to receive \$60,000 per annum. There is currently no employment contract between the Company and Mr Kelly.

Total remuneration paid to non-executive directors is capped at \$350,000.

Summary details of remuneration for non-executive directors are given in the table below.

Chairman's Remuneration

The Company aims to reward the Chairman with a level and mix of remuneration commensurate with his position and responsibilities within the Company to:

- align the interests of the Chairman with those of shareholders;
- ensure that total remuneration is competitive by market standards.

Mr Sage is entitled to receive \$120,000 per annum. There is currently no employment contract between the Company and Mr Sage.

- (v) Mr McDonald resigned on 3 December 2010.
- (vi) Mr Bischoff was appointed on 21 March 2011, and resigned on 28 November 2011.

Options Granted as Part of Remuneration

Options are granted to certain executives, employees and consultants of the Consolidated Entity in the form of share-based payments. There is currently no formal employee share plan. There were no options granted during the current year. The purpose of the grant of options to selected employees in the previous year was to:

- recognise the ongoing ability of the employees of the Consolidated Entity and their expected efforts and contribution in the long term to the performance and success of the Company; and
- provide an incentive to the employees of the Consolidated Entity to remain in their employment in the long term.

There were no vesting conditions attached to these options. These options were granted in addition to the employee's salary entitlement and were granted to satisfy the conditions of his employment contract.

Director and Executive Options Awarded and Vested

There were no options granted, vested, exercised or lapsed during the year ended 30 September 2012 to directors and executives.

For details on the valuation of the options, including models and assumptions used, refer to note 26.

There were no shares issued on exercise of options during the year.

End of Remuneration Report

Auditors' Independence Declaration

Section 307C of the Corporations Act 2001 (Cth) requires the Company's auditors, Ernst & Young, to provide the directors of the Company with an Independence Declaration in relation to the audit of the financial report. This Independence Declaration for the year is set out on page 13 and forms part of this Directors' Report. The Directors are satisfied with the independence of the auditors.

Non-Audit Services

No non-audit services were provided to the Consolidated Entity by the auditor, Ernst & Young, during the year.

This report is signed in accordance with a resolution of the Board of Directors.

A handwritten signature in black ink, appearing to be 'Mark Gwynne', is written over the printed name and title.

CORPORATE GOVERNANCE STATEMENT

The Board of Directors of Fe Limited (**FEL**) is responsible for establishing the corporate governance framework of the Company having regard to the ASX Corporate Governance Council's (**CGC**) Corporate Governance Principles and Recommendations (**Recommendations**) and CGC published guidelines.

In accordance with ASX Listing Rule 4.10.3, this corporate governance statement discloses the extent to which the Company has followed the Recommendations by detailing the Recommendations that have not been adopted by the Company and the reasons why they have not been adopted. The Company is pleased to advise that the Company's practices are largely consistent with CGC guidelines, however, in areas where they do not correlate, the Company is working toward compliance or does not consider that the practices are appropriate for the current size and scale of operations.

FEL corporate governance practices were in place throughout the year ended 30 September 2012. The current corporate governance policy is posted in a dedicated corporate governance information section of the Company's website at www.felimited.com.au.

Adherence to the Guide on Best Practice Recommendations

<i>Recommendation</i>	<i>Comply Yes / No</i>
Principal 1 – Lay solid foundations for management and oversight	
1.1 Formalise and disclose the functions reserved to the Board and those delegated to management.	Yes
1.2 Disclose the process for evaluating the performance of senior executives.	Yes
1.3 Provide the information indicated in the guide to reporting on Principle 1.	Yes
Principal 2 – Structure the Board to add value	
2.1 A majority of the Board should be independent directors.	No
2.2 The chairperson should be an independent director.	No
2.3 The roles of chairperson and chief executive officer should not be exercised by the same individual.	Yes
2.4 The Board should establish a nomination committee.	No
2.5 Disclose the process for evaluating the performance of the Board, its committees and individual directors.	Yes
2.6 Provide the information indicated in the guide to reporting on Principle 2.	Yes
Principal 3 – Promote ethical and responsible decision-making	
3.1 Companies should establish a code of conduct and disclose the code or a summary of the code as to:	Yes
3.1.1 The practices necessary to maintain confidence in the Company's integrity.	
3.1.2 The practices necessary to take into account their legal obligations and the reasonable expectations of their stakeholders.	
3.1.3 The responsibility and accountability of individuals for reporting and investigating reports of unethical practices.	
3.2 Establish and disclose the policy concerning trading in Company securities by directors, senior executives and employees.	Yes
3.3 Companies should disclose in each annual report the measurable objectives for achieving gender diversity set by the board in accordance with the diversity policy and progress towards achieving them.	No
3.4 Companies should disclose in each annual report the proportion of women employees in the whole organisation, women in senior executive positions and women on the board.	Yes
3.5 Provide the information indicated in the guide to reporting on Principle 3.	Yes
Principal 4 – Safeguard integrity in financial reporting	
4.1 The Board should establish an audit committee.	Yes
4.2 The audit committee should be structured so that it: - consists only of non-executive directors; - consists of a majority of independent directors; - is chaired by an independent chairperson, who is not chairperson of the Board; and - has at least three members.	No
4.3 The audit committee should have a formal charter	Yes
4.4 Provide the information indicated in the guide to reporting on Principle 4.	Yes

Principal 5 – Make timely and balanced disclosure

- | | | |
|-----|--|-----|
| 5.1 | Companies should establish written policies designed to ensure compliance with ASX Listing Rule disclosure requirements and to ensure accountability at a senior executive level for that compliance and disclose those policies or a summary of those policies. | Yes |
| 5.2 | Provide the information indicated in the guide to reporting on Principle 5. | Yes |

Principal 6 – Respect the rights of shareholders

- | | | |
|-----|---|-----|
| 6.1 | Companies should design a communication policy for promoting effective communication with shareholders and encourage their participation at general meetings and disclose their policy or a summary of that policy. | Yes |
| 6.2 | Provide the information indicated in the guide to reporting on Principle 6. | Yes |

Principal 7 – Recognise and manage risk

- | | | |
|-----|--|-----|
| 7.1 | Companies should establish policies for the oversight and management of material business risks and disclose a summary of those policies. | Yes |
| 7.2 | The Board should require management to design and implement the risk management and internal control system to manage the Company's material business risks and report to it on whether those risks are being managed effectively. The Board should disclose that management has reported to it as to the effectiveness of the Company's management of its material business risks. | Yes |
| 7.3 | The Board should disclose whether it has received assurances from the chief executive officer (or equivalent) and the chief financial officer (or equivalent) that the declaration provided in accordance with section 295A of the Corporations Act is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting risks. | Yes |
| 7.4 | Provide the information indicated in the guide to reporting on Principle 7. | Yes |

Principal 8 – Remunerate fairly and responsibly

- | | | |
|-----|---|-----|
| 8.1 | The Board should establish a remuneration committee. | No |
| 8.2 | The remuneration committee should be structured so that it: | |
| 8.3 | Companies should clearly distinguish the structure of non-executive directors' remuneration from that of executive directors and senior executives. | Yes |
| 8.4 | Provide the information indicated in the guide to reporting on Principle 8. | Yes |

Functions of the Board

The Board is responsible for the corporate governance of the Company. In carrying out its governance role, the Board's primary responsibility is to drive the performance of the Company. The Board must also ensure that the Company complies with all of its contractual, statutory and any other legal obligations, including the requirements of any regulatory body.

It is the role management to manage the Company in accordance with the direction and delegations of the Board and the responsibility of the Board to oversee the activities of management in carrying out these delegated duties. The Board ensures that management is appropriately qualified and experienced to discharge their responsibilities. The Board has the final responsibility for the successful operations of the Company.

