INVESTMENT PROGRAM

1. THE PURPOSE OF THE INVESTMENT PROGRAM

This Investment Program forms part of the MDA Contract and explains how we will act on Your behalf in investing Your Money and how We will manage Your Investment.

The Investment Program also details Significant Risks that Your Investment may be open to and also discloses the Investment strategies that We will apply in dealing with Your Money and Your Investment.

The Investment Program should be read with the Statement of Advice and You will be required to disclose Your relevant financial circumstances and Your relevant goals for the Investment.

2. THE BENEFITS OF AN MDA CONTRACT AND SERVICE

We consider this MDA Contract beneficial to You and Your Investment because:-

- You have the ability to invest in four different investment strategies to suit your needs;
- Managing Your Money can be a full time job and time consuming so Your Investment is managed on Your behalf by Us, saving You time.
- We have access to a wide range of investments and specialist knowledge through an extensive network of financial service relationships.
- The Portfolio remains in Your name and is held separately from other Investors so this means that You can change your instructions and vary Your Investment as You need.
- We are required to report to You on Your Investment, and provide quarterly and yearly reports.
- You can access information concerning Your Investment on-line if You decide to do so.

3. SIGNIFICANT RISKS

- This MDA Contract may not be suitable for You if You have provided to Us limited or inaccurate information relating to Your relevant circumstances.
- This MDA Contract may cease to be suitable if Your relevant circumstances change.

As can be appreciated, Investing involves some risk depending on Your level of investment and the type of investment You choose.

It is possible, that some of your goals may not be met on the basis that an investment runs the risk that its value and income may fluctuate. Your Investment may be affected by factors such as:-

- financial market volatility;
- economic cycles and climate;
- inflation (the real value of Your Investment falls if it performs at a level below the inflation rate);
- political events;
- tax;
- interest rates (generally associated with cash and bonds, if interest rates rise, the value of the investment may fall)
- foreign exchange rates; and
- credit risk (generally associated with cash and bonds, if interest rates rise, the value of the investment may fall).

Your Investment has been developed in accordance with Your goals and in relation to the Statement of Advice we have developed on Your behalf. Your exposure to Significant Risk is therefore dependent upon Your full and frank disclosure concerning Your relevant and financial circumstances.

We will attempt to minimise any significant risks to Your Investment however, such exposure to risk depends largely on Your relevant circumstances. If during the course of Your Investment, Your relevant circumstances change this may have a direct effect on Your exposure to Significant Risk.

- You are required to notify us in writing immediately if Your circumstances change and provide Us with Your instructions should those circumstances change.
- You should know that, as a general rule, the higher the level of return, the higher the level of Significant Risk.

4. INVESTMENT PROGRAM REVIEW

We will report to You on an annual basis on whether the MDA Services provided by Us to You are suitable in light of Your objectives, needs and Relevant Circumstances.

The report to You will be provided after a review has been conducted by Our Authorised Representative or such person authorised by Us from time to time.

In assisting Us to discharge our lawful duty of reporting, You will be required to:-

- Provide us with further information concerning Your Relevant Circumstances and when we require it.
- Disclose to us any change in Your Relevant Circumstances even if we have not required it so that we may assess the suitability of the MDA Contract for You.
- Provide us with Your written instructions where You wish to change Your Investment or how we are to invest on Your behalf.

5. CHOICE OF INVESTMENT STRATEGIES

Investment Objectives

The strategy chosen for Your Money is designed to achieve Your long term investment objectives as disclosed in the Statement of Advice. The objective of any investment is to maximise wealth, within acceptable parameters of risk and diversity. Our minimum objective for all Investors is to achieve an average annual growth in the investment value which will exceed the increase in the Consumer Price Index for the investment period. The statement of this objective is required by law, and is indicative only. It is not intended to be a prediction of a return, as the return achieved will be affected by Your selection of investment strategy. We will not accept any liability for failure to meet this objective.

Investment Strategies

We provide four basic Investment Strategies which can be used for the investment of Your Money. Subject to Your Relevant Circumstances, advice from the Authorised Representative and Your exposure to Significant Risk, You can choose one of the four models, which best suits Your needs. You are able to change your selection at any time. Alternatively you may wish to tailor a strategy to Your needs.

If you are currently in the process of implementing or significantly changing Your investment strategy, which may involve the gradual investment of Your Money over a short period of time (normally less than four months), you will be required to select both a short term and long term investment strategy which best meets Your circumstances.

What are the Risk Profiles of the Strategies?

STRATEGY 1 – CONSERVATIVE

This strategy will suit the more conservative type of Investor. It is generally appropriate where high liquidity is required or where the fund will have a short life span. There will be little or no capital appreciation.

Its main thrust is to achieve steady growth by accumulating and re-investing interest income.

STRATEGY 2 – BALANCED

This strategy is designed to produce an acceptable level of income accumulation together with medium capital growth over the longer term. This strategy should also provide sufficient liquidity to meet most needs.

STRATEGY 3 – GROWTH

This medium risk strategy is designed to achieve strong capital growth over the long term. There is still provision for some liquidity, together with an income accumulation capability.

STRATEGY 4 – AGGRESSIVE

This strategy is focused on capital growth over the medium to long term. Over the short-term considerable volatility of capital value may be experienced. The strategy has a greater focus on equity and/or property securities (listed and unlisted) and as such investors should be aware of the material risks involved.

6. APPROPRIATENESS OF MDA CONTRACT

Having considered Your:-

1. Relevant financial circumstances disclosed in the Statement of Advice;
2. Your objectives for the level of return for Your Investment as disclosed in the Statement of Advice; and
3. Desire to expose yourself to a level of risk which is consistent with Your risk profile as stated in the Statement of Advice.

We recommend You to adopt investment strategy number 2 referred to above. We consider that the MDA Contract is appropriate in view of Our understanding of Your stated needs, objectives and risk profile as defined in the Statement of Advice. If You do not agree with the selected strategy or wish to adopt a different strategy at any time, You should notify us in writing.

You should now read and familiarise yourself with the Statement of Advice as that provides an in-depth analysis of our recommended financial strategy we have developed based upon Your Relevant Circumstances, needs, objectives and risk profile.