The Board has adopted a formal charter that details the functions and responsibilities of the Board. The Board Charter can be viewed on the Company's website. The Board of FEL is responsible for:

- oversight of the Company, including its control and accountability systems;
- appointment or removal of the Company Secretary;
- input into and final approval of management's development of corporate strategy and performance objectives;
- identification of significant areas of potential business and legal risk;
- monitoring senior management's performance and implementation of strategy and ensuring appropriate resources are available;
- approving and monitoring the progress of major capital expenditure, capital management, and acquisitions and divestitures; and
- approving and monitoring financial and other reporting.

To assist the Board carry out its functions, it has developed a Code of Conduct to guide the Directors, key executives and employees in the performance of their roles. The Code of Conduct addresses the minimum standard expected by the Company to maintain the Company's integrity, legal obligations and expectations of shareholders, responsibility and accountability of individuals for reporting and investigating reports of unethical behaviour.

Structure of the Board

The names, term of office, skills, experience and expertise of the Directors in office at the date of this Annual Report are set out at the beginning of the Directors' Report. Directors are appointed based on the specific skills required by the Company and on their decision-making and judgement skills.

The Board has been formed so that it has effective composition, size and commitment to adequately discharge its responsibilities and duties given its current size and scale of operations.

Directors of FEL are considered to be independent when they are a non-executive director who is not a member of management and who is free of any business or other relationship that could materially interfere with, or could reasonably be perceived to materially interfere with, the independent exercise of their judgement. In accordance with this definition, Mr A.W.P. Sage is not considered to be independent when applying the definition of independence by virtue of the fact that he is an executive officer of a major shareholder of the Company. The Board believes his experience and knowledge of the Company makes him the most appropriate person to lead the Board.

Mr K. Bischoff was Managing Director during the year (resigned November 2011) and Mr M. Gwynne is currently the Executive Director of the Company and by virtue of their roles are not considered independent. The Board considers relevant industry experience and specific expertise important in providing strategic guidance and oversight of the Company, and it believes, Mr M. Gwynne remains the most appropriate person to fulfil this role.

Mr P. Kelly is considered an independent Non-Executive Director.

The Board is conscious of the need for independence and ensures that Directors who have interests in specific transactions or potential transactions do not receive Board papers related to those transactions or potential transactions, do not participate in any part of a Board meeting which considers those transactions or potential transactions and do not discuss those transactions or potential transactions with other Directors.

The retirement by rotation of Directors is governed by the Company's constitution, the Corporations Act and the ASX Listing Rules. According to clause 5.1 of the Company's constitution, at each annual general meeting of the Company one third of the Directors or, if their number is not three or a multiple of three, then the number nearest to but not exceeding one third, retire from office but no Director may retain office for more than three years without submitting himself or herself for re-election even though the submission results in more than one third of the directors retiring from office. The Directors to retire by rotation at an annual general meeting are those who have been longest in office since their election. According to clause 5.7 of the Company's constitution a Managing Director is not subject to retirement by rotation and is not taken into account in determining the rotation of retirement of directors.

For the purposes of the proper performance of their duties, Directors are entitled to seek independent professional advice at FEL expense in certain circumstances.

The Company's constitution states that subject to the Corporations Act and the ASX Listing Rules, the Directors may, with the approval of the Company in general meeting, pay a director of the Company who has ceased to hold office a lump sum in respect of his or her past services as a director.

Review of Performance

The performance of the Non-Executive Chairman is monitored by the Non-Executive Director(s). A formal performance review of the Non-Executive Chairman did not occur during the year. The performance of the Executive Director of the Company is monitored by the remainder of the Board, no formal performance appraisal of the Executive Director occurred during the year.

The performance of senior management is monitored by the Executive Director.

There is currently no formal process for performance evaluation of the Board or individual Directors. No formal performance evaluation of the Board, the Audit Committee or individual Directors took place during the year.

In order to achieve continuing improvement in Board performance, all Directors are encouraged to undergo continued professional development.

Audit Committee

The Audit Committee of FEL consists of the independent Non-Executive Director of the Company and the Non-Executive Chairman of the Company. The qualifications of these Directors are set out at the beginning of the Directors' Report. The current Audit Committee chair is independent of the Board chair.

The Company has a formal Audit Committee Charter that forms part of the Corporate Governance Charter. The charter states that where the Board comprises only three members the Audit Committee will consist of two non-executive Directors.

The Audit Committee's primary responsibilities are to:

- oversee the existence and maintenance of internal controls and accounting systems;
- oversee the management of risk within the Company;
- oversee the financial reporting process to ensure compliance with statutory and accounting standards;
- review the annual and half-year financial reports and recommend them for approval by the Board;
- review and make recommendations to the Board regarding the appointment or dismissal of external auditors;
- review the performance of the external auditors and existing audit arrangements;
- oversee the processes used by management to ensure compliance with laws, regulations and other statutory or professional requirements; and
- review annually the requirement for an internal audit function.

The Audit Committee did not hold a full meeting during the year.

Risk Management

The Board is ultimately responsible for identifying and managing areas of significant business risk and ensuring that arrangements are in place to adequately manage these risks.

Recognised areas of risk include financial, legal, reputation, operation and strategic risks.

Management has reported to the Board as to the effectiveness of the Company's management of its material business risks.

Controls for the management of risk have been determined and the following are some examples of these controls. i) Use of independent accountants for the monitoring and preparation of financial reports, ii) open access for all directors to senior management, and iii) regular mine site attendance and review of operating and exploration plans by the Board.

The Board has received assurance from the Executive Director that the declaration provided in accordance with section 295A of the Corporations Act is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting risks.

Recommendation 7.1 states that the Company should establish policies for the oversight and management of material business risks and disclose a summary of those policies. The Board have established a formal risk management program further details regarding the program can be found in the Corporate Governance Statement available on the Company's website.

Remuneration and Nomination Committee

During the year FEL did not have a separately established remuneration and nomination committee. The collective Board serves as a remuneration and nomination committee to undertake the duties and responsibilities typically delegated to such a committee. The Board have in place formal procedures for the selection and appointment of directors. It is the Company's objective to retain high quality Board and senior management by remunerating fairly and appropriately with reference to relevant employment market conditions. For full disclosure of Director and executive remuneration for the period, please refer to the Remuneration Report, which is contained within the Directors' Report. Given the Company's size the Board does not believe that any marked efficiencies or benefit would be achieved by the creation of a separate remuneration and nomination committee.

Remuneration Policy

Directors' remuneration is approved by resolution of the Board when a Director is appointed to the Company, and a resolution of Shareholders when the remuneration of Non-Executive Directors increases.

Non-Executive Directors are to be paid their fees out of the maximum aggregate amount approved by Shareholders for the remuneration of Non-Executive Directors.

Full details regarding the remuneration of Directors is included in the Directors' Report.

Senior executives are remunerated in a manner that is market-competitive and consistent with best practice as well as supporting the interests of shareholders. Senior executive remuneration may be comprised of the following:

- fixed fee that is determined from a review of the market and reflects core performance requirements and expectations;
- a performance bonus designed to reward actual achievement by the individual of performance objectives and for materially improved Company performance;
- participation in any share/option scheme with thresholds approved by shareholders; and
- statutory superannuation.

By remunerating senior executives through performance and long-term incentive plans in addition to their fixed remuneration the Company aims to align the interests of senior executives with those of shareholders and increase Company performance.

The value of shares and options were they to be granted to senior executives would be calculated using the Black-Scholes option pricing model.

The objective behind using this remuneration structure is to drive improved Company performance and thereby increase shareholder value as well as aligning the interests of executives and shareholders.

The Board may use its discretion with respect to the payment of bonuses, stock options and other incentive payments.

Criteria for selection of Directors

Directors are appointed based on the specific governance skills required by the Company. Given the size of the Company and the business that it operates, the Company aims at all times to have at least one Director with relevant industry experience. In addition, Directors should have the relevant blend of personal experience in accounting and financial management and Director-level business experience.

Diversity Policy

The Company recognises that a talented and diverse workforce is a key competitive advantage and that an important contributor to the Company's success is the quality, diversity and skills of its people.

Under the Company's Code of Conduct, employees must not harass, discriminate or support others who harass and discriminate against colleagues or members of the public on the grounds of sex, pregnancy, marital status, age, race (including their colour, nationality, descent, ethnic or religious background), physical or intellectual impairment, homosexuality or transgender. Such harassment or discrimination may constitute an offence under legislation.

The Company has adopted a diversity policy which provides a framework for the Company to achieve:

- a diverse and skilled workforce, leading to continuous improvement in service delivery and achievement of corporate goals;
- a workplace culture characterised by inclusive practices and behaviors for the benefit of all staff;
- improved employment and career development opportunities for women;
- a work environment that values and utilises the contributions of employees with diverse backgrounds, experiences and perspectives through improved awareness of the benefits of workforce diversity and successful management of diversity; and
- awareness in all staff of their rights and responsibilities with regards to fairness, equity and respect for all aspects of diversity.

The Board is primarily responsible for setting achievable objectives on gender diversity and monitoring the progress of the Company towards them on an annual basis. Due to the size and scale of operations of the Company, the Board has determined that a long term gender diversity objective is more appropriate.

The following table shows the representation of women in the Company as at 30 September 2012:

	Total Number	Women	%Women
Whole organisation	9	4	44.4%
Permanent technical staff (excl. senior exec)	1	0	0%
Permanent admin staff (excl. senior exec)	3	2	66%
Senior exec (excl. executive Director)	2	2	100%
Senior exec (incl. executive Director)	3	2	66.6%
Board members	3	0	0%

Securities Dealing Policy

Under the Company's Securities Dealing Policy, a Director, executive or other employee must not trade in any securities of the Company at any time when they are in possession of unpublished, price-sensitive information in relation to those securities.

As a matter of course trading in securities of the Company are restricted in the following periods:

- within the period of 1 month prior to the release of the Company's annual and half yearly results to ASX; and
- there is in existence price sensitive information that has not been disclosed because of an ASX Listing Rule exception.

Before commencing to trade, a Director, executive or other employee must notify the Chairman or Company Secretary of their intention to do so.

As is required by the ASX Listing Rules, the Company notifies the ASX of any transaction conducted by a Director in the securities of the Company.

Continuous Disclosure

The Board has adopted a continuous disclosure policy to ensure that the Company complies with the disclosure requirements of the ASX Listing Rules which is available on the Company's website. The Board has designated the Company Secretary as the person responsible for overseeing and coordinating disclosure of information to the ASX as well as communicating with the ASX. In accordance with the ASX Listing Rules the Company immediately notifies the ASX of information:

- concerning the Company that a reasonable person would expect to have a material effect on the price or value of the Company's securities; and
- that would, or would be likely to, influence persons who commonly invest in securities in deciding whether to acquire or dispose of the Company's securities.

The Company's Continuous Disclosure Policy is located on its website: www.felimited.com.au.

Shareholder Communication

The Company respects the rights of its shareholders and to facilitate the effective exercise of those rights the Company is committed to:

- communicating effectively with shareholders through releases to the market via ASX, information mailed to shareholders and the general meetings of the Company;
- giving shareholders ready access to balanced and understandable information about the Company and corporate proposals;
- making it easy for shareholders to participate in general meetings of the Company; and
- requesting the external auditor to attend the annual general meeting and be available to answer shareholder questions about the conduct of the audit and the preparation and content of the auditor's report.

The Company also makes available a telephone number and email address for shareholders to make enquiries of the Company and encourages shareholders to visit the Company's website for information. The Company's Shareholder Communication Policy is available on the Company's website: www.felimited.com.au.

NOTES TO THE FINANCIAL STATEMENTS

1 CORPORATE INFORMATION

The financial report of Fe Limited ("FEL" or "the Company") and the financial statements comprising FEL and its controlled entities (together the "Consolidated Entity") for the year ended 30 September 2012 was authorised for issue in accordance with a resolution of the directors on 14 December 2012.

FEL is a company limited by shares incorporated and domiciled in Australia whose shares are publicly traded on the Australian Stock Exchange.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

The financial report is a general-purpose financial report, which has been prepared in accordance with the requirements of the Corporations Act 2001, Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board.

The financial report has been prepared on a historical cost basis, except assets held for sale which are carried at the lower of cost and fair value less costs to sell, and available-for-sale financial assets at fair value. The financial report is presented in Australian dollars unless otherwise stated.

(b) Statement of compliance

The financial report complies with Australian Accounting Standards as issued by the Australian Accounting Standards Board and International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

(c) Going concern

The financial statements have been prepared on a going concern basis which contemplates the continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

The ability of the Consolidated Entity to continue its planned exploration and evaluation activities is dependent on the Consolidated Entity completing the sale of its 100% interest in Gympie Eldorado Mining Pty Ltd ("GEM") as detailed in note 4(b) and securing additional funding. As detailed in note 15(a), the Consolidated Entity has recorded an interest-bearing loan to Cape Lambert Resources Limited ("CFE") of \$1,918,054, payable by 31 December 2012. The Consolidated Entity is currently in the process of renegotiating a deferral of its repayment obligation to 31 December 2013. In addition, the Consolidated Entity is seeking to secure an additional short-term facility with CFE capped at \$1,000,000, which will enable it to meet its obligations as and when they fall due. At the date of this report, the directors are satisfied there are reasonable grounds to believe that the sale will complete, that it will be able to defer its repayment obligation to CFE and that it can secure additional funding. In the event that the sale does not complete, the directors are confident that the Consolidated Entity will be able to raise additional capital, to enable it to meet its obligations as and when they fall due.

Should the Consolidated Entity not achieve the matters set out above, there is uncertainty whether it would continue as a going concern and therefore whether it would realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial statements. The financial statements do not include any adjustment relating to the recoverability or classification of recorded asset amounts or to the amounts or classifications of liabilities that might be necessary should the Consolidated Entity not be able to continue as a going concern.

(d) Adoption of new and revised standards

Changes in accounting policies on initial application of Accounting Standards

The accounting policies adopted are consistent with those of the previous financial year. From 1 October 2011, the Consolidated Entity has adopted all the standards and interpretations mandatory for annual periods beginning on or after 1 October 2011. Adoption of these standards and interpretations did not have any effect on the statements of financial position or performance of the Consolidated Entity. The Consolidated Entity has not elected to early adopt any new standards or amendments.

New accounting standards and interpretations issued but yet effective

The following applicable accounting standards and interpretations have been issued or amended but are not yet effective. These standards have not been adopted by the Consolidated Entity for the year ended 30 September 2012.

Reference	Title	Summary	Application date for Consolidated Entity
AASB 2011-9	Amendments to Australian Accounting Standards - Presentation of Other Comprehensive Income [AASB 1, 5, 7, 101, 112, 120, 121, 132, 133, 134, 1039 & 1049]	This Standard requires entities to group items presented in other comprehensive income on the basis of whether they might be reclassified subsequently to profit or loss and those that will not.	1 October 2012
AASB 10	Consolidated Financial Statements	AASB 10 establishes a new control model that applies to all entities. It replaces parts of AASB 127 <i>Consolidated and Separate Financial Statements</i> dealing with the accounting for consolidated financial statements and UIG-112 <i>Consolidation – Special Purpose Entities</i>. The new control model broadens the situations when an entity is considered to be controlled by another entity and includes new guidance for applying the model to specific situations, including when acting as a manager may give control, the impact of potential voting rights and when holding less than a majority voting rights may give control. Consequential amendments were also made to other standards via AASB 2011-7.	1 October 2013
AASB 12	Disclosure of Interests in Other Entities	AASB 12 includes all disclosures relating to an entity's interests in subsidiaries, joint arrangements, associates and structured entities. New disclosures have been introduced about the judgments made by management to determine whether control exists, and to require summarised information about joint arrangements, associates and structured entities and subsidiaries with non-controlling interests.	1 October 2013
AASB 13	Fair Value Measurement	AASB 13 establishes a single source of guidance for determining the fair value of assets and liabilities. AASB 13 does not change when an entity is required to use fair value, but rather, provides guidance on how to determine fair value when fair value is required or permitted. Application of this definition may result in different fair values being determined for the relevant assets. AASB 13 also expands the disclosure requirements for all assets or liabilities carried at fair value. This includes information about the assumptions made and the qualitative impact of those assumptions on the fair value determined. Consequential amendments were also made to other standards via AASB 2011-8.	1 October 2013
AASB 2012-5	Annual Improvement	This standard sets out amendments to various Standards and the related bases for conclusions and	1 October 2013

Reference	Title	Summary	Application date for Consolidated Entity
	s to 2009–2011 Cycle	guidance. The following items are addressed by this standard: AASB1 First-time Adoption of International Financial Reporting Standards • Repeated application of IFRS 1 • Borrowing costs AASB 101 Presentation of Financial Statements • Clarification of the requirements for comparative information AASB 116 Property, Plant and Equipment • Classification of servicing equipment AASB 132 Financial Instruments: Presentation • Tax effect of distribution to holders of equity instruments AASB 134 Interim Financial Reporting • Interim financial reporting and segment information for total assets and liabilities	
AASB 2012-2	Amendments to Australian Accounting Standards – Disclosures – Offsetting Financial Assets and Financial Liabilities	AASB 2012-2 principally amends AASB 7 Financial Instruments: Disclosures to require disclosure of information that will enable users of an entity's financial statements to evaluate the effect or potential effect of netting arrangements, including rights of set-off associated with the entity's recognised financial assets and recognised financial liabilities, on the entity's financial position.	1 October 2013
AASB 9	Financial Instruments	AASB 9 includes requirements for the classification and measurement of financial assets. It was further amended by AASB 2010-7 to reflect amendments to the accounting for financial liabilities. These requirements improve and simplify the approach for classification and measurement of financial assets compared with the requirements of AASB 139. The main changes are described below. (a) Financial assets that are debt instruments will be classified based on (1) the objective of the entity's business model for managing the financial assets; (2) the characteristics of the contractual cash flows. (b) Allows an irrevocable election on initial recognition to present gains and losses on investments in equity instruments that are not held for trading in other comprehensive income. Dividends in respect of these investments that are a return on investment can be recognised in profit or loss and there is no impairment or recycling on disposal of the instrument. (c) Financial assets can be designated and measured at fair value through profit or loss at initial recognition if doing so eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities, or recognising the gains and losses on them, on different bases. (d) Where the fair value option is used for financial	1 October 2013

Reference	Title	Summary	Application date for Consolidated Entity
		liabilities the change in fair value is to be accounted for as follows: - The change attributable to changes in credit risk are presented in other comprehensive income (OCI) - The remaining change is presented in profit or loss If this approach creates or enlarges an accounting mismatch in the profit or loss, the effect of the changes in credit risk are also presented in profit or loss. Consequential amendments were also made to other standards as a result of AASB 9, introduced by AASB 2009-11 and superseded by AASB 2010-7 and 2010-10.	
AASB 2011-4	Amendments to Australian Accounting Standards to Remove Individual Key Management Personnel Disclosure Requirements [AASB 124]	This Standard removes the requirements to include individual key management personnel disclosures in the notes to and forming part of the Financial Report.	1 October 2013
AASB 119	Employee Benefits	The main change introduced by this standard is to revise the accounting for defined benefit plans. The amendment removes the options for accounting for the liability, and requires that the liabilities arising from such plans is recognised in full with actuarial gains and losses being recognised in other comprehensive income. It also revised the method of calculating the return on plan assets. The revised standard changes the definition of short-term employee benefits. The distinction between short-term and other long-term employee benefits is now based on whether the benefits are expected to be settled wholly within 12 months after the reporting date. Consequential amendments were also made to other standards via AASB 2011-10.	1 October 2013

The Consolidated Entity is in the process of determining the impact of the above on its financial statements. The Consolidated Entity has not elected to early adopt any new Standards or Interpretations.

(e) Basis of consolidation

The consolidated financial statements comprise the financial statements of Fe Limited and its subsidiaries as at and for the year ended 30 September 2012.

Subsidiaries are all those entities over which Fe Limited has the power to govern the financial operating policies so as to obtain benefits from their activities.

The financial statements of the Company's subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. In preparing the consolidated financial

statements, all intercompany balances and transactions, income and expenses and profit and losses resulting from intra-group transactions, have been eliminated in full.

Subsidiaries are consolidated from the date on which control is transferred to the Consolidated Entity and cease to be consolidated from the date on which control is transferred out of the Consolidated Entity.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. The acquisition method of accounting involves recognising at acquisition date, separately from goodwill, the identifiable assets acquired, the liabilities assumed and any non-controlling interest in the acquiree. The identifiable assets acquired and the liabilities assumed are measured at their fair values at the date of acquisition. Any difference between the fair value of the consideration and the fair values of the identifiable net assets acquired is recognised as goodwill or a gain on bargain purchase.

A change in the ownership interest of a subsidiary that does not result in a loss of control, is accounted for as an equity transaction.

(f) Cash and cash equivalents

Cash and short-term deposits in the statement of financial position comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less.

For the purposes of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

(g) Trade and other receivables

Trade receivables, which generally have 5-day term for gold sales and 14-day term for others, are recognised and carried at original invoice amount less an allowance for any uncollectible amounts.

Collectability of trade receivables is reviewed on an ongoing basis. Individual debts that are known to be uncollectible are written off when identified. An impairment provision is recognised when there is objective evidence that the Consolidated Entity will not be able to collect the receivable. Financial difficulties of the debtor, default payments or debts more than 60 days overdue are considered objective evidence of impairment. The amount of the impairment loss is the receivable carrying amount compared to the present value of the estimated future cash flows, discounted at the original effective interest rate.

(h) Exploration and evaluation

Exploration and evaluation expenditure incurred by or on behalf of the Consolidated Entity is accumulated separately for each area of interest. Such expenditure comprises net direct costs and an appropriate portion of related overhead expenditure, but does not include general overheads or administrative expenditure not having a specific connection with a particular area of interest.

Exploration and evaluation costs in relation to separate areas of interest for which rights of tenure are current are brought to account in the year in which they are incurred and carried forward provided that:

- a) such costs are expected to be recouped through successful development and exploitation of the area, or alternatively through its sale; or
- b) exploration and/or evaluation activities in the area have not yet reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves.

Accumulated costs in respect of areas of interest are written off in the statement of comprehensive income when the above criteria do not apply or when the directors assess that the carrying value may exceed the recoverable amount.

(i) Property, plant and equipment

Plant and equipment is stated at cost less accumulated depreciation and any impairment in value. Land is measured at cost.

Depreciation is calculated on a combination of a straight-line and reducing balance basis over the estimated useful life of the asset as follows:

Plant and equipment – 3 to 5 years

Impairment

The carrying values of plant and equipment are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable.

For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amount.

The recoverable amount of plant and equipment is the greater of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

(j) Impairment of assets

At each reporting date, the Consolidated Entity assesses whether there is any indication that an asset may be impaired. Where an indicator of impairment exists, the Consolidated Entity makes a formal estimate of recoverable amount. Where the carrying amount of an asset exceeds its recoverable amount the asset is considered impaired and is written down to its recoverable amount.

Recoverable amount is the greater of fair value less costs to sell and value in use. It is determined for an individual asset, unless the asset's value in use cannot be estimated to be close to its fair value less costs to sell and it does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

(k) Trade and other payables

Trade payables and other payables are carried at cost and represent liabilities for goods and services provided to the Consolidated Entity prior to the end of the financial year that are unpaid and arise when the Consolidated Entity becomes obliged to make future payments in respect of the purchase of these goods and services.

(l) Interest-bearing loans and borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of loans and borrowings.

Borrowings are classified as current liabilities unless the Consolidated Entity has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of that asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

(m) Provisions and employee leave benefits

Provisions are recognised when the Consolidated Entity has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Where the Consolidated Entity expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the

reimbursement is virtually certain. The expense relating to any provision is presented in the statement of comprehensive income net of any reimbursement.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

Where discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Employee benefits

Provision is made for benefits accruing to employees in respect of wages and salaries, annual leave and long service leave when it is probable that settlement will be required and they are capable of being measured reliably.

Provisions made in respect of employee benefits expected to be settled within 12 months are measured at their nominal values using the remuneration rate expected to apply at the time of settlement. Provisions made in respect of employee benefits which are not expected to be settled within 12 months are measured as the present value of the estimated future cash outflows to be made by the Consolidated Entity in respect of services provided by employees up to the reporting date.

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date.

(n) Share-based payments

The Consolidated Entity provides benefits to certain executives, consultants and employees of the Consolidated Entity in the form of share-based payments, usually through the award of options.

Options are measured at fair value at the date of grant. Fair value is measured by use of the Black-Scholes option pricing model. The expected life used in the model has been adjusted based on management's best estimate, for the effects of non-transferability and exercise restrictions.

The fair value is determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Consolidated Entity's estimate of shares that will eventually vest.

The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of earnings per share (see Note 6), unless a loss result has been reported.

(o) Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(p) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Consolidated Entity and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

Interest

Revenue is recognised as the interest accrues (using the effective interest method, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset).

(q) Income tax and other taxes

Deferred income tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences:

- except where the deferred income tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, except where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry-forward of unused tax assets and unused tax losses can be utilised:

- except where the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in the statement of comprehensive income.

Other taxes

Revenues, expenses and assets are recognised net of the amount of GST except:

- where the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority, are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

(r) Available-for-sale financial assets

All available-for-sale investments are initially recognised at fair value plus directly attributable transaction costs.

Available-for-sale investments are those non-derivative financial assets, principally equity securities that are designated as available-for-sale. Investments are designated as available for sale if they do not have fixed maturities and fixed and determinable payments and management intends to hold them for the medium to long term.

After initial recognition, available-for-sale investments are measured at fair value. Gains or losses are recognised as a separate component of equity until the investment is sold, collected or otherwise disposed of, or until the investment is determined to be impaired, at which time the cumulative gain or loss previously reported in equity is included in the statement of comprehensive income.

(s) Earnings per share

Basic earnings per share is calculated as net profit/loss attributable to members of the Company, adjusted to exclude any costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted earnings per share is calculated as net profit/loss attributable to members of the Company, adjusted for:

- Costs of servicing equity (other than dividends) and preference share dividends;
- The after tax effect of dividends and interest associated with the dilutive potential ordinary shares that have been recognised as expenses; and
- Other non-discretionary changes in revenues or expenses during the year that would result from the dilution of potential ordinary shares;

divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

Where a loss has been reported the dilutive effects of options are not adjusted for, in accordance with AASB 133 *Earnings per share*.

(t) Rehabilitation

Rehabilitation costs are provided for when exploration and evaluation activities give rise to the need for rehabilitation. The estimate of the rehabilitation obligations are based on anticipated technology and legal requirements and future costs. Any changes in the estimates are adjusted on a prospective basis. In determining the rehabilitation obligations, the entity has assumed no significant changes will occur in the relevant Federal and State legislation in relation to rehabilitation of such mines in the future.

If the effect of the time value of money is material, provisions are determined by discounting the expected cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

(u) Operating segments

An operating segment is a component of an entity that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity), whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess their performance and for which discrete financial information is available. This includes start-up operations which are yet to earn revenues.

Operating segments have been identified based on the information provided to the chief operating decision makers – being the board of directors.

(v) Non-current assets and disposal groups held for sale and discontinued operations

Non-current assets and disposal groups are classified as held for sale and measured at the lower of their carrying amount and fair value less costs to sell if their carrying amount will be recovered principally through a sale transaction instead of use. They are not depreciated or amortised. For an asset or disposal group to be classified as held for sale, it must be available for immediate sale in its present condition and its sale must be highly probable.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of derecognition.

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single coordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately on the face of the statement of comprehensive income and the assets and liabilities are presented separately on the face of the statement of financial position.

(w) Significant accounting estimates and assumptions

The carrying amounts of certain assets and liabilities are often determined based on estimates and assumptions of future events. The key estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of certain assets and liabilities within the next annual reporting year are:

Capitalised Exploration and evaluation expenditure

The future recoverability of capitalised exploration and evaluation expenditure is dependent on a number of factors, including whether the group decides to exploit the related lease itself or, if not whether it successfully recovers the related exploration and evaluation asset through sale.

Factors which could impact the future recoverability include the level of proved probable and inferred mineral resources, future technological changes which could impact the cost of mining, future legal changes (including changes to environmental restoration obligations) and changes to commodity prices.

To the extent that capitalised exploration and evaluation expenditure is determined not to be recoverable in the future, this will reduce profits and net assets in the period in which this determination is made.

In addition exploration and evaluation expenditure is capitalised if activities in the area of interest have not yet reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves. To the extent that it is determined in the future that this capitalised expenditure should be written off, this will reduce profits and net assets in the period in which this determination is made.

Rehabilitation provision

The Consolidated Entity assesses its mine rehabilitation provision annually. Significant estimates and assumptions are made in determining the provision for mine rehabilitation as there are numerous factors that will affect the ultimate liability payable. These factors include estimates of the extent and costs of rehabilitation activities, technological changes, regulatory changes and cost increases. These uncertainties may result in future actual expenditure differing from the amounts currently provided. The provision at reporting date represents management's best estimate of the present value of the future rehabilitation costs required.

3 REVENUE, INCOME AND EXPENSES

(b) Details of operations held for sale – Gympie Eldorado Mining Pty Ltd ("GEM")

Year ended 30 September 2012

In September 2012, FEL received the initial \$50,000 cash payment from BRI. The Company is continuing to work with BRI to satisfy the conditions precedent set out in the sale agreement. BRI has advised the Company that the capital raising, for the acquisition of all the shares in GEM, is close to completion.

Year ended 30 September 2011

In April 2011, FEL entered into a conditional agreement to sell Gympie Eldorado Mining Pty Ltd ("GEM"), a wholly owned subsidiary of FEL, to BRI Microfine Pty Ltd ("BRI"). On completion, FEL will receive \$50,000 in cash. Consideration for the sale also includes a net smelter return of 6.5% on gold recovered from tailings treatment and 25% of any profits on sale of freehold land. In addition, FEL will be reimbursed \$2,264,984 in respect of environmental performance bonds.

Basic earnings/(loss) per share amounts are calculated by dividing net profit/(loss) for the year attributable to ordinary equity holders of the Company by the weighted average number of shares on issue during the year.

Diluted earnings per share amounts are calculated by dividing the net profit/(loss) attributable to shareholders by the weighted average number of shares on issue during the year (adjusted for the effects of dilutive options). Where a loss has been reported the dilutive effects of options are not adjusted for, in accordance with AASB 133 *Earnings per share*.

The following reflects the income and share data used in the basic and diluted earnings/(loss) per share computations:

Weighted average number of ordinary shares for basic earnings per share	115,521,575	115,297,940
Effect of dilution:		
- Share options	-	-
Adjusted weighted average number of ordinary shares for diluted earnings per share	<u>115,521,575</u>	<u>115,297,940</u>

There are 18,875,000 (2011: 18,875,000) share options excluded from the calculation of diluted earnings per share (that could potentially dilute basic earnings per share in the future) because they are anti-dilutive for each of the periods presented.

**7 CASH AND CASH EQUIVALENTS**

	2012 \$	2011 \$
Cash at bank and on hand	147,111	65,727

Cash at bank and on hand earns interest at the floating rates based on daily bank deposit rates.

(a) Reconciliation of net loss after tax to net cash flows from operations

	2012 \$	2011 \$
Net loss for the year	(1,838,118)	(4,604,870)
<i>Adjustments for:</i>		
Depreciation	17,320	23,772
Profit on disposal of non-current assets	-	(2,000,526)
Profit on sale of available-for-sale financial assets	(243,762)	(122,051)
Impairment of exploration assets	546,319	3,889,624
Impairment of available-for-sale financial assets	2,750	114,550
Impairment of receivables	12,755	-
Share based payments	-	18,272
Interest capitalised to loan facility balance	87,402	5,652
<i>Changes in assets and liabilities</i>		
(Increase)/decrease in trade and other receivables	13,440	(22,725)
(Increase)/decrease in prepayments	(811)	13,566
(Decrease)/increase in trade and other payables	(17,189)	23,562
(Decrease)/increase in provisions	(3,082)	648,075
Net cash from/(used) in operating activities	(1,422,976)	(2,013,099)

8 TRADE AND OTHER RECEIVABLES

	2012 \$	2011 \$
Current		
Trade receivables	48,725	18,714
Impairment allowance	(12,755)	-
Other receivables	5,561	22,131
	41,531	40,845

Trade receivables are non-interest bearing and are generally on 14 day terms. A provision for impairment is recognised when there is objective evidence that an individual trade receivable is impaired. An impairment expense of \$12,755 has been recognised in the current year (2011: nil).

At 30 September the ageing analysis of trade receivables were as follows:

		Total \$	Current \$	Past due and impaired \$
2012	Consolidated	48,725	35,970	12,755
2011	Consolidated	18,714	18,714	-

Other receivables are amounts which generally arise from transactions outside the usual operating activities of the Consolidated Entity and are non-interest bearing with no fixed terms. Other receivables do not contain impaired assets, are not past due date and are expected to be received in full.

Due to the short term nature of these receivables, their carrying value is assumed to approximate their fair value.

The maximum exposure to credit risk is the fair value of receivables. It is not the Consolidated Entity's policy to transfer (on-sell) receivables to special purpose entities.

9 EXPLORATION AND EVALUATION EXPENDITURE

	2012 \$	2011 \$
Exploration and evaluation expenditure	2,068,189	2,422,568
<i>Movements in exploration and evaluation expenditure</i>		
Carrying value at the beginning of the year	2,422,568	5,450,597
Exploration expenditure incurred	316,940	861,595
Impairment (a)	(546,319)	(3,889,624)
Transferred to assets held-for-sale (refer note 4(a))	(125,000)	-
Carrying value at end of year	2,068,189	2,422,568

Exploration and evaluation expenditures are carried forward in accordance with the policy set out in note 2(h).

The ultimate recoupment of the capitalised exploration and evaluation costs relating to areas of interest in the exploration and evaluation phase is dependent upon the successful development and commercial exploitation or, alternatively, sale of the respective areas of interest and the Consolidated Entity's ability to continue to meet its financial obligations to maintain the area of interest.

- a) The Consolidated Entity has assessed the carrying amount of the exploration and evaluation expenditure in accordance with AASB 6 *Exploration for and Evaluation of Mineral Resources* and has recognised an impairment expense of \$546,319 during the current year (2011: \$3,889,624). The majority of this impairment expense (\$374,577) relates to the write-down of exploration assets held for sale, \$125,000 being the recoverable amount. The remaining amount of the impairment expense (\$171,742) relates to the discontinuance of exploration activities on certain tenements in Western Australia. The impairment expense is shown as a separate line item in the Statement of Comprehensive Income.

10 PLANT AND EQUIPMENT

	2012 \$	2011 \$
At cost	89,708	89,708
Accumulated depreciation	(49,451)	(32,131)

	<u>16,000</u>	<u>16,000</u>

	Rehabilitation \$
<i>Movements in rehabilitation</i>	
Carrying value at beginning of year	2,264,984
Arising during the year	-
Expensed during the year	-
Carrying value at end of year	<u>2,264,984</u>

- (a) Provision for rehabilitation is recognised for the expected costs associated with the rehabilitation of the mine site area, which is expected to be incurred as a result of the Company's decision to cease mining operations at the Monkland Mine in Gympie Queensland. The provision is based on the best estimate of the direct expenditures to be incurred. Refer to note 4(a)(i). The Company has provided a bank guarantee and cash deposit amounting to \$2,267,562 (2011: \$2,264,984) to cover potential rehabilitation costs in respect of the Consolidated Entity's mining operations (refer note 12(a) and 12(b)).
- (b) Provision for rehabilitation is recognised for the expected costs associated with the rehabilitation of the Mt Elvire project in Western Australia. The provision is based on the best estimate of the direct expenditures to be incurred.

15 INTEREST-BEARING LOANS AND BORROWINGS

	2012 \$	2011 \$
Current		
Loan from related party (a)

Non-current		
Loan from related party (a)		
- Principal	-	510,000
- Interest	-	5,652
	<u>-</u>	<u>515,652</u>

(a) In June 2011, the Consolidated Entity entered into a loan facility agreement with Cape Lambert Resources Limited (ASX: CFE). Under the terms of the agreement, the Consolidated Entity has access to \$2,000,000 with any amounts drawn down repayable in full by 31 December 2012. Interest is payable on the amounts drawn down at the cash rate plus 3% per annum. As detailed in note 2(c), at the date of signing this annual report, the Consolidated Entity is in the process of negotiating a deferral of its repayment obligation to 31 December 2013.

16 CONTRIBUTED EQUITY

	2012 \$	2011 \$
<i>Ordinary shares</i>		
Issued and fully paid (a)	<u>33,957,000</u>	<u>33,957,000</u>

Balance at end of year	18,875,000	1,718,781

Nature and purpose of reserve

This reserve is used to record the value of share based payments made to directors, consultants and employees, as well as share based payments awarded as consideration for the acquisition of assets. At the reporting date the following options were outstanding:

- 375,000 unlisted employee options with an exercise price of 15 cents per option and are exercisable any time up until 23 March 2014.
- 500,000 unlisted consultant options with an exercise price of 12 cents per option and are exercisable any time up until 31 December 2012.
- 5,000,000 unlisted consultant options with an exercise price of 12 cents per option and are exercisable any time up until 31 December 2012.
- 12,500,000 unlisted vendor options issued to existing shareholders of Mooloogool Limited. The options have an exercise price of 12 cents per option and are exercisable any time up until 31 December 2012.
- 500,000 unlisted employee options with an exercise price of 12 cents per option and are exercisable any time up until 31 December 2012.

(b) Net unrealised gains reserve

Transfer of impairment loss to profit and loss	2,750	114,550
Balance at end of year	-	-

Nature and purpose of reserve

This reserve records the movements in the fair value of available-for-sale investments.

19 SEGMENT INFORMATION

The Consolidated Entity has identified its operating segments based on the internal reports that are reviewed and used by the board of directors in assessing performance and in determining the allocation of resources. The Consolidated Entity has only one operating segment, being mineral exploration and all of these activities are conducted in Australia.

20 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Consolidated Entity's objective with regard to financial risk management is to ensure the effective management of business risks crucial to the financial integrity of the business without affecting the ability of the Consolidated Entity to operate efficiently or execute its business plans and strategies.

The Board has overall responsibility for the determination of the Consolidated Entity's risk management objectives and policies and has the responsibility for designing and operating processes that ensure the effective management of all significant financial risks to the business. The Board may delegate specific responsibilities as appropriate.

Capital risk management

The Consolidated Entity's capital base comprises its ordinary shareholders equity, which was \$598,132 at 30 September 2012 (2011: \$2,436,250). The Consolidated Entity manages its capital to ensure that the entities in the group will be able to continue to meet its working capital requirements and operate as a going concern while seeking to maximise the return to stakeholders.

In making its decisions to adjust its capital structure, either through new share issues or consideration of debt, the Consolidated Entity considers not only its short-term working capital needs but also its long-term operational and strategic objectives. The Board continually monitors the capital requirements of the Consolidated Entity.

The Consolidated Entity is not subject to any externally imposed capital requirements.

Financial instrument risk exposure and management

The Consolidated Entity's principal financial instruments comprise cash and short-term deposits, receivables, payables and interest-bearing loans and borrowings. The main risks arising from the Consolidated Entity's financial instruments are interest rate and credit risk. The Board reviews and agrees policies for managing each of these risks and they are summarised below.

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in Note 2 to the financial statements.

Interest rate risk

The Consolidated Entity's exposure to changes in market interest rates relates primarily to the Consolidated Entity's cash and short-term deposits with a floating interest rate. In addition, the Consolidated Entity's interest-bearing liabilities are subject to floating interest rates and are therefore exposed to changes in market interest rates.

At the reporting date, the Consolidated Entity had the following financial assets and liabilities exposed to variable interest rate risk:

	Note	2012 \$	2011 \$
<i>Financial assets</i>			
Cash and cash equivalents	7	147,111	65,727
Other receivables (term deposits)	12	1,463,978	1,461,400
		<u>1,611,089</u>	<u>1,527,127</u>
<i>Financial liabilities</i>			
Interest-bearing loans and borrowings	15	<u>(1,918,054)</u>	<u>(515,652)</u>
Net exposure		<u>(306,965)</u>	<u>1,011,475</u>

The following sensitivity analysis is based on the interest rate risk exposures in existence at the reporting date and based on judgements of reasonably possible movements:

	Post Tax Loss (Higher)/Lower		Equity Higher/(Lower)	
	2012 \$	2011 \$	2012 \$	2011 \$
Consolidated				
+1% (100 basis points)	(3,070)	10,115	-	-
-0.5% (50 basis points)	1,535	(5,057)	-	-

A sensitivity analysis is derived from a review of historical movements and management's judgment of future trends. The analysis was performed on the same basis as 2011.

Credit risk

Credit risk arises from the financial assets of the Consolidated Entity, which comprise cash and cash equivalents and trade and other receivables. The Consolidated Entity's exposure to credit risk arises from potential default of the counter party, with a maximum exposure equal to the carrying amount of these instruments. Exposure at reporting date is addressed in each applicable note.

The Consolidated Entity trades only with recognised and creditworthy third parties.

In addition, receivable balances are monitored on an ongoing basis with the result that the Consolidated Entity's exposure to bad debts is not significant. There are no significant concentrations of credit risk within the Consolidated Entity.

Liquidity risk

Liquidity risk arises from the Consolidated Entity's management of working capital. It is the risk that the Consolidated Entity will encounter difficulty in meeting its financial obligations as they fall due. The Consolidated Entity's objective is to ensure that it will always have sufficient liquidity to meet its liabilities through ensuring it has sufficient cash reserves to meet its ongoing working capital and long-term operational and strategic objectives. The Consolidated Entity manages liquidity risk by maintaining adequate borrowing facilities and monitoring forecast and actual cash flows on an ongoing basis.

The following table summarises the maturity profile of the Consolidated Entity's liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

	Less than 6 months \$	6 months to 1 year \$	1 year to 5 years \$	Total \$
Consolidated				
2012				
Trade and other payables	362,332	-	-	362,332
Interest-bearing loans and borrowings	1,950,554	-	-	1,950,554
	<u>2,312,886</u>	<u>-</u>	<u>-</u>	<u>2,312,886</u>
2011				
Trade and other payables	235,404	-	-	235,404
Interest-bearing loans and borrowings	-	-	565,058	565,058
	<u>235,404</u>	<u>-</u>	<u>565,058</u>	<u>800,462</u>

The Consolidated Entity has determined that the carrying value of financial liabilities is approximately equal to its fair value.

Fair value estimation

The fair value of financial assets and liabilities must be estimated for recognition and measurement or for disclosure purposes. The Directors consider that the carrying amount of financial assets and financial liabilities recorded in the financial statements approximates their fair values as the carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values due to their short-term nature.

Financial Instruments Measured at Fair Value

The financial instruments recognised at fair value in the statement of financial position have been analysed and classified using a fair value hierarchy reflecting the significance of the inputs used in making the measurements. The fair value hierarchy consists of the following levels:

- quoted prices in active markets for identical assets or liabilities (Level 1);
- inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (Level 2); and
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3)

2012	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
Financial assets				
Available-for-sale financial assets	9,750	-	-	9,750
2011				
Financial assets				
Available-for-sale financial assets	158,757	-	-	158,757

21 COMMITMENTS AND CONTINGENCIES

Exploration Expenditure Commitments

In order to maintain rights of tenure to mining tenements, the Consolidated Entity is required to fulfil various minimum expenditure requirements up until expiry of the mining tenement leases. These obligations are not provided for in the financial statements.

If the Consolidated Entity decides to relinquish certain tenement leases and/or does not meet these obligations, assets recognised in the balance sheet may require review to determine the appropriateness of their carrying values. The sale, transfer or farm-out of exploration rights to third parties will reduce or extinguish these obligations. The expected expenditure commitments with respect to the exploration grounds in Western Australia are approximately \$892,000 (2011: \$659,422).

Office Rental Commitments

During 2012, the Consolidated Entity entered into a sub-lease with Cape Lambert Resources Ltd for office premises for a period of 5 years, terminating on 31 March 2017. The expenditure commitment with respect to rent payable under the sub-lease agreement is \$164,657 (2011: nil):

	2012	2011
	\$	\$
Within one year	36,590	-
After one year but less than five years	128,007	-
More than five years	-	-
	<u>164,657</u>	<u>-</u>

Contingencies

At 30 September 2012 there were no known contingent liabilities or contingent assets (2011: nil).

22 CONTROLLED ENTITIES

The consolidated financial statements include the financial statements of Fe Limited and the subsidiaries listed in the following table.

Subsidiary	Country of Incorporation	Equity interest %		Parent Entity Investment \$

(i) Resigned 28 November 2011

(e) Other transactions with Key Management Personnel

For details of other transactions with Key Management Personnel, refer to note 25.

25 RELATED PARTY INFORMATION

Transactions with directors, director related entities and other related parties.

(a) Payments to and from director related entities

An aggregate amount of \$51,553 (2011: \$54,710) was paid to Cape Lambert Resources Ltd ("Cape Lambert") during 2012 for reimbursement of rent and consultancy costs. Mr Sage is a director of Cape Lambert. At 30 September 2012 \$25,000 was payable to Cape Lambert (2011: \$25,000).

During the year, the Consolidated Entity received \$45,311 net (2011: \$14,431) from Cauldron Energy Limited ("Cauldron") for the reimbursement of employee costs. Mr Sage is a director of Cauldron. At 30 September 2012 \$11,990 was receivable from Cauldron (2011: \$12,490).

During the year, the Consolidated Entity received \$26,391 (2011: nil) from Kupang Resources Limited ("Kupang") for the reimbursement of employee costs. Mr Sage is a director of Kupang. At 30 September 2012 \$11,990 was receivable from Kupang (2011: nil).

(b) Related party loan

During the year, the Consolidated Entity drew down \$1,315,000 (2011: \$510,000) on its loan facility from Cape Lambert (refer note 15). At 30 September 2012, the Consolidated Entity has accrued interest on the loan of \$93,054 (2011: \$5,652). Mr Sage is a Director of Cape Lambert.

(c) Financial Assets

During the year, the Consolidated Entity sold its shares in African Iron Limited (ASX: AKI) for a net gain of \$243,762. At 30 September 2011, the Consolidated Entity held 696,462 shares in AKI with a market value of \$146,257. Mr Sage was a director of AKI until March 2012.

At 30 September 2012, the Consolidated Entity held 250,000 shares in Eclipse Metals Limited (formerly Eclipse Uranium Limited) (ASX: EPM) with a market value of \$9,750 (2011: \$12,500). Mr Kelly was a director of EPM until November 2011.

(d) Other

On 22 March 2011, FEL entered into an agreement to acquire Mt Ida from Dempsey Resources Pty Ltd, a wholly owned subsidiary of Cape Lambert Resources Ltd. Completion of the acquisition is subject to the execution of split commodity agreements for exploration licences E29/561 and E29/644 ("Core Tenements") with the license holders. These agreements are presently being negotiated.

26 SHARE-BASED PAYMENTS

Total costs arising from share based payment transactions recognised during the year were as follows:

	2012 \$	2011 \$
Expense arising from equity-settled, directors, executives, consultant and employee share-based payment transactions (a)	-	18,272
	-	18,272

(a) Equity settled directors, executives, consultants and employee share based payment transactions

Options are granted to directors, executives, employees and consultants of the Consolidated Entity in the form of share-based payments. There is currently no formal employee share plan, however selected employees of the Consolidated Entity were granted options during the previous year. The purpose of the grant of options to selected employees was to:

- recognise the ongoing ability of the employees of the Consolidated Entity and their expected efforts and contribution in the long term to the performance and success of the Consolidated Entity; and
- provide an incentive to the employees of the Consolidated Entity to remain in their employment in the long term.

(b) Summaries of options granted

The following table illustrates the number (No.) and weighted average exercise prices (WAEP) of, and movements in, options issued during the year:

	2012 No.	2012 WAEP	2011 No.	2011 WAEP
Outstanding at the beginning of the year	18,875,000	0.12	19,925,000	0.14
Granted during the year to executives and consultants	-	-	500,000	0.12
Options expired	-	-	(1,550,000)	(0.37)
Outstanding at the end of the year	18,875,000	0.12	18,875,000	0.12
Exercisable at the end of the year	18,875,000	0.12	18,875,000	0.12

The outstanding balance as at 30 September 2012 is represented by:

- 375,000 employee options exercisable at a price of \$0.15 each before 23 March 2014;
- 5,500,000 employee options exercisable at a price of \$0.12 each before 31 December 2012;
- 12,500,000 options issued to shareholders of Mooloogool Ltd exercisable at a price of \$0.12 each before 31 December 2012; and
- 500,000 employee options exercisable at a price of \$0.12 each before 31 December 2012.

(c) Weighted average remaining contractual life

The weighted average remaining contractual life for the options outstanding as at 30 September 2012 is 0.28 years (2011: 1.28 years).

(d) Range of exercise prices

The range of exercise prices for options outstanding at the end of the year was \$0.12 - \$0.15 (2011: \$0.12 - \$0.15).

(e) Weighted average fair value

No options were granted during 2012. The weighted average fair value of options granted during 2011 was \$0.04.

(f) Option pricing model

The fair value of the equity-settled Options granted is estimated as at the date of grant using the Black-Scholes option pricing model taking into account the terms and conditions upon which the options were granted.

No options were granted during 2012.

The following table lists the inputs to the models used for options granted during the year ended 30 September 2011:

30 September 2011	Employee Options 500,000
Dividend yield (%)	Nil
Expected volatility (%)	100%
Risk free interest rate (%)	3.78%
Exercise price (\$)	\$0.12
Marketability discount (%)	Nil
Expected life of option (years)	1.33
Share price at grant date (\$)	\$0.095
Value Per option (\$)	\$0.04

27 PARENT ENTITY FINANCIAL INFORMATION

	2012 \$	2011 \$
Current Assets	327,245	114,675
Non-Current assets	2,434,901	1,852,198
Total Assets	2,762,146	1,966,873
Current Liabilities	2,253,405	142,261
Non-current liabilities	16,000	531,652
Total Liabilities	2,269,405	673,913
Net assets	492,741	1,292,960
Issued Capital	33,957,000	33,957,000
Accumulated losses	(35,183,040)	(34,382,821)
Share Based Payment reserve	1,718,781	1,718,781
Total Shareholder's Equity	492,741	1,292,960
Loss for the year	(800,219)	(4,440,540)
Total comprehensive loss for the year	(800,219)	(4,440,540)

The parent entity has deposited \$1,461,400 on term deposit which is pledged as security for a bank guarantee in the name of the parent entity in respect of GEM's environmental performance bond. There were no other guarantees entered into by the parent entity in relation to the debts of its subsidiaries.

There were no contingent liabilities in the parent entity.

There were no contractual commitments by the parent entity for the acquisition of property plant and equipment. The parent entity has entered into a sub-lease agreement for office space. The Commitment under this agreement is \$164,657. Refer note 21 for details.

28 EVENTS AFTER THE REPORTING DATE

There are no events subsequent to 30 September 2012 and up to the date of this report that would materially affect the operations of the consolidated entity or its state of affairs which have not otherwise been disclosed in this financial report.

DIRECTORS' DECLARATION

In accordance with a resolution of the directors of Fe Limited, I state that:

1. In the opinion of the directors:
 - a) the financial statements and notes of Fe Limited for the financial year ended 30 September 2012 are in accordance with the Corporations Act 2001, including:
 - (i) giving a true and fair view of the Consolidated Entity's financial position as at 30 September 2012 and its performance for the year ended on that date; and
 - (ii) complying with Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Regulations 2001;
 - b) the financial statements and notes also comply with International Financial Reporting Standards as disclosed in note 2(b);
 - c) subject to the matters described in note 2(c), there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable;
2. This declaration has been made after receiving the declarations required to be made to the Directors in accordance with section 295A of the Corporations Act 2001 for the financial year ended 30 September 2012.

On behalf of the Board

Independent auditor's report to the members of Fe Limited

Report on the financial report

We have audited the accompanying financial report of Fe Limited, which comprises the consolidated statement of financial position as at 30 September 2012, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' responsibility for the financial report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal controls as the directors determine are necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 2(b), the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with *International Financial Reporting Standards*.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit we have complied with the independence requirements of the *Corporations Act 2001*. We have given to the directors of the company a written Auditor's Independence Declaration, a copy of which is included in the directors' report.

Opinion

In our opinion:

- a. the financial report of Fe Limited is in accordance with the *Corporations Act 2001*, including:
 - i giving a true and fair view of the consolidated entity's financial position as at 30 September 2012 and of its performance for the year ended on that date; and
 - ii complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
- b. the financial report also complies with *International Financial Reporting Standards* as disclosed in Note 2(b).

Report on the remuneration report

We have audited the Remuneration Report included in pages 9 to 11 of the directors' report for the year ended 30 September 2012. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Opinion

In our opinion, the Remuneration Report of Fe Limited for the year ended 30 September 2012, complies with section 300A of the *Corporations Act 2001*.

Material Uncertainty Regarding Continuation as a Going Concern

Without qualifying our opinion, we draw attention to Note 2(c) in the financial report. As a result of these matters, there is material uncertainty whether the consolidated entity will continue as a going concern, and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report. The financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or to the amounts and classification of liabilities that might be necessary should the consolidated entity not continue as a going concern.
